AVIO0007 Control access to and exit from a security sensitive area

Release: 1

AVIO0007 Control access to and exit from a security sensitive area

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Application

This unit involves the skills and knowledge required to control access to and exit from, a security sensitive area, in compliance with relevant regulatory requirements and national operating standards.

It includes: managing persons; inspecting articles; and managing access control systems in a security sensitive area operating environment.

This unit addresses technical skill requirements (physical, mental and task-management abilities) related to security duties of screening officers, and contributes to safe and effective performance in complex transport security operational environments.

Operations are conducted as part of recreational and commercial activities across a variety of operational contexts within the Australian aviation industry and maritime environment.

Screening is performed independently or under limited supervision until accredited as a screener then as a single operator or within a team environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Pre-requisite Unit

Not applicable.
