# Assessment Requirements for CHCEDU002 Plan health promotion and community intervention

## Modification History

Release	Comments
Release 1	<p>This version was released in <i>CHC Community Services Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Minimal changes to the elements and performance criteria</p> <p>New evidence requirements for assessment including volume and frequency requirements</p>

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has:

- developed 2 health promotion and/or community intervention plans by:
  - using social research methods and epidemiological data to analyse health trends
  - interpreting data and identified key preventative health issues and target audiences
  - developing and applying a range of preventative health strategies to plan appropriate health promotion within the community

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. This includes knowledge of:

- current and historical approaches to preventative health care
- various social research methods and how data relating to health issues is collected and potentially used
- primary health care principles
- a range of health promotion resources and strategies useful to the job role
- the range of obstacles to the uptake of delivered health promotion, including:
  - culture/religion
  - age
  - language
- the funding and policy environment in which the health promotion activities are taking place

- community engagement
- information dissemination

## Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. Where simulation is used the following conditions must have been met for this unit:

- use of suitable facilities, equipment and resources, including:
  - health promotion resources
  - health data, including epidemiological data
- modelling of industry operating conditions

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
