MSL933006 Contribute to the achievement of quality objectives

Modification History

Release	Comments
Release 1	<p>This version was released in <i>MSL Laboratory Operations Training Package Release 2.0</i>.</p> <p>Supersedes and equivalent to MSL933002 Contribute to the achievement of quality objectives. Changes to performance criteria. Foundation skill information added. Range of conditions removed. Assessment requirements amended.</p>

Application

This unit of competency describes the skills and knowledge to apply quality principles to laboratory/field work to achieve quality outcomes.

This unit of competency applies to samplers/testers, production operators and laboratory/field assistants working in all industry sectors. These personnel have roles and responsibilities within the workplace's quality system which are set out in quality manuals and workplace procedures.

No licensing or certification requirements exist at the time of publication. However, regulations and/or external accreditation requirements for laboratory operations exist, so local requirements should be checked. Relevant legislation, industry standards and codes of practice within Australia must also be applied.

Pre-requisite Unit
