**Release: 1**

# Assessment Requirements for AHCPGD404 Plan a plant establishment program

## Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

## Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has planned a plant establishment program on at least one occasion and has:

- consulted with clients
- researched plant species and cultivars and local by-laws and restrictions
- complied with local by-laws and restrictions
- applied relevant workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures
- developed a plant establishment program concept plan
- calculated the cost and spatial and logistical requirements of components of the plant establishment program
- documented plant establishment program, site plan, work procedures, schedules, and specifications.

## Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of plant establishment program planning, including:
  - identification and establishment techniques of specific plant species and cultivars
  - the advantages and disadvantages of a range of plant establishment procedures
  - maintenance requirements and practices for specific plant species and cultivars, prior to and after initial establishment
  - processes and techniques for preparing, costing and documenting plans for and scheduling plant establishment activities
  - processes and techniques for scheduling plant establishment activities
- local by-laws and restrictions relevant to planning a plant establishment program

- workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures relevant to planning a plant establishment program.

## Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
  - a workplace setting or an environment that accurately represent workplace conditions
- resources, equipment and materials:
  - industry publications, internet and in house sources of information relevant to planning a plant establishment program
- specifications:
  - workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures relevant to planning a plant establishment program
  - local by-laws and restrictions relevant to planning a plant establishment program
- relationships:
  - clients
- timeframes:
  - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
