Remove and replace automotive and marine  
interior trim components**

**Release: 1**

# Assessment Requirements for AURVTT003 Remove and replace automotive and marine interior trim components

## Modification History

| Release   | Comment                 |
|-----------|-------------------------|
| Release 1 | New unit of competency. |

## Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- remove, store and replace trim components for three different vehicles or vessels, in which the work must involve:
  - door trims
  - carpets
  - head lining.

## Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to removing and replacing automotive and marine interior trim components, including procedures for:
  - selecting and using personal protective equipment (PPE)
  - using specialist tools and equipment
  - manual handling components
- environmental requirements, including procedures for storing and disposing of waste materials
- original equipment manufacturer (OEM) specifications for removing and replacing automotive or marine interior trim components
- types and uses of specialist tools and equipment needed to remove and replace interior trim components
- trim component removal and replacement techniques and procedures, including procedures for protecting vehicle or vessel and components

- procedures for final inspection of automotive or marine interior trim components.

## Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the vehicles or vessels in which they removed and replaced interior trim, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive or marine trimming workplace or simulated workplace
- workplace instructions
- PPE required to remove and replace vehicle or vessel interior trim components
- OEM specifications and manuals
- three different vehicles or vessels requiring the removal and replacement of interior trim components specified in the performance evidence
- tools, equipment and materials appropriate for removing and replacing automotive and marine interior trim.
