Assessment Requirements for AURVTG009 Remove and install vehicle fixed body glass

Release: 1

Assessment Requirements for AURVTG009 Remove and install vehicle fixed body glass

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- remove and install:
 - one direct glazed fixed body glass
 - one rubber glazed fixed body glass.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to removing and installing vehicle fixed body glass, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using tools and lifting equipment
 - using safety data sheets (SDS) for adhesives and sealants
 - material handling and storage
- environmental requirements, including procedures for trapping, storing and disposing of waste materials and chemicals
- location and content of technical information, including manufacturer or supplier specifications and specific workplace fitting instructions
- fixed body glass removal and installation methods and techniques, including:
 - type and use of fixed body glass tools and equipment
 - glass and material handling techniques
 - adhesive and sealant types
 - bonding and sealing methods
- procedures for protecting vehicle and components during removal and installation work

- procedures for final inspection of fitted fixed body glass.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of task.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the fixed body glass they have removed and installed, e.g. repair orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive glazing workplace, off-site workplace location or simulated workplace
- workplace instructions
- PPE to remove and install fixed body glass
- SDS for adhesives and sealants
- vehicle manufacturer, fixed body glass supplier, and specific workplace technical specifications
- body glass components as specified in the performance evidence
- vehicles or frames requiring fixed body glass to be fitted
- glass sealants and adhesive
- glass cleaning materials
- tools, equipment and materials appropriate for removing and installing fixed body glass.
