Assessment Requirements for AHCAGB610 Manage the production system

Release: 1

Assessment Requirements for AHCAGB610 Manage the production system

Modification History

| Release | Comments |
|-----------|--|
| Release 1 | This version released with AHC Agriculture, Horticulture, Conservation and Land Management Training Package Version 4.0. |

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit. There must be evidence that the individual has integrated production plans for one organisation or enterprise, including:

- aligned relevant production systems with the enterprise strategic plan
- adjusted production systems to meet the overarching sustainability requirements of the enterprise
- adopted a systemised approach to the incorporation of production systems into the business plan
- managed change and implemented innovations and improvements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- marketplace in which the organisation operates
- property planning, financial management and enterprise budgeting systems and procedures
- legislation, regulations and codes of practice that impact on the management of the enterprise
- methods of measuring and implementing business and environmental sustainability
- financial analysis tools and techniques for land based businesses
- strategies to analyse information and data to inform decisions
- decision making processes
- sources of information to assist in analysis of operational plans, resourcing and financial analysis
- monitoring strategies for a range of operational plans
- value and methods of risk assessment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - access to production plans for a land based production site
- specifications:
 - legislation, regulations and codes of practice for land based production.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
