Release 2. This is the two release of this qualification in the TLI Transport and Logistics Training Package.

ISC Upgrade - Unit added to General elective units.

Release 1. This is the first release of this qualification in the TLI Transport and Logistics Training Package.

Qualification Description

This is a general qualification for the integrated management of logistics.

Achievement of this qualification will require the self-directed application of knowledge and skills, with substantial depth in some areas where judgement is required in planning and selecting appropriate equipment, services and techniques for self and others.

Applications involve participation in the development of strategic initiatives as well as personal responsibility and autonomy in performing complex technical operations or organising others. It may include participation in teams, including those concerned with planning and evaluation functions. Group or team coordination may be involved.

Successful achievement of the licensing units within the qualification must align with applicable licensing and regulatory requirements.

Job roles

Job roles and titles vary across different sectors. Possible job titles relevant to this qualification include:

- Logistics Manager.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.
