# **AVIO4003 Implement airside access**

**Release: 1**

# AVIO4003 Implement airside access

## Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

## Application

This unit involves the skills and knowledge required to implement airside access, in compliance with relevant regulatory requirements of the Civil Aviation Safety Authority (CASA) and national operating standards.

It includes implementing airside access procedures and reporting on airside access.

This unit addresses aviation non-technical skill requirements (mental, social and personal-management abilities) related to aviation security duties of aviation personnel, and contributes to safe and effective performance in complex aviation operational environments.

Operations are conducted as part of recreational, commercial and military aircraft activities across a variety of operational contexts within the Australian aviation industry.

Work is performed independently or under limited supervision as a single operator or within a team environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Use for Defence Aviation is to be in accordance with relevant Defence Orders, Instructions, Publications and Regulations.

## Pre-requisite Unit

Not applicable.

## Competency Field

O – Security

## Unit Sector

Not applicable.

## Elements and Performance Criteria

### ELEMENTS

### PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

**1 Implement airside access procedures**

1.1 Eligibility for access is determined in accordance with standard operating procedures

1.2 Access is permitted or denied

1.3 Vehicle or airside escorts are provided as required

1.4 Problems and irregularities that may occur when implementing airside access procedures are dealt with in accordance with workplace procedures

1.5 Appropriate records are maintained

**2 Report on airside access**

2.1 Reported access breaches are addressed in accordance with standard operating procedures

2.2 Recommendations and reports on access incidents are made to aerodrome management in accordance with standard operating procedures

## Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Problems and irregularities that may occur must include:

- control and loss of keys
- supply of materials

## Unit Mapping Information

This unit replaces and is equivalent to AVIO4003A Implement airside access.
