Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- establish the cultural value and significance of the place
- prepare or source checklists for inspection
- inspect the place to establish a schedule of maintenance and monitor site management
- prepare reports to enterprise standards
- submit report and recommendations based on requirements of contract including a review of existing management systems
- monitor surroundings to establish restoration, reclamation, modification and protection required in the immediate area
- conduct safety hazard analysis and risk assessments according to organisational policies and procedures
- monitor stakeholder views for impact on cultural significance, approach to maintenance, restoration and modification, and current and proposed uses of the place or area
- apply work health and safety practices in the context of own work

Knowledge Evidence

The candidate must demonstrate knowledge of:

- relevant aspects of Australian Heritage Commission legislation and requirements, State or Territory Heritage requirements and World Heritage requirements
- relevant environmental standards and best practice guidelines
- application of national and International Charters of the International Council on Monuments and Sites (ICOMOS), including the Burra Charter to monitoring of cultural places
- environmental legislation and codes of practice
- processes of environmental and artefact deterioration and damage

- maintenance, restoration and modifications that could be applied to place or area
- threats to place or area, including visitor impacts

Assessment Conditions

Assessment must comply with Community protocols and guidelines and be supported by Elders and Custodians of Country.

Assessors must satisfy current standards for RTOs.
