

AURSCA001 Select and supply automotive parts and products

Release: 1

AURSCA001 Select and supply automotive parts and products

Modification History

Release	Comment
Release 1	New unit of competency.

Application

This unit describes the performance outcomes required to identify, select and supply automotive parts and products to meet customer requirements. It involves matching a diverse range of automotive components, parts and products to a customer's vehicle or equipment by cross-referencing manufacturer, model and other identifiable numbers using manual, computer-generated and online catalogue systems.

It applies to those working in the automotive sales and service industry.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Competency Field

Sales and Parts, Administration and Management

Unit Sector

Sales and Marketing

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold and italicised text is used, further information is detailed in the range of conditions section.
