**Release: 1**

# Assessment Requirements for AHCMOM209 Conduct dozer operations

## Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

## Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify hazards and implement safe work procedures
- carry out day to day servicing and minor maintenance
- operate a dozer safely
- operate the dozer's features and attachments consistent with operator manual and site requirements
- minimise environmental impact of dozers operations
- follow enterprise work health and safety policies

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- dozer and site safety requirements
- dozer characteristics, technical capabilities and limitations
- dozer operational and maintenance procedures
- relevant State /Territory legislation in regard to dozer operations

## Assessment Conditions

Competency is to be assessed in the workplace or simulated environment that accurately reflects performance in a real workplace setting. All evidence collected must meet minimum requirements including industry standard timeframes for performance of tasks.

Assessors must satisfy current standards for RTOs.
