FNS10120 Certificate I in Basic Financial Literacy

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Qualification Description

This qualification is designed to facilitate an understanding of the Australian financial services marketplace and personal financial situations to address the need of increased nationwide financial literacy. The qualification provides learners with the basic skills and knowledge to pursue further learning in a variety of sectors in the financial services industry. It has wide application and may be used in workplaces, schools, adult and community learning organisations or registered training organisations to build the financial literacy of learners. It may also be used as part of pre-vocational or new apprenticeship programs, or as part of services provided by counselling or advisory organisations. It does not have an industry employment outcome.

Licensing, legislative, regulatory or certification considerations

No licensing, legislative or certification requirements apply to this unit at the time of publication.

FNS40217 Certificate IV in Accounting and Bookkeeping

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 3.0.

Qualification Description

This qualification reflects the job roles of workers in the accounting industry, including BAS Agents and contract bookkeepers; and of those employees performing bookkeeping tasks for organisations in a range of industries. It includes preparing and lodging business and instalment activity statements, and providing advice or dealing with the Commissioner on behalf of a taxpayer in relation to activity statements. Individuals in these roles apply theoretical and specialist knowledge and skills to work autonomously, and exercise judgement in completing routine and non-routine activities.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Financial Services Training Package Companion Volume Implementation Guide or the relevant regulator for specific guidance on requirements.

Persons providing a business activity statement (BAS) service for a fee or other reward must be registered by the Tax Practitioners Board (TPB) and this qualification is currently cited as meeting the TPB education requirements for registration. Other conditions apply, including a designated period of experience. Persons seeking BAS agent registration should check current registration requirements with the TPB, as registration requirements are reviewed regularly.

Entry Requirements

Nil.

Packaging Rules

Total number of units of competency = 13

8 core units plus 5 elective units

The elective units must be relevant to the work environment and the qualification, maintain the integrity of the AQF alignment, and contribute to a valid industry-supported vocational outcome, and are to be chosen as follows:

- all 5 units may be chosen from the elective units listed below
- up to 2 units may be from a Certificate III, Certificate IV or Diploma in any currently endorsed training package or accredited course, provided they do not duplicate the outcome of another unit chosen for the qualification.

Core Units

BSBFIA401 Prepare financial reports

BSBSMB412 Introduce cloud computing into business operations

FNSACC311 Process financial transactions and extract interim reports

FNSACC312 Administer subsidiary accounts and ledgers

FNSACC408 Work effectively in the accounting and bookkeeping industry

FNSACC416 Set up and operate a computerised accounting system

FNSTPB401 Complete business activity and instalment activity statements¹

FNSTPB402 Establish and maintain payroll systems¹

Elective Units

BSBCUS301 Deliver and monitor a service to customers

BSBCUS403 Implement customer service standards

BSBITU306 Design and produce business documents

BSBITU402 Develop and use complex spreadsheets

BSBSMB401 Establish legal and risk management requirements of small business

BSBSMB402 Plan small business finances

BSBSMB405 Monitor and manage small business operations

BSBWOR501 Manage personal work priorities and professional development

BSBWRT301 Write simple documents

FNSACC313 Perform financial calculations

FNSACC405 Maintain inventory records

FNSACC407 Produce job costing information

FNSACC411 Process business tax requirements

FNSACC412 Prepare operational budgets

FNSACC413 Make decisions in a legal context

FNSACC414 Prepare financial statements for non-reporting entities

FNSACM401 Evaluate and authorise payment requests

FNSORG505 Prepare financial reports to meet statutory requirements

FNSORG506 Prepare financial forecasts and projections

FNSPAY501 Process salary packaging arrangements and additional allowances in payroll

FNSPAY502 Process superannuation payments in payroll

FNSPAY503 Process complex employee terminations in payroll

FNSPAY504 Interpret and apply knowledge of industrial regulations relevant to payroll

FNSPAY505 Interpret and apply knowledge of taxation systems relevant to payroll

¹ Unit required for the FNSSS00004 BAS Agent Registration Skill Set.

FNS50417 Diploma of Payroll Services

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 3.1. Update to Qualification Description to include TPB registration information.
Release 1	This version first released with FNS Financial Services Training Package Version 3.0.

Qualification Description

This qualification reflects the job roles of workers who perform payroll administration and payroll management tasks in a variety of industries. It includes establishing payroll systems and using them to perform sometimes complex tasks, including preparing salary packaging arrangements and additional allowances, processing superannuation payments, and processing employee terminations. Individuals in these roles apply solutions to a range of often complex problems, and analyse and evaluate information from a variety of sources, including relevant legislation and taxation systems. They apply initiative to plan, coordinate and evaluate their own work and provide guidance to others within defined guidelines.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Financial Services Training Package Companion Volume Implementation Guide or the relevant regulator for specific guidance on requirements.

Persons providing a business activity statement (BAS) service for a fee or other reward must be registered by the Tax Practitioners Board (TPB) and this qualification is currently cited as meeting the TPB education requirements for registration as a BAS agent. Other requirements apply, including a designated period of experience. If registration is granted, the TPB may also impose a condition on registration. Persons seeking BAS agent registration should check current registration requirements with the TPB, as registration requirements are reviewed regularly.

Entry Requirements

Nil.

Packaging Rules

Total number of units of competency = 11

8 core units plus

FNS52015 Diploma of Personal Trusts

Modification History

Release	Comments
Release 3	<p>This version released with FNS Financial Services Training Package version 6.2.</p> <p>The following elective unit of competency has been reinstated as directed by the AISC:</p> <ul style="list-style-type: none"> FNSPRT503 Assess, allocate and supervise work within the personal trustee sector.
Release 2	<p>This version first released with FNS Financial Services Training Package Version 3.0.</p> <p>Upates to elective unit list</p>
Release 1	<p>This version first released with FNS Financial Services Training Package Version 2.0.</p>

Qualification Description

This qualification reflects the job role of individuals working in organisations offering personal trustee services. At this level individuals are expected to apply theoretical and specialised skills in a range of situations and to display initiative and judgement in completing activities. They have autonomy in performing complex technical work and can be responsible for planning, coordinating and evaluating the work of others within broad but generally well defined parameters.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

Nil.

Packaging Rules

Total number of units = 13

5 core units plus

8 elective units

The elective units must consist of:

- 4 from Group A electives below
- 2 from Group B electives below

Of the remaining 2 units:

- up to 2 may be from the electives
- up to 2 may be from Certificate IV or above in any currently endorsed training package or accredited course.

The elective units chosen must be relevant to the work outcome and meet local industry needs.

Core Units

FNSINC401 Apply principles of professional practice to work in the financial services industry

FNSPRT504 Apply knowledge of the regulatory environment relevant to trustee organisations

FNSPRT505 Develop and maintain knowledge of financial services and assets

FNSPRT506 Develop understanding of traditional trustee services

FNS60217 Advanced Diploma of Accounting

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 3.1. Minor updates to elective unit list
Release 1	This version first released with FNS Financial Services Training Package Version 3.0.

Qualification Description

This qualification reflects the role of individuals working in accounting and seeking professional recognition, including tax agents, accounts managers and business analysts; and to employees performing a range of accounts management tasks for organisations in a range of industries. At this level individuals are expected to apply theoretical and technical skills in a range of situations and to display initiative and judgement in planning activities. They have autonomy in performing complex operations and can be responsible for planning, coordinating and evaluating the work of others within broad but generally well-defined parameters.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Financial Services Training Package Companion Volume Implementation Guide or the relevant regulator for specific guidance on requirements.

This qualification includes units that comprise an approved Tax Practitioner Board (TPB) course in Australian taxation law and commercial law, which are relevant for registration as a tax agent. Persons seeking registration with the TPB should check current registration requirements with the TPB, as registration requirements are reviewed regularly.

Entry Requirements

Completion of both FNSSS00014 Accounting Principles Skill Set and FNSSS00015 Advanced Accounting Principles Skill Set;

OR

Completion of FNS50215 Diploma of Accounting;

OR

Completion of FNS50217 Diploma of Accounting.

Packaging Rules

Total number of units = 14

3 core units plus

11 elective units

The elective units must be relevant to the work environment and the qualification, maintain the integrity of the AQF alignment, and contribute to a valid industry-supported vocational outcome, and are to be chosen as follows:

- all 11 units may be chosen from the elective units listed below
- up to 6 units may be from a Certificate IV, Diploma or Advanced Diploma in any currently endorsed training package or accredited course, provided they do not duplicate the outcome of another unit chosen for the qualification.

Core Units

FNSACC624 Monitor corporate governance activities

FNSINC601 Apply economic principles to work in the financial services industry

FNSINC602 Interpret and use financial statistics and tools

Elective Units

FNSACC601 Prepare and administer tax documentation for legal entities*¹

FNSACC602 Audit and report on financial systems and records*

FNSACC603 Implement tax plans and evaluate tax obligations*¹

FNSACC605 Implement organisational improvement programs

FNSACC606 Conduct internal audit*

FNSACC608 Evaluate organisation's financial performance*

FNSACC609 Evaluate financial risk*

FNSACC610 Develop and implement financial strategies*

FNSACC611 Implement an insolvency program

FNSACC612 Implement reconstruction plan

FNSACC613 Prepare and analyse management accounting information*

FNSACC614 Prepare complex corporate financial reports*

FNS80020 Graduate Certificate in Anti-Money Laundering and Counter Terrorism Financing

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Qualification Description

This qualification reflects the role of individuals who apply knowledge and skills in a compliance and management role which may include aspects of anti-money laundering and counter terrorism financing.

Individuals at this level make autonomous decisions and use initiative and judgement to assess and design a range of anti-money laundering and counter terrorism financing functions in varied contexts.

They have full responsibility and accountability for personal outputs and for the work or function of others.

They use cognitive and creative skills to review, critically analyse, consolidate and synthesise knowledge, in order to generate ideas and provide solutions to complex problems. They use communication skills to demonstrate their understanding of theoretical concepts and to transfer knowledge and ideas to others.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

Entry to this qualification is limited to those individuals who:

- have completed a Diploma or Advanced Diploma qualification in related fields of study
- OR
- have completed a Bachelor degree in related fields of study

OR

- have three years equivalent full-time relevant workplace experience at a banking or financial institution with exposure to transaction processes, controls, and/or client onboarding.

Packaging Rules

Total number of units = 3

3 core units

This qualification has no elective units

Core Units

FNSAML812 Design and assess controls to monitor money-laundering and terrorism financing risk

FNSAML815 Manage assessment of organisational vulnerability to money laundering and terrorism financing

FNSINC811 Lead compliance with financial services legislation and industry codes of practice

Qualification Mapping Information

No equivalent qualification.

FNSSS00018 Life Insurance Fundamentals Skill Set

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Newly created skill set to provide entry-level life insurance workers with the skills required to work effectively and according to professional and ethical practices in the industry.</p>

Description

This skill set addresses the skills and knowledge required to work effectively in the life insurance context in line with professional and ethical practices. It applies to entry-level life insurance consultants who work in a range of roles.

Pathways Information

The units provide credit towards FNS41521 Certificate IV in Life Insurance and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

Work functions in the occupational areas where this skill set is used may be subject to regulatory requirements. Relevant regulatory authorities should be consulted to confirm those requirements before applying the skill set.

Skill Set Requirements

FNSILF409 Work effectively and sustainably in the life insurance industry

FNSILF413 Develop and maintain in-depth knowledge of life insurance products and services

FNSINC411 Conduct work according to professional practices in the financial services industry

FNSINC413X Apply codes and standards of ethical practice to own role

Target Group

This skill set is for individuals entering the life insurance industry.

Suggested words for Statement of Attainment

These units of competency from the FNS Financial Services Training Package meet industry requirements for working in entry level job roles in life insurance contexts.

FNSSS00019 Life Insurance Claims Handling Skill Set

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Newly created skill set to address the life insurance industry's need for training in the specialised practice area of claims handling.</p>

Description

This skill set addresses the skills and knowledge required to handle the receipt, processing, and ongoing management of claims in a life insurance context.

Pathways Information

The units provide credit towards FNS41521 Certificate IV in Life Insurance, FNS51820 Diploma of Financial Services and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

Work functions in the occupational areas where this skill set is used may be subject to regulatory requirements. Relevant regulatory authorities should be consulted to confirm those requirements before applying the skill set.

Skill Set Requirements

- FNSILF415 Evaluate life insurance claims
- FNSILF416 Manage information for claims assessments
- FNSILF417 Settle life insurance claims
- FNSILF514 Manage complex life insurance claims
- FNSISV418 Manage insurance claims portfolios

Target Group

This skill set is for individuals working in life insurance contexts who wish to specialise in life insurance claims handling.

Suggested words for Statement of Attainment

These units of competency from the FNS Financial Services Training Package meet industry requirements for claims handlers in life insurance contexts.

FNSACM311 Process and manage payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to process and allocate payments, including maintaining customer and payment details, addressing routine questions and issues about payments and actioning required adjustments.

The unit applies to those who may work as part of the finance or accounting team in organisations, or in customer facing roles.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Account management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare customer payments	1.1 Determine customer requirements 1.2 Confirm information required to allocate payments with customer 1.3 Allocate bank receipts and customer payments to customer account according to organisational policies and procedures 1.4 Investigate where payment details provided do not match expected payments and rectify where required 1.5 Issue payment receipts according to organisational policies and procedures
2. Address routine enquiries and issues	2.1 Respond to customer payment, billing and account queries according to organisational policies and procedures 2.2 Investigate concerns about incorrect payment allocation

ELEMENT	PERFORMANCE CRITERIA
	2.3 Update customer details as advised according to organisational policies and procedures
3. Action required adjustments	3.1 Apply discounts or late payment fees according to organisational policies and procedures, as required 3.2 Apply approved account, invoice or billing adjustments according to organisational policies and procedures as required 3.3 Escalate complex matters and customer complaints as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Accesses and checks numerical information embedded in a range of texts
Oral communication	<ul style="list-style-type: none"> Uses listening and questioning techniques to confirm understanding of requirements Uses clear, specific and culturally sensitive language to convey information Follows accepted communication practices and protocols, adjusting personal communication style in response to the values, beliefs and cultural expectations of different customers
Reading	<ul style="list-style-type: none"> Interprets and analyses textual information
Writing	<ul style="list-style-type: none"> Updates details in computer systems
Planning and organising	<ul style="list-style-type: none"> Plans, organises and implements tasks according to organisational requirements
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSACM301 Administer financial accounts.

Assessment Requirements for FNSACM311 Process and manage payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- process and manage at least six different payments to the correct accounts, and action at least one instance where the payment cannot be immediately allocated due to incorrect information provided.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures for:
 - processing and allocating payments received
 - managing routine customer queries
 - updating and maintaining financial and personal data
 - processing financial transactions
 - approving and processing account, invoice or billing adjustments
- escalating complex queries and customer complaints
- financial and computer system processes for accepting payments and looking up payment history and allocations.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSACM312 Reconcile financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to reconcile financial transactions from bank accounts to the correct customer and ledger accounts and investigate difficulties.

The unit applies to those who may be required to work as part of a finance or accounting team.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Account management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Reconcile financial transactions to accounting system records and invoices	1.1 Obtain receipts data for required period 1.2 Match financial transactions where data shows match 1.3 Update accounting records for financial transactions not in the accounting system 1.4 Process over and underpayments received according to organisational policies and procedures
2. Action unmatched transactions	2.1 Identify unmatched receipts and payments and investigate according to organisational policies and procedures 2.2 Check possible receipt matches and confirm correct allocation 2.3 Record and allocate payments made to suppliers to correct expense account according to organisational policies and procedures

ELEMENT	PERFORMANCE CRITERIA
	2.4 Follow up payments made to suppliers but not yet showing on banking data according to organisational policies and procedures 2.5 Identify irreconcilable financial transitions and action according to organisational policies and procedures 2.6 Identify data and allocation discrepancies and follow up with customers, suppliers, the bank and internal staff as required according to organisational policies and procedures
3. Complete reconciliation process	3.1 Finalise reconciliation within required timeframes and according to organisational policies and procedures 3.2 Report unresolved reconciliation issues according to organisational policies and procedures 3.3 Prepare, update and file documentation according to organisational policies and procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> • Uses a calculator or other systems to perform mathematical calculations and reconcile numerical and financial data • Inputs accurate numerical data
Oral communication	<ul style="list-style-type: none"> • Uses clear, specific and culturally sensitive language to convey information • Uses listening and questioning techniques to confirm understanding of requirements • Follows accepted organisational practices and protocols for communicating information or seeking advice
Reading	<ul style="list-style-type: none"> • Identifies discrepancies in financial information
Planning and organising	<ul style="list-style-type: none"> • Plans, organises and implements tasks according to organisational requirements
Problem solving	<ul style="list-style-type: none"> • Follows structured processes to make routine decisions relevant to own role
Technology	<ul style="list-style-type: none"> • Uses the main features and functions of digital tools to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSACM302 Prepare, match and process receipts.

Assessment Requirements for FNSACM312 Reconcile financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- perform bank reconciliations on at least three different occasions with each occasion involving at least 10 financial transactions and at least four transaction types.

In the course of the above, the candidate must:

- identify at least two discrepancies and liaise with required personnel to resolve outstanding issues.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures for bank reconciliation and accounts
- accounts system procedures and operational steps for reconciliation using computerised systems
- accounting information, including:
 - GST calculation and application
 - invoices and tax invoices
 - source records maintenance requirements
- procedures for resolving common discrepancies between bank financial transactions and accounting system records, including:
 - overpayments
 - underpayments
 - missing invoice or purchase order details
 - bank data or import issues
 - incorrectly allocated payments

- investigative approaches used to identify and action unreconciled items
- types of financial transactions.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- bank records of financial transactions to be reconciled
- accounts system or computerised accounts system for bank reconciliation
- organisational policies and procedures
- integrated financial software system and data.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSACM313 Process authorised payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to process business financial payments such as paying suppliers, and to initiate non-cash payment services and facilities on the behalf of customers.

The unit applies to those who may work under supervision but have responsibility for ensuring the prompt and accurate processing of business expense payments, or initiating non-cash payment facilities on behalf of customers

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Account management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Verify payment facility requirements	1.1 Confirm payment has been correctly authorised 1.2 Obtain and update data required to facilitate payment 1.3 Identify and adhere to payment system security requirements
2. Create payment facility	2.1 Process payment facility according to organisational policies and procedures 2.2 Create payment records and provide payment receipts as required according to organisational policies and procedures
3. Address routine enquiries and issues about payments	3.1 Respond to queries about payments made according to organisational policies and procedures

ELEMENT	PERFORMANCE CRITERIA
made	3.2 Investigate concerns about incorrect payments 3.3 Update payment details as advised according to organisational policies and procedures
4. Complete documentation process	4.1 Update and maintain documentation and authorisations required according to organisational policies and procedures and legislative obligations 4.2 Provide copies of payment facility documentation to others as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> • Uses calculators or tools to perform mathematical calculations and checks accuracy of data
Oral communication	<ul style="list-style-type: none"> • Uses appropriate vocabulary to provide or gather information • Uses questioning and active listening to confirm requirements
Reading	<ul style="list-style-type: none"> • Interprets and analyses information from a range of sources to confirm accuracy and determine required actions
Planning and organising	<ul style="list-style-type: none"> • Plans, organises and implements tasks according to organisational requirements
Problem solving	<ul style="list-style-type: none"> • Follows structured processes to make routine decisions relevant to own role
Technology	<ul style="list-style-type: none"> • Uses the main features and functions of digital tools to complete work tasks

FNSACM411 Authorise valid expense payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to verify the validity and accuracy of payment requests, prepare payment documentation, authorise payments, liaise with suppliers and investigate issues.

The unit applies to those who may work under limited supervision and hold responsibility for ensuring that controls are adhered to when processing financial transactions.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Account management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Verify validity and accuracy of payment request	1.1 Match payment requests with required supporting information according to purchasing and accounts procedures 1.2 Check supporting documentation for completeness and accuracy 1.3 Confirm authorisation of request and follow up and rectify discrepancies as required 1.4 Obtain confirmation of goods and services supply as required and validate request for payment 1.5 Identify and report financial risk situations as required
2. Prepare payment	2.1 Authorise payments and approval information according to organisational policies and procedures and commercial terms 2.2 Escalate approvals in excess of personal delegated authority

ELEMENT	PERFORMANCE CRITERIA
	according to organisational policy and procedures
3. Action required adjustments to payments	3.1 Verify GST treatment of payment according to organisational policy and procedures 3.2 Request and process required credit notes and adjustment notes 3.3 Apply billing adjustments to the payment as required according to organisational policies and procedures 3.4 Liaise with suppliers to resolve billing issues as required
4. Make payment and complete documentation	4.1 Make payment using required payment system according to organisational policies and procedures 4.2 Update and maintain documentation and authorisations required according to organisational policies and procedures and legislative obligations 4.3 Update and maintain records of payment according to organisational policies and procedures and legislative obligations

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> • Uses calculators to perform mathematical calculations and reconciles numerical and financial data
Oral communication	<ul style="list-style-type: none"> • Uses active listening, questioning and summarising skills to identify and confirm requirements • Negotiates with suppliers
Reading	<ul style="list-style-type: none"> • Interprets and analyses information from a range of sources and confirms accuracy
Writing	<ul style="list-style-type: none"> • Uses clear and specialised language to document requirements and outcomes
Planning and organising	<ul style="list-style-type: none"> • Plans, organises and implements tasks according to organisational requirements • Follows structured processes to determine payment status and handle discrepancies
Technology	<ul style="list-style-type: none"> • Uses the main features and functions of digital tools to complete work tasks

Unit Mapping Information

FNSAML811 Design anti-money laundering and counter terrorism financing programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to design and develop an organisation's anti-money laundering and counter terrorism financing (AML/CTF) program to meet organisational goals and regulatory requirements. It covers the research and analysis of requirements and the design and development of new, redesigned or reconfigured AML/CTF programs.

The unit applies to individuals who use specialised AML/CTF knowledge and skills to evaluate complex information and compliance requirements. Individuals typically lead and review organisation wide activities, exercise significant autonomy, responsibility and accountability and contribute to the strategic goals and operations of the organisation. They review, critically analyse, consolidate and synthesise knowledge to generate ideas and provide solutions to complex problems.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Anti-money laundering and counter terrorism financing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Research and analyse requirements for AML/CTF program development	1.1 Analyse regulatory requirements that determine AML/CTF policy and practice including specific requirements of the Australian Privacy Principles 1.2 Evaluate AML/CTF implications for products and services offered by organisation

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Analyse and assess organisation’s AML/CTF program requirements and goals, considering organisation’s nature, scale and complexity of business</p> <p>1.4 Research and assess other guidance including industry codes and standards, sector counterparts and international regulators</p> <p>1.5 Collate and analyse organisational data and trends relating to AML/CTF activity and controls</p> <p>1.6 Synthesise outcomes of research and analysis and brief personnel on implications of findings for organisation’s AML/CTF program</p>
<p>2. Design an AML/CTF program for an organisation</p>	<p>2.1 Review outcomes of research and design a program for a new, redesigned or reconfigured AML/CTF program in consultation with key personnel</p> <p>2.2 Document proposal for new, redesigned or reconfigured AML/CTF program that includes consideration of resource allocations, assessment of risk and prioritised actions and timeframes</p> <p>2.3 Present proposal for new, redesigned or reconfigured AML/CTF program, advocate benefits and secure approval from senior management and/or Board</p>
<p>3. Develop the AML/CTF program</p>	<p>3.1 Oversee preparation of draft policies and procedures and specifications for changes to system requirements</p> <p>3.2 Consult with stakeholders to seek input and feedback on new, redesigned or reconfigured AML/CTF program to ensure agreement and ownership</p> <p>3.3 Lead evaluation of feedback on draft policies and procedures and system requirements, and authorise changes</p> <p>3.4 Designate responsibility and accountability in job roles and/or organisational sections for ensuring compliance with aspects of AML/CTF program</p> <p>3.5 Develop AML/CTF program goals and performance criteria</p> <p>3.6 Secure approval from senior management or Board for new, redesigned or reconfigured AML/CTF program</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> • Sources and critically analyses documentation from a variety of sources and records and consolidates information to determine

Skill	Description
	requirements
Writing	<ul style="list-style-type: none"> • Uses a range of formats and structures to report and present information logically for different audiences • Develops material for a specific audience using clear and detailed language to convey information and recommendations
Oral communication	<ul style="list-style-type: none"> • Participates in verbal exchanges using active listening and questioning techniques to convey information and elicit the views and opinions of key stakeholders • Clearly explains detailed information using concepts, language, tone and pace appropriate to the particular audience
Numeracy	<ul style="list-style-type: none"> • Interprets, analyses and presents numeric and financial information
Planning and organising	<ul style="list-style-type: none"> • Designs, develops and implements programs to ensure organisational goals are achieved and performance improved • Monitors and reviews organisational policies, procedures and adherence to regulatory requirements • Develops flexible plans for routine and complex activities with strategic implications that involve a range of personnel
Self-management	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload • Uses a variety of communication tools and strategies in building and maintaining effective working relationships • Plays a lead role in situations requiring effective collaboration and high-level negotiation skills
Problem solving	<ul style="list-style-type: none"> • Systematically gathers and analyses all relevant information, reviews data and evaluates options in order to inform decisions about complex organisational programs • Analyses, assesses and interprets data to identify problems and improve systems
Technology	<ul style="list-style-type: none"> • Uses digital systems and technologies to enter, store or access information

Unit Mapping Information

Supersedes and is equivalent to FNSAML802 Design and assess controls to monitor money laundering and terrorism financing risk.

Links

Assessment Requirements for FNSAML811 Design anti-money laundering and counter terrorism financing programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- design one anti-money laundering and counter terrorism financing program.

In the course of the above, the candidate must:

- present research and analysis findings for requirements for an organisational anti-money laundering and counter terrorism (AML/CTF) program
- oversee development and evaluation of draft policies and procedures
- develop proposal for a new, redesigned or reconfigured AML/CTF program that includes consideration of resource allocations, assessment of risk and prioritised actions and timeframes.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- regulatory requirements that determine AML/CTF policy and practice
- implications of Privacy Act 1988 for AML/CTF policies and procedures
- products and services offered by organisation
- national and international regulatory and industry requirements relating to AML/CTF
- methods for measuring AML/CTF compliance against goals and performance criteria
- organisational policies and procedures, system requirements, goals and performance criteria for AML/CTF programs
- methodologies for data interpretation and analysis
- tools and techniques that support effective stakeholder management.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- regulations, standards and codes required to design AML/CTF programs
- organisational records, systems and policies and procedures required for the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSAML812 Design and assess controls to monitor money laundering and terrorism financing risk

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to design and implement procedural controls to proactively identify money laundering (ML) and terrorism financing (TF) risks for an organisation. It covers developing risk analysis criteria to assess an organisation's risk exposure and then designing, implementing and monitoring controls that are flexible and responsive to changes in ML and TF typologies.

The unit applies to individuals who lead and review organisation wide activities, exercise significant autonomy, responsibility and accountability and contribute to the goals and operations of the organisation. They will typically have responsibility for the establishment and review of significant programs in the organisation. They use cognitive and creative skills to review, critically analyse, consolidate and synthesise knowledge, generate ideas and provide solutions to complex problems.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Anti-money laundering and counter terrorism financing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse requirements and develop risk evaluation criteria	1.1 Analyse all stages of risk assessment process, including identification, assessment, evaluation, mitigation and monitoring, related to organisational requirements 1.2 Analyse relevant industry related typologies including those issued by Australian Transaction Reports and Analysis Centre

ELEMENT	PERFORMANCE CRITERIA
	<p>(AUSTRAC) annually</p> <p>1.3 Evaluate and select risk management tools for organisation</p> <p>1.4 Develop risk criteria to evaluate risk based on organisation's vulnerability to ML and TF</p> <p>1.5 Formulate and document risk management methodologies, including assessing risk appetite and holistic organisational ML and TF risk review processes</p>
<p>2. Assess organisation's current exposure</p>	<p>2.1 Analyse risk exposure in organisation's operations, including products offered, clients, systems, channels of access and geographical sphere</p> <p>2.2 Analyse vulnerability of organisation to ML and TF risks</p> <p>2.3 Evaluate overall level of risk posed to organisation and confirm that level is within stated risk appetite tolerance</p>
<p>3. Design and implement controls</p>	<p>3.1 Evaluate risk mitigation controls already in place and assess if proportionate to nature, size and complexity of organisation</p> <p>3.2 Determine risks with ineffective and insufficient controls</p> <p>3.3 Discuss risk management deficiencies with relevant stakeholders and identify required controls</p> <p>3.4 Allocate responsibility for managing controls to senior managers in organisation</p> <p>3.5 Work with stakeholders to implement controls where required</p>
<p>4. Monitor and maintain effectiveness of controls</p>	<p>4.1 Review organisation's overall risk assessment addressing methodology, and changes in organisation and regulatory landscape</p> <p>4.2 Implement processes to regularly monitor and assess effectiveness of mitigation controls</p> <p>4.3 Analyse deficiencies and work with stakeholders to ensure remediation</p> <p>4.4 Report deficiencies to relevant internal stakeholders, including management, Board, and audit and risk manager</p> <p>4.5 Report significant breaches to relevant authorities, including AUSTRAC</p> <p>4.6 Monitor implementation of improvements and changes to mitigation controls</p> <p>4.7 Research and analyse changes to industry and environment that may increase risk and necessitate changes to controls</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Identifies, critically analyses and evaluates complex documentation from a variety of sources to determine requirements
Writing	<ul style="list-style-type: none"> Uses clear and concise language and appropriate terminology to convey complex information and provide detailed instructions Prepares logically organised documents using appropriate formats for audience and purpose
Oral communication	<ul style="list-style-type: none"> Uses language and features appropriate to context and audience to present, report and discuss complex information
Numeracy	<ul style="list-style-type: none"> Collates, interprets and analyses financial and statistical information to determine and assess requirements
Self-management	<ul style="list-style-type: none"> Works autonomously and in teams, making decisions to achieve and improve organisational goals and operations Selects and uses appropriate communication methods and practices to provide information and recommendations Accepts responsibility for planning and sequencing complex tasks and workload
Problem solving	<ul style="list-style-type: none"> Systematically gathers and analyses relevant information, reviews data and evaluates options in order to inform decisions about complex organisational programs Uses analytical thinking techniques to identify or predict issues and generate possible solutions Analyses, assesses and interprets data to identify problems and improve systems
Technology	<ul style="list-style-type: none"> Uses digital systems and technologies to enter, store or access information

Unit Mapping Information

Supersedes and is equivalent to FNSAML802 Design and assess controls to monitor money laundering and terrorism financing risk.

Links

Assessment Requirements for FNSAML812 Design and assess controls to monitor money laundering and terrorism financing risk

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- design and assess at least one procedural control to monitor money laundering (ML) and terrorism financing (TF) risks in an organisation.

In the course of the above, the candidate must:

- design and implement the control to address the ML/TF risk
- develop and document risk assessment criteria for the organisation
- assess organisation's current exposure to ML/TF risk
- monitor and report on effectiveness of implemented procedural control.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- risk analysis criteria relevant to evaluation of anti-money laundering and counter terrorism financing (AMLCTF) processes
- money laundering and terrorism financing (ML/TF) risk assessment process, including identification, assessment, evaluation, mitigation and monitoring
- ML/TF risk management tools used in organisations and their effectiveness
- organisational processes and procedures for implementing and monitoring ML/TF risk mitigation controls
- regulatory and industry requirements for AML/CTF
- tools and techniques that support effective stakeholder management
- methodologies for data interpretation and analysis
- organisational operations, product knowledge, clientele, systems, channels of access and geographical sphere.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- regulations, standards and codes required to design and assess controls to monitor ML/TF risk
- organisational records, policies and procedures required for the performance evidence
- organisational reporting system for suspicious transactions or case study scenarios.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSAML813 Design and monitor reporting systems for suspicious transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to design, implement and maintain a transaction monitoring and reporting system, which assists organisations to identify, investigate and ultimately report suspicious matters relating to money laundering and terrorism financing (ML/TF).

The unit applies to individuals who lead and review organisation wide activities, exercise significant autonomy, responsibility and accountability and contribute to the goals and operations of the organisation. They typically have responsibility for the establishment and review of significant programs in the organisation. They use cognitive and creative skills to review, critically analyse, consolidate and synthesise knowledge, generate ideas and provide solutions to complex problems. They use communication skills to demonstrate their understanding of theoretical concepts and to transfer knowledge and ideas to others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Anti-money laundering and counter terrorism financing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and analyse global risks and vulnerabilities	1.1 Identify ML/TF risks and vulnerabilities that may potentially impact on organisation including cross border transactions 1.2 Research, analyse and assess types of unusual activity relevant to industry and organisation 1.3 Apply investigation techniques and analytical tools to detect

ELEMENT	PERFORMANCE CRITERIA
	<p>suspicious matters relating to ML/TF</p> <p>1.4 Assess risk profile of different organisational portfolios and determine allocation of resources to monitor transactions</p> <p>1.5 Evaluate approaches for monitoring transactions to identify risks and vulnerabilities</p>
2. Review analytical tools and reporting systems	<p>2.1 Analyse capabilities of organisation's manual and automatic systems and assess appropriateness for different risk scenarios</p> <p>2.2 Evaluate effectiveness of organisation's automated transaction monitoring software in detecting unusual transaction activity</p> <p>2.3 Review training programs to build staff skills in detecting and investigating unusual matters</p> <p>2.4 Review and evaluate organisational processes for triggering and monitoring alerts and creating suspicious matter reports</p> <p>2.5 Analyse overall process and organisational procedures for evidence-based investigations</p> <p>2.6 Evaluate processes and procedures for performing periodic effectiveness monitoring</p>
3. Monitor performance of analytical tools and reporting systems	<p>3.1 Monitor and review alerts based on specific detection rules</p> <p>3.2 Test and evaluate reporting solution relevant to detection rules</p> <p>3.3 Manage provision of information and training to staff about transaction monitoring program</p>
4. Manage investigation of alerts and generation of suspicious matter reports	<p>4.1 Investigate alerts that have been triggered based on detection rules and prioritise those with highest risk score</p> <p>4.2 Analyse alerts to determine if activity requires further investigation</p> <p>4.3 Ensure organisational procedures are followed for initiating an investigative activity or case</p> <p>4.4 Use previously investigated cases to inform current actions</p> <p>4.5 Implement effective feedback loops to ensure continuous improvement and training of staff</p>
5. Analyse and report suspicious transactions	<p>5.1 Analyse trends in data related to alerts, activities investigated, and suspicious matters reported to determine effectiveness of reporting systems</p> <p>5.2 Oversee provision of feedback to relevant staff on decisions regarding reports into suspicious transactions and activities</p> <p>5.3 Prepare internal reports on suspicious transactions and activities according to organisational procedures</p> <p>5.4 Prepare reports on suspicious transactions and activities for regulators, including cross border regulators, following required reporting formats</p> <p>5.5 Manage sensitivities and protocols relating to privacy and confidentiality of information when working with multiple</p>

ELEMENT	PERFORMANCE CRITERIA
	regulators or reporting bodies

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Learning	<ul style="list-style-type: none"> Shares information and knowledge with others in formal and informal training situations Contributes to review and content of training programs to improve organisational practice
Reading	<ul style="list-style-type: none"> Sources and critically analyses data and information from a variety of sources and consolidates according to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Records and reports information using clear language and organisational formats and protocols
Oral communication	<ul style="list-style-type: none"> Clearly explains detailed information using language, tone and pace appropriate to audience
Numeracy	<ul style="list-style-type: none"> Analyses and synthesises mathematical information embedded in tasks and texts Uses mathematical problem-solving techniques to analyse data and values to determine trends and patterns
Self-management	<ul style="list-style-type: none"> Uses a variety of communication tools and strategies in building and maintaining effective working relationships Accepts responsibility for planning and sequencing complex tasks and workload
Initiative and enterprise	<ul style="list-style-type: none"> Uses initiative to identify and analyse data and trends related to financial risk, processes and practices that may have legal implications Takes a lead role in improving organisational processes with a focus on building awareness and engaging others
Problem solving	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes for complex and non-routine situations Analyses, assesses and interprets data to identify problems and improve systems
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, check, report and store information required to complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSAML803 Design and monitor a reporting system for suspicious transactions.

Links

Companion Volume Implementation Guide is found on VETNet -

Assessment Requirements for FNSAML813 Design and monitor reporting systems for suspicious transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- design and monitor one reporting system for suspicious transactions relating to money laundering (ML) and terrorism financing (TF).

In the course of the above, the candidate must:

- document outcomes from review of organisational anti-money laundering and counter terrorism financing (AML/CTF) reporting system in required format as set out by organisation and industry
- monitor AML/CTF reporting system for suspicious transactions
- oversee investigations and reporting of suspicious matters.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- regulatory and industry requirements relating to reporting suspicious ML/TF activities
- Australian Transaction Reports and Analysis Centre (AUSTRAC) reporting requirements
- money laundering and terrorism financing risks and vulnerabilities, including areas of high priority for monitoring and reporting
- investigative techniques and analytical tools to detect suspicious matters relating to ML/TF
- circumstances where manual transaction monitoring is required and those where automated transaction monitoring is best
- behaviours that constitute unusual industry or organisation activity
- key features of automated transaction monitoring systems
- methodologies for data interpretation and analysis

- key features of information and training programs for staff on organisational reporting system
- organisational processes and procedures for:
 - performing periodic effectiveness monitoring
 - reviewing alerts
 - investigating suspicious activities.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- regulations, standards and codes design and monitor reporting system for suspicious transactions
- organisational records, policies and procedures required for the performance evidence
- organisational reporting system for suspicious transactions or case study scenarios.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSAML814 Design customer due diligence policies and procedures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to analyse requirements and design customer due diligence policies and procedures relating to the identification of customers, monitoring of customer behaviour and governance processes and controls for the customer identification process.

The unit applies to individuals who use specialised anti-money laundering and counter terrorism financing (AML/CTF) knowledge and skills to evaluate and apply complex information and compliance requirements and apply to relevant tasks. Individuals typically lead and review organisation wide activities, exercise significant autonomy, responsibility and accountability and contribute to the strategic goals and operations of the organisation. They review, critically analyse, consolidate and synthesise knowledge to generate ideas and provide solutions to complex problems.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Anti-money laundering and counter terrorism financing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Design processes for customer identification	1.1 Design processes to collect identification information and documentation from different categories of clients 1.2 Design processes for determining ultimate beneficial owner of assets or funds where client is a trust or fund or wealth management company

ELEMENT	PERFORMANCE CRITERIA
	<p>1.3 Design a separate process for verifying client information and documentation</p> <p>1.4 Establish procedures for retention and retrieval of information and documentation from clients</p> <p>1.5 Design an assurance or oversight process to ensure all collection, verification, retention and retrieval processes comply with relevant AML/CTF rules and regulations</p> <p>1.6 Design processes for risk rating clients based on evaluating their characteristics, including jurisdiction and nature of business or occupation, with a financial crime specific risk framework</p>
<p>2. Design processes for identifying and monitoring customer behaviour</p>	<p>2.1 Devise a process for determining a customer's source of wealth</p> <p>2.2 Specify a control for identifying source of funding for a transaction, where required</p> <p>2.3 Design a process for analysing products used by a customer and considering how that may impact their risk profile</p> <p>2.4 Establish a procedure investigating the entities and individuals with whom a client is involved and whether this impacts their risk profile</p> <p>2.5 Determine risk indicators that may apply to specific customers who represent an increased risk to organisation</p> <p>2.6 Determine specific monitoring, approval and review controls applicable to different client categories based on risk that they represent for organisation</p>
<p>3. Design governance processes and controls for customer due diligence processes</p>	<p>3.1 Determine assurance governance procedures for client identification and money laundering and terror financing (ML/TF) risk processes</p> <p>3.2 Determine oversight framework for customer due diligence procedure</p> <p>3.3 Design a governance framework for customer due diligence policies and procedures</p> <p>3.4 Design a process for ensuring that client risk assessment is consistent with organisation's risk appetite</p> <p>3.5 Specify processes for ensuring that customer due diligence policies and procedures are updated to reflect changes in regulation and organisational risk appetite</p> <p>3.6 Design and document escalation procedure, including escalation triggers and to whom issues will be escalated</p> <p>3.7 Design and document exemptions policy and procedure</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation and records from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Documents outcomes and changes to policies and procedures using industry relevant information and organisational formats and protocols Compiles logically sequenced texts using appropriate text type and support materials to convey detailed information and clear instructions
Numeracy	<ul style="list-style-type: none"> Uses a range of mathematical problem-solving techniques to analyse trends, benchmarks and control indicators linked to risk in customers and financial data
Self-management	<ul style="list-style-type: none"> Follows policies, procedures and regulatory requirements and identifies organisational implications of new legislation or regulations Plans and sequences complex tasks according to defined requirements and takes responsibility for decisions Develops systems and supporting documentation to achieve required outcomes
Initiative and enterprise	<ul style="list-style-type: none"> Seeks to improve policies and procedures to better meet organisational strategic goals Identifies and resolves key business issues, processes and practices that may breach legal requirements Applies systematic and analytical decision-making processes in complex and non-routine situations
Technology	<ul style="list-style-type: none"> Uses main features and functions of digital technologies to complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSAML804 Design customer due diligence policies and procedures.

Links

Assessment Requirements for FNSAML814 Design customer due diligence policies and procedures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- design an organisational process for customer due diligence that includes customer identification, identifying and monitoring customer behaviour and controls for the processes.

In the course of the above, the candidate must:

- document customer due diligence processes clearly using organisational formats and protocols.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- customer behaviour identification and monitoring processes and controls
- organisational assurance governance procedures for client identification and money laundering and terrorism financing (ML/TF) risk processes
- organisational processes and procedures for:
 - documenting designed due diligence policies and procedures
 - designing processes for risk rating clients
- assurance procedures for customer identification processes
- regulatory and industry requirements for anti-money laundering and counter terrorism financing (AML/CTF).

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes required to produce the performance evidence
- organisational records, policies and procedures required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSAML815 Manage assessment of organisation vulnerability to money laundering and terrorism financing

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to assess the vulnerability of financial products and services for the use in money laundering and terrorism financing. It addresses the skills and knowledge required to develop and maintain an in-depth knowledge of the financial products and services. It covers the analysis of money laundering and terrorism financing (ML/TF) risk and recommended enhancements to organisational systems to manage vulnerabilities.

The unit applies to individuals who use specialised knowledge and skills to evaluate complex information and compliance requirements and apply to relevant tasks. Individuals typically lead and review organisation wide activities, exercise significant autonomy, responsibility and accountability and contribute to the strategic goals and operations of the organisation. They review, critically analyse, consolidate and synthesise knowledge to generate ideas and provide solutions to complex problems.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Anti-money laundering and counter terrorism financing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse products and services an organisation uses	1.1 Research existing and new products, services and channels used by organisation and sector and determine their purpose 1.2 Analyse characteristics of products and services and their strengths, weaknesses, terms and conditions

ELEMENT	PERFORMANCE CRITERIA
	1.3 Document function of each product and service and the client need it satisfies
2. Conduct a ML/TF risk assessment of organisation's products and services	<p>2.1 Develop a process to analyse and evaluate characteristics of products and services to determine their potential use for ML/TF</p> <p>2.2 Develop risk criteria and conduct a ML/TF risk assessment of current and new products and services for an organisation</p> <p>2.3 Analyse and report outcomes of ML/TF risk assessment of products and services for an organisation</p>
3. Recommend enhancements to anti-money laundering and counter terrorism financing (AML/CTF) systems to manage specific vulnerabilities of products and services	<p>3.1 Collect, assess and evaluate information about existing AML/CTF controls</p> <p>3.2 Determine appropriate enhancements to system AML/CTF controls for managing risks for specific products, services and channels</p> <p>3.3 Prepare recommendations for enhancing AML/CTF systems</p> <p>3.4 Submit recommendations for approval to governance or management group</p>
4. Maintain product, service and channel knowledge	<p>4.1 Review products and services regularly and apply any changes to terms and conditions in daily work</p> <p>4.2 Establish and use systems for keeping up with changes and maintaining up-to-date knowledge about products, services and channels</p> <p>4.3 Review emerging trends affecting financial services industry and apply to product, service and channel knowledge</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Evaluates information and products from a variety of sources to ensure appropriateness to client needs
Writing	<ul style="list-style-type: none"> Prepares documentation using clear language and correct terminology
Oral communication	<ul style="list-style-type: none"> Employs language appropriate for audience and uses active listening techniques to elicit, clarify and convey information
Numeracy	<ul style="list-style-type: none"> Interprets, analyses and presents numeric and financial information

Skill	Description
Self-management	<ul style="list-style-type: none">• Ensures knowledge of products, regulations and standards relevant to role is comprehensive and current• Uses communication tools and strategies to develop effective working relationships• Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes
Initiative and enterprise	<ul style="list-style-type: none">• Takes a lead role in improving organisational processes with a focus on providing information and recommendations• Contributes to continuous improvement of current work practices by applying basic principles of analytical and lateral thinking
Problem solving	<ul style="list-style-type: none">• Analyses, assesses and interprets data to identify problems and improve systems
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, check, report and store information required to complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSAML805 Manage assessment of organisation vulnerability to money laundering and terrorism financing.

Links

Assessment Requirements for FNSAML815 Manage assessment of organisation vulnerability to money laundering and terrorism financing

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage assessment of at least two organisational financial products or services and their vulnerability to money laundering and terrorism.

In the course of the above, the candidate must:

- research and identify changes to financial products and services used by organisation and sector, including their features and compliance requirements
- analyse organisational products and services for their potential use in money laundering and terrorism financing (ML/TF), and assess capability of organisational controls to address risk
- document and report assessment findings in required format.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- systems that can be accessed to obtain up-to-date information on products and services
- financial products and services used by organisation and sector
- compliance requirements for products and services used by organisation and sector
- characteristics of products and services that make them vulnerable to money laundering and terrorism financing (ML/TF)
- anti-money laundering and counter terrorism (AML/CTF) controls
- general client characteristics and needs for organisation and sector
- emerging trends affecting financial services industry and financial products
- organisational reporting formats.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes required to assess organisational vulnerability to ML/TF
- organisational records, systems, policies and procedures required for the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSAML816 Implement an anti-money laundering and counter terrorism financing program

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to implement and monitor an organisation's new, redesigned or reconfigured anti-money laundering and counter terrorism financing (AML/CTF) program to meet organisational goals and regulatory requirements.

The unit applies to individuals who use specialised AML/CTF knowledge and skills to evaluate complex information and compliance requirements and apply to relevant tasks. Individuals typically lead and review organisation wide activities, exercise significant autonomy, responsibility and accountability and contribute to the strategic goals and operations of the organisation. They review, critically analyse, consolidate and synthesise knowledge to generate ideas and provide solutions to complex problems.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Anti-money laundering and counter terrorism financing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Implement an AML/CTF program	1.1 Review requirements for new, redesigned or reconfigured AML/CTF program and develop an implementation plan 1.2 Consult, negotiate and communicate implementation plan with stakeholders including work redesign and resource allocation 1.3 Ensure procedures and/or system requirements are developed, tested and refined

ELEMENT	PERFORMANCE CRITERIA
	1.4 Analyse and adopt organisational change processes to integrate new, redesigned or reconfigured AML/CTF requirements 1.5 Develop a communication strategy for promoting and sustaining staff awareness of AML/CTF program 1.6 Consult with relevant personnel to ensure staff training programs and arrangements are established within required timeframes
2. Monitor an AML/CTF program	2.1 Design monitoring and supervision processes to ensure regular reviews of AML/CTF compliance 2.2 Collect, analyse and report performance data against program goals and performance criteria 2.3 Ensure rectification of any AML/CTF related compliance failings 2.4 Report and consult on progress and performance with stakeholders
3. Review and evaluate an AML/CTF program	3.1 Monitor organisational business strategy and regulatory environment for changes that may impact on organisation's AML/CTF program 3.2 Consult with stakeholders on strategies for continuous improvement of organisation's AML/CTF program 3.3 Report review findings to senior management and/or Board as required 3.4 Oversee communication of further changes to AML/CTF program to staff and ensure requirements are implemented

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Learning	<ul style="list-style-type: none"> Plans and oversees implementation of training for staff to achieve organisational goals
Reading	<ul style="list-style-type: none"> Sources and critically analyses documentation from a variety of sources and records and consolidates information to determine requirements
Writing	<ul style="list-style-type: none"> Uses a range of formats and structures to report and present information logically for different audiences Develops material for a specific audience using clear and detailed language to convey information and recommendations
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to convey information and elicit the views

Skill	Description
	and opinions of key stakeholders <ul style="list-style-type: none"> • Clearly explains detailed information using concepts, language, tone and pace appropriate to audience
Numeracy	<ul style="list-style-type: none"> • Interprets, analyses and presents numeric and financial information
Self-management	<ul style="list-style-type: none"> • Monitors and reviews organisational policies, procedures and adherence to regulatory requirements • Uses a variety of communication tools and strategies in building and maintaining effective working relationships • Accepts responsibility for planning and sequencing complex tasks and workload
Initiative and enterprise	<ul style="list-style-type: none"> • Plays a lead role in situations requiring effective collaboration and high-level negotiation skills
Planning and organising	<ul style="list-style-type: none"> • Develops and implements programs to ensure organisational goals are achieved and performance improved • Monitors results against stated goals, adjusting plans and resources where necessary • Develops flexible plans for routine and complex activities with strategic implications that involve a diverse range of personnel
Problem solving	<ul style="list-style-type: none"> • Systematically gathers and analyses all relevant information, reviews data and evaluates options in order to inform decisions about complex organisational programs • Analyses, assesses and interprets data to identify problems and improve systems
Technology	<ul style="list-style-type: none"> • Uses digital systems and technologies to enter, store or access information

Unit Mapping Information

Supersedes and is equivalent to FNSAML806 Implement an anti-money laundering and counter terrorism financing programs.

Assessment Requirements for FNSAML816 Implement an anti-money laundering and counter terrorism financing program

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement and monitor one new, redesigned or reconfigured anti-money laundering and counter terrorism finance program.

In the course of the above, the candidate must:

- document an implementation plan to address new or changed requirements for an anti-money laundering and counter terrorism (AML/CTF) program
- design and implement a system to monitor and review AML/CTF program and organisational policies and procedures
- gather and analyse data against program goals and performance criteria.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- regulatory and industry requirements relating to AML/CTF programs
- organisational and industry standard processes for monitoring AML/CTF related compliance failings, including internal audit and compliance arrangements
- standard methods and systems for capturing, collating, recording and managing information and data
- key features of management planning tools
- methodologies for data interpretation and analysis
- processes for reviewing AML/CTF program and determining alignment to strategic operations, business strategy and regulation
- impact of internal and external environmental factors on implementation of an AML/CTF program
- organisational communication strategies.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes required to implement an AML/CTF program
- organisational records, policies and procedures required for the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSASIC303 Provide advice on first home saver account deposit products and non-cash payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to assess a client's financial requirements and accurately advise customers about financial products and services at the Australian Securities and Investments Commission (ASIC) Tier 2 level.

It applies to individuals who perform their duties skilfully and who are proficient communicators. They will need to satisfy the training requirements for authorisation by an Australian financial services licence (AFSL) holder to provide advice on first home saver account deposit products at Tier 2 level.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Pre-requisite Unit

FNSASIC301	Establish client relationship and analyse needs
FNSASIC302	Develop, present and negotiate client solutions

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the</i>	<i>Performance criteria describe the performance needed to</i>

ELEMENT	PERFORMANCE CRITERIA
<i>essential outcomes.</i>	<i>demonstrate achievement of the element.</i>
1. Develop appropriate strategies and solutions	<p>1.1 Determine appropriate strategy to provide for identified needs and outcomes based on analysis of first home saver account deposit product risk profile and assessment of client information</p> <p>1.2 Conduct relevant research, analysis and product modelling, and draft appropriate transaction for presentation to client that demonstrates understanding of ASIC identified generic and specialist knowledge relevant to products being offered</p>
2. Present appropriate strategies and solutions to client	<p>2.1 Explain and discuss proposed transaction with client in clear and unambiguous way, demonstrating product knowledge appropriate for service or product offered</p> <p>2.2 Explain and emphasise relevant details, terms and conditions of first home saver account deposit product or service, including impacts and possible risks of proposed solution in clear and concise manner</p> <p>2.3 Provide client with written supporting documentation and guide client through key aspects of documentation</p>
3. Negotiate financial transaction with client	<p>3.1 Discuss and clarify any concerns or issues client has regarding proposed transaction</p> <p>3.2 Seek confirmation that client fully understands proposed transaction</p>
4. Coordinate implementation of agreed transaction	<p>4.1 Gain client's formal agreement to proposed transaction</p> <p>4.2 Clearly explain associated fees, cost structures and timeframes for execution and processing, and confirm client understands these details</p>
5. Complete and maintain necessary documentation	<p>5.1 Ensure that proposal and all other statutory and transactional documents are completed and signed off by client</p> <p>5.2 Exchange signed agreement and copies of appropriate documentation</p>
6. Provide ongoing service where requested by client	<p>6.1 Agree with client about type and form of ongoing service, including reporting on performance and review of first home saver account deposit product</p> <p>6.2 Clearly explain and confirm fees and costs for ongoing and specifically defined services, and confirm client understands these details</p> <p>6.3 Ensure ongoing service is provided as required</p>

Assessment Requirements for FNSASIC303 Provide advice on first home saver account deposit products and non-cash payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client needs relevant to first home saver account deposit products and services, and develop strategies and solutions to meet client requirements
- finalise transactions, ensuring all documentation is completed accurately following organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy knowledge requirements relevant to the products and activities in which advice is given. They must:

- explain the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Financial Services Reform Act (FSRA), Competition and Consumer Act, Privacy Amendment (Private Sector) Act and Australian Securities and Investments Commission (ASIC) Act
 - relationship between ethics and regulatory requirements including good faith and utmost good faith
 - full disclosure of remuneration and fees and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct
 - complaints resolution procedures (internal and external)
 - ASIC guidelines on adviser conduct and training

- outline the economic environment and characteristics impacting on first home saver account products including:
 - interest rates
 - exchange rates
 - inflation
 - government monetary and fiscal policy
- describe the operation of first home saver market institutions including:
 - banks
 - credit unions
 - building societies
- identify taxation issues in relation to first home saver accounts
- explain advisory functions including:
 - role of the representative or adviser
 - participants in the advisory services market
 - range of services provided
 - profile and financial information of the client
 - appropriateness of a risk assessment
- explain first home saver account financial products including:
 - general definition
 - age limitations
 - cooling-off period
 - interest paid – institution and government
 - fees and charges
 - non-cash payments:
 - direct debit
 - external funds transfer (EFT)
 - auto transfer
 - withdrawal limits and requirements
 - specific inclusions and exclusions
 - types of financial risk.
 -

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- common office equipment, technology, software and consumables
- first home saver account deposit product information.

Assessors must satisfy NVR/AQTF assessor requirements

FNSASIC314 Provide Tier 2 general advice in general insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to assess clients' insurance needs and accurately advise them about retail general insurance products and services, excluding personal accident and illness at the Australian Services and Investment Commission (ASIC) Tier 2 level.

The unit applies to insurance advisers with well-developed communication and interpersonal skills, who apply product knowledge when providing general advice in relation to Tier 2 (retail general insurance) products to clients.

At the time of publication, no licensing requirements apply to this unit. However, given potential future changes in the licensing environment, users must check with the relevant licensing body to confirm whether this unit is required to complete a licence.

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Respond to initial client enquiry for general insurance	1.1 Establish and respond to client enquiry according to organisational protocols and within required timeframes 1.2 Provide client with assistance and confirm full and accurate completion of initial documentation, as required 1.3 Determine and clarify products of interest through interaction with clients 1.4 Inform clients that general advice will be provided to them in relation to products of interest and that only personal information for

ELEMENT	PERFORMANCE CRITERIA
	<p>underwriting and calculating cost of product will be sought</p> <p>1.5 Gather and record information relating to the risk to be insured according to organisational policies and procedures</p> <p>1.6 Refer clients to suitable specialist personnel where required advice is deemed to fall outside category of general advice</p>
2. Prepare general advice to client	<p>2.1 Analyse range of products of interest to clients and options available to determine their categorisation as areas of general advice in line with legislation and organisational policies</p> <p>2.2 Provide disclosure documentation according to legislation and organisational policies</p> <p>2.3 Confirm general advice warning and other disclosures are given to client in line with legislative and organisational policies and any special communication needs of client</p>
3. Communicate and discuss general advice with client	<p>3.1 Demonstrate relevant product and industry knowledge when providing advice to client</p> <p>3.2 Explain and discuss product advice with client in language that avoids giving impression adviser has considered client's personal circumstances in providing advice</p> <p>3.3 Confirm that client is asked to consider appropriateness of advice for own circumstances</p> <p>3.4 Advise client to read product disclosure statement before making decision</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets financial product information and completes calculations to achieve required outcomes
Oral communication	<ul style="list-style-type: none"> Articulates product and service information unambiguously, using language and non-verbal signals suitable to audience and environment Uses active listening and questioning techniques when responding to client enquiry and providing assistance
Reading	<ul style="list-style-type: none"> Interprets textual information from relevant sources
Writing	<ul style="list-style-type: none"> Uses clear, specific and industry-related terminology to complete and update workplace documentation

SKILL	DESCRIPTION
Initiative and enterprise	<ul style="list-style-type: none"> • Takes responsibility for adherence to legal, regulatory and organisational requirements that relate to own work role • Ensures industry and product knowledge is current and used in compliance with organisational protocols
Self-management	<ul style="list-style-type: none"> • Takes responsibility for routine tasks and decisions relating to client advice and support that comply with legal and organisational requirements
Teamwork	<ul style="list-style-type: none"> • Uses communication strategies to achieve effective connection with a diverse range of clients
Technology	<ul style="list-style-type: none"> • Uses digital technologies and main features and functions of digital tools to access, enter and store information

Unit Mapping Information

Supersedes and is equivalent to FNSASIC304 Provide Tier 2 general advice in general insurance.

Assessment Requirements for FNSASIC314 Provide Tier 2 general advice in general insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- respond to client enquiries and prepare relevant Tier 2 general advice with respect to different retail insurance products and for at least two different clients.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and organisational compliance requirements in relation to advice, including:
 - legislation affecting the provision of general and personal advice, including relevant regulatory guidelines on conduct and disclosure
 - roles and responsibilities of different advisers within the organisation
 - organisational policies and guidelines relating to provision of general advice
- legal environment, including disclosure and compliance covering:
 - role of broker, representative and/or adviser and applicable fiduciary duty obligations and range of services provided
 - legal principles relating to the Corporations Act, Financial Services Reform Act (FSRA), Competition and Consumer Act, Insurance Contracts Act, and Australian Services and Investment Commission (ASIC) Act
 - relationship between ethics and regulatory requirements, including good faith, faith and utmost good faith
 - details of relevant marketing and disclosure documents, including product disclosure statements and marketing brochures on relevant products
 - full disclosure of remuneration and fees and any other conflicts of interest that may influence adviser's recommendation
 - relevant insurance industry codes of practice and organisational codes of conduct
 - internal and external complaints resolution procedures

- ASIC guidelines on adviser conduct and training
- insurance products and services delivered by the organisation, including:
 - purpose of products and services
 - conditions, exclusions and level of coverage of risk transfer products
 - insurance product options available
- taxation issues relating to insurance products
- required content of disclosure statements, including content that:
 - complies with requirements of current regulations and organisational policies and procedures
 - includes key aspects of recommendations, including possible risks.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- organisational records
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSASIC315 Provide Tier 2 personal advice in general insurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.
Release 2	This version first released with FNS Financial Services Training Package Version 6.0. Version created to correct unit mapping error.

Application

This unit describes the skills and knowledge required to assess clients' insurance needs and accurately advise them about retail general insurance products and services excluding personal accident and illness at the Australian Securities and Investments Commission (ASIC) Tier 2 level.

The unit applies to insurance advisers with well-developed communication and interpersonal skills, who apply substantial general insurance product knowledge when providing personal advice on standard retail general insurance products to clients.

At the time of publication, no licensing requirements apply to this unit. However, given potential future changes in the licensing environment, users must check with the relevant licensing body to confirm whether this unit is required to complete a licence.

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to provide personal advice in general insurance	1.1 Determine and respond to client enquiry, establishing client objectives and risk profile according to organisational procedures 1.2 Record relevant client information according to organisational procedures and ensure appropriate risk assessment processes and tools are used

ELEMENT	PERFORMANCE CRITERIA
	1.3 Inform client about role of adviser and licensee or principal responsible for adviser's conduct 1.4 Refer client to external adviser if client request indicates they may require specialist advice outside adviser's operational limits
2. Develop and present appropriate risk solution	2.1 Identify and assess available options using information from risk analysis 2.2 Conduct relevant product research 2.3 Prepare disclosure documents and options for presentation to client, ensuring disclosure statements incorporate detail required by current regulations and organisational policies and procedures 2.4 Present appropriate solutions to client 2.5 Discuss and clarify client queries regarding proposed insurance plan, policy or transaction 2.6 Refer client to appropriate adviser for higher level or specialist advice if required
3. Confirm chosen insurance product and complete necessary documentation	3.1 Obtain instructions from client and confirm preferred insurance plan, policy or transaction 3.2 Seek agreement from client regarding insurance plan, policy or transaction regarding terms, fees and costs and explain timeframes for execution and processing to client 3.3 Obtain signed agreement regarding chosen insurance plan, policy or transaction from client and ensure copies of required documentation are exchanged 3.4 Create and update client records according to organisational procedures
4. Agree to arrangements for providing ongoing service where requested by client	4.1 Agree to type and form of ongoing service to be provided 4.2 Clearly explain fees and costs for defined ongoing services and confirm client understanding of details 4.3 Implement procedures for agreed ongoing services according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Develops and maintains product knowledge to provide accurate and relevant information in compliance with organisational protocols

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets financial product information and completes calculations to achieve required outcomes
Oral communication	<ul style="list-style-type: none"> Articulates product and service information unambiguously, using language suitable to audience and environment Uses active listening and questioning techniques to confirm client understanding
Reading	<ul style="list-style-type: none"> Interprets textual information from relevant sources
Writing	<ul style="list-style-type: none"> Uses clear, specific and industry-related terminology to record and consolidate workplace documentation
Initiative and enterprise	<ul style="list-style-type: none"> Adheres to organisational requirements and protocols within own area of responsibility
Self-management	<ul style="list-style-type: none"> Takes responsibility for mostly routine tasks and decisions relating to client advice and support that comply with legal and organisational requirements
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate communication conventions and protocols to establish rapport with clients to determine their understanding, needs and preferences and provide the information required to negotiate agreement
Technology	<ul style="list-style-type: none"> Uses digital technologies and main features and functions of digital tools to access, enter and store information

FNSASICQ503 Provide advice in first home saver market linked accounts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse client needs and provide advice ethically and professionally relating to first home saver market linked accounts, in compliance with industry regulations and codes of practice. It addresses the training requirements of current Australian Securities and Investments Commission (ASIC) and Australian financial services (AFS) licensing at Tier 1 level.

It applies to individuals who analyse client needs, provide financial products and service advice to clients, and assess the impacts of taxation on clients' financial requirements. Discharging these duties requires well-developed interpersonal skills, proficient communication skills and a range of self-management skills.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or ASIC for specific guidance on requirements.

Pre-requisite Unit

FNSINC501	Conduct product research to support recommendations
FNSIAD501	Provide appropriate services, advice and products to clients
FNSCUS505	Determine client requirements and expectations
FNSCUS506	Record and implement client instructions

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
<p>1. Establish relationship with client and identify client's objectives, needs and financial situation</p>	<p>1.1 Establish client's knowledge about financial products and services</p> <p>1.2 Respond to enquiries about first home saver market linked products and services by explaining range of products and services available and their relevant fee and charging methodology</p> <p>1.3 Inform client about role of adviser and licensee or principal responsible for adviser's conduct, including procedures for complaints handling and circumstances in which they should be engaged</p> <p>1.4 Ask client about objectives and goals and obtain personal, financial and business details to identify client needs</p> <p>1.5 Establish product risk profile of client, including expectations of cash flow and relevant taxation obligations</p>
<p>2. Analyse client's objectives, needs, financial situation and risk profile to develop appropriate strategies and solutions</p>	<p>2.1 Undertake assessment of client needs using all information gathered, taking into account client's product expectations and specific needs</p> <p>2.2 Consult client throughout analysis for further clarification where necessary</p> <p>2.3 Analyse need for specialist advice and ensure client is referred to appropriate adviser for higher level or specialist advice if required</p> <p>2.4 Assess and confirm product risk profile of client, demonstrating ASIC identified generic and specialist knowledge relevant to products being offered</p> <p>2.5 Determine appropriate strategy to provide for identified needs and outcomes based on analysis of products, client risk profile and assessment of client needs</p> <p>2.6 Conduct relevant research, analysis and product modelling and draft appropriate solution, plan, policy or transaction for presentation to client</p>

Assessment Requirements for FNSASICQ503 Provide advice in first home saver market linked accounts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client needs and advise client ethically and accurately about first home saver market linked account products and services
- assess the impacts of taxation on client's financial requirements for specific products offered.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors
- outline financial products including:

- concept of a financial product – general definition, and specific inclusions and exclusions
- types of financial investment products
- types of financial risk products.

Specialist knowledge

- explain the types, characteristics and associated risks of first home saver account products
- describe types of alternative products including managed investments, life insurance and deposit products
- outline product characteristics including:
 - eligibility requirements
 - withdrawal conditions
 - government contributions
 - cooling-off period
 - interest paid including institution, and fees and charges
 - non-cash payments (direct debit, external funds transfer (EFT), auto transfer
 - specific inclusions and exclusions
- discuss the operation of first home saver market institutions
- outline taxation issues in relation to first home saver market linked financial products and markets in which they operate
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
 - relationship between ethics and regulatory requirements including good faith, faith, utmost good faith, full disclosure of remuneration and fees, and any other conflicts of interest which may influence the adviser's recommendation
 - relevant industry standards and codes of conduct

FNSASICU503 Provide advice in superannuation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to analyse client needs and provide advice ethically and professionally on superannuation in compliance with industry regulations and codes of practice. It addresses the training requirements of current Australian Securities and Investments Commission (ASIC) and Australian financial services (AFS) licensing at Tier 1 level.

It applies to individuals who use well-developed interpersonal skills and excellent communication and self-management skills to perform a specialist advisory role in superannuation.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or ASIC for specific guidance on requirements.

Pre-requisite Unit

FNSINC501	Conduct product research to support recommendations
FNSIAD501	Provide appropriate services, advice and products to clients
FNSCUS505	Determine client requirements and expectations
FNSCUS506	Record and implement client instructions

Unit Sector

ASIC units

Elements and Performance Criteria

Assessment Requirements for FNSASICU503 Provide advice in superannuation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry regulations and codes of practice
- analyse client's needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to superannuation
- provide accurate and ethical advice on superannuation products and services
- implement the plan, policy or transaction once agreed by the client and complete documentation accurately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must satisfy generic and specialist knowledge requirements relevant to the products and activities in which advice is given.

Generic knowledge

- analyse and provide an overview of the economic environment including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- analyse and provide a detailed explanation of the operation of financial markets including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within the financial markets
 - interrelationship between industry sectors

- outline financial products, including:
 - concept of a financial product – general definition, and specific inclusions and exclusions
 - types of financial investment products
 - types of financial risk products.

Specialist knowledge

- outline the operation and management of the superannuation industry including:
 - characteristics and structure of a superannuation product
 - roles played by intermediaries and issuers
 - types of superannuation products
 - fee structures including administration and management costs
 - types of contribution
 - annuities and pensions, allocated pensions and income stream products
 - associated risks
 - trustees appointment, duties and responsibilities
 - structure of superannuation plans management and administration of superannuation products
 - preservation rules
 - investment strategies within superannuation funds including investment concepts and strategies
 - restrictions on investment strategies
- outline taxation issues in relation to superannuation financial products and markets in which they operate covering:
 - impact on investment earnings
 - employer and employee contributions
 - benefit payments and expenses
 - tax deductions
 - capital gains tax treatment
 - roll-overs
 - reasonable benefit limits
 - superannuation surcharge
 - social security pension eligibility
 - retirement planning
 - death benefits
 - franking credits
- discuss the legal environment including disclosure and compliance covering:
 - role of the representative or adviser

- relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Superannuation Industry (Supervision) Act, Privacy Amendment (Private Sector) Act, Financial Services Reform Act (FSRA) and Competition and Consumer Act
- relationship between ethics and regulatory requirements including good faith, utmost good faith, full disclosure of remuneration and fees and any other conflicts of interest which may influence the adviser's recommendation
- relevant industry standards and codes of conduct
- regulators' guidelines including ASIC Regulatory Guide (RG)146 requirements
- complaints resolution procedures (external and internal)
- trustee rules
- explain theories of investment, portfolio management and management of investment and risk:
 - investment concepts
 - investment strategies
 - identification of types of risk
 - client risk profile
- outline key requirements of the following:
 - Retirement Savings Account Act (RSA)
 - Superannuation Industry (Supervision) Act (SIS)
 - Superannuation Guarantee Act and other relevant legislation
 - Superannuation Contribution Tax (Assessment and Collection) Act.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial services and products advice field of work and include access to:

- office equipment, technology, software and consumables
- superannuation product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSASICY513 Provide advice in insurance broking

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to analyse a client's insurance needs and provide ethical and professional advice that complies with industry regulations and codes of practice. It addresses the training requirements of current Australian Securities and Investments Commission (ASIC) and Australian Financial Services (AFS) licensing at Tier 1 level.

The unit applies to those who use well-developed interpersonal, communication and self-management skills and general insurance knowledge to perform a specialist advisory role in insurance broking and address the needs of both retail and wholesale clients.

At the time of publication, no licensing requirements apply to this unit. However, given potential future changes in the licensing environment, users must check with the relevant licensing body to confirm whether this unit is required to complete a licence.

Pre-requisite Unit

FNSIBK416 Deliver insurance broking services

FNSIBK518 Implement changes to insurance programs of broking clients

FNSIBK523 Prepare submissions for new insurance broking business

Unit Sector

ASIC units

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1. Prepare to provide advice in insurance broking	1.1 Identify client enquiry and inform client about role of adviser and licensee or principal responsible for adviser's conduct 1.2 Establish client's objectives and goals and obtain personal, financial and business details to identify client's needs 1.3 Respond to enquiries about insurance broking products and services by explaining range of products and services available and their relevant fee and charging methodology 1.4 Establish risk profile in relation to client's business activities according to organisational procedures
2. Analyse client's objectives, needs, financial situation and risk profile to develop appropriate strategies and solutions	2.1 Assess client needs taking into account client's information, product expectations and specific needs 2.2 Consult client throughout analysis for further clarification where necessary 2.3 Analyse need for higher level or specialist advice and ensure client is referred to appropriate adviser if required 2.4 Assess and confirm risk profile of client, demonstrating ASIC-identified generic and specialist knowledge relevant to products and services being offered 2.5 Determine appropriate strategy to provide for identified needs and outcomes, based on analysis of products and services, client risk profile and assessment of client needs 2.6 Conduct relevant research, analysis and product modelling, and draft appropriate solution and plan, policy or transaction for presentation to client
3. Present appropriate strategies and solutions to client and negotiate financial plan, policy or transaction	3.1 Apply appropriate knowledge for product or service offered when presenting outcomes of analysis 3.2 Clearly and unambiguously explain proposed transaction to client 3.3 Reinforce required details, terms and conditions of product or service 3.4 Disclose impacts and possible risks of solution in clear and concise manner 3.5 Provide supporting written documentation and guide client through key aspects of documentation 3.6 Discuss and clarify concerns and issues that client has regarding proposed plan, policy or transaction 3.7 Confirm that client understands proposed plan, policy or transaction
4. Agree to plan, policy or transaction and complete documentation	4.1 Obtain client's formal agreement to confirmed plan, policy or transaction 4.2 Explain and confirm client understanding of fees, cost structures and timeframes for execution and processing of agreed plan, policy

ELEMENT	PERFORMANCE CRITERIA
	<p>or transaction</p> <p>4.3 Obtain signed proposal and statutory and transactional documents required from client</p> <p>4.4 Exchange copies of signed agreement and other required documentation according to organisational procedures</p>
5. Agree to and implement arrangements for providing ongoing service	<p>5.1 Agree to type and form of client-preferred ongoing service to be provided</p> <p>5.2 Clearly explain fees and costs for ongoing and specifically defined services, and confirm client understanding</p> <p>5.3 Implement arrangements for agreed ongoing service according to organisational policies and procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets financial information on products and services, and calculates client costs, risks and returns
Oral communication	<ul style="list-style-type: none"> Clearly articulates requirements using language suitable to audience and environment Uses active listening and questioning techniques to confirm understanding
Learning	<ul style="list-style-type: none"> Extends knowledge of insurance broking product and service features relevant to current role using research and investigative analysis to select investments that suit client needs
Reading	<ul style="list-style-type: none"> Interprets information from required sources
Writing	<ul style="list-style-type: none"> Uses clear, specific and industry-related terminology to complete and consolidate workplace documentation
Initiative and enterprise	<ul style="list-style-type: none"> Takes personal responsibility for following policies, procedures and protocols to provide advisory services and documentation that comply with legal, statutory and organisational requirements
Self-management	<ul style="list-style-type: none"> Takes responsibility for the planning, sequence and priority of tasks within own workload to achieve effective and compliant outcomes Applies systematic and analytical decision-making processes to determine and implement investment solutions that meet client needs and financial requirements

Teamwork	<ul style="list-style-type: none">• Selects and uses appropriate conventions and protocols when communicating with clients to build rapport, seek and share information, establish clear agreement and maintain an ethical service relationship
Technology	<ul style="list-style-type: none">• Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSBNK416 Manage mobile lending services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare for and manage at least two consultations with different customers.

In the course of the above, the candidate must:

- identify suitable lending products and services including required actions, in one situation involving a potentially vulnerable customer
- provide information and respond to queries about suitable mobile lending products and services available to customers.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features and conditions of organisational and industry policy related to mobile lending services and products
- organisational policies and procedures related to personal safety and risk processes
- key features of vulnerable customers and associated implications with lending services
- codes of conduct related to customer service and lending services
- communication and interpersonal techniques to respond to customer needs
- required documentation standards for customer service
- conditions of mobile lending services
- specialised product and service information.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- mobile lending services information
- organisational policy and procedures for providing services.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSBNK512 Assess complex loans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- assess complex loans for at least three clients.

In the course of the above, the candidate must:

- assess the impact of each option on the client's financial circumstances
- comply with relevant legislative, regulatory and organisational requirements pertaining to dealing with clients in difficult circumstances.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- features and benefits of credit products and their application requirements
- complex features of a client's financial situation including:
 - high assets
 - income
 - expenditure requirements
 - complex taxation
 - nature and forms of securities to be taken
 - legal issues
- organisational risk management policy
- different structures available to clients to meet their financial goals including:
 - sole trader
 - partnership
 - company
 - trust – family, unit and hybrid
- partnership, company and trust in relation to:

- financial statements and tax returns
- income, expenditure and accounting treatments
- communication methods between clients, accountants and real estate agents in relation to financial statements and business structure
- financial data including add backs to calculate loan serviceability
- sources of income where multiple entities or structures are included in the client relationship
- financial information needed for data entry into loan calculators to confirm loan serviceability
- risk issues relating to:
 - borrowing risk and gearing
 - specific product risk
 - institutional risk
 - risk factors and return expectations of the client
 - volatility of income and capital
- types of security to be taken for complex loan structures:
 - joint and several personal or related company guarantees
 - multiple mortgages
 - registered company charges
 - second mortgages
 - the involvement of unit or family trusts as either borrowers or guarantors
- relevant legislation including state and territory legislation, charges and taxes.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulation, and organisational policy and procedures relevant to credit risk
- common office equipment, technology and consumables
- client financial profiles
- credit product information
- software systems and data.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSCUS601 Establish, manage and monitor key relationships

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- determine criteria and identify key relationships for the business
- develop comprehensive systems to manage relationships and provide quality service
- monitor procedures and systems to ensure key relationships are managed and maintained effectively
- comply with industry regulations and codes of practice
- work effectively with others using high level communication, interpersonal and negotiation skills.

Note: If specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe organisational criteria used to define key relationships
- outline the role of changing market conditions in establishing, managing and monitoring key relationships
- outline organisational administrative, research, reporting and training requirements relevant to the effective management of key relationships
- explain key requirements of relevant industry legislation, regulations and codes of practice
- discuss principles and techniques of effective communication and negotiation in key relationship management.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the customer service field of work and include access to:

- common office equipment, technology, software and consumables
- financial services product information.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFLT211 Develop and use personal budgets

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to develop, implement and monitor a personal savings budget. It has wide application and may be used in workplaces, schools, adult and community learning organisations or registered training organisations to build the financial literacy of learners. The unit may also be used as part of pre-vocational or new apprenticeship programs, or as part of services provided by counselling or advisory organisations.

The unit applies to those who use new ideas and techniques to develop personal financial literacy skills.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial literacy

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to develop a personal budget	1.1 Obtain a template budget spreadsheet 1.2 Identify period of time for which to develop a personal budget 1.3 Identify all sources of income, regular fixed expenses and variable expenses for specified period 1.4 Record all income and expenses in the budget spreadsheet for specified period
2. Develop a personal budget	2.1 Subtract total expenses recorded from total income recorded 2.2 Identify whether a budget is in surplus or deficit for specified

ELEMENT	PERFORMANCE CRITERIA
	period 2.3 Identify reasons for deficit budget as required 2.4 Identify opportunities and options to meet financial goals 2.5 Incorporate selected options into a budget plan
3. Implement and monitor personal budget	3.1 Follow budget according to plan for a specified period of time 3.2 Record actual expenses and income for period during which budget is implemented 3.3 Compare budgeted expenses and income with actual amounts and modify budget where necessary 3.4 Monitor and update budget as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations including addition, subtraction, multiplication, division and percentages, and interprets financial information relating to budgets
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning to develop a clear understanding of budgeting information
Reading	<ul style="list-style-type: none"> Gathers and interprets financial information and identifies key aspects relevant to the task
Writing	<ul style="list-style-type: none"> Records and documents information relating to personal budgets using correct language, concepts and terminology
Planning and organising	<ul style="list-style-type: none"> Plans routine tasks and organises work according to defined requirements Reviews effectiveness of decisions and adjusts as required
Technology	<ul style="list-style-type: none"> Uses digital systems and tools to design work processes and complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSFLT201 Develop and use a personal budget.

Assessment Requirements for FNSFLT211 Develop and use personal budgets

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and use a personal budget for at least two different time periods.

In the course of the above, the candidate must:

- calculate interest and loan repayments.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key aspects of budgeting, including its purpose, key principles and benefits
- methods for setting and calculating financial goals
- techniques to interpret financial information relating to budgets
- key benefits of financial goal setting
- common obstacles to achieving financial goals
- impact of different stages of life on financial goals
- key behaviours and skills required to facilitate adherence to a budget
- key features of fixed and variable expenses
- role of credit and savings in managing a budget and establishing personal wealth
- role of financial institutions and their savings products to assist with managing a personal budget.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- information about the budgeting process, personal financial records and other required resources.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFLT216 Develop knowledge of taxation

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to understand the role of taxation in the Australian economy, including why and how tax is levied and collected, types of taxes paid by business and individuals, and its impact on investment choices. It has wide application and may be used in workplaces, schools, adult and community learning organisations or registered training organisations to build the financial literacy of learners. The unit may also be used as part of pre-vocational or new apprenticeship programs, or as part of services provided by counselling or advisory organisations.

The unit applies to those who apply new ideas and knowledge to develop and maintain personal financial literacy skills.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial literacy

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify the role of taxation in the Australian economy	1.1 Identify the purpose of taxation in the Australian economy at local, state and federal levels 1.2 Identify how taxation in Australia compares with other countries 1.3 Identify methods of collection and groups from whom tax is collected 1.4 Identify the role of Australian Taxation Office 1.5 Identify the uses of taxation revenue

ELEMENT	PERFORMANCE CRITERIA
2. Develop knowledge of personal tax	2.1 Identify key terminology used in personal taxation and associated definitions 2.2 Identify documents and information applicable to personal tax 2.3 Identify personal tax assessment methods and tax return processes 2.4 Identify and access sources of personal tax information in Australia 2.5 Document the locations and uses of the identified sources
3. Develop knowledge of business tax	3.1 Identify key terminology used in business taxation and associated definitions 3.2 Identify different business structures and associated effects on taxation 3.3 Identify methods by which business tax is assessed and paid 3.4 Identify methods used by businesses to assess and pay employee superannuation contributions 3.5 Identify and access sources of information about business tax in Australia 3.6 Document the locations and uses of the identified sources
4. Develop knowledge of tax liability	4.1 Identify methods for individuals to determine their tax liability 4.2 Identify methods for small business operators to pay tax 4.3 Identify the implications of underpayment and overpayment of tax

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets financial information relating to taxation to determine how calculations are made
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning to develop a clear understanding of topics and issues, and participates in verbal exchanges to share information
Reading	<ul style="list-style-type: none"> Accesses, interprets and collates information from a range of sources and identifies key relevant information for the task
Self-management	<ul style="list-style-type: none"> Maintains up-to-date knowledge of taxation necessary for own situation Plans and organises tasks according to defined requirements

SKILL	DESCRIPTION
Technology	<ul style="list-style-type: none">• Uses digital systems and tools to source and analyse information

Unit Mapping Information

Assessment Requirements for FNSFMB412 Identify client needs and present broking options

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify the needs of at least three clients and present each client different broking options.

In the course of the above, the candidate must:

- use different communication and interpersonal skills to establish rapport with the client
- file client information securely and in the required format and location
- organise all information clearly and concisely
- establish clients' current investment, asset, income, expenditure and liability position
- discuss and document implementation actions in anticipation of a loan application
- comply with organisational policies and procedures and applicable legislation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- basic financial and accounting terms and concepts related to mortgage or finance broking, including:
 - variable and fixed rate interest rates
 - types of mortgage accounts
 - procedures and principles of deposit bonds
 - financial records relating to different ownership models
- best practice methods of identifying client financial needs
- organisational policies and procedures, and codes of practice related to credit services
- credit and credit reporting services
- current government assistance for:
 - first home buyers

- disadvantaged or low-income earners
- complaint handling and resolution processes
- roles of the alternative dispute resolution schemes and services
- features of the economic environment and business cycle, financial markets and roles of industry participants, interest rates, exchange rates and inflation
- features of the legal environment and legislative and regulatory requirements affecting finance and mortgage broking services related to:
 - disclosure
 - privacy
 - industry codes of practice
 - best interest duty
 - fees and commissions and disclosures
 - credit reporting services
 - potentially vulnerable clients
- key features of lender's mortgage insurance
- loan transaction terminology and definitions of parties involved, including:
 - lender and borrower
 - lessor and lessee
 - mortgagee and mortgagor
- risks and security associated with sharing information with clients, including:
 - confidential information
 - identifying legitimacy
 - borrowing
- loan application process
- negotiation process
- presentation techniques, including technology supported presentations
- lending products available in the finance and mortgage industry
- accounting and mathematical formulas to calculate:
 - interest rates
 - mortgage repayments
 - term of a loan.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- finance and mortgage product information
- lending product information
- required software system and data.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMB511 Implement credit contracts in preparation for settlement

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to identify client needs and assist in the preparation of securities to implement a credit contract in preparation for loan settlement.

The unit applies to individuals who use organisational skills to complete and coordinate tasks within agreed timelines and industry or organisational conditions.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Finance/mortgage broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify client needs and prepare credit contract terms	1.1 Discuss client needs and requirements 1.2 Identify documents required for credit contract 1.3 Agree on property settlement date and security 1.4 Confirm client understanding of conditions of finance approval
2. Assist in preparation and registration of securities	2.1 Communicate information on property, insurances and securities in credit contract to client 2.2 Assist client to initiate steps to implement security as required 2.3 Communicate with client, conveyancer and credit provider, and confirm all parties are prepared for settlement

ELEMENT	PERFORMANCE CRITERIA
	<p>2.4 Assist client in preparing security documents prior to settlement according to lender's policies and procedures, and legislative and regulatory requirements</p> <p>2.5 Confirm documents can be accepted and registered with required stakeholders</p>
3. Execute credit contract and prepare for settlement	<p>3.1 Confirm with client that credit contract has been executed</p> <p>3.2 Assist client in submitting credit contract and required documents</p> <p>3.3 Communicate payment and stamp duty information to client</p> <p>3.4 Confirm client makes required payments prior to settlement</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse and check financial and numerical information for accuracy and completeness Checks calculations and results using calculators
Oral communication	<ul style="list-style-type: none"> Provides clear and explicit information and instructions to others Confirms and clarifies requirements using active listening and questioning Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Reading	<ul style="list-style-type: none"> Checks documents for accuracy and correct formatting
Self-management	<ul style="list-style-type: none"> Identifies and follows organisational protocols and meets expectations Monitors adherence to legal and regulatory obligations
Teamwork	<ul style="list-style-type: none"> Collaborates with others to achieve joint outcomes Selects and uses appropriate communication conventions and protocols to liaise with clients, lenders and other stakeholders
Technology	<ul style="list-style-type: none"> Accesses, enters and stores information using digital technologies

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSFMB501 Settle applications and loan arrangements in the finance and mortgage broking industry.

Assessment Requirements for FNSFMB511 Implement credit contracts in preparation for settlement

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement credit contracts and prepare for loan settlements for at least three different clients.

In the course of the above, the candidate must:

- confirm credit contracts have correct details before execution including, where applicable, property settlement date and security
- adhere to legislative and regulatory requirements
- confirm credit contracts are complete, signed, witnessed and dated.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- pre-settlement conditions required by lenders including gaining consent of prior mortgagee if second mortgage security is being taken
- documentation required by lenders, including:
 - credit check authority signed
 - guarantees
 - loan contract
 - periodical payment authority
 - signed application form
- pre-settlement evidence required by lenders
- pre-settlement undertakings by the borrower required by lenders, including:
 - sale and settlement of other property
 - repayment of other debts

- provision of evidence of insurance
- key features of industry codes of practice, legislative, regulatory and statutory requirements, including:
 - National Credit Code
 - privacy legislation
 - credit legislation
 - best interest duty
- organisational policies and procedures relating to implementing and executing credit contracts and settling applications and loan arrangements
- role of various parties involved in the settlement process
- settlement issues that can occur
- steps in process of registering security documentation
- steps required to open account for disbursement of funds.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- credit providers requirements for credit contract execution, loan settlement, security preparation and registration
- legislation and regulations related to loan applications, securities and settlement arrangements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMB512 Identify and develop credit options for clients with special financial circumstances

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to identify special financial circumstances of a client, consider complicated issues such as economic and legislative requirements, and develop credit strategies and solutions for the client.

The unit applies to individuals who apply research and analytical skills to complex and multifaceted scenarios to develop customised solutions for clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Finance/mortgage broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine special financial needs and risk profile	1.1 Identify client goals, objectives, requirements and situation 1.2 Assess special financial needs of client situation and discuss with client 1.3 Identify and discuss risk issues and tolerance with client 1.4 Assess impact of risks to client according to legislative requirements and organisational guidelines and procedures 1.5 Develop recommendations on risk management strategies 1.6 Communicate complaints resolution procedures to client

ELEMENT	PERFORMANCE CRITERIA
2. Research and analyse complex credit options	2.1 Determine client opportunities and constraints according to client needs, requirements and special financial needs and circumstances 2.2 Research loan structures and options according to client needs, requirements and special financial needs 2.3 Analyse client's special financial needs 2.4 Model, analyse and prioritise suitable options for client, and reject inappropriate options 2.5 Select complex credit options for review with client
3. Finalise complex credit options	3.1 Assess ability to successfully meet client goals and objectives 3.2 Obtain and develop explanatory material for client 3.3 Respond to queries from client as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> • Uses calculators to perform detailed mathematical calculations and estimations of financial data • Manipulates data for analysis • Undertakes comparative analyses of numerical and financial information to determine requirements and develop options
Oral communication	<ul style="list-style-type: none"> • Uses active listening and questioning to elicit information and explore issues • Participates in verbal exchanges to explain and clarify complex financial information • Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Reading	<ul style="list-style-type: none"> • Researches textual information from a range of sources and analyses issues and risks to develop strategic options
Writing	<ul style="list-style-type: none"> • Prepares recommendations containing complex information and strategies in logical structure using organisational formats • Uses clear and concise language, terminology and concepts appropriate for the client
Initiative and enterprise	<ul style="list-style-type: none"> • Maintains currency of industry and product knowledge as required by role
Self-management	<ul style="list-style-type: none"> • Adheres to workplace protocols and procedures • Monitors adherence to legislative requirements in the conduct of

SKILL	DESCRIPTION
	<p>work</p> <ul style="list-style-type: none">• Assesses the impact of decisions on outcomes
Problem solving	<ul style="list-style-type: none">• Identifies and addresses complex problems involving multiple variables
Planning and organising	<ul style="list-style-type: none">• Uses formal and informal planning processes to identify relevant information and risks, and evaluate appropriate strategies
Teamwork	<ul style="list-style-type: none">• Selects and uses appropriate communication conventions and protocols to liaise with clients and other stakeholders
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, enter and store information

Unit Mapping Information

Supersedes and is equivalent to FNSFMB502 Identify and develop broking options for clients with complex needs.

Assessment Requirements for FNSFMB512 Identify and develop credit options for clients with special financial circumstances

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify and develop complex credit options for at least three clients with different special financial circumstances.

In the course of the above, the candidate must:

- compare features, fees, charges and risks when analysing credit options.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislation, regulations and codes of practice affecting the broking industry, including best interest duty
- comparison characteristics of financial products, including features, fees, charges and risks
- complex credit features of client needs, including:
 - business or commercial loans
 - bridging loans
 - chattel leases
 - contaminated sites or properties near noxious industries
 - cross-collateralisation
 - native title rights
 - heritage issues
 - multiple mortgages
 - loans to trusts, partnerships or corporations
 - reverse mortgages

- rural land mortgages
- common products available in the broking industry
- internal and external complaint handling and dispute resolution procedures
- organisational guidelines and procedures on assessing impact of risks and documenting broking recommendations
- research methods on gathering information on new or non-standard products
- key risk issues, including:
 - borrowing risk and gearing
 - economic risk and impact on incomes and asset values
 - unusual risk issues or requirements, including interdependencies and implications
 - specific product risk, including penalties
 - risk factors and return expectations of the client
 - volatility of income and capital
- types of loan structures, including new and non-standard products.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- economic, taxation and insurance information required
- finance and mortgage product information
- lender or credit provider's basic lending acceptance criteria
- data and documents related to developing complex credit options.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMB513 Present credit options to clients with special financial circumstances

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to present credit options to clients with special financial circumstances, communicating complex information and completing, providing and maintaining required disclosures and documentation.

The unit applies to individuals who use specialised knowledge and strong communication and interpersonal skills to convey complex information.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Finance/mortgage broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to present credit options to clients	1.1 Identify client objectives, requirements, level of financial understanding and special needs 1.2 Determine legislative and regulatory requirements, codes of practice, and organisational policies and procedures related to presenting credit options to clients 1.3 Identify organisational complaint handling policies and procedures
2. Discuss credit options with clients	2.1 Guide client through credit options and discuss impact of each option

ELEMENT	PERFORMANCE CRITERIA
	<p>2.2 Explain fees, charges and commissions to client and provide copies of research and other required documentation</p> <p>2.3 Disclose any commercial relationship of representative and organisation with the options</p> <p>2.4 Identify and address issues that require further consideration or consultation with other financial services professionals</p> <p>2.5 Confirm client understands credit options</p> <p>2.6 Define post-broking service to be provided and communicate to clients</p>
3. Address concerns and provide alternative options	<p>3.1 Identify and respond to client concerns as required</p> <p>3.2 Escalate any risks and concerns with required personnel</p> <p>3.3 Provide alternative options to clients as required</p> <p>3.4 Obtain agreement to proceed from clients</p>
4. Complete and maintain necessary documentation	<p>4.1 Record client interaction and agreement according to regulatory and legislative requirements, and industry codes of practice</p> <p>4.2 Share applicable documents with clients and obtain signatures</p> <p>4.3 Notify clients of required documents and evidence under proposed credit solution</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets and clearly explains potentially complex numerical and financial information
Oral communication	<ul style="list-style-type: none"> Clarifies information using active listening and questioning skills in verbal exchanges Presents information and options to clients using language, tone and pace appropriate to the audience Communicates with clients using clear and unambiguous language Uses the appropriate communication mode and protocols to respond, explain, clarify and seek information as required
Reading	<ul style="list-style-type: none"> Accesses and interprets information to determine and confirm requirements
Writing	<ul style="list-style-type: none"> Prepares correspondence and documentation using clear and unambiguous language to convey complex information Records information clearly and effectively, using logical

SKILL	DESCRIPTION
	structure and appropriate formats
Planning and organising	<ul style="list-style-type: none"> Develops plans to manage routine and non-routine tasks with an awareness of their impact on long-term operational and strategic goals
Problem solving	<ul style="list-style-type: none"> Identifies and addresses any issues using professional judgment
Self-management	<ul style="list-style-type: none"> Determines if further referrals or requirements are needed using experience and judgment Identifies and applies legislative requirements and workplace protocols, and meets expectations associated with role
Teamwork	<ul style="list-style-type: none"> Builds rapport to establish and maintain effective working relationships Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter and store information

Assessment Requirements for FNSFMB513 Present credit options to clients with special financial circumstances

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- present at least three complex credit options to different clients with special financial circumstances.

In the course of the above, the candidate must:

- interpret and comply with legislative requirements, industry regulations and codes of practice
- present broking options based on:
 - impact of each option on client's financial circumstances
 - consideration of client's complex needs
 - consideration of client's level of financial understanding
- obtain client feedback and respond appropriately to any concerns
- complete relevant documentation according to industry requirements and organisational guidelines.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements, codes of practice and other industry requirements affecting the broking industry, including:
 - best interest duty
 - disclosure
 - privacy
 - industry codes of practice
 - National Credit Code

- fees and commissions and disclosures
- credit reporting services
- aspects of credit options that require thorough explanation to clients, including:
 - advantages and disadvantages
 - risks
 - short- and long-term financial implications
 - assumptions and possibilities
- complex features of a client situation and needs, including:
 - multiple mortgages
 - cross-collateralisation
 - loans to trusts or partnerships or corporations
 - rural land mortgages
 - bridging loans
 - reverse mortgages
 - business or commercial loans
 - chattel leases
 - native title rights
 - heritage issues
 - contaminated sites or properties near noxious industries
- products available in the broking industry
- organisational policies and procedures in relation to client services and complaint handling
- strategies to interpret and present complex numerical and financial information
- lending limits
- commercial relationship
- commissions
- risk issues relating to:
 - borrowing risk and gearing
 - economic risk and impact on incomes and asset values
 - specific product risk, including penalties
 - risk factors and return expectations of the client
 - volatility of income and capital.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- financial services product information
- data and documents related to presenting credit options.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMB514 Implement complex loan structures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to establish actions, timings and priorities to implement complex loans and supervise the implementation process.

The unit applies to individuals who use specialised knowledge and well-developed organisational skills to coordinate the implementation of complex financial processes.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Finance/mortgage broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Organise implementation actions	1.1 Identify client needs, requirements and objectives 1.2 Review complex and special features of client situation and identify loan implementation implications 1.3 Establish and prioritise implementation actions, timing and activities according to client needs and situation 1.4 Explain implementation actions required by client 1.5 Obtain written agreement to actions and establish implementation records according to organisational policies and procedures
2. Establish procedures for implementation	2.1 Identify and brief applicable stakeholders of their responsibilities and actions 2.2 Coordinate implementation actions with other professionals

ELEMENT	PERFORMANCE CRITERIA
	2.3 Establish monitoring procedures
3. Supervise implementation	3.1 Assist applicable stakeholders to implement complex loan structures 3.2 Issue instructions to required personnel as per loan structure 3.3 Consult with and monitor relevant stakeholders 3.4 Check and follow up on lodgement of documentation 3.5 Obtain and process fees and charges according to organisational policies and procedures, and legislative and regulatory requirements 3.6 Debrief with client post-implementation and address concerns and queries

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets numerical and financial information to determine required actions, timings and sequences Performs mathematical equations to check calculations
Oral communication	<ul style="list-style-type: none"> Issues instructions and explains information using language, tone and pace appropriate to audience and purpose Clarifies information and builds relationships using active listening and questioning skills in verbal exchanges
Reading	<ul style="list-style-type: none"> Reviews information from a range of sources and interprets key aspects to determine implementation actions
Writing	<ul style="list-style-type: none"> Prepares correspondence and documentation using clear and unambiguous language to convey complex information appropriate for audience and purpose
Planning and organising	<ul style="list-style-type: none"> Organises, plans and sequences own workload, and schedules work activities of others
Self-management	<ul style="list-style-type: none"> Identifies and applies legislative requirements and workplace protocols, and meets expectations associated with role
Teamwork	<ul style="list-style-type: none"> Identifies the information requirements and selects the appropriate communication format when responding to routine and non-routine exchanges Builds rapport to establish and maintain effective working relationships

SKILL	DESCRIPTION
	<ul style="list-style-type: none">• Collaborates with others to achieve joint and desired outcomes• Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, enter and store information

Unit Mapping Information

Supersedes and is equivalent to FNSFMB504 Implement complex loan structures.

Assessment Requirements for FNSFMB514 Implement complex loan structures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement complex loan structures for at least three different clients.

In the course of the above, the candidate must:

- review impacts of high asset, income or expenditure requirements, complex taxation, complex nature of and forms of securities, and other legal or complex requirements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- features of legislative and regulatory requirements, including:
 - state and territory legislation
 - best interest duty
 - charges and taxes
- organisational policies and procedures relating to:
 - written agreement to actions
 - establishing implementation records
 - process fees and charges
- complex features of a client situation and needs, including:
 - bridging loans
 - business or commercial loans
 - chattel leases
 - contaminated sites or properties near noxious industries
 - cross-collateralisation
 - heritage issues

- loans to trusts or partnerships or corporations
- multiple mortgages
- native title rights
- reverse mortgages
- rural land
- complex nature of securities to be taken, including:
 - implications of borrowing against leased premises
 - multiple securities of differing kinds
 - rural land
 - specialised securities, including hotels
- documentation requirements relating to:
 - disclaimers
 - disclosures
 - insurance policies
 - prospectuses
 - receipts
 - written advice
- forms of security to be taken for complex loan structures, including:
 - assignment of rental income to the lender
 - joint and several personal or related company guarantees
 - multiple mortgages
 - registered company charges
 - involvement of unit or family trusts as borrowers and guarantors
- loan implementation implications, including:
 - high asset, income or expenditure requirements
 - complex taxation
 - nature and forms of securities to be taken
 - other legal or complex issues
- methods to analyse business and financial data
- time management techniques and tools to support implementation process.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- financial services product information
- data and documents related to implementing loan structures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK411 Perform reconciliations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to ensure internal and external information is consistent with data held in operational systems and accounts, and escalate and resolve discrepancies.

The unit applies to individuals who use specialised knowledge to carefully review discrepancies in organisational systems, investigate the cause(s), and resolve or escalate to minimise any compensation claims or overdraft items.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify non-reconciled items	1.1 Identify accounts or data held in internal and external systems for reconciliation 1.2 Check and compare details of trades, cash and security movements against internal and external systems for inconsistencies and errors 1.3 Identify discrepancies in transaction holdings

ELEMENT	PERFORMANCE CRITERIA
2. Investigate, escalate, and resolve discrepancy	2.1 Investigate discrepancies and exceeded tolerance levels within set timeframes as set out in organisational standards and procedures 2.2 Escalate unreconciled discrepancies for review to organisational personnel according to organisational procedures 2.3 Resolve reconciliation after discrepancies have been rectified

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Reads and interprets information to determine and confirm work requirements
Writing	<ul style="list-style-type: none"> Records information and completes documentation appropriate to audience and purpose
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using appropriate language and concepts to convey and clarify information
Numeracy	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and identify discrepancies
Self-management	<ul style="list-style-type: none"> Accepts responsibility for ensuring transactions comply with organisational requirements Selects and uses appropriate conventions and protocols when communicating with clients and co-workers in a range of work contexts Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations
Planning and organising	<ul style="list-style-type: none"> Plans, organises and implements tasks, aiming to achieve them efficiently and effectively
Technology	<ul style="list-style-type: none"> Uses main features and functions of digital tools and systems to complete work tasks and find information

Unit Mapping Information

Assessment Requirements for FNSFMK411 Perform reconciliations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify, investigate and resolve at least three different discrepancies.

In the course of the above, the candidate must:

- communicate with appropriate stakeholders to reconcile discrepancies
- escalate unresolved discrepancies in line with organisational procedure
- interpret and follow organisational and industry reconciliation procedures.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- role of reconciliation as a control for managing risk in the transaction process
- systems that hold data in operational systems and accounts
- account types and systems to be reconciled
- types of reconciliations
- basic ledger and book-keeping functions for organisational and industry reconciliation procedures.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software for operational systems and consumables required to produce the performance evidence

- organisational personnel
- organisational records, policies and procedures required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK416 Conduct work within financial markets compliance framework

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to identify statutory, legislative and regulatory requirements in financial markets and relate them to individual work practices to ensure ongoing adherence to the compliance framework.

It applies to individuals who to carry out work in accordance with the compliance framework applying to job roles in financial markets.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Regulation, licensing and risk – Compliance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify individual compliance requirements	1.1 Identify global regulatory frameworks and regulators for financial markets 1.2 Assess commonalities and key differences in legal requirements for buy-side and sell-side organisations 1.3 Identify regulatory requirements relevant to own job role 1.4 Identify industry standards, conventions, organisational requirements and whistleblowing policies and procedures relevant to own job role 1.5 Identify obligations under the organisation's code of conduct for own job role

	1.6 Map compliance requirements against individual position description and work practices
2. Escalate compliance issues	<p>2.1 Identify critical steps for escalating regulatory and ethical concerns</p> <p>2.2 Consult with appropriate persons when there is a potential breach of regulatory requirements or a breach of organisational policies or values</p> <p>2.3 Escalate issues where there may be a breach of regulatory requirements or organisational policies, in accordance with organisational policies and procedures</p> <p>2.4 Analyse and reflect on personal efficacy in identifying and actioning compliance issues</p>
3. Monitor and apply changes in compliance requirements to own job role	<p>3.1 Monitor changes in regulatory environment that may affect the requirements or responsibilities of own job role</p> <p>3.2 Access and analyse documentation relating to changes in compliance issues</p> <p>3.3 Undertake organisational training addressing changes in compliance requirements</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Learning	<ul style="list-style-type: none"> Reflects on own actions to improve future performance
Reading	<ul style="list-style-type: none"> Analyses complex information from a range of sources and consolidates information to determine requirements Identifies and analyses complex texts to determine key information, specific requirements and responsibilities
Oral Communication	<ul style="list-style-type: none"> Discusses compliance or ethical issues using structure and language to suit the audience Uses listening and questioning techniques to confirm understanding of compliance requirements
Self-management	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate communication conventions and practices when discussing, seeking or sharing information
Planning and organisation	<ul style="list-style-type: none"> Systematically gathers and analyses information, reviews information and evaluates options in order to inform decisions about compliance requirements

Assessment Requirements for FNSFMK416 Conduct work within financial markets compliance framework

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify and escalate possible breaches of regulatory requirements or organisational policies in accordance with organisational procedures on at least three separate occasions.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational, legislative and regulatory requirements relevant to own job role
- industry codes of practice relevant to own job role
- organisational policies and procedures relevant to workplace
- key elements of the regulatory framework for financial markets including:
 - laws and regulations
 - industry standards, conventions and guidance documents
 - ethics
 - organisational policies and procedures
- primary market regulators in Australia and overseas, including:
 - Australian Securities and Investments Commission (ASIC)
 - Australian Prudential Regulation Authority (APRA)
 - Australian Transaction Reports and Analysis Centre (AUSTRAC)
 - Australian Competition and Consumer Commission (ACCC)
- regulatory and reporting obligations and processes relating to:
 - trade reporting
 - privacy
 - money laundering
 - overseas registration requirements for swaps dealers/substituted compliance

- client disclosures
- market misconduct
- individual work requirements and practices as contained in position description and occupational standards.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations and codes of conduct relevant to own job role
- information about relevant professional associations required to produce the performance evidence
- organisation policies and procedures relevant to own job role.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK513 Undertake assessment of product and advice suitability for non-retail clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to assess client needs, determine suitability of appropriate product and advice needs of the client, and monitor and review this periodically.

The unit applies to individuals who use analytical skills and systematic approaches to evaluate a client's business needs, exposures, expertise and knowledge in financial markets before determining whether the product and services that the organisation can provide are suitable for the client and consistent with client expectations.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Research and investigate needs and services required by client	1.1 Investigate financial needs of client, including objectives, risk tolerance and types of services client is seeking 1.2 Gather information necessary to assess client knowledge and experience in financial products according to regulatory and organisational requirements 1.3 Confirm all onboarding requirements have been met, including required organisational and regulatory documentation
2. Assess and provide	2.1 Assess client's financial needs to determine appropriate product

ELEMENT	PERFORMANCE CRITERIA
suitable product	<p>and advice consistent with client needs and organisational capability</p> <p>2.2 Advise client of applicable product or advice</p> <p>2.3 Complete required documentation and tasks to ensure compliance with organisation's client suitability framework</p> <p>2.4 Communicate assessment to required team members and client according to organisational policies and procedures</p>
3. Monitor and review client needs and product suitability	<p>3.1 Conduct periodic reviews of client needs and product suitability</p> <p>3.2 Monitor and record changes to client's financial needs and objectives relevant to provided product and/or advice</p> <p>3.3 Communicate to required team members whether existing product and advice remains fit for purpose</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning skills to confirm understanding and seek feedback Presents and clarifies information using tone, pace and language applicable to audience and purpose
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation and records from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Uses language, terminology and concepts to convey and confirm explicit information and requirements Prepares logically structured documents using appropriate format and style for audience and purpose
Planning and organising	<ul style="list-style-type: none"> Plans and sequences complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness
Problem solving	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes for complex and non-routine situations
Self-management	<ul style="list-style-type: none"> Selects and uses applicable conventions and protocols when communicating with clients to build rapport, seek and share information, establish clear agreement and maintain an ethical service relationship Works independently or with others in making decisions to

Skill	Description

Assessment Requirements for FNSFMK513 Undertake assessment of product and advice suitability for non-retail clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- apply organisation's product and advice suitability framework to at least one client.

In the course of the above, the candidate must:

- evaluate client information to establish client financial situation, knowledge and experience in financial markets
- assess client needs and risk profile
- determine suitable products or advice for client
- conduct review of client product and advice suitability
- report on ongoing suitability or unsuitability of the product and advice for the client
- comply with organisational practices when assessing client product and advice suitability.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- definitions of client suitability and elements of established client suitability frameworks
- types of client categorisations and implications on product and advice suitability
- organisational processes for assessing client product and suitability of advice
- regulatory requirements that may affect assessment of client suitability
- range of products available in a particular asset class
- documentation required for trading in financial products including ISDA Master Agreements.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables required to produce the performance evidence
- regulations and codes of practice required to produce the performance evidence
- organisational and industry standards relating to client and product suitability.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK514 Complete confirmation and settlement processes

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to check dealing transaction information to complete confirmation and settlement processes.

The unit applies to individuals who use specialised knowledge and systematic approaches to complete confirmation and settlement processes for both automated and manual settlements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Validate trades	1.1 Validate trades by checking details of transaction recorded on internal trading system to information communicated to clients by front office 1.2 Follow up any discrepancies with front office before initiating confirmation flow
2. Confirm trades	2.1 Create confirmation outlining details of the trade in line with conditions outlined in master agreement 2.2 Forward draft confirmation to appropriate personnel for checking before sending to client 2.3 Forward confirmation to client after complying with internal checking protocols 2.4 Investigate confirmation discrepancies with appropriate personnel

ELEMENT	PERFORMANCE CRITERIA
	2.5 Follow up outstanding confirmations with client to ensure settlement flow can be actioned within settlement timeframe 2.6 Comply with internal process when checking client approval of trade confirmations 2.7 Initiate settlement flow for confirmed trades if all confirmation requirements are met 2.8 Comply with organisational processes for monitoring and resolving longer-dated outstanding client confirmations
3. Determine settlement details and instructions	3.1 Identify details of settlement and settlement instructions, and if inconsistent with standard settlement instructions, follow up with counterparty 3.2 Review organisational records on client or counterparty practices for additional instructions if required 3.3 Clarify uncertainties around settlement instructions or details with stakeholders
4. Complete settlement procedures	4.1 Check data recorded on internal systems for accuracy and adjust details if required 4.2 Action settlement, if both counterparties agree with settlement details, according to confirmed settlement procedures in line with organisational and industry requirements 4.3 Clarify or escalate unusual transactions or transactions that have not settled

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interprets and checks accuracy of information from a range of sources to determine and confirm work requirements
Writing	<ul style="list-style-type: none"> Records key information and prepares documentation following organisational procedures and protocols

Assessment Requirements for FNSFMK514 Complete confirmation and settlement processes

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- complete confirmation processes for at least two different transactions
- complete settlement processes for at least two different transactions
- document at least one event where settlement does not occur as required.

In course of the above work, the candidate must:

- resolve any discrepancies in the confirmations, following organisational processes and procedures
- communicate with required stakeholders within required timeframes to resolve uncertainties around the settlement process.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational and industry confirmation and settlement systems and procedures
- key causes of discrepancies in confirmations
- validation systems and processes
- financial markets products including settlement processes, lifecycle of trades and accounting principles related to the product
- risks in the settlement process and consequences of settlement risk
- integrated financial software systems and data
- methodologies for data interpretation and analysis
- purpose and key features of confirmation documentation, methods and processes.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables required to produce the performance evidence
- an integrated financial software system and data.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK516 Review and confirm human resources and IT systems satisfy requirements of licence

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required by a responsible manager for an Australian Financial Services (AFS) licensee to assist with confirming human resources and information systems meet business needs as well as licence compliance requirements. This involves assessing licence requirements, assessing adequacy of staffing levels and information technology (IT) systems and implementing necessary adjustments.

It applies to individuals who carry out work as a responsible manager for an AFS licensee.

Work functions in the occupational areas where this unit is used may be subject to regulatory requirements. Refer to the relevant regulator for specific guidance on requirements.

Unit Sector

Regulation, licensing and risk – Compliance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Review regulatory and licence requirements	1.1 Analyse relevant regulatory requirements, regulator guidance, and organisational licence conditions and obligations 1.2 Identify compliance requirements for provision of financial services by the organisation 1.3 Analyse the alignment of the business unit or organisation with licence requirements
2. Assess adequacy of staffing levels and skills for meeting	2.1 Review and analyse staffing levels of organisation or business unit against licence requirements 2.2 Identify and review skills and knowledge required by staff to

licence requirements	<p>adhere to licence requirements</p> <p>2.3 Monitor staff performance metrics to identify areas where skills and knowledge of staff indicate concerns or potential breaches</p> <p>2.4 Escalate concerns or potential breaches where staff knowledge and skills create a compliance risk for the organisation</p>
3. Assess adequacy of IT systems for meeting licence requirements	<p>3.1 Review and analyse IT system metrics of organisation or business unit against licence requirements</p> <p>3.2 Monitor and analyse developments in cyber security and data privacy requirements</p> <p>3.3 Escalate concerns or potential breaches where IT systems create a compliance risk for the organisation</p> <p>3.4 Communicate to staff their responsibilities for ensuring that there are no breaches of regulatory requirements for protecting data in IT systems</p>
4. Monitor compliance with licence obligations	<p>4.1 Identify and assess implications of changes in business strategies of the organisation and priorities for the licence</p> <p>4.2 Assess implications of changes to licence obligations for business unit or staffing and IT systems of the organisation</p> <p>4.3 Monitor and evaluate alignment of staffing and IT systems of the organisation with licence requirements according to organisational timelines</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning techniques to elicit the views and opinions of others and to confirm understanding with consideration of context, purpose and audience
Reading	<ul style="list-style-type: none"> Analyses complex textual information from a range of sources and relates specific aspects of information to requirements
Writing	<ul style="list-style-type: none"> Records and reports information using clear language and organisational templates and formats
Teamwork	<ul style="list-style-type: none"> Uses interpersonal skills to establish and enhance rapport with and between team members
Initiative and enterprise	<ul style="list-style-type: none"> Monitors implementation and manages communication Critically analyses data generated in automated processes and systems for validity

SKILL	DESCRIPTION
Self-management	<ul style="list-style-type: none">• Maintains knowledge of changes to regulations relevant to own rights and responsibilities and considers implications of these when planning and undertaking work
Technology	<ul style="list-style-type: none">• Uses industry standard digital technologies and systems to access information, search and enter data, present information and communicate with others

Assessment Requirements for FNSFMK516 Review and confirm human resources and IT systems satisfy requirements of licence

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- Conduct an assessment of the human resources and IT systems of one organisation or business unit for compliance with licence requirements.

In the course of the above, the candidate must:

- obtain relevant metrics to assess compliance with requirements of licence
- identify adjustments in human resources and IT systems required to comply with requirements of licence.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational licence conditions and regulatory requirements including regulator guidance
- legislative and regulatory requirements specific to IT policy and practice including:
 - cyber resilience
 - systems disaster recovery
 - security, storage and communication of different types of data and information
 - privacy legislation
- organisational metrics for monitoring performance and IT systems
- developments in cyber security and data requirements
- business continuity and disaster recovery procedures
- key types of potential breaches of regulatory requirements and licence obligations pertaining to IT systems, including
 - breaches of the privacy legislation

- security vulnerabilities
- potential cyber risks
- network access control breaches
- internal procedures for escalation of potential breaches
- responsibilities of staff for monitoring compliance of IT systems with regulatory requirements including:
 - cyber security
 - communication of data and information.
- human resource responsibilities including strategies to monitor staff training needs and staff performance.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes required to determine licence requirements
- office equipment, technology, software and consumables required to produce the performance evidence
- operating organisational software systems and data required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK517 Analyse risk mitigation in the operations process

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to analyse risks in the financial market operations process and determine appropriate mitigation and treatment methods.

It applies to individuals with highly specialised knowledge who use analytical skills and systematic approaches to make judgements and provide organisational advice relating to risk.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine financial market operation risk profiles	1.1 Identify types and characteristics of financial market risks relevant to the operations process of the organisation 1.2 Analyse operations processes to detect risk 1.3 Assess operations processes of the organisation for exposure to identified financial market risks using existing measures and relevant risk measurement techniques and tools 1.4 Rank identified risks against likelihood and organisational impact
2. Develop risk mitigation strategy	2.1 Consider risk mitigation options and treatments for each risk identified in operations process 2.2 Select appropriate treatment options 2.3 Determine financial and non-financial costs and benefits arising from treatment options

ELEMENT	PERFORMANCE CRITERIA
	2.4 Review adequacy of existing controls, and establish need for additional or alternative controls
3. Develop risk mitigation recommendations	3.1 Identify and establish personnel and resources necessary to carry out actions 3.2 Develop viable recommendations to management to mitigate organisational risks 3.3 Establish key indicators to monitor the effectiveness of the risk mitigation process

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Analyses complex information from a range of sources to determine requirements and complete necessary actions
Writing	<ul style="list-style-type: none"> Prepares formal and informal documents using appropriate terminology and clear language and concepts appropriate for the audience and purpose
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning skills to disseminate, present and clarify information
Numeracy	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations relating to financial data
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with personnel
Self-management	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload Uses formal analytical processes to identify potential problems and lateral thinking processes to generate possible solutions Applies systematic and analytical decision-making processes to select appropriate options in complex and non-routine situations

Unit Mapping Information

Supersedes and is equivalent to FNSFMK507 Analyse risk mitigation in the operations process.

Assessment Requirements for FNSFMK517 Analyse risk mitigation in the operations process

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- analyse risks and develop mitigation treatment for at least two operations processes.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of financial markets products and services
- key financial markets risks
- organisational operations processes and operations processing systems
- methods of determining suitability of risk treatment options for particular applications
- key features of relevant financial services legislation, industry code or practice requirements
- risk analysis techniques and tools
- issues relating to the range of possible financial risk treatment options
- characteristics of key types of financial markets risk arising in the operations process.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- financial services organisational data
- access to relevant financial services legislation, industry code or practice policy documentation.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK518 Monitor and process collateral

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to monitor collateral activity, process collateral and manage disputes.

The unit applies to individuals who use highly specialised knowledge, analytical skills and systematic approaches for problem solving and making judgements about financial decisions in complex situations.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess collateral support documentation	1.1 Assess credit support annexe (CSA) against operational capabilities, and regulatory requirements relating to processing collateral 1.2 Identify required changes to CSA established by organisation with specified counterparty 1.3 Communicate required changes to person/s as set out in organisational procedures and processes
2. Monitor collateral activity	2.1 Monitor collateral systems for outstanding trades with counterparties 2.2 Undertake daily market value of trades using source of pricing specified in CSA

ELEMENT	PERFORMANCE CRITERIA
	2.3 Comply with internal control process to ensure marking to market of trades is consistent with previous day's value 2.4 Investigate and resolve or escalate discrepancies in line with organisational processes 2.5 Seek agreement from counterparty to proceed with collateral obligation 2.6 Conduct checks before initiating settlement of collateral in line with organisational controls
3. Manage collateral disputes	3.1 Identify differences in valuations to those provided by counterparty 3.2 Investigate differences by reconciling trade details against records of trades provided by counterparty 3.3 Compare internal calculation of mark to market of trades to those provided by counterparty and agree on use of pricing data 3.4 Investigate difference by checking calculation methodology used by both parties 3.5 Apply default calculation methodology if no resolution reached among counterparties 3.6 Document and escalate unresolved disputes to appropriate personnel as required
4. Identify collateral defaults	4.1 Investigate and escalate non-settlement or fails of agreed collateral to appropriate risk stream in line with service level agreements 4.2 Escalate collateral default to person/s as set out in organisational procedures and standards

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interprets and checks accuracy of information from a range of sources to determine and confirm work requirements
Writing	<ul style="list-style-type: none"> Records key information and prepares written material following organisational procedures and protocols Prepares formal and informal documents using required terminology, clear language and concepts appropriate for the <i>audience</i> and purpose

Skill	Description
Numeracy	<ul style="list-style-type: none">• Uses mathematical equations to perform calculations to determine trends and compare financial information
Self-management	<ul style="list-style-type: none">• Takes responsibility for provision of secure and applicable information according to legal and organisational requirements and within required timeframes• Selects and uses applicable conventions and protocols when communicating with clients
Planning and organising	<ul style="list-style-type: none">• Accepts responsibility for planning and sequencing complex tasks and workload
Technology	<ul style="list-style-type: none">• Uses main features and functions of digital tools and systems to complete work tasks, store data and access information

Unit Mapping Information

Supersedes and is equivalent to FNSFMK508 Monitor and process collateral.

Assessment Requirements for FNSFMK518 Monitor and process collateral

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage at least one collateral dispute with a counterparty, including:
 - investigating differences in valuations by checking the calculation methodology
 - escalating and documenting unresolved disputes as specified by organisational procedures
 - assessing collateral documentation to ensure compliance with operational and regulatory requirements
 - accessing systems to monitor collateral activity, and determine adjustments in financial positions
 - complying with organisational requirements and industry codes of practice.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- relevant financial products
- purpose and key features of collateral agreements
- market and regulatory factors which impact collateral
- systems to monitor collateral activity
- legal and organisational requirements for collateral agreements
- industry codes of practice and organisational processes for managing collateral disputes and defaults.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software systems and consumables required to produce the performance evidence
- an integrated financial software system and data required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK520 Develop and monitor risk management strategies for client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit covers the skills and knowledge required to analyse client needs, develop applicable risk management strategies and monitor client positions on an ongoing basis.

The unit applies to individuals who have a knowledge of financial markets, are able to interpret and analyse market trends and develop customised solutions for clients.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse client needs, objective and tolerance to risk	1.1 Identify client needs, objective and tolerance to risk 1.2 Assess implications of applicable market trends and product data to client situation and needs 1.3 Comply with organisational protocols, regulatory requirements and applicable codes of conduct prior to developing risk management solutions for client 1.4 Provide client with analysis of market trends and product data according to organisational communication policies and procedures
2. Develop risk management strategy	2.1 Identify risk management strategies consistent with client needs 2.2 Explain proposed risk management strategies, outlining benefits

ELEMENT	PERFORMANCE CRITERIA
for client	<p>and risks to client</p> <p>2.3 Assess client's understanding of proposed risk management strategy, and refer to further advice if required</p> <p>2.4 Obtain client acceptance of risk management strategy</p>
3. Maintain client financial positions	<p>3.1 Undertake ongoing monitoring of client positions</p> <p>3.2 Consult regularly with client about market developments that may impact on strategy</p> <p>3.3 Adjust risk management strategy if and as required</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Researches and evaluates complex textual information from a range of sources to determine requirements and complete necessary actions
Writing	<ul style="list-style-type: none"> Produces logically structured documentation using style and protocols appropriate for audience and purpose Uses appropriate language, terminology and concepts to convey and confirm explicit information and requirements
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening, questioning skills and clear language to present and clarify complex information Effectively presents detailed information using language, tone and pace appropriate to audience and purpose
Numeracy	<ul style="list-style-type: none"> Uses comparative analysis techniques and mathematical equations to perform calculations, make comparisons and determine trends Evaluates complex numerical information and financial data
Self-management	<ul style="list-style-type: none"> Follows organisational policy, procedures and protocols, and regulatory requirements relevant to own role Takes responsibility for ensuring that information and suggestions to client comply with regulators, industry and organisational requirements Follows and stays updated on market trends through a range of sources including research reports and data releases
Technology	<ul style="list-style-type: none"> Uses main features and functions of digital tools to complete work tasks and access information

Unit Mapping Information

Supersedes and is equivalent to FNSFMK510 Prepare trading strategies for clients.

Assessment Requirements for FNSFMK520 Develop and monitor risk management strategies for client

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify risks to the client and develop at least two different risk management strategies.

In the course of the above, the candidate must:

- comply with organisational guidelines and applicable codes of conduct
- to develop risk management solutions for client
- when communicating with clients
- take required steps to assess client's understanding of the proposed strategy before implementation
- analyse impact of market trends
- monitor client financial position and adjust where warranted
- follow organisational protocol when the query is beyond their authority or knowledge.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- financial products that can be traded in a particular asset class
- key market trends and drivers within financial markets and their impact on an asset class
- technical and fundamental analysis of financial markets
- passive and active investment styles used in portfolio management
- types of risk management strategies
- regulatory and organisational guidelines or codes of conduct when dealing with and providing risk solutions to clients.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- common office equipment, technology, software and consumables required to produce the performance evidence
- risk related case studies and client scenarios
- organisational records, policies and procedures required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK521 Analyse financial markets and information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to interpret and assess market information, analyse the impact of economic and regulatory trends, and summarise and communicate findings.

The unit applies to individuals who source, interpret and synthesise market trends and information in order to evaluate the impact on the organisation and clients.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and source market information	1.1 Formulate economic or financial issue for organisation or client to be addressed in the analysis 1.2. Identify market indicators and information required to complete the analysis 1.3 Identify reliable sources of information on changes to governmental economic policies and regulatory framework that may affect financial markets 1.4 Evaluate validity, reliability and relevance of information sources to the analysis
2. Interpret and analyse market information	2.1 Interpret market indicators to determine market and economic trends

ELEMENT	PERFORMANCE CRITERIA
	2.2 Synthesise market consensus views on the outlook for the market and sector 2.3 Evaluate likely impact if market events differ from market expectations 2.4 Assess impact of regulatory change in Australia and overseas on the outlook for financial markets 2.5 Consider and assess impact of national and international political events on the outlook for financial markets
3. Apply and communicate research findings	3.1 Determine implications of market analysis for economic or financial issue 3.2 Explain implications of market analysis to relevant stakeholders 3.3 Comply with organisational guidelines and codes of conduct when using and communicating data and market information

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Systematically researches and analyses complex information required for role
Writing	<ul style="list-style-type: none"> Produces logically structured documentation using formats, style and protocols appropriate for audience and purpose Uses clear language and correct terminology to convey complex information
Oral communication	<ul style="list-style-type: none"> Determines and confirms requirements, using questioning and active listening Clearly explains detailed information using language, tone and pace appropriate to audience Participates effectively in verbal exchanges to share and present information and concepts appropriate for audience and purpose
Numeracy	<ul style="list-style-type: none"> Uses mathematical equations and statistical techniques, and performs elementary probability calculations relating to financial and numerical information
Self-management	<ul style="list-style-type: none"> Takes responsibility for delivering within required timeframes and relevant information according to ethical, legal and organisational requirements Selects and uses required conventions and protocols when liaising or sharing information with clients or personnel

	<ul style="list-style-type: none"> • Applies systematic and analytical decision-making processes to make recommendations for complex and non-routine situations • Apply sound inductive reasoning to ensure consistency of interpretations based on available information
Planning and organising	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload
Initiative and enterprise	<ul style="list-style-type: none"> • Critically analyses data generated in automated processes and systems for validity
Technology	<ul style="list-style-type: none"> • Uses main features and functions of digital tools to complete work tasks and access information

Unit Mapping Information

Supersedes and is equivalent to FNSFMK501 Analyse financial markets and information.

Assessment Requirements for FNSFMK521 Analyse financial markets and information

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- analyse market indicators and market outlook to assess the implications for three different economic or financial issues.

In the course of the above, the candidate must:

- work within legal and ethical constraints
- assess current economic environment and develop predictions for the level of economic or financial activity in the future
- synthesise views on market outlooks
- explain impact of regulatory change on prices and behaviour of financial markets
- identify and interpret market indicators
- comply with organisational guidelines and codes of conduct when using and communicating data and market information
- evaluate and communicate the impact of an unexpected change in market conditions or a regulatory change on the stakeholder situation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- roles played in financial markets and financial services by participants including governments, domestic and international market regulators, central banks, intermediaries, investors, and borrowers
- methods for interpreting key market and international indicators, including inflation, wages and labour force, and gross domestic product
- interrelationships between key market sectors including interest rate markets, foreign exchange markets, and equity markets

- structure and interrelationships in the economic environment including market drivers, government monetary and fiscal policies, interest rates, exchange rates, and inflation
- impact on economic and financial analysis of political and environmental factors including:
 - national and international political events and resultant changes in economic structure and flows
 - changes in regulatory environment
- rules and guidelines for use and communication of market information specified in regulation, industry conventions, codes of conduct and organisational guidelines.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables required to produce the performance evidence
- financial market related case studies and client scenarios
- financial services product information
- regulation required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK522 Apply financial product knowledge in the context of the deal transaction cycle

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to carry out work tasks in financial markets. It involves analysing financial products used by market participants and applying that knowledge in the workplace.

It applies to individuals who use well-developed skills and a broad knowledge of financial products to work in a range of roles in financial markets. They apply solutions to a range of unpredictable problems and analyse and evaluate information from a variety of sources.

Work functions in the occupational area where this unit is used are determined by the job role of the individual and in some circumstances may be subject to regulatory requirements. Refer to the relevant regulator for specific guidance on requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse financial markets products and their characteristics	1.1 Review the relationship between risk and return for financial products 1.2 Compare different types of financial products traded in exchange-traded and over-the-counter (OTC) markets and the variables impacting their pricing 1.3 Assess the capabilities, benefits and risks of different physical and derivative financial products 1.4 Identify risk management strategies to manage the risks inherent

ELEMENT	PERFORMANCE CRITERIA
	in the financial products 1.5 Discuss how and why various financial market products are used by market participants
2. Analyse the deal transaction cycle	2.1 Identify categories of trading strategies 2.2 Differentiate the trading processes for exchange-traded and OTC markets 2.3 Outline the steps in the trading, clearing and settlement processes for exchange-traded financial products 2.4 Determine the steps for trading, confirming, settling, reconciling and managing collateral for OTC products 2.5 Identify risks and risk management strategies in transaction processes for financial markets products
3. Maintain financial market knowledge	3.1 Assess the impact of technological and regulatory factors on financial products and how they are traded and processed 3.2 Maintain professional competence in market knowledge in accordance with codes of conduct and regulatory and organisational requirements 3.3 Implement processes for maintaining up-to-date knowledge of relevant aspects of financial markets

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Analyses complex textual information from a range of sources and relates specific aspects of information to requirements
Writing	<ul style="list-style-type: none"> Records information using clear language and organisational templates
Initiative and enterprise	<ul style="list-style-type: none"> Critically analyses changes in regulation and organisational procedures
Self-management	<ul style="list-style-type: none"> Keeps up-to-date on changes to regulations relevant to own role and considers their implications when planning and undertaking work
Technology	<ul style="list-style-type: none"> Uses industry standard digital technologies and systems to access information, and search and enter data

Unit Mapping Information

No equivalent unit. New unit.

FNSFMK523 Comply with requirements of licence and regulatory framework

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to assist with ensuring compliance with requirements of an Australian Financial Service Licence (AFSL) and financial markets regulatory framework. This involves monitoring regulatory change, changes to business that may affect compliance with AFSL requirements and assisting in creating a culture of accountability.

It applies to responsible managers for the AFSL of the organisation.

Work functions in the occupational areas where this unit is used may be subject to regulatory requirements. Refer to the relevant regulator for specific guidance on requirements.

Unit Sector

Regulation, licensing and risk – Compliance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Monitor licence and regulatory change	1.1 Identify compliance requirements of AFSL and regulatory obligations applying to the organisation's business activities 1.2 Review licence on an ongoing basis to ensure any changes to organisational strategies or product and service offerings are meeting licence requirements and regulatory obligations 1.3 Evaluate the impact of regulatory changes on the organisation or business unit
2. Monitor and report risks and vulnerabilities	2.1 Identify risks and vulnerabilities that may impact on the organisation's compliance with AFSL requirements

	<p>2.2 Review a range of operational controls to detect possible breaches of licence</p> <p>2.3 Investigate alerts triggered by controls and address breaches according to organisational policies and procedures</p> <p>2.4 Analyse trends in data generated by procedural controls to determine the effectiveness of reporting systems</p> <p>2.5 Report areas identified as needing improvement to parties responsible for those areas</p> <p>2.6 Confirm that remedial action has been agreed upon and completed</p>
3. Communicate regulatory change to the organisation or business unit	<p>3.1 Ensure new regulatory requirements and codes of practice are integrated into organisational compliance processes and internal policy documents</p> <p>3.2 Contextualise and communicate implications of regulatory change for business processes and procedures to staff</p> <p>3.3 Incorporate compliance issues and procedures into practice guidelines and document appropriately</p> <p>3.4 Report to the board on compliance with regulatory framework for the organisation or business unit</p>
4. Assist in creating a culture of accountability	<p>4.1 Communicate and confirm accountabilities and responsibilities to team members consistent with their capabilities and the operational plans of the organisation</p> <p>4.2 Support staff in developing their compliance awareness and competence</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Oral communication	<ul style="list-style-type: none"> Participates in exchanges to elicit and verify information using careful listening and questioning techniques with consideration of context, purpose and audience Uses active listening and questioning techniques to elicit the views and opinions of others and to confirm understanding
Reading	<ul style="list-style-type: none"> Analyses complex textual information from a range of sources and relates specific aspects of information to requirements
Writing	<ul style="list-style-type: none"> Accurately records and reports information using clear language and organisational templates and formats
Teamwork	<ul style="list-style-type: none"> Develops interpersonal skills to establish and enhance rapport with

SKILL	DESCRIPTION
	and between team members
Initiative and enterprise	<ul style="list-style-type: none"> • Monitors implementation and manages communication • Critically analyses changes in regulation and organisational procedures
Self-management	<ul style="list-style-type: none"> • Keeps up to date on changes to regulations relevant to own rights and responsibilities and considers implications of these when planning and undertaking work • Accepts responsibility for planning and sequencing complex tasks and workload
Technology	<ul style="list-style-type: none"> • Uses industry standard digital technologies and systems to access information, search and enter data, present information and communicate with others

Assessment Requirements for FNSFMK523 Comply with requirements of licence and regulatory framework

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- conduct a review of one organisation or business unit to determine requirements of compliance with AFSL and regulatory framework.

In the course of the above, the candidate must:

- assess viability of current controls and their compliance with requirements of licence and regulatory frameworks
- communicate and confirm operational controls reliance with appropriate personnel
- communicate strategic issues to different groups of stakeholders
- build compliance capabilities of teams.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key principles of AFSL and relevant legislation
- types of compliance breaches and breach reporting standards
- types of mitigation controls for monitoring risk
- techniques and performance indicators for monitoring the operation of compliance
- organisational operational controls including breach of licence controls
- key resources required by staff in meeting compliance objectives, including training programs, technology and support staff.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- regulations, standards and codes required to determine compliance framework
- office equipment, technology, software and consumables required to produce the performance evidence
- operating organisational software systems and data required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK524 Conduct work within financial markets organisational risk management framework

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to examine the likelihood of risks in financial markets and their consequences and assess the organisation's exposure to those risks.

It applies to individuals who use specialised knowledge within a financial markets' context, and who use systematic approaches to problem solving and make recommendations within organisational processes and procedures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Risk management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Research financial markets organisational risk management framework	1.1 Research the main risks for financial markets 1.2 Analyse the impact of regulatory and technological changes on the financial markets risk landscape 1.3 Research risk mitigation strategies and controls used for managing key financial markets risks 1.4 Identify the key risks outlined in the risk management framework of the organisation

2. Identify and assess individual risk management responsibilities	<p>2.1 Identify individual role in relation to the three lines of defence</p> <p>2.2 Identify key risks for the organisation relevant to own job role</p> <p>2.3 Analyse the link between own Key Performance Indicators (KPIs) and the risk framework of the organisation</p>
3. Review individual work practices	<p>3.1 Critically analyse work tasks and processes to identify potential risks</p> <p>3.2 Analyse controls used to detect and prevent risks associated with own job role</p>
4. Respond to risk events	<p>4.1 Assess anomalies in data or processes</p> <p>4.2 Escalate anomalies in data or processes according to organisational policies and procedures</p> <p>4.3 Record relevant information in relation to risk event, including any required actions</p>
5. Identify and monitor ongoing requirements of risk management	<p>5.1 Monitor organisational risks within responsibility of own job role</p> <p>5.2 Identify and research ongoing issues relating to financial markets organisational risk management frameworks</p> <p>5.3 Monitor and respond to changes to risk management framework requirements and organisational procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Uses a range of formats and structures to report and present information logically
Oral Communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to convey information and elicit the views and opinions of internal and external personnel Clearly explains detailed information using concepts, language, tone and pace appropriate to the audience
Problem Solving	<ul style="list-style-type: none"> Identifies and resolves key business issues, processes and practices that may have legal or organisational implications Uses formal analytical thinking techniques to identify or predict issues and generate possible solutions

SKILL	DESCRIPTION
Self-management	<ul style="list-style-type: none">• Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness• Investigates new and innovative ideas as a means to continuously improve work practices and processes through consultation, and formal analytical thinking
Technology	<ul style="list-style-type: none">• Uses digital systems and technologies to enter, store or access information

Unit Mapping Information

No equivalent unit. New unit.

Assessment Requirements for FNSFMK524 Conduct work within financial markets organisational risk management framework

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- identify at least two risks relevant to own job role.

In the course of the above, the candidate must:

- liaise and communicate with required persons for escalations
- evaluate consequence of unmitigated risks for the organisation
- analyse own work environment to identify anomalies that may indicate risk
- critically assess data and processes in own work environment to identify risk.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key risk management principles and practices, including:
 - risk tolerance, appetite, exposure, detection, and prevention
 - risk mitigation strategies and controls used for managing key financial markets risks
 - key steps of the risk management process
 - the three lines of defence
 - risk evaluation criteria
 - risk maps
 - prioritisation methods
 - residual risk
 - risk culture
- organisational policies, procedures and operational guidelines relating to risk evaluation criteria and risk assessment
- the effects of regulatory and technological change on the financial markets risk landscape

- methods for identifying data and process anomalies
- organisational policies and procedures for escalation of anomalies and risk events.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- relevant organisational policies and procedures, legislation, regulations and codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK525 Analyse clients' financial risk

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to determine a client's financial risk profile, assess risk management options, produce detailed reports, and provide findings to authorised representatives and other stakeholders.

The unit applies to those with specialised knowledge who use analytical skills and systematic approaches to advise and make recommendations in their area of responsibility. Information relating to clients' financial risk may come from authorised representatives, including financial advisers, or from shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine client's financial situation and risk profile	1.1 Confirm client's financial needs, expectations and objectives according to organisational requirements 1.2 Obtain valid and relevant information to determine complexity of client needs and client's current asset and liability management framework 1.3 Assess risk based on understanding of client's personal situation, and operating environment or core business 1.4 Establish client's risk tolerance level and discuss with client to

ELEMENT	PERFORMANCE CRITERIA
	confirm risk profile
2. Assess product risk relative to client's risk profile	<p>2.1 Develop assessment criteria for measuring level of potential and existing risk and for assessing associated consequences according to organisational policies and procedures</p> <p>2.2 Identify range of products that meet client objectives</p> <p>2.3 Access information on risks associated with these products and investment risk profile using appropriate analytical techniques</p> <p>2.4 Assess and compare risk of financial products based on understanding of client's personal situation, operating environment and core business</p>
3. Assess risk management options	<p>3.1 Evaluate alternative products according to risk assessment and client requirements and estimate short-term and long-term effects</p> <p>3.2 Identify, analyse and discuss incidents and factors affecting financial performance with authorised representative</p> <p>3.3 Determine strategy recommendations based on product evaluation and confirm viability with authorised representative</p> <p>3.4 Confirm with authorised representative client's understanding of risks relating to potential strategy recommendations</p>
4. Report findings	<p>4.1 Document risk management alternatives according to legislative and organisational requirements</p> <p>4.2 Prepare retail client disclosure documents that outline client responsibilities</p> <p>4.3 Update, modify and maintain client information according to legislative and organisational requirements</p> <p>4.4 Prepare and file risk analysis documentation according to legislative and organisational requirements</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and comparative analysis techniques to determine trends and compare financial information
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to confirm understanding
Reading	<ul style="list-style-type: none"> Analyses and evaluates complex information from a range of sources

SKILL	DESCRIPTION
	to determine requirements and complete necessary actions
Writing	<ul style="list-style-type: none"> Records and maintains written information using formats and protocols Prepares formal and informal documents using terminology, language and concepts relevant for the audience and purpose
Planning and organising	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes to make recommendations in complex and non-routine situations
Self-management	<ul style="list-style-type: none"> Takes responsibility for the provision of timely, accurate, secure and relevant information according to legal and organisational requirements Accepts responsibility for planning and sequencing complex tasks and workload
Teamwork	<ul style="list-style-type: none"> Selects and uses relevant conventions and protocols when liaising or sharing information with authorised representatives
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks, store data and access information

Assessment Requirements for FNSFMK525 Analyse clients' financial risk

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- analyse the financial risk profile of at least two different clients.

In the course of the above, the candidate must:

- interpret and comply with legislative requirements
- assess the impact of financial risks to each client and recommend strategies to control risk
- review and prepare risk assessment findings.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- ethics and regulatory requirements relating to analysing clients' financial risk, including:
 - key features of relevant legal principles
 - disclosure and compliance requirements
- organisational policies and procedures for establishing client risk profiles and required reporting
- key principles for managing investment and risk
- financial information sources and products
- client information required for risk profile assessment
- key risk characteristics
- risk assessment criteria and techniques to assess client risk profile and financial product risk
- incidents and factors in economic environment that impact financial performance, including:
 - characteristics and impacts of economic and business cycles

- government monetary and fiscal policies
- interest rates, exchange rates and inflation
- product and strategy sensitivity to conditions, including to:
 - economic cycle
 - supply and demand
 - economic data
 - exchange rates
 - interest rates
 - government and regulatory policy
 - correlation risk with other markets or asset classes
- key theories of investment and risk management.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology and software
- financial services product information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK611 Price financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to price financial transactions by assessing the risk of the transaction and the price-maker's trading portfolio, given market conditions and trading risk parameters.

The unit applies to individuals who use analytical skills and systemic approaches to evaluate market conditions, data and risk in order to price financial transactions.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish transaction details	1.1 Identify type of transaction to be priced for client 1.2 Clarify details of the trade
2. Assess risks and price transaction	2.1 Confirm transaction is within designated product dealing authority and individual market risk limit structure as a market maker 2.2 Identify source of financial data and underlying inputs required for pricing the proposed transaction 2.3 Assess risks of proposed transaction given market conditions and individual market view 2.4 Assess impact of proposed transaction on risk profile of trading portfolio to determine appropriate price

ELEMENT	PERFORMANCE CRITERIA
	2.5 Calculate price of the underlying transaction
3. Confirm price and execute transaction	3.1 Communicate price to price taker with appropriate level of transparency and comply with organisational processes regarding customer orders 3.2 Adjust price of transaction if underlying inputs move 3.3 Confirm client acceptance or rejection of transaction price, according to organisational requirements 3.4 Execute transaction within required timeframes and confirm that updated market risk profile of portfolio correctly reflects transaction

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Researches and analyses complex financial information from a range of sources Consolidates information and identifies gaps relevant to requirements
Writing	<ul style="list-style-type: none"> Records information and data using required format, terminology and conventions specific to requirements Develops material for a specific audience using clear and detailed language
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to share, convey and clarify information Uses language, terminology and concepts appropriate to audience and purpose Uses various techniques to identify different perspectives, build rapport and confirm, clarify or revise understanding
Numeracy	<ul style="list-style-type: none"> Interprets and analyses information to perform calculations and develop transaction prices
Self-management	<ul style="list-style-type: none"> Keeps up to date on changes to regulation relevant to own rights and responsibilities and considers implications of these when planning and undertaking work Accepts responsibility for planning and sequencing complex tasks and workload Takes responsibility for high impact decisions in complex situations involving many variables and constraints

Initiative and enterprise	<ul style="list-style-type: none">• Critically analyses data generated in automated processes and systems for validity
Technology	<ul style="list-style-type: none">• Uses digital tools to access and organise complex data and analyse multiple sources of information for strategic purposes

Unit Mapping Information

Supersedes and is equivalent to FNSFMK601 Price financial transactions.

Assessment Requirements for FNSFMK611 Price financial transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- calculate price from relevant sources for at least two financial transactions.

In the course of the above work, the candidate must:

- confirm details of transaction, including dates, volume, side of spread, client order for the purpose of pricing
- evaluate risks of proposed transaction against existing exposures and market conditions
- calculate price of transaction.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational and regulatory factors which may impact pricing and products
- transaction pricing principles and input variables, and impact of changes
- financial products in a select asset class
- market drivers and their impact on asset classes and transaction price, including market conditions and related market view
- market conventions for pricing financial products and transactions
- client order types – indicative, live, working an order and stop loss
- organisational guidelines for managing client orders
- methodologies to access and analyse complex data from multiple sources.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables required to price financial transactions
- financial markets operating software systems and data required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK612 Manage trading exposures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit covers the skills and knowledge required to manage financial risk, arising as a result of client transactions. It involves assessing existing exposures and risk appetite and then developing strategies to minimise, prevent and mitigate financial risk.

The unit applies to individuals who use analytical skills and systematic approaches to assess, review and manage trading exposures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial markets

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess risk and determine need for hedging	1.1 Review existing trading portfolio and risk appetite to determine if hedging is required 1.2 Assess risks of various underlying hedge transactions including outright risk and basis risk
2. Develop and execute hedging strategies to mitigate risk	2.1 Formulate appropriate hedging strategy to mitigate risk, in line with market conditions and organisational hedging policies 2.2 Confirm hedge is within own authority to transact and within own existing market risk limit structure as a market maker 2.3 Determine most appropriate venue for executing hedge transaction 2.4 Execute hedging strategy in accordance with organisational,

ELEMENT	PERFORMANCE CRITERIA
	industry standards and regulatory requirements. 2.5 Identify and report trading breaches in compliance to organisational processes
3. Review adjusted risk position and develop strategies to minimise risks	3.1 Assess post-transaction portfolio for inclusion of both original transaction and any subsequent hedges 3.2 Assess if position is within organisational risk tolerance and adjusted for changing market conditions

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interprets and analyses information from a range of texts including customer communication, organisational documentation and regulation
Writing	<ul style="list-style-type: none"> Prepares documentation and correspondence according to organisational formats using clear language, grammar, spelling and terminology
Numeracy	<ul style="list-style-type: none"> Interprets and analyses mathematical information to manage risk
Self-management	<ul style="list-style-type: none"> Identify roles and responsibilities of own role and makes basic decisions on work completion parameters Follows organisational policy, procedures and protocols, and regulatory requirements relevant to own role Plans and implements routine tasks and workload, making limited decisions on sequencing and timing
Technology	<ul style="list-style-type: none"> Uses main features and functions of digital tools to complete work tasks and access information

Unit Mapping Information

Assessment Requirements for FNSFMK612 Manage trading exposures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- assess risk and develop two hedging strategies to manage trading exposures.

In the course of the above, the candidate must:

- develop hedging strategies to mitigate risk in line with organisational risk tolerance
- assess risks of underlying hedge transactions and existing portfolio structure
- evaluate and adjust financial positions
- comply with organisational practices for identifying and reporting potential trading limit breaches.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- regulatory and organisational requirements for managing trading exposures
- financial market products that are traded in a particular asset class
- market risk, basis risk, value at risk (VaR)
- trading limit types
- organisational policies and procedures for managing potential trading limit breaches and risks
- risk measurement techniques such as VaR and basis point (BPS)
- market conditions and liquidity when managing financial risk
- venues for executing financial transactions
- methodologies for data interpretation and analysis.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- common office equipment, technology, software and consumables required to manage trading exposure
- organisational records, policies and procedures required for the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFMK619 Develop and implement policies and procedures to support organisational values and culture

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to develop and implement policies and procedures that embed and promote values and culture in an organisation.

It involves assessing the current state of the organisation's values and culture, modelling organisational values, embedding ethical practice into the organisation's culture and processes and promoting ethical leadership and decision making at all levels of the organisation.

It applies to responsible managers in financial services organisations, who are responsible for leading and influencing work practices and conduct in the organisation. They use cognitive and creative skills to review, critically analyse, consolidate and synthesise knowledge, in order to generate ideas and provide solutions to complex problems. They use communication skills to demonstrate their understanding of theoretical concepts and to transfer knowledge and ideas to others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Ethics and conduct

Assessment Requirements for FNSFMK619 Develop and implement policies and procedures to support organisational values and culture

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and implement policies and procedures that support organisational values and culture for at least one vulnerable area in an organisation or business unit's current practices.

In the course of the above, the candidate must:

- assess conduct risks in business unit or organisation
- establish process for reporting suspected breaches of organisational values and culture.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key requirements of licence obligations
- key features of policies and procedures, including:
 - expectations of conduct within organisation and with external stakeholders
 - strategies for implementing policies and procedures to reinforce organisational values and culture
 - strategies for application to complex ethical problems
 - reporting methods for suspected breaches and unethical conduct
- information sources of organisational values and culture, including:
 - organisation's vision and mission statements
 - financial services industry code of conduct
 - organisational code of conduct and protocols

- communication methods for promoting policies and procedures relating to organisational values and culture
- leadership styles and their application in supporting the organisation's mission, objectives and values.
- industry standard tools and techniques used for establishing metrics for implementation of policies and procedures and recording and storing data
- strategies and protocols that can be used to identify and address actions that are not aligned with organisational values.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- common office equipment, technology, software and consumables
- organisational information systems and data, including legislation, regulations, and tools required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFPL402 Prepare financial plans to set strategies and guidelines

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine and prepare a financial plan according to organisational guidelines, where a client's preferred strategies and key parameters have already been established by a qualified financial planner. It encompasses confirming financial plan objectives and scope, testing strategic assumptions, reviewing and settling a draft strategy and options according to organisational guidelines, and developing preliminary financial plans.

It applies to individuals who work within a team and use specialised knowledge and systematic approaches to recommend customised solutions for a diverse range of clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Confirm plan objectives and scope	1.1 Check plan strategy and key parameters with qualified financial planner and client 1.2 Establish research topics and review and compare research

ELEMENT	PERFORMANCE CRITERIA
	<p>results to client requirements and expectations, as set out in strategy and key parameters</p> <p>1.3 Analyse current client situation to determine opportunities and constraints within strategy boundaries</p> <p>1.4 Develop plan objectives for asset growth, income, risk, taxation and any other objectives set out in plan strategy</p>
2. Test strategic assumptions	<p>2.1 Test client related key assumptions against draft strategy</p> <p>2.2 Test and review economic key assumptions in strategy as required</p> <p>2.3 Test legislative and regulatory assumptions, including taxation assumptions, against strategy</p> <p>2.4 Obtain clarification from strategy author on any identified discrepancies</p>
3. Develop financial plan to set strategy	<p>3.1 Analyse and model strategic options set by financial planner</p> <p>3.2 Identify and discuss inconsistencies in strategic options with strategy author</p> <p>3.3 Develop financial plan according to established organisational guidelines</p>
4. Review and settle draft strategy and options	<p>4.1 Select strategic options for review and mode of presentation according to organisational guidelines</p> <p>4.2 Review each strategic option with strategy author, including positives, negatives and risks for each option</p> <p>4.3 Establish broad agreement on strategies with strategy author</p>
5. Develop preliminary financial plan	<p>5.1 Select specific products and options that meet given strategy and key parameters</p> <p>5.2 Incorporate cash flow and liquidity, and set capital preservation and/or estate planning requirements consistent with given strategy and key parameters</p> <p>5.3 Develop recommendations for financial asset allocation structure according to organisational guidelines</p> <p>5.4 Develop recommendations for changes to income and taxation arrangements, including referral advice to accountants and/or lawyers as appropriate</p> <p>5.5 Develop recommendations on risk management strategies and products, and incorporate according to organisational guidelines</p> <p>5.6 Check all recommendations to ensure consistency with given</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>strategy and key parameters, and that they meet specific objectives with high dependability of outcome</p> <p>5.7 Incorporate description of anticipated fees and charges, and information on internal and external complaints resolution procedures into the plan, where appropriate</p> <p>5.8 Document preliminary financial plan according to organisational guidelines and procedures</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 4.2, 5.6	<ul style="list-style-type: none"> Interprets and analyses information from a range of sources and records and consolidates information relevant to requirements
Writing	1.1, 1.4, 2.4, 3.2, 3.3, 4.1-4.3, 5.2-5.8	<ul style="list-style-type: none"> Prepares reports using format, terminology and conventions specific to requirements, audience and purpose Writes, edits and proofreads documents to ensure clarity of meaning, accuracy and consistency of information
Oral Communication	1.1, 2.4, 3.2, 4.2, 4.3	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to share, convey and clarify information Uses language, terminology and concepts appropriate to the audience and purpose
Numeracy	1.1-1.3, 2.2, 2.3, 3.1-3.3, 4.2, 5.2-5.7	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and comparative analysis techniques to compare financial information
Navigate the world of work	2.3, 3.3, 4.1, 5.3, 5.5, 5.8	<ul style="list-style-type: none"> Takes personal responsibility for ensuring that documentation and processes comply with policies, procedures and legislative requirements
Interact with others	1.1, 2.4, 3.2, 4.2, 4.3	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to communicate with clients, colleagues and other stakeholders Maintains knowledge of compliance legislation necessary to perform own role

Get the work done	1.1-1.4, 2.1, 2.2, 2.4, 3.1, 3.2, 4.1-4.3, 5.1-5.8	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness • Systematically gathers and analyses all relevant information and evaluates options to decide on appropriate financial plan components • Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSFPL402 Prepare financial plans to set strategies and guidelines

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- develop a preliminary financial plan for clients that:
 - complies with relevant legislative requirements, industry codes of practice and organisational procedures
 - confirms financial plan objectives and scope, and tests strategic assumptions
 - assesses the impact of taxation, social security, economic and other government policy on client investment and financial requirements
 - provides recommendations on risks and financial outlays
- work with other associated financial advisers
- accurately document a preliminary financial plan according to organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the key features of:
 - generic products available in the financial services industry
 - investment and savings vehicles, financial markets, asset classes and investment characteristics
- analyse investment risk factors and relationship to return expectations
- describe the key features of relevant industry codes of practice
- explain the requirements related to the disclosure of capacity
- explain the general impact of relevant economic, taxation and social security policy on a client's financial planning needs

- describe the general impact of relevant estate planning considerations on a client's financial planning needs
- outline the role of the financial planning adviser and the financial planning practice
- describe the key terms of relevant legislation and regulations affecting the financial planning industry.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to implement financial plans where the implementation actions are routine or predetermined.

It applies to individuals who work in a team and use organisational skills and specialised knowledge to establish administrative support and maintain quality standards.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish administrative actions needed to implement financial plan	1.1 Check financial plan to verify that implementation actions are within planner's skills, knowledge and authority 1.2 Establish implementation actions which are consistent with client needs and specifications, and prioritise timings for each action to maximise advantage to client 1.3 Establish implementation diaries and other appropriate records

ELEMENT	PERFORMANCE CRITERIA
2. Undertake required actions for implementation of financial plan	2.1 Issue implementation instructions to internal and external personnel as per plan requirements 2.2 Check and follow up actions on lodgement of documentation to ensure plan timings are met 2.3 Obtain and process fees and charges according to organisational and legislative requirements and codes of practice 2.4 Complete and document implementation actions
3. Establish administrative actions needed to review financial plan	3.1 Establish standard operating procedures for reviewing ongoing performance of plan 3.2 Ensure quality of ongoing service meets organisational and regulatory requirements, with any special arrangements agreed to with client 3.3 Issue review instructions to internal and external personnel as per plan requirements 3.4 Establish system to monitor lodged documentation to ensure plan timings are met 3.5 Establish process for ensuring fees and charges are recovered according to organisational and legislative requirements 3.6 Establish audit trails to ensure financial plans are in line with client requirements and managed in accordance with organisational procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.2, 2.3, 3.4, 3.5	<ul style="list-style-type: none"> Interprets and analyses information and products from a variety of sources to ensure appropriateness to client needs, currency and accuracy
Writing	1.2, 1.3, 2.1, 2.2, 2.4, 3.1-3.6	<ul style="list-style-type: none"> Completes documentation accurately following organisational procedures and protocols Uses clear language, correct spelling and grammar and appropriate terminology to convey information to a range of personnel and clients

Oral Communication	2.1, 2.2, 3.2, 3.3	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to share, convey and clarify information Uses language and concepts appropriate to the situation and for internal and external stakeholders
Numeracy	1.1, 2.3	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and to check the accuracy of financial information
Navigate the world of work	1.1, 2.3, 2.4, 3.2, 3.5, 3.6	<ul style="list-style-type: none"> Takes personal responsibility for ensuring that documentation and processes comply with legislation, codes of practice and organisational requirements Maintains knowledge of compliance legislation and requirements, and verifies extent of own authority
Interact with others	1.2, 2.1, 3.2, 3.3	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to communicate with clients, colleagues and external stakeholders Recognises the importance of building rapport to establish effective working relationships Collaborates and cooperates with others to achieve joint outcomes
Get the work done	1.2, 1.3, 2.2-2.4, 3.1-3.6	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSFPL403 Implement financial plans to predetermined guidelines

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- effectively administer, implement and review financial plans, including:
 - effectively compiling records and data
 - processing fees and charges for preparation and monitoring of financial plans
 - monitoring to ensure adherence to client needs and expectations
 - establishing appropriate audit trails.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify sources of information on financial products and markets
- describe the key features of:
 - financial products, financial markets and investment characteristics
 - government financial and superannuation policy
 - relevant legislation and regulations for financial planning activities
 - corporations and consumer legislation
 - industry codes of practice
- compare and contrast financial forecasting techniques
- describe methods of presenting financial data
- identify state and territory charges and taxes
- describe the skills, knowledge and levels of authority necessary to administer and implement financial plans developed to predetermined guidelines
- describe the concept of duty of care relating to personnel nominated to implement financial plans

- discuss the possible impacts of the following on client investment and financial requirements:
 - roles of associated financial advisers
 - taxation
 - social security
 - economic and other government policy.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL503 Develop and prepare financial plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to develop and prepare a financial plan that meets the client's needs. It encompasses establishing plan objectives and scope, and developing strategic assumptions, strategies and a preliminary financial plan compliant with regulatory and organisational requirements.

It applies to individuals who, within their level of authority, manage relationships, apply systematic approaches and use specialised knowledge to recommend customised solutions for a diverse range of clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish plan objectives and scope	1.1 Review research results and compare to client requirements and expectations 1.2 Analyse current client situation to determine opportunities and constraints 1.3 Identify and assess desired financial resource and market

ELEMENT	PERFORMANCE CRITERIA
	<p>parameters</p> <p>1.4 Develop plan objectives for asset growth, income, risk, taxation and any other objectives developed in consultation with client</p>
2. Develop strategic assumptions	<p>2.1 Develop and test client related and economic key assumptions</p> <p>2.2 Identify and test legislative and regulatory requirements, including taxation assumptions</p> <p>2.3 Seek clarification from client or other professionals as required and document strategic assumptions for client review</p>
3. Develop financial plan strategy	<p>3.1 Develop initial options based on strategic assumptions and client specifications</p> <p>3.2 Analyse and model strategic options and reject any inappropriate options</p> <p>3.3 Develop supporting arguments for each final strategic option and include in draft overall strategy</p> <p>3.4 Conduct any necessary client checks or consultations to verify plan strategy</p>
4. Develop preliminary financial plan	<p>4.1 Select specific products and options to meet agreed strategy with cash flow, liquidity and capital preservation or estate planning requirements incorporated as required</p> <p>4.2 Develop recommendations for financial asset allocation structure, including where provision is required for equities, trusts, partnerships, allocated pensions and superannuation, and planned capital expenditure</p> <p>4.3 Develop recommendations for changes to income and taxation arrangements, including referral advice to accountants or lawyers as appropriate</p> <p>4.4 Develop recommendations on risk management strategies and products, and incorporate in plan</p> <p>4.5 Incorporate anticipated fees and charges into preliminary plan</p> <p>4.6 Incorporate information on internal and external complaints and dispute resolution procedures available to client</p> <p>4.7 Document preliminary financial plan according to organisational guidelines and procedures</p>
5. Ensure compliance of financial plan with regulatory and	<p>5.1 Check preliminary financial plan to ensure that role of representative or adviser is properly documented and complies with relevant Acts, regulations and regulatory guidelines</p>

ELEMENT	PERFORMANCE CRITERIA
organisational requirements	5.2 Assess preliminary financial plan for its ability to successfully achieve objectives 5.3 Check preliminary financial plan to ensure that it complies with ethical and regulatory requirements
6. Produce completed plan	6.1 Produce financial plan in accordance with organisational quality control requirements 6.2 Attach relevant supporting documentation relating to products, regulatory considerations and organisational processes, including internal and external complaints procedures

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 2.2, 3.2, 5.1-5.3	<ul style="list-style-type: none"> Analyses and reviews complex information from a range of sources to identify key details, make judgements and determine requirements
Writing	1.4, 2.1, 2.3, 3.3, 3.4, 4.2-4.7, 6.1	<ul style="list-style-type: none"> Develops material to a specific audience using clear and detailed language and financial data to convey explicit information, requirements and recommendations Uses appropriate formats and structures to report and present information logically
Oral Communication	2.3, 3.4	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning skills and uses collaborative techniques to convey and clarify information appropriate to the audience and purpose
Numeracy	1.1-1.4, 2.1, 4.2, 4.5	<ul style="list-style-type: none"> Performs calculations and analyses and tests financial information to achieve required outcomes
Navigate the world of work	2.2, 4.6, 4.7, 5.1, 5.3, 6.1	<ul style="list-style-type: none"> Takes full responsibility for ensuring that documentation and processes comply with organisational policy and procedures, and regulatory and ethical requirements Maintains knowledge of compliance legislation necessary to perform role
Interact with	2.3, 3.4	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols

others		when communicating with internal and external stakeholders to seek or share information
Get the work done	1.1-1.4, 2.1-2.3, 3.1-3.4, 4.1-4.7, 5.2, 6.1	<ul style="list-style-type: none"> Plans, organises, implements and monitors work processes and tasks to meet legislative and organisational requirements and ethical standards, changing processes where necessary Systematically gathers, analyses and evaluates research findings to decide on appropriate products or advice Uses the main features and functions of digital tools to complete work tasks and to access information

Assessment Requirements for FNSFPL505 Review financial plans and provide ongoing service

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- effectively discuss, negotiate and confirm arrangements for review of a financial plan and ongoing service with clients
- develop ongoing service agreements for clients who:
 - comply with relevant legislation, regulations and industry codes of conduct
 - follow organisational procedures
- review or supervise the review of financial plans, including assessment of:
 - outcomes against changing client needs
 - impacts of taxation, social security, economic and other government policy on client investment and financial requirements
- maintain accurate documentation of records and data relating to implementation and review.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the key features of the financial planning industry, financial products, financial markets and investment characteristics
- outline common fees and charges associated with ongoing services
- compare and contrast:
 - financial forecasting techniques
 - methods of presenting financial data
- describe the key features and discuss issues relating to:
 - government financial and superannuation policy

- relevant corporations and consumer legislation
- relevant financial legislation
- industry codes of practice
- identify and outline sources of information on financial products and markets
- discuss strategies for the ongoing review and assessment of financial plans
- outline the key requirements relating to documenting financial plans.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial planning field of work and include access to:

- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSFPL607 Prepare advice in margin lending

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to analyse client needs in regard to margin lending; and prepare advice ethically, professionally and in compliance with industry regulations and codes of practice.

The unit applies to those who use well-developed interpersonal, communication and self-management skills when performing a specialist advisory role in margin lending. The requirement to prepare advice may come from authorised representatives, including financial advisers, shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse client needs and risk profile	1.1 Analyse client needs using all information gathered and considering client's product expectations 1.2 Consult with authorised representative throughout analysis for further clarification where necessary according to organisational procedures 1.3 Identify need for specialist advice and ensure client is referred to appropriate adviser if required 1.4 Assess and confirm client's product risk profile according to

ELEMENT	PERFORMANCE CRITERIA
	expectations of cashflow and relevant taxation obligations
2. Develop margin lending strategies and solutions that meet client needs and risk profile	2.1 Identify legislative, regulatory and code of practice requirements relevant to products being offered 2.2 Determine required margin lending strategy based on analysis of margin lending products, client risk profile, and analysis of client needs 2.3 Conduct required research, analysis and product modelling and apply stress tests for changes in market conditions
3. Provide strategies and solutions to authorised representative	3.1 Draft required solution, plan, policy or transaction and provide to authorised representative 3.2 Explain proposed solution, plan, policy or transaction to authorised representative 3.3 Confirm required details, terms and conditions of product or service 3.4 Disclose impacts and possible risks of proposed solution, plan, policy or transaction and offer alternative solutions to authorised representative 3.5 Provide supporting written documentation and guide authorised representative through key aspects of documentation 3.6 Discuss and clarify concerns and issues regarding proposed solution, plan, policy or transaction with authorised representative 3.7 Confirm with authorised representative client's understanding of proposed solution, plan, policy or transaction
4. Establish agreement and complete documentation process	4.1 Obtain formal agreement from authorised representative and obtain their sign-off on proposed solution, plan, policy or transaction 4.2 Document fees, cost structures and timeframes for execution and processing of agreed solution, plan, policy or transaction 4.3 Ensure proposal and required statutory and transactional documents are completed and signed off by client 4.4 Provide draft agreement and other required documentation to authorised representative
5. Agree to arrangements for providing ongoing services	5.1 Prepare documentation of fees and costs for ongoing and specifically defined services according to organisational policies and procedures 5.2 Agree to type and form of ongoing service to be provided 5.3 Provide documented service arrangements to authorised representative for confirmation 5.4 Implement procedures for agreed ongoing service according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Extends knowledge of product features and applications relevant to current role using research and analysis
Numeracy	<ul style="list-style-type: none"> Interprets financial product information and calculates client costs, risks and returns
Oral communication	<ul style="list-style-type: none"> Articulates requirements using industry-specific language appropriate to audience and environment, and participates in negotiated outcomes Uses active listening and questioning techniques to confirm understanding and elicit information
Reading	<ul style="list-style-type: none"> Interprets textual information from relevant sources
Writing	<ul style="list-style-type: none"> Uses clear, specific and industry-related terminology to complete and consolidate workplace documentation
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for the planning, sequence and priority of tasks within own workload to achieve effective and compliant outcomes Applies systematic and analytical decision-making processes to determine and implement solutions that meet client needs and financial requirements
Self-management	<ul style="list-style-type: none"> Takes personal responsibility for following policies, procedures and protocols to provide advisory services and documentation that complies with legal, ethical and organisational requirements
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with authorised representatives Seeks and shares information, establishes agreements and maintains ethical service relationships Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks

Unit Mapping Information

No equivalent unit. Newly created unit.

Assessment Requirements for FNSFPL607 Prepare advice in margin lending

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare accurate and ethical advice on margin lending for financial plans for at least two different clients.

In the course of the above, the candidate must:

- analyse client needs, financial situation and risk profile, and prepare appropriate strategies and solutions relating to margin lending
- document recommendations on margin lending products and services
- prepare policy or transaction once agreed by the client and complete documentation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

Generic knowledge

- economic environment, including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- operation of financial markets, including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within financial markets
 - interrelationship between industry sectors
- financial products, including:

- concept of a financial product: general definition, and specific inclusions and exclusions
- types of financial investment products
- types of financial risk products
- aspects of ongoing service provision, including:
 - reporting on performance
 - communicating comprehensively and clearly
 - reviewing of solution, plan, policy or transaction.

Specialist knowledge

- legal environment, including disclosure and compliance covering:
 - role of the authorised representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, and Competition and Consumer Act
 - relationship between ethics and regulatory requirements, including good faith, faith, utmost good faith, full disclosure of remuneration and fees, and other conflicts of interest that may influence authorised representative's recommendation
 - relevant industry standards and codes of practice
 - regulatory guidelines
 - internal and external complaints resolution procedures
- characteristics of margin lending products, including:
 - various types of margin lending facility products and their operation, including standard margin lending facilities and non-standard margin lending facilities
 - associated risks and alternative products, including derivatives where relevant
 - provider and client rights and responsibilities
 - effect of provider taking security over client assets
 - effect of provider receiving a transfer of client assets
 - calculating loan-to-value ratios of both individual products and the overall portfolio
 - consequences of issuers altering the loan-to-value ratio of individual products
 - margin calls: ways of making a margin call, consequences of margin calls and how they may be resolved, and strategies by which the borrower may avoid margin calls
 - approved product list: consequences of removing a product from the approved products list
- taxation issues in relation to margin lending facilities, including:
 - deductibility of costs associated with margin lending, including interest payments
 - liability for capital gains tax (CGT)
- theories of investment, portfolio management and management of investment and risk, including:
 - investment concepts

- investment strategies for margin lending, including role of cash flow and alternative investment strategies
- investment options using a margin lending facility
- identification of types of risk, including sensitivity of margin lending strategies to changes in interest rates and investment returns
- client risk profile, including source and stability of clients' income source, the source of funding for the investment and risk profiles unsuited to margin lending facility products
- stress testing of proposed client portfolio
- risks associated with gearing, including relationship between levels of gearing and risks, and risks associated with double gearing.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and peripherals
- margin lending product information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFPL608 Prepare advice in foreign exchange

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to analyse client needs in regard to foreign exchange, and prepare advice ethically, professionally and in compliance with industry regulations and codes of practice.

The unit applies to those who use well-developed interpersonal, communication and self-management skills when performing a specialist advisory role in foreign exchange. The requirement to prepare advice may come from authorised representatives, including financial advisers, shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse client needs and risk profile	1.1 Analyse client needs using all information gathered and considering client's product expectations 1.2 Consult with authorised representative throughout analysis for further clarification where necessary according to organisational procedures 1.3 Identify need for specialist advice and ensure client is referred to appropriate adviser where required 1.4 Assess and confirm client's product risk profile according to

ELEMENT	PERFORMANCE CRITERIA
	expectations of cashflow and relevant taxation obligations
2. Develop foreign exchange strategies and solutions that meet client needs and risk profile	2.1 Identify legislative, regulatory and code of practice requirements relevant to products being offered 2.2 Determine required foreign exchange strategy based on analysis of foreign exchange products, client risk profile, and client needs 2.3 Conduct required research, analysis and product modelling and apply stress tests for changes in market conditions
3. Provide strategies and solutions to authorised representative	3.1 Draft required solution, plan, policy or transaction and provide to authorised representative 3.2 Explain proposed solution, plan, policy or transaction to authorised representative 3.3 Confirm details, terms and conditions of product and service 3.4 Disclose impacts and possible risks of proposed solution, plan, policy or transaction and offer alternative solutions to authorised representative 3.5 Provide supporting written documentation and guide authorised representative through key aspects of documentation 3.6 Discuss and clarify concerns and issues regarding proposed solution, plan, policy or transaction 3.7 Confirm with authorised representative client's understanding of proposed solution, plan, policy or transaction
4. Establish agreement and complete documentation process	4.1 Obtain formal agreement from authorised representative and obtain their sign-off on proposed solution, plan, policy or transaction 4.2 Document fees, cost structures and timeframes for execution and processing of agreed solution, plan, policy or transaction 4.3 Ensure proposal and required statutory and transactional documents are completed and signed off by client 4.4 Provide draft agreement and other required documentation to authorised representative
5. Agree to arrangements for providing ongoing services	5.1 Prepare documentation of fees and costs for ongoing and specifically defined services according to organisational policies and procedures 5.2 Agree to type and form of ongoing service to be provided 5.3 Provide documented service arrangements to authorised representative for confirmation 5.4 Implement procedures for agreed ongoing service according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Extends knowledge of foreign exchange product features and applications relevant to current role using research and analysis
Numeracy	<ul style="list-style-type: none"> Interprets financial product information and calculates client costs, risks and returns
Oral communication	<ul style="list-style-type: none"> Articulates requirements using industry-specific language appropriate to audience and environment Uses active listening and questioning techniques to elicit information and confirm understanding
Reading	<ul style="list-style-type: none"> Interprets textual information from relevant sources
Writing	<ul style="list-style-type: none"> Uses specific industry-related terminology to complete and consolidate workplace documentation
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for the planning, sequence and priority of tasks within own workload to achieve effective and compliant outcomes
Self-management	<ul style="list-style-type: none"> Takes personal responsibility for following policies, procedures and protocols to provide advisory services and documentation that comply with legal and organisational requirements Applies systematic and analytical decision-making processes to determine and implement solutions that meet client needs and financial requirements
Teamwork	<ul style="list-style-type: none"> Selects and uses conventions and protocols when communicating with authorised representatives Seeks and shares information, establishes agreement and maintains ethical service relationships Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks

FNSFPL611 Provide technical and professional financial planning guidance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.
Release 2	This version first released with FNS Financial Services Training Package Version 6.0. Version created to correct unit mapping error.

Application

This unit describes the skills and knowledge required to provide technical and professional guidance in a financial planning practice. It involves mentoring staff in the practice, providing technical information to staff and peers, and acting as a practice reference for any special areas of expertise.

The unit applies to those with experience and specialised knowledge of the sector and well-developed communication skills who provide leadership and guidance to others within their organisation, making judgements within their level of responsibility.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Mentor team members in the practice	1.1 Provide technical guidance and advice to practice team members in developing financial plans appropriate to their skill level and need

ELEMENT	PERFORMANCE CRITERIA
	1.2 Provide technical advice and assistance to practice administrative and processing staff where required 1.3 Identify potential problems before they develop and take preventative steps according to organisational policies and procedures 1.4 Model and communicate ethical behaviour and provide feedback to team members according to organisational policies and procedures
2. Provide technical and professional information to team members	2.1 Circulate information relevant to team members for development purposes 2.2 Provide opportunities to colleagues for feedback and queries on circulated information 2.3 Use specialists with appropriate advanced technical competency as point of reference when required
3. Provide skill development opportunities in practice in special areas of expertise	3.1 Monitor market, product, legislative and regulatory changes in special areas of expertise for development purposes 3.2 Monitor practice information and skill requirements in special areas of expertise 3.3 Establish staff briefings and training sessions for team members for development purposes in area of expertise 3.4 Develop and deliver skill development exercises for individual team members as required 3.5 Seek and integrate feedback from team members on skill development provided and make applicable improvements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Updates own skills and knowledge through advising, coaching, mentoring and training others
Numeracy	<ul style="list-style-type: none"> Interprets and explains financial information when determining requirements and clarifying others' understanding
Oral communication	<ul style="list-style-type: none"> Articulates information clearly and involves others in discussions using active listening and questioning techniques Uses pace, tone and gestures appropriately when presenting information to others

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> • Researches, analyses and manages information from a range of sources to determine and confirm staff development requirements
Writing	<ul style="list-style-type: none"> • Prepares and presents information using relevant formats, language and concepts for team member training and development
Initiative and enterprise	<ul style="list-style-type: none"> • Takes responsibility for compliance with legislative and ethical requirements and identifies organisational implications of new or changed legislation or regulations
Planning and organising	<ul style="list-style-type: none"> • Plans, organises and coordinates processes and activities to achieve team development requirements
Problem solving	<ul style="list-style-type: none"> • Uses a range of strategies and systematic analysis to identify potential problems and implement contingency plans
Self-management	<ul style="list-style-type: none"> • Selects and uses appropriate communication conventions and protocols to seek and provide required information • Demonstrates sophisticated control over oral, visual and/or written formats, drawing on a range of communication practices to achieve goals
Technology	<ul style="list-style-type: none"> • Uses main features and functions of digital tools to complete work tasks

Release 2	This version first released with FNS Financial Services Training Package Version 6.0. Version created to correct unit mapping error.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- provide technical and professional financial planning guidance to others within the practice on at least three different occasions; with at least one occasion involving mentoring a team member and at least one occasion delivering a skill development session
- respond to feedback or a query from at least two different colleagues in response to information circulated to team members for development purposes.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements, regulatory guidelines and industry codes of practice relating to providing financial planning guidance and information, including:
 - government financial and superannuation policies
 - social security legislative updates
 - state and territory charges and taxes
 - corporations and consumer legislation
 - ethical standards
- organisational policies and procedures relating to providing financial planning guidance and information
- current industry trends, sources of information, and industry activities relevant to own financial planning practice
- key features of the financial planning industry and different types of:

- financial products
- financial markets, and implications of market activities on financial planning
- investment characteristics
- financial forecasting techniques
- methods of presenting financial data
- roles and responsibilities of technical specialists
- relevant interdisciplinary contacts and industry expertise
- sources of information on financial products and markets, state and territory charges and taxes
- type of training and development opportunities for team members, including for:
 - paraplanners
 - financial planners and trainee financial planners
- professional development activities suitable for financial planning context
- approaches and activities for effective mentoring and training in the workplace.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology and software.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFPL612 Determine client requirements and expectations in financial planning

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to determine the financial requirements and expectations of clients in financial planning. It involves informing required stakeholders of the financial planning process and service, obtaining required information on the client’s financial situation and expectations, and preparing and updating necessary documentation.

The unit applies to those who manage relationships and apply systematic approaches using highly specialised knowledge to problem solve and develop customised solutions. This unit requires in-depth financial knowledge. Client information may be provided by authorised representatives, including financial advisers, shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify client’s financial needs and expectations	1.1 Identify and document client’s expectations, requirements, priorities and objectives 1.2 Identify financial planning process, roles, licensees, principals, services and capacity of organisation to meet client needs 1.3 Detail fees and charges to authorised representative and confirm

ELEMENT	PERFORMANCE CRITERIA
	understanding 1.4 Identify and report client’s relationship with other financial services to authorised representative 1.5 Identify client special needs and take required action, making referral to specialists where required 1.6 Explain procedures for internal and external complaints handling and resolution to authorised representative

FNSFPL613 Monitor financial plans and provide ongoing service

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to comprehensively monitor the implementation and progress of financial plans and establish ongoing client service arrangements. It involves discussing and confirming arrangements for ongoing service with authorised representatives, establishing procedures for that service, monitoring or supervising the monitoring of financial plans, and implementing procedures that establish long-term professional relationships with clients.

The unit applies to those experienced in the financial planning industry who use strong organisational and communication skills and systematic approaches to manage relationships and monitor organisational services. Client information may be provided by authorised representatives, including financial advisers, shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Discuss and confirm arrangements for ongoing service	1.1 Confirm with authorised representative that financial targets to be reviewed and allocation of responsibilities have been defined and agreed with client 1.2 Confirm with authorised representative client agreement on provision of ongoing service

ELEMENT	PERFORMANCE CRITERIA
	1.3 Identify and document fees and charges for ongoing service according to organisational policies and procedures 1.4 Obtain signed client agreement for ongoing service from authorised representative 1.5 Establish arrangements for client contact regarding concerns and queries
2. Establish procedures for providing ongoing service	2.1 Identify and brief required personnel to implement actions in agreed ongoing service arrangements 2.2 Identify and follow internal and external documentation requirements according to organisational procedures and protocols 2.3 Record key revision dates for financial targets and confirm client contact arrangements with authorised representative 2.4 Develop procedures for unscheduled review requests by client 2.5 Establish procedures to monitor critical timings and priorities
3. Monitor or supervise monitoring of financial plan	3.1 Establish arrangements for monitoring ongoing performance of financial plan and its compliance with regulatory and organisational requirements 3.2 Implement procedures for monitoring quality of ongoing client service 3.3 Confirm that authorised representative issues instructions to internal and external personnel as per plan requirements 3.4 Check and follow up lodgement of required documentation to ensure plan timings are met 3.5 Confirm authorised representative obtains and processes fees and charges according to legislative, taxation and organisational requirements 3.6 Monitor client satisfaction against performance indicators of the practice

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> • Uses mathematical equations to perform calculations, make comparisons and check the accuracy of financial data • Analyses, records and stores complex financial data and information
Oral communication	<ul style="list-style-type: none"> • Effectively participates in verbal exchanges using active listening and

SKILL	DESCRIPTION
	<p>questioning techniques to share, convey and clarify information</p> <ul style="list-style-type: none"> • Uses language, tone and concepts appropriate to audience and purpose
Reading	<ul style="list-style-type: none"> • Interprets and analyses information and products from a variety of sources to ensure appropriateness to client needs
Writing	<ul style="list-style-type: none"> • Uses clear language, correct spelling and grammar and appropriate terminology to convey information to a range of personnel
Planning and organising	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising complex tasks to achieve client requirements according to legislative and organisational requirements • Systematically analyses and evaluates complex information to make informed decisions
Self-management	<ul style="list-style-type: none"> • Adapts personal communication style to show respect for the opinions, values and needs of others • Takes responsibility for ensuring that documentation and processes comply with legislative and organisational requirements
Teamwork	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols when communicating with diverse internal and external stakeholders to provide or seek information • Uses collaboration techniques to negotiate agreement about service provision
Technology	<ul style="list-style-type: none"> • Uses the main features and functions of digital tools to complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSFPL603 Provide comprehensive monitoring and ongoing service.

Assessment Requirements for FNSFPL614 Develop financial plans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop a different financial plan in at least two of the following practice areas:
 - aged care
 - direct investments
 - estate planning
 - life insurance
 - managed investments
 - retirement planning
 - social securities
 - superannuation
 - taxation.

In the course of the above, the candidate must:

- maximise client outcomes and successfully achieve established objectives
- analyse strategic options and make justified recommendations, addressing complex needs and issues
- check financial plan to ensure its compliance with relevant Acts, legislation and regulatory requirements and guidelines, and ethical requirements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements and codes of practice relating to development of financial plans

- organisational policies, procedures and requirements relating to development of financial plans, including:
 - internal and external complaints and dispute resolution procedures available to clients
 - quality control requirements
 - documentation and recording information
 - methods for presenting, storing and distributing financial plans
 - best practice compliance
- impact of the following on client's financial planning needs:
 - relevant economic, taxation and social security policy that impact client investment and financial requirements
 - relevant estate planning considerations
- role of clients' authorised representatives and financial planning practice in the development of financial plans
- key features of financial planning industry, including:
 - investment and savings vehicles
 - financial markets
 - complex taxation and legal issues
 - asset classes and investment characteristics
 - products available in the financial services industry
 - income and expenditure requirements
 - high assets
 - aged care plans
 - estate planning
 - income and taxation arrangement consequences
 - life insurance
 - managed investments
 - asset growth
 - financial resources
- financial asset allocation structure, including:
 - allocated pensions
 - insurance
 - partnerships
 - provision for equities
 - superannuation
- risks associated with financial plans, including investment risk factors and their relationship to return expectations
- requirements relating to disclosure of capacity, including areas where advice should be sought from other professionals
- ethical standards in developing and preparing financial plans, including disclosure of potential conflicts of interest
- key features of effective communication processes, including principles of negotiation.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology and software
- organisational records, policies and procedures
- legislation and regulatory documents.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFPL615 Present and negotiate financial plans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to present preliminary, amended and final drafts of financial plans to authorised representatives. It includes engaging with authorised representatives, establishing and negotiating implementation actions relating to plans, handling complaints, and completing and maintaining necessary documentation.

The unit applies to those experienced in the financial planning industry who use specialised knowledge and experience, and strong communication and interpersonal skills, to manage relationships and convey complex information and requirements. The negotiation of financial plans will be through authorised representatives, including financial advisers, shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse available information on financial plans and identify client needs	1.1 Identify and assess available information on client needs and objectives and address capacity and roles of relevant stakeholders 1.2 Identify and document client concerns and enquiries according to organisational policies and procedures 1.3 Identify services that meet client needs and objectives 1.4 Identify and explain client strategies and recommendations in financial plan and discuss impact of recommendations with

ELEMENT	PERFORMANCE CRITERIA
	authorised representative
2. Present financial plan	2.1 Prepare and discuss financial plan with authorised representative according to organisational policies and procedures 2.2 Guide authorised representative through assumptions used in formulating plan and discuss degree to which variations in assumptions may impact on expected outcomes 2.3 Discuss proposed actions with authorised representative and obtain written agreement of actions according to organisational policies and procedures 2.4 Explain fees, charges and commissions in financial plan according to organisational policies and procedures
3. Establish and negotiate implementation actions	3.1 Disclose any commercial relationships of representative and organisation to products and services mentioned in plan 3.2 Identify and negotiate issues that may require further consideration and refer to relevant financial services professionals and specialists 3.3 Provide copies of research and other documentation to authorised representative and confirm understanding of recommendations presented
4. Negotiate plan-related matters effectively	4.1 Assist authorised representative regarding solutions to client needs and objectives, and present alternatives to recommendations when requested 4.2 Identify and assess any complaints according to organisational policies and procedures and professional protocols 4.3 Maintain communication channels when dealing with complaints and observe internal and external complaint handling procedures and professional protocols 4.4 Obtain agreement in principle from authorised representative to proceed
5. Finalise plan and maintain required documentation	5.1 Seek feedback from authorised representative on financial plan 5.2 Adjust financial plan according to feedback, complete proposal and related documentation, and obtain sign-off to agreed plan 5.3 Create and update client records and complete contract variations if required according to organisational procedures 5.4 Confirm completion with authorised representative 5.5 Record client advice according to current industry documentation requirements and organisational policies and procedures 5.6 Ensure instructing or purchasing documentation is signed by client where required

Foundation Skills

FNSFPL616 Implement financial plans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to implement a financial plan and successfully present it to an authorised representative. It involves establishing the actions, timings and priorities needed to implement and monitor or supervise the implementation of financial plan actions.

The unit applies to those experienced in the financial planning industry who use specialised knowledge, systematic processes and managerial techniques to complete complex work and to manage relationships. The implementation of financial plans will be through authorised representatives, including financial advisers, or from shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish actions, timings and priorities needed to implement financial plan	1.1 Identify and source financial plan to be implemented 1.2 Review special features of client situation for implementation implications 1.3 Establish implementation actions and confirm they are consistent with client needs and objectives, and prioritise specifications and timings for each action to be implemented 1.4 Explain implementation actions to authorised representative and

ELEMENT	PERFORMANCE CRITERIA
	obtain written agreement to actions 1.5 Establish implementation diary and other required records according to organisational policies and procedures
2. Establish procedures for implementing financial plan	2.1 Identify and brief required personnel to implement each action in financial plan 2.2 Identify and meet internal and external communication and documentation requirements 2.3 Coordinate implementation actions that depend on and involve actions by other professionals 2.4 Establish audit trails and monitoring procedures for critical implementation timings and priorities
3. Undertake and/or supervise implementation of actions associated with financial plan	3.1 Ensure authorised representative provides client with information on actions they must undertake 3.2 Confirm authorised representative issues instructions to required internal and external personnel as per financial plan requirements 3.3 Maintain consultation and monitoring with internal and external stakeholders where joint implementation action is required 3.4 Check and follow up lodgement of documentation to ensure plan timings are met 3.5 Obtain fees and charges, and process according to organisational and legislative requirements 3.6 Seek and integrate feedback on implemented actions from relevant stakeholders

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Maintains knowledge of compliance legislation and regulatory environment necessary to perform role
Numeracy	<ul style="list-style-type: none"> Uses mathematical equations to perform calculations and check accuracy of fees and financial data Analyses, records and stores complex financial data and information
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges, choosing relevant language to explain complex concepts to audiences Uses active listening and questioning techniques to confirm understanding

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> • Researches and manages information and products to determine currency, accuracy and appropriateness to client needs • Consolidates and evaluates information from a range of sources to form a holistic perspective of complex situations and to identify implications
Writing	<ul style="list-style-type: none"> • Completes documentation following organisational procedures and protocols • Uses clear language, relevant terminology and correct spelling and grammar to convey information to a range of stakeholders
Teamwork	<ul style="list-style-type: none"> • Selects and uses relevant conventions and protocols when communicating with internal and external stakeholders to provide or seek information • Uses collaboration techniques to build trust and encourage stakeholders to voice concerns • Adapts personal communication style to show respect for the opinions, values and needs of others
Planning and organising	<ul style="list-style-type: none"> • Plans, sequences and implements processes and tasks to meet legislative, organisational and client requirements
Problem solving	<ul style="list-style-type: none"> • Systematically evaluates complex information to make informed decisions about relevant services
Technology	<ul style="list-style-type: none"> • Uses the main features and functions of digital tools to complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSFPL606 Implement complex and innovative financial plans.

Assessment Requirements for FNSFPL616 Implement financial plans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement one different financial plan in at least three of the following practice areas:
 - aged care
 - direct investments
 - estate planning
 - life insurance
 - managed investments
 - retirement planning
 - social securities
 - superannuation
 - taxation.

In the course of the above, the candidate must:

- present each plan to client's authorised representative, explaining required implementation actions and obtaining agreement to the actions
- complete documentation and establish relevant audit trails of records and data using applicable technology and software.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements relating to implementing financial plans, including:
 - corporations and consumer legislation
 - relevant financial legislation
 - government financial and superannuation policy

- organisational policies and procedures relating to implementing financial plans
- common methods of presenting financial data and documenting financial plans
- types and key features of financial products and markets relating to implementing financial plans, including banks and other authorised representatives
- special features of client situation that have implications when implementing financial plans, including:
 - complex estate planning issues
 - complex taxation
 - unusual or infrequent income and expenditure
 - high asset
 - legal issues
- roles and responsibilities of other professionals involved in implementing financial plans, including of accountants and lawyers.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology and software.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFPL617 Prepare advice in derivatives

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to analyse client needs in regard to derivatives, and prepare advice ethically, professionally and in compliance with industry regulations and codes of practice.

The unit applies to those who use well-developed interpersonal, communication and self-management skills when performing a specialist advisory role in derivatives. The requirement to prepare advice may come from authorised representatives, including financial advisers, shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse client needs and risk profile	1.1 Analyse all information gathered from authorised representative taking client product expectations and specific needs into account according to organisational procedures 1.2 Consult with authorised representative throughout analysis for further clarification where necessary 1.3 Identify need for specialist advice and ensure client is referred to appropriate adviser where required 1.4 Assess and confirm client's product risk profile according to

ELEMENT	PERFORMANCE CRITERIA
	expectations of cash flow and relevant taxation obligations
2. Develop derivatives strategies and solutions that meet client needs and risk profile	2.1 Identify legislative, regulatory and code of practice requirements relevant to products being offered 2.2 Determine required derivatives strategy based on analysis of derivative products, client risk profile and client's needs 2.3 Conduct required research, analysis and product modelling and apply stress tests for changes in market conditions
3. Provide strategies and solutions to authorised representative	3.1 Draft required solution, plan, policy or transaction and provide to authorised representative 3.2 Explain proposed solution, plan, policy or transaction to authorised representative 3.3 Confirm required details, terms and conditions of product and service 3.4 Disclose impacts and possible risks of solution and offer alternative solutions to authorised representative 3.5 Prepare supporting written documentation and guide authorised representative through key aspects of documentation 3.6 Discuss and clarify concerns and issues regarding proposed solution, plan, policy or transaction with authorised representative 3.7 Confirm with authorised representative client's understanding of proposed solution, plan, policy or transaction
4. Establish agreement and complete documentation process	4.1 Obtain authorised representative's formal agreement and sign-off to proposed solution, plan, policy or transaction 4.2 Document fees, cost structures and timeframes for execution and processing 4.3 Ensure that proposal and required statutory and transactional documents are completed and signed off by client 4.4 Provide draft agreement and other required documentation to authorised representative
5. Agree to arrangements for providing ongoing services	5.1 Prepare documentation of fees and costs for ongoing and specifically defined services according to organisational policies and procedures 5.2 Agree to type and form of ongoing service to be provided 5.3 Provide documented service arrangements to authorised representative for confirmation 5.4 Implement procedures for agreed ongoing service according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Extends knowledge of product features and applications of derivative investments relevant to current role using research and analysis
Numeracy	<ul style="list-style-type: none"> Interprets financial product information and calculates client costs, risks and returns
Oral communication	<ul style="list-style-type: none"> Articulates requirements using industry-specific language appropriate to audience and environment Uses active listening and questioning techniques to elicit information and confirm understanding
Reading	<ul style="list-style-type: none"> Interprets textual information from relevant sources
Writing	<ul style="list-style-type: none"> Uses industry-related terminology to complete and consolidate workplace documentation
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for the planning, sequence and priority of tasks within own workload to achieve effective and compliant outcomes
Self-management	<ul style="list-style-type: none"> Takes personal responsibility for following policies, procedures and protocols to provide advisory services and documentation that comply with legal, statutory and organisational requirements Applies systematic and analytical decision-making processes to determine and implement investment solutions that meet client needs and financial requirements, including referral to specialist personnel as required
Teamwork	<ul style="list-style-type: none"> Selects and uses the appropriate conventions and protocols when communicating with authorised representatives Seeks and shares information, establishes agreement and maintains ethical service relationships Adapts personal communication style to show respect for the values, beliefs and cultural expectations of others
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSFPL617 Prepare advice in derivatives

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare accurate and ethical advice on derivative products and services for at least two different clients.

In the course of the above, the candidate must:

- interpret and comply with industry regulations and codes of practice
- analyse client needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to derivatives
- implement the solution, plan, policy or transaction once agreed by the client and complete documentation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

Generic knowledge

- economic environment, including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- operation of financial markets, including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within financial markets
 - interrelationship between industry sectors
- financial products, including:

- concept of a financial product: general definition, and specific inclusions and exclusions
- types of financial investment products
- types of financial risk products
- aspects of ongoing service provision, including:
 - reporting on performance
 - using effective communication skills
 - reviewing of solution, plan, policy or transaction.

Specialist knowledge

- legal environment, including disclosure and compliance covering:
 - role of the authorised representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Privacy Amendment (Private Sector) Act, and Competition and Consumer Act
 - relationship between ethics and regulatory requirements, including good faith, utmost good faith, full disclosure of remuneration and fees, and other conflicts of interest that may influence authorised representative's recommendation
 - relevant industry standards and codes of practice
 - regulatory guidelines
 - internal and external complaints resolution procedures
 - ASIC market integrity rules
 - Australian Securities Exchange (ASX) 24 Operating Rules
 - elements of the Registered Representatives Examination
- operation of derivatives markets, including:
 - market participants
 - roles played by intermediaries
 - structure and interrelationships between the securities and derivatives sectors
- characteristics of a range of derivatives, the associated risks and investment options using derivatives products
- theories of investment, portfolio management and management of investment and risk, including:
 - investment concepts and strategies
 - identification of types of risk
 - client risk profile
- taxation issues in relation to derivatives, financial products and markets in which they operate.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and peripherals
- derivatives product information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSFPL620 Prepare advice in insurance broking

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare accurate and ethical advice on insurance broking products and/or services for at least two different clients.

In the course of the above, the candidate must:

- interpret and comply with industry regulations and codes of practice
- analyse client's needs, financial situation and risk profile, and prepare appropriate strategies or solutions relating to insurance broking
- implement the solution, plan, policy or transaction once agreed by the client and complete documentation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

Generic knowledge

- economic environment, including:
 - characteristics and impact of economic and business cycles
 - interest rates and exchange rates
 - inflation
 - government monetary and fiscal policy
- operation of financial markets, including:
 - roles played by intermediaries and issuers
 - structure and interrelationships within financial markets
 - interrelationship between industry sectors
- financial products, including:

- concept of a financial product: general definition, and specific inclusions and exclusions
- types of financial investment products
- types of financial risk products
- aspects of ongoing service provision, including:
 - reporting on performance
 - using effective communication skills
 - preparing required records and documentation
 - reviewing of solution, plan, policy or transaction
- types of documents and documentation requirements for insurance broking

Specialist knowledge

- legal environment, including disclosure and compliance covering:
 - role of the authorised representative or adviser
 - relevant legal principles relating to the Corporations Act, Australian Securities and Investments Commission (ASIC) Act, Insurance Contracts Act, Life Insurance Act, Privacy Amendment (Private Sector) Act, and Competition and Consumer Act
 - relationship between ethics and regulatory requirements, including good faith, faith, utmost good faith, full disclosure of remuneration and fees, and other conflicts of interest that may influence authorised representative's recommendation
 - relevant industry standards and codes of practice
 - regulatory guidelines
 - internal and external complaints resolution procedures
- operations of insurance markets, including:
 - definition of insurance product
 - characteristics and participants of the Australian insurance market
 - roles played by intermediaries
- insurance products, including risk insurance products, investment life insurance products and general insurance products
- insurance products:
 - conditions, exclusions and levels of coverage of risk transfer products
 - pricing
- taxation issues in relation to insurance products and markets
- types of analysis and product modelling
- types of stress tests for changes in market conditions
- advisory functions, including:
 - role of insurance adviser, broker or agent
 - participants in the insurance advisory services market
 - range of services provided
 - profile and financial information of the client
 - appropriateness of a risk assessment.

- characteristics of insurance broking:
 - types and classes of insurance products and policies
 - standard cover and deviations
 - product development
 - policy wording
 - underwriting
 - insurance claims
 - premium rating and risk assessment
 - types of broking services.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and peripherals
- insurance broking product information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSFPL621 Comply with ethical and operational guidelines, legislation and regulations in financial planning

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to meet compliance requirements in financial planning work, including ethical and operational guidelines, industry codes of practice, legislation and regulations.

The unit applies to those experienced in the financial planning industry who use specialised knowledge to review and check information in their own work to ensure quality standards are maintained.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and apply compliance requirements to financial planning work	1.1 Identify and access information on legislative, regulatory and industry codes of practice requirements relating to own work 1.2 Apply compliance requirements in own work tasks 1.3 Identify experts within practice, and regulatory advisory services external to practice, and seek their guidance on compliance where required 1.4 Apply advice and guidance where required
2. Apply ethical standards	2.1 Identify principles and standards of ethical behaviour relating to

ELEMENT	PERFORMANCE CRITERIA
and operational compliance guidelines to financial planning	<p>own work</p> <p>2.2 Identify and check updates to operational compliance guidelines and apply to own work</p> <p>2.3 Identify experts within organisation responsible for interpreting identified guidelines and seek their assistance where required</p> <p>2.4 Check tasks to be completed that may raise doubt regarding their propriety, and clear with an expert source</p>
3. Review compliance of own work	<p>3.1 Establish personal monitoring system to self-monitor own compliance with compliance requirements, ethical standards and operational guidelines</p> <p>3.2 Use monitoring system to confirm that own work meets legislative and regulatory requirements, ethical and operational guidelines, and industry codes of practice</p> <p>3.3 Identify where own performance does not meet compliance requirements and make necessary adjustments</p> <p>3.4 Seek feedback on identified required compliance adjustments from required stakeholders</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Actively seeks out information and advice from a range of sources to improve own work performance and ensure that knowledge of legislative and regulatory requirements is accurate, comprehensive and current Identifies and participates in professional development activities to maintain currency of industry knowledge and improve work practices
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using relevant conventions and protocols, including active listening and questioning techniques, when communicating with internal and external stakeholders Uses language and concepts relevant to audience and purpose
Reading	<ul style="list-style-type: none"> Researches and analyses textual information to determine and confirm work requirements
Planning and organising	<ul style="list-style-type: none"> Plans and organises work processes and tasks to meet legislative and organisational requirements and ethical standards, changing processes where necessary

SKILL	DESCRIPTION
Problem solving	<ul style="list-style-type: none">• Uses problem-solving techniques to identify and analyse possible compliance issues and decide on suitable actions
Technology	<ul style="list-style-type: none">• Uses the main features and functions of digital tools to complete work tasks and access information

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSFPL501 Comply with financial planning practice ethical and operational guidelines and regulations.

FNSFPL622 Conduct financial planning analysis and research

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to undertake analysis and research within the field of financial planning and in relation to financial strategies, products and markets. It involves evaluating a client's current situation, identifying issues, and researching requirements and parameters for extracting and analysing information, summarising research information and providing it to relevant stakeholders.

The unit applies to those experienced in the financial planning industry who apply specialised knowledge, systematic approaches and analytical techniques to research and prepare information customised for clients and/or situations. The client instructions for the research to be undertaken may come from financial advisers, or from shareholders, financial organisations, stockbrokers, trustees, agents and intermediaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Financial planning

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Evaluate client's current situation and identify issues	1.1 Obtain client personal, financial and business information from authorised representative as required by research task 1.2 Analyse integrity of information provided 1.3 Identify, quantify and test client objectives with required stakeholders for viability

ELEMENT	PERFORMANCE CRITERIA
2. Identify research requirements, parameters and resources	2.1 Establish research aims, objectives and strategy 2.2 Establish intended use of research information 2.3 Identify and access internal and external resources relevant to research requirements and parameters and according to organisational policies and procedures 2.4 Establish research timeframes and prioritise requests for information to ensure milestones are met
3. Extract and analyse information according to research requirements and parameters	3.1 Establish data extraction criteria relevant to intended use and client requirements 3.2 Identify trends to provide information on performance of possible financial strategies, products and markets 3.3 Identify legislative and regulatory requirements that must be considered in choice of financial planning strategies 3.4 Conduct risk assessment of strategies and products identified through research 3.5 Analyse financial strategies and products suitable to client needs within required timeframes 3.6 Prioritise information according to client requirements and expectations 3.7 Identify issues that require specialist research or advice and obtain advice as required and according to organisational policies and procedures
4. Summarise research information and provide to required stakeholders	4.1 Collate and record research information on financial strategies and products according to organisational policies and procedures and industry codes of practice 4.2 Check information against research requirements and parameters 4.3 Prepare and check written performance, trends and risk analyses against research specifications 4.4 Describe and document assumptions, recommendations and issues for further research 4.5 Provide research to required stakeholders and store according to organisational requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
-------	-------------

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs calculations and uses analytical techniques to determine trends and make comparisons of financial information
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning techniques to clarify and elicit information from a range of stakeholders
Writing	<ul style="list-style-type: none"> Uses language, concepts and terminology appropriate to audience and purpose to share, convey and clarify explicit information and requirements
Planning and organising	<ul style="list-style-type: none"> Plans and monitors research progress to meet required timeframes
Self-management	<ul style="list-style-type: none"> Plans, organises and implements processes to ensure required tasks are completed efficiently and effectively Systematically gathers, analyses and evaluates research findings on appropriate financial strategies, products and advice
Teamwork	<ul style="list-style-type: none"> Selects and uses conventions and protocols when communicating with internal and external stakeholders to seek or share information
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks and to access information

Mapping Information

Assessment Requirements for FNSFPL622 Conduct financial planning analysis and research

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- meet research requirements of at least three different financial planning clients, each research response relating to a different listed practice area:
 - aged care
 - direct investments
 - estate planning
 - life insurance
 - managed investments
 - retirement planning
 - social securities
 - superannuation
 - taxation.

In the course of the above, the candidate must:

- prioritise information and findings against client requirements
- develop appropriate strategies to conduct each piece of financial planning analysis and research
- summarise analysis against client expectations.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of the following as they relate to research:
 - legislative requirements and regulations governing trusts and companies
 - financial industry Acts and regulations

- relevant industry codes of practice requirements
- organisational policies and procedures relating to research, including for identifying and classifying a wide range of available information sources
- key features of taxation and social security systems and regulations, and their effect on specified financial products
- research aims and objectives, including financial strategy or product and performance parameters against client requirements and expectations, and against identified issues
- financial industry sources of information and data, and research techniques for accessing them
- key trends and latest research findings relating to financial strategies, products and markets
- key features of financial products and services, including:
 - associated benefits from a financial planning perspective
 - use in portfolios
- risks and implications associated with use of financial products and services
- key features of different financial planning strategies
- theories of investment, portfolio management, and management of investment and risk, including:
 - investment concepts
 - investment strategies
 - identification of types of risk
 - client risk profile.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology and software
- contact software system and data
- financial services product information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSIBK412 Implement new and renewed insurance program for insurance broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to implement a new or renewed insurance program based on a client's current objectives and risk profile.

The unit applies to those working in insurance broking who assess and review information for retail clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine insurance program requirements	1.1 Establish client's knowledge level and type of advice required 1.2 Identify client's objectives according to organisational policies and procedures 1.3 Respond to enquiries for advice on new or renewed insurance program and explain program components
2. Evaluate client objectives and risk situation	2.1 Gather client information according to organisational procedures to determine client risk profile 2.2 Complete risk assessment in compliance with brokerage guidelines and applicable legislative and regulatory requirements

ELEMENT	PERFORMANCE CRITERIA
	<p>2.3 Confirm effective dates for insurance changes with client</p> <p>2.4 Maintain comprehensive records of risks assessed and actions taken according to regulatory requirements and organisational procedures</p> <p>2.5 Check and review records regularly to ensure information is current</p>
<p>3. Analyse required changes to client's insurance program</p>	<p>3.1 Research and recommend appropriate products based on product comparison and cost-benefit analysis</p> <p>3.2 Identify and record required changes to program using information gathered</p> <p>3.3 Compare new and additional risks with current insurance program so that discrepancies are clear</p> <p>3.4 Consult client throughout analysis and seek advice about required changes within required timeframe</p> <p>3.5 Determine need for specialist advice and refer client to appropriate adviser for higher level or specialist advice if required and according to organisational policies and procedures</p> <p>3.6 Obtain client declarations as required by underwriter</p>
<p>4. Negotiate any program changes with insurers</p>	<p>4.1 Obtain terms to meet client requirements</p> <p>4.2 Clarify terms required for renewal and change of client's insurance with insurers</p>
<p>5. Communicate options to client and obtain instructions</p>	<p>5.1 Advise clients about outcomes of negotiation with insurers to enable informed decisions</p> <p>5.2 Clarify options for client that specify client benefits and disadvantages</p> <p>5.3 Present justified recommendations clearly to clients, responding to questions as required</p> <p>5.4 Obtain client instructions to enable precise action to be taken</p> <p>5.5 Forward renewal notices to client according to organisational timeframe requirements</p>
<p>6. Agree to arrangements for providing ongoing service</p>	<p>6.1 Explain fees and costs of ongoing service and confirm client understanding</p> <p>6.2 Agree to type and form of ongoing service to be provided</p> <p>6.3 Implement procedures for agreed ongoing service according to organisational policies and procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs calculations to determine cost-benefit analyses, insurance requirements and fees according to organisational methodologies
Oral communication	<ul style="list-style-type: none"> Uses language suitable to audience and purpose to convey information and requirements Uses active listening and questioning techniques to confirm understanding
Reading	<ul style="list-style-type: none"> Gathers, interprets and analyses information from a range of sources and identifies key information, including organisational and industry policy wording
Writing	<ul style="list-style-type: none"> Records and completes organisational documentation and correspondence using clear language and correct spelling, grammar and terminology Writes, edits and proofreads own documents to ensure clarity of meaning, and accuracy and consistency of information
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload to meet organisational requirements Applies systematic and analytical decision-making processes to make informed recommendations in relation to risk assessment
Self-Management	<ul style="list-style-type: none"> Takes personal responsibility for following policies, procedures and legislative requirements Selects and uses appropriate techniques when communicating with clients and insurers in a range of contexts
Teamwork	<ul style="list-style-type: none"> Uses collaboration techniques to negotiate agreed outcomes
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter and store information

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Register claim	1.1 Use internal broking claims system to register and process client claims 1.2 Update claims recording system in a manner that minimises processing time and according to organisational policies and procedures
2. Advise insurers and complete required documentation	2.1 Verify appointment of loss adjuster on receipt of claim 2.2 Obtain formal acknowledgment of receipt of claim from insurers 2.3 Make formal claim reports according to organisational procedures and within brokerage time requirements 2.4 Provide assistance to client, when required to complete claim documentation according to codes of practice

ELEMENT	PERFORMANCE CRITERIA
	2.5 Ensure full and accurate information is available to insurers in assessing claim
3. Advise client of rights and obligations	<p>3.1 Formally request insurer to reinstate sum insured where required and inform client where reinstatement occurs</p> <p>3.2 Review terms and conditions of insurance policy with client to ensure maximum claim recovery is sought</p> <p>3.3 Advise client on administration of claims to ensure no breach of contract occurs and claims are managed efficiently</p> <p>3.4 Advise client of legislative requirements to protect client interests</p>
4. Liaise with service providers	<p>4.1 Identify need for independent service providers with suitable expertise for claim, where settlement authority exists</p> <p>4.2 Engage suitable service provider based on client instructions where settlement authority exists and according to organisational policies and procedures</p> <p>4.3 Brief service provider thoroughly to ensure investigation is comprehensive where settlement authority exists</p> <p>4.4 Review and assess service provider's report within agreed timeframes where settlement authority exists</p> <p>4.5 Maintain contact with insurer's service provider to ensure reports and issues are dealt with within required timeframe</p>
5. Notify terms of settlement to client and update files and records	<p>5.1 Prepare details of insurer's settlement offer without delay, with recommendations for client to review</p> <p>5.2 Obtain and act on client's response to settlement offer without delay and according to organisational procedures</p> <p>5.3 Remit settlement funds to client according to legislative requirements and organisational policies and procedures</p> <p>5.4 Update business records promptly according to organisational policies and procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Checks calculations to confirm insurance requirements and settlements Plans and schedules to manage timeframes
Oral communication	<ul style="list-style-type: none"> Uses language suitable to audience and purpose to convey requirements

SKILL	DESCRIPTION
	<ul style="list-style-type: none"> • Uses active listening and questioning techniques to confirm understanding
Reading	<ul style="list-style-type: none"> • Interprets information from a range of sources and identifies key information
Writing	<ul style="list-style-type: none"> • Records and completes organisational documentation and correspondence using language appropriate to audience and purpose, and correct spelling, grammar and terminology • Writes, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information
Planning and organising	<ul style="list-style-type: none"> • Plans, sequences and prioritises tasks and own workload to achieve organisational requirements • Takes responsibility for planning, organising, implementing and reviewing systems to manage sensitive information
Self-management	<ul style="list-style-type: none"> • Follows legislative requirements, and organisational policies and procedures, and meets expectations of own role • Implements strategies to establish a sense of connection and build rapport with clients
Teamwork	<ul style="list-style-type: none"> • Uses collaboration techniques to negotiate agreed outcomes • Selects and uses appropriate conventions and protocols when communicating with clients, insurers and service providers in a range of contexts
Technology	<ul style="list-style-type: none"> • Uses digital technologies to access, enter and store information

Unit Mapping Information

Supersedes and is equivalent to FNSIBK404 Provide a claims service to an insurance broking client.

Assessment Requirements for FNSIBK414 Provide a claims service to insurance broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- provide a claims service to at least two different insurance broking clients.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative compliance requirements and codes of practice relating to adviser dealing with client claims
- organisational policies and procedures, including for:
 - establishing client insurance requirements and covers
 - notifying insurer of claims-related information
 - assisting client in completing required documentation and declarations
 - using brokerage claims systems and procedures
 - finalising client documentation and declarations
 - engaging external service providers
 - remitting funds
- responsibilities of adviser in claims process
- processes for analysing insurance contract terms and conditions in relation to claims process and administering claims
- key components of broking claim systems and claim documentation
- common terms and conditions in brokerage insurance policies.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- organisational records
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSIBK416 Deliver insurance broking services

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 7.0. Minor changes to Element 4 and Performance Evidence.
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to deliver insurance broking services to clients. It includes responding to client enquiries for broking services, undertaking risk assessments, and establishing arrangements for providing ongoing services.

The unit applies to those who use well-developed communication and administrative skills when providing broking assistance in a range of client services. Individuals may work in small or large brokerage organisations dealing with retail and/or commercial clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Respond to client enquiries for broking services	1.1 Identify nature of broking services required to satisfy enquiry 1.2 Confirm information and identify research activities required to prepare response to enquiries according to organisational policies and procedures

ELEMENT	PERFORMANCE CRITERIA
	1.3 Conduct research, collect and process information, and prepare response according to legislative and organisational requirements 1.4 Communicate information to client and seek feedback and additional requirements 1.5 Inform client of disclosure requirements according to legislative and regulatory requirements
2. Undertake risk assessment	2.1 Determine client's insurance needs based on client objectives and by undertaking assessment of current risk situation 2.2 Identify and discuss insurable and non-insurable risk exposures with client 2.3 Identify cover requirement changes to client's existing insurance program as advised by client 2.4 Maintain and review record of assessment
3. Assess suitable cover and placement of risk	3.1 Conduct product research to determine most suitable product to meet risk exposure 3.2 Review policy conditions relevant to client's risk exposures 3.3 Conduct market research to determine suitable insurers 3.4 Negotiate with insurers as required to obtain terms for placement of cover
4. Finalise insurance cover	4.1 Review terms and conditions of insurer's offer and sums insured with client 4.2 Communicate outcomes of negotiations and detailed information on options available to client 4.3 Make recommendations to client and obtain client instructions to enable precise actions to be taken 4.4 Complete required documentation, and confirm premiums and statutory imposts prior to issuing instructions for completion of cover to insurer 4.5 Bind cover as instructed by client and issue documentation as required by organisational policies and procedures 4.6 Monitor payment of premium and hold covered terms
5. Agree to and implement arrangements for providing ongoing service	5.1 Agree to type and form of ongoing services to provide 5.2 Implement procedures for agreed ongoing services according to organisational policies and procedures 5.3 Review client's claims history regularly and identify additional risk exposures associated with clients who regularly lodge claims 5.4 Undertake immediate changes to insurance program when requested by client 5.5 Review terms of renewals and remarkets if required 5.6 Confirm premium payments are made within required

ELEMENT	PERFORMANCE CRITERIA
	endorsement or renewal offer period 5.7 Provide claims service when required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs calculations to determine insurance requirements and fees and costs according to predetermined methodologies
Oral communication	<ul style="list-style-type: none"> Speaks clearly using language, tone and pace suitable to audience and purpose Uses active listening and questioning techniques to clarify and confirm understanding
Reading	<ul style="list-style-type: none"> Researches and interprets information from various sources in a range of formats to establish client needs and determine relevant products Gathers, analyses and interprets information on policy wording
Writing	<ul style="list-style-type: none"> Records and completes organisational documentation and correspondence
Planning and organising	<ul style="list-style-type: none"> Plans, organises and implements tasks, aiming to complete them efficiently and according to organisational requirements
Problem solving	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes to make informed recommendations in relation to risk assessment
Self-management	<ul style="list-style-type: none"> Follows legislative requirements and organisational protocols, policies and procedures relevant to own role
Teamwork	<ul style="list-style-type: none"> Selects and uses relevant communication conventions and protocols to liaise with clients and insurers in a range of contexts Uses collaboration techniques to negotiate agreed outcomes
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSIBK406 Deliver professional insurance broking services.

Assessment Requirements for FNSIBK416 Deliver insurance broking services

Modification History

Release	Comments
Release 2	This version first released with FNS Financial Services Training Package Version 7.0. Minor changes to Element 4 and Performance Evidence.
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- deliver the following four insurance broking services that meet legislative and organisational requirements to at least one client:
 - respond to client enquiry for broking services
 - undertake risk assessment
 - finalise client's insurance cover
 - agree to and implement arrangements for providing ongoing service to client.

In the course of the above, the candidate must:

- provide responses to a range of enquiries in line with client needs and outcome of risk assessment
- use organisational tools to collect, analyse and record information to provide broking services
- access and complete required documentation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements and industry codes of practice relating to providing insurance broking services
- organisational policies, procedures and authorities for broking services, including for:
 - dealing with client enquiries

- conducting research relevant for broking services
- identifying errors and inconsistencies in assessment records
- insurance service processes and standards in relation to:
 - information collection
 - risk assessment and methods for assessing cover
 - placing client insurances
 - providing follow-up assistance
- insurance and risk plans for typical retail and commercial client situations and risk profiles
- details of insurance programs, including:
 - terms and required timeframes of settlement
 - terms and conditions of policy
 - extent of cover
 - optional extras
 - excess
- insurance product and policy types and their:
 - corresponding levels of supplier services
 - terms and conditions, including benefits and exclusions
 - cost and fee structures
 - disclosure requirements
- methodology and sources of information relating to assessing insurance cover and placing risk.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology and software
- organisational records and relevant documents
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSIBK517 Review insurance broking service performance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to collect and analyse data in relation to a client service, and review the broking service provided by insurance broking organisations to identify suitable actions. It includes investigating, analysing and evaluating broker performance in implementing client's service plans and developing improvement strategies.

The unit applies to those who provide broking assistance using well-developed research, analytical and administrative skills. Individuals may work in small or large brokerage organisations dealing with retail and/or commercial clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish system to review broking service performance	1.1 Determine service parameters for performance review 1.2 Establish measures of performance for service provision 1.3 Establish data recording methods 1.4 Design and implement monitoring system and record service performance data according to organisational policies and procedures 1.5 Establish review schedule
2. Review broking	2.1 Collate performance data according to planned outcomes

ELEMENT	PERFORMANCE CRITERIA
performance data	2.2 Analyse data and establish achievement of planned outcomes 2.3 Identify variations of performance against planned outcomes
3. Determine action required	3.1 Assess variations in performance and determine degree of required change 3.2 Prepare and record action plan to accommodate changes once implemented, according to organisational policies and procedures 3.3 Implement procedures to effectiveness of changes

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Analyses both qualitative and quantitative data and performs mathematical calculations to achieve required outcomes
Reading	<ul style="list-style-type: none"> Organises, interprets and critiques material from a range of sources and identifies key information
Writing	<ul style="list-style-type: none"> Generates documentation using relevant terminology and clear and concise language
Problem solving	<ul style="list-style-type: none"> Evaluates effectiveness of performance measures to inform decisions on how to implement improvements
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter and store information

Unit Mapping Information

Supersedes and is equivalent to FNSIBK507 Review service performance.

Assessment Requirements for FNSIBK517 Review insurance broking service performance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- review performance of service provided by an insurance broking organisation on at least three different occasions, and on each occasion analyse service results and develop an action plan to address required changes.

In the course of the above, the candidate must:

- apply high level analysis, decision making, and review skills to confirm that service performance is in line with desired outcomes
- review performance and conduct spot checks against service performance indicators.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- compliance requirements for brokers undertaking client servicing
- organisational policies and procedures relating to reviewing insurance broking service performance
- underwriting guidelines and authorities and their impact on organisational policies and procedures relating to client servicing
- good practice and continuous improvement approaches in client service provided by insurance broking organisations
- key performance indicators and key result areas for client servicing
- marketing principles and practices in developing action plans for client servicing.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- organisational policies and procedures, documentation and records.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSIBK518 Implement changes to insurance programs of broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to identify and implement insurance program changes for an insurance broking client, including undertaking a review of the existing portfolio and insurance history. It involves making changes following a prior review of the client's personal and/or business needs.

The unit applies to both general and life insurance brokers in small or large brokerage organisations who provide advice to wholesale and retail clients. It applies to those who apply well-developed interpersonal, analytical and communication skills when dealing with retail and/or wholesale clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify required risk changes to insurance program	1.1 Establish required changes to program using checklist or questionnaire 1.2 Identify alternative risk management strategies to provide client with viable options 1.3 Review current insurance program to determine whether existing cover can be endorsed and whether new covers are required

ELEMENT	PERFORMANCE CRITERIA
	1.4 Seek instructions from client about required changes according to organisational procedures
2. Negotiate change with insurers	2.1 Establish availability of market with terms relevant to client requirements 2.2 Negotiate terms required for change with suppliers 2.3 Identify options for client according to client requirements 2.4 Communicate negotiation outcome, and benefits and disadvantages of identified options
3. Obtain client instructions for program amendments	3.1 Assist client to make decisions on program changes according to legislative requirements 3.2 Record agreed client instructions on changes according to organisational procedures to ensure information is current 3.3 Confirm client instructions and protect interests of both broker and client 3.4 Complete required documentation according to organisational procedures
4. Agree to arrangements for providing ongoing service	4.1 Agree to type and form of ongoing service with client 4.2 Explain fees and costs for ongoing and specifically defined services, and confirm client understanding 4.3 Implement procedures and schedule for agreed ongoing service according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Maintains knowledge of products, services and legislation relevant to own role
Numeracy	<ul style="list-style-type: none"> Analyses and interprets basic statistical data and performs mathematical calculations to achieve required outcomes

FNSIBK522 Negotiate complex claims settlement for insurance broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to negotiate terms and conditions of complex claims settlements for insurance broking clients. It involves researching and organising information, identifying points of difference, clarifying crucial issues in the claim, and presenting a case in regard to an insurance claim settlement on behalf of clients.

The unit applies to those who use well-developed interpersonal, analytical and communication skills in insurance broking organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish content of complex claim	1.1 Review terms and conditions of insurance policy with client 1.2 Advise client on potential claim recovery 1.3 Identify non-insured items and potential issues
2. Negotiate matters relating to complex claim	2.1 Identify type of claim and establish applicable type of negotiation based on variation to standard claims settlement 2.2 Prepare grounds for negotiation according to legislative and organisational requirements

ELEMENT	PERFORMANCE CRITERIA
	2.3 Negotiate terms and conditions of settlement with insurer, representing client interests 2.4 Obtain and review negotiated agreement with insurer
3. Finalise complex claim settlement	3.1 Prepare and document details of insurer's settlement offer with recommendations for client review and acceptance 3.2 Obtain client's response to settlement offer according to organisational procedures 3.3 Update business records according to organisational procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets data and performs mathematical calculations to achieve required outcomes

Assessment Requirements for FNSIBK522 Negotiate complex claims settlement for insurance broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- negotiate complex claims settlements for at least two different insurance broking clients.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and industry compliance requirements that impact client rights and obligations when negotiating complex claims
- organisational policies and procedures relating to negotiating complex claims settlement for insurance broking clients, including for managing the claims process on behalf of clients and:
 - obtaining client responses to settlement offers
 - using insurance broking systems and procedures
- features of insurance contract terms and conditions
- roles and responsibilities of broker in negotiating complex claims
- key aspects of underwriter's claims dispute resolution process
- techniques to interpret and analyse client's needs, including key trends of client's business environment
- processes for preparing grounds for negotiation and for negotiating complex insurance claims
- communication strategies to advise clients throughout negotiation process
- insurance fundamentals and methods to interpret, comprehend and apply policy wording.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- organisational records
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSIBK523 Prepare submissions for new insurance broking business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to determine and prepare submissions for new insurance broking businesses.

The unit applies to those responsible for providing insurance broking services who use well-developed communication and analytical skills and apply specialist product knowledge when working with wholesale and retail clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine client and resource requirements	1.1 Determine nature of submission required by client and if letter of appointment is required 1.2 Establish availability of skills and resources required to prepare submission and source as required 1.3 Identify client objectives, risk needs and financial situation according to organisational policies, procedures and standards 1.4 Explain range of insurance products and broking services available according to legislative and organisational requirements 1.5 Communicate to client the role and responsibilities of broker,

ELEMENT	PERFORMANCE CRITERIA
	adviser's conduct, and available complaint-handling processes
2. Develop client and product risk profile	2.1 Conduct risk assessment and prepare product risk profile for client according to organisational guidelines 2.2 Develop client's risk profile and prepare risk profile from risk analysis 2.3 Maintain records of risk assessment and actions taken
3. Identify suitable insurance program and market availability	3.1 Determine suitable insurance or risk management program according to risk assessment and client objectives, risk needs and financial situation according to organisational policies, procedures and standards 3.2 Compare proposed program with relevant checklist and other similar clients, and identify required changes 3.3 Confirm program meets client objectives, risk needs and financial situation 3.4 Identify and analyse availability of market with terms that match client requirements 3.5 Select insurers and negotiate terms and communicate outcome to client
4. Make submission to client	4.1 Develop and check draft written submission that specifies benefits and advantages for client, according to organisational procedures 4.2 Provide written submission to client in required format 4.3 Discuss and resolve client concerns and issues relating to submission 4.4 Complete and submit final documentation

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Maintains accurate and current knowledge of products, services and legislation relevant to own role
Numeracy	<ul style="list-style-type: none"> Performs numerical calculations to identify client needs and submission requirements
Oral communication	<ul style="list-style-type: none"> Conveys complex information in a manner suitable to audience and purpose Uses active listening and questioning techniques to confirm understanding

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Analyses information and products from a variety of sources and consolidates information in line with client requirements
Writing	<ul style="list-style-type: none"> Records information and prepares correspondence and documentation using clear language that complies with organisational and client formats and protocols
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload to meet organisational and client requirements
Problem solving	<ul style="list-style-type: none"> Systematically gathers and analyses required information and evaluates options to make decisions
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with colleagues and others to seek or provide information Implements strategies to establish a sense of connection and build rapport with clients Uses collaboration techniques to negotiate agreed outcomes
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter and store information

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSIBK513 Prepare a submission for new business.

Assessment Requirements for FNSIBK523 Prepare submissions for new insurance broking business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare at least three different submissions for a new insurance broking business.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- industry compliance requirements and regulatory guidelines in marketing broking services within the context of a business submission
- organisational policies, procedures and standards relating to preparing business submissions
- insurance products, including:
 - policy conditions
 - benefits and exclusions, including fees and charging methodology
- key features of insurance industry, including the economic and taxation factors impacting insurance markets and products
- techniques to evaluate insurance products and broking services
- risk analysis procedures.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology and software
- organisational records
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSIBK524 Manage complex risk portfolios for insurance broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to manage clients with a complex insurance portfolio by identifying and assessing risks and negotiating insurance changes and renewals. It involves identifying additional exposures and advising on changes to the insurance program.

The unit applies to those who work with wholesale clients in a brokerage organisation to synthesise industry information and monitor clients' product needs.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify significant risk changes impacting client portfolio	1.1 Identify significant variations in client's insurance program by monitoring client requested changes 1.2 Identify major changes to level of risk exposure by monitoring and analysing external environment against client program 1.3 Undertake risk assessment in compliance with organisational policies and procedures 1.4 Seek specialist advice as required and according to organisational procedures

ELEMENT	PERFORMANCE CRITERIA
	1.5 Identify precedents through analysis of similar situations 1.6 Maintain records of risks assessed and actions taken
2. Advise client on changes to insurance program	2.1 Provide advice based on assessment of current insurance program that considers changes in risk context and external environment 2.2 Present alternative risk management strategies 2.3 Undertake a cost-benefit analysis of program options 2.4 Identify, record and verify client's preferred program options 2.5 Obtain client declarations, as required by insurers
3. Negotiate complex changes and renewals with insurers	3.1 Identify suitable market for client requirements and approach selected insurers according to organisational procedures 3.2 Obtain client instructions for negotiated outcomes with insurers 3.3 Negotiate options and alternative portfolio structures with insurers 3.4 Obtain negotiated outcomes that provide level of cover required by client
4. Obtain client instructions and arrange changes to insurance program	4.1 Advise client on outcomes of negotiation with insurers and provide client with opportunity to discuss and question alternatives 4.2 Explain benefits and disadvantages of available options to client and make recommendations 4.3 Clarify and document client instructions and communicate change instructions to insurers 4.4 Issue insurance documents within required timeframes and according to organisational requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Undertakes data analysis and performs accurate mathematical calculations to undertake risk assessment and cost-benefit analysis
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using tone and language suitable to audience and purpose Uses active listening and questioning techniques to confirm understanding
Reading	<ul style="list-style-type: none"> Organises, interprets and critiques material from a range of sources and identifies required and key information

SKILL	DESCRIPTION
Writing	<ul style="list-style-type: none"> Develops material for a specific audience using clear and detailed language to convey explicit information, requirements and recommendations
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload to meet service requirements Systematically gathers and analyses required information and evaluates options to make recommendations
Self-management	<ul style="list-style-type: none"> Takes responsibility for compliance of documentation and advice with legislative requirements and organisational procedures
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with colleagues and others to seek or provide information Uses collaboration techniques to negotiate agreed outcomes
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter and store information

Unit Mapping Information

Supersedes and is equivalent to FNSIBK514 Manage a complex risk portfolio for a broking client.

Assessment Requirements for FNSIBK524 Manage complex risk portfolios for insurance broking clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage a complex risk portfolio for at least two different insurance broking clients.

In the course of the above, the candidate must:

- synthesise and coordinate knowledge of the industry to monitor client's need for portfolio changes
- undertake client interviews, gather information and analyse options based on risk assessment methodologies, for presentation to the client
- review insurance benefits, credit stability assessments, claims history, and level of supplier service.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and compliance requirements relating to client management procedures
- organisational policies, procedures and authorities in developing management plans for clients with complex portfolios and risks
- risk assessment methods and risk management strategies required to develop risk management plans for clients with complex risks
- techniques to interpret and analyse client's needs, including key trends and structure of client's industry and insurance market
- key marketing principles and practices applied when managing complex client portfolios
- range of insurance products on the market, including knowledge of complex products
- key aspects of cost-benefit analysis used in managing complex client risk portfolios and risk portfolios with high risk volatility
- insurance fundamentals and methods to interpret, comprehend and apply policy wording

- precedents and previous organisational results for changes in complex risk portfolios.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- organisational records
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSIBK525 Monitor insurance broking client programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to establish ongoing monitoring and review processes, which include insurance loss trends, in order to establish an appropriate loss control program to improve loss ratios.

The unit applies to those who use well-developed interpersonal, analytical and communication skills in small or large brokerage organisations dealing with retail and/or commercial clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance broking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish communication protocols with client	1.1 Apply brokerage service guidelines and determine level of client contact required 1.2 Formalise communications where interests of broker and client need to be protected 1.3 Focus communications on ongoing review of client requirements 1.4 Establish regular communications based on client needs
2. Gather and review client portfolio and loss trends	2.1 Identify and analyse client claims history and assess loss trends 2.2 Identify unreported insured losses and report to insurers according to organisational policy requirements

ELEMENT	PERFORMANCE CRITERIA
	<p>2.3 Protect client's interests by identifying options to reduce incidence and frequency of loss</p> <p>2.4 Monitor underwriting environment to identify if amendments to client program are required</p>
3. Review and adjust monitoring program	<p>3.1 Apply standard industry procedures to broking monitoring processes</p> <p>3.2 Adjust monitoring program on the basis of analysed information and data</p> <p>3.3 Identify significance of analysis for client program and specify areas of effective loss control measures</p> <p>3.4 Identify options to reduce incidence and frequency of loss to protect client interests</p> <p>3.5 Document client loss control program and reasons for recommendations made to client</p> <p>3.6 Monitor client records according to broking service protocols</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Analyses both qualitative and quantitative data and performs mathematical calculations to monitor and identify changes affecting the client Undertakes statistical analysis, interprets data and performs mathematical calculations to achieve required outcomes
Oral communication	<ul style="list-style-type: none"> Conveys and seeks information using language and tone suitable to audience and purpose Uses active listening and questioning techniques to confirm understanding
Reading	<ul style="list-style-type: none"> Organises, interprets and critiques material from a range of sources and identifies key information
Writing	<ul style="list-style-type: none"> Develops material for a specific audience using clear, detailed language to convey explicit information, requirements and recommendations Communicates information using clear and concise language and industry-related terminology according to organisational formats and protocols
Self-management	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload to meet service requirements

SKILL	DESCRIPTION
	<ul style="list-style-type: none">• Systematically gathers and analyses required information and evaluates options to make decisions and recommendations regarding loss control
Teamwork	<ul style="list-style-type: none">• Selects and uses appropriate conventions and protocols when communicating with colleagues and others to seek or provide information
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, enter and store information

Assessment Requirements for FNSIBK525 Monitor insurance broking client programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- monitor insurance broking client programs for at least two different clients.

In the course of the above, the candidate must:

- assess and record current and new risks to the portfolio by applying systematic and methodological approaches to monitor situations in the context of product market developments and industry trends
- comply with broking and communication protocols and practices
- analyse data relating to loss incidents to determine loss trends, make recommendations to improve loss controls, and recommend actions to cover losses.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- industry and organisational compliance requirements relating to dealing with client losses
- organisational policies, procedures and authorities relating to loss analysis and reporting
- key components of service level agreements (SLAs)
- analysis and evaluation techniques used to identify potential changes to client portfolios
- loss control techniques used when managing client risks
- methods that support systematic and methodological monitoring of situations relevant to client programs
- insurance survey requirements to monitor the requirements of clients with potential risk changes, including those relating to workplace safety
- policy wording in relation to client losses
- brokerage service guidelines, including broking and communication protocols and practices.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology and software
- organisational records
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSIGN401 Provide technical guidance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to access and interpret technical information, assist repairers with service and repair work, and provide technical information to repairers.

It applies to individuals who advise and assist others in roles involving repair work within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance general

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assist repairers with service or repair work	1.1 Provide technical guidance, appropriate to skill level and need, to repairers when determining repair or service needed 1.2 Use repairers with appropriate advanced technical competency as point of reference when required 1.3 Provide technical assistance to repairers when needed to identify any difficult faults 1.4 Provide assistance to repairers during work completion, when

ELEMENT	PERFORMANCE CRITERIA
	<p>needed, to ensure technical requirements are met</p> <p>1.5 Recognise potential faults before they develop and take precautionary steps to prevent them</p> <p>1.6 Address problems arising from repair procedure appropriately during course of repair</p>
2. Provide technical information to repairers	<p>2.1 Make appropriate technical information available to repairers when needed</p> <p>2.2 Communicate current and relevant technical information to all repairers</p> <p>2.3 Show repairers where information can be found and how to access, interpret and apply it when required</p> <p>2.4 Access a range of information sources through an established network when required</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 1.4, 2.3, 2.4	<ul style="list-style-type: none"> Locates, interprets, applies and maintains a range of technical information from a variety of familiar sources to inform repairers and guide service work
Writing	1.1, 1.5, 2.2, 2.3	<ul style="list-style-type: none"> Uses appropriate text types and formats to clearly identify and diagnose repairs or preventative action and convey current technical information to relevant personnel
Oral Communication	1.1, 1.3, 1.4, 1.5, 1.6, 2.2, 2.3	<ul style="list-style-type: none"> Participates effectively in verbal exchanges using clear and detailed language and active listening techniques to identify repairs and provide accurate technical advice and critical evaluation, and elicits expert opinion from others if required
Numeracy	1.1, 2.2, 2.3	<ul style="list-style-type: none"> Extracts, evaluates and applies mathematical information in a range of tasks and texts
Navigate the world of work	1.1	<ul style="list-style-type: none"> Takes responsibility for providing quality advisory services and assistance to meet organisational goals and regulatory requirements

Interact with others	1.1-1.4, 2.2-2.3	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols when communicating with others in a range of work contexts • Maintains a supportive environment and adapts communication style to suit individual needs when providing assistance and information to a range of repairers
Get the work done	1.1, 1.5, 1.6, 2.1-2.4	<ul style="list-style-type: none"> • Plans, organises and implements routine and non-routine tasks, aiming to achieve them efficiently • Uses formal analytical thinking techniques to identify issues, generate possible solutions and implement preferred solution, seeking input from others as required • Anticipates potential problems and implements contingency plans as soon as warning signs are recognised • Uses digital technologies and systems to locate information, enter data and present information

Assessment Requirements for FNSIGN401 Provide technical guidance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- provide clear technical information and guidance to repairers and service providers
- assist repairers with service and repair work, and in identifying potential faults
- access a range of information to provide guidance.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain advanced technical knowledge in areas of expertise
- outline the technical requirements that impact on completion of work including:
 - relevant industry standards
 - organisational quality requirements and procedures
 - supplier or manufacturer specifications
- describe how coaching principles are used to develop the fault finding and rectification of faults capabilities of repairers
- describe sources of current technical information and available networks
- describe recent technical and technological developments relevant to the sector.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures

- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSIGN402 Inspect quality of work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- carry out inspections of work done by a builder or repairer safely and effectively
- inspect works to ensure that regulatory requirements, standards, organisational operating procedures and relevant codes of practice are complied with
- review quality of work to protect client's property and interests.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the organisational processes and work quality expected relevant to work inspections
- describe the workplace health and safety (WHS) requirements that apply to work inspections
- describe the regulatory requirements and standards that apply to the work being undertaken
- outline effective communication strategies when providing feedback to repairers or builders
- identify quality assurance principles relevant to work activity
- describe key technical issues essential to the quality of work in the relevant sector.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures
- office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Estimate time requirements for jobs	<p>1.1 Calculate time estimates for job requirements based on industry times, staff estimates, standard service or repair times, relevant specifications and subcontracted work time</p> <p>1.2 Estimate repair times and consider whether repair is a viable option</p>

ELEMENT	PERFORMANCE CRITERIA
	1.3 Incorporate turnaround times for work completed by subcontractor into total time estimates
2. Determine availability and source of parts or materials	2.1 Ascertain viability of replacement compared to repair to meet appropriate standards and legal requirements where appropriate 2.2 Determine parts or materials requirements to ensure cost constraints are met 2.3 Determine availability of parts or materials and consumables where required
3. Identify subcontract repair work costs for incorporation into total estimated cost	3.1 Document estimate appropriately 3.2 Document relevant repair requirements, scope of works, procedures and costs in logical order 3.3 Document repair requirements in detail whenever possible 3.4 Note potential variations on estimate
4. Estimate total job costs	4.1 Give external repairers or service providers clear outline of work and time requirements of job 4.2 Cost parts, materials and consumables according to industry and/or organisation pricing standards 4.3 Document and agree on job cost estimate with repairers or external service providers 4.4 Approve repair or total loss settlement in accordance with organisational procedures and legislation 4.5 Document final estimate and contract conditions 4.6 Prepare variations estimate if required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 4.4	<ul style="list-style-type: none"> Interprets, analyses and evaluates textual information from a range of sources and complexity levels
Writing	1.1 3.1-3.4,	<ul style="list-style-type: none"> Generates clear and detailed textual and numerical information in a logical sequence to convey scope of requirements, timeframe and costs

	4.1-4.6	<ul style="list-style-type: none"> • Uses text type and vocabulary appropriate to the audience, and legislative and organisational requirements to detail agreed final repair cost or settlement
Oral Communication	4.1, 4.3	<ul style="list-style-type: none"> • Participates effectively in verbal exchange using clear and direct language to convey requirements, and careful listening and questioning techniques to elicit and confirm the agreement of others
Numeracy	1.1-1.3, 2.1, 2.2, 3.1, 3.2, 3.4, 4.2, 4.4, 4.5, 4.6	<ul style="list-style-type: none"> • Uses developed mathematical knowledge to predict timeframes, identify, interpret and evaluate numerical information, and perform and document accurate calculations and variances
Navigate the world of work	2.1, 4.2, 4.4	<ul style="list-style-type: none"> • Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Interact with others	4.1, 4.3	<ul style="list-style-type: none"> • Selects and uses appropriate conventions and protocols when communicating with internal or external stakeholders to seek or share information
Get the work done	1.1, 1.2, 2.2, 2.3, 3.1-3.4, 4.1-4.6	<ul style="list-style-type: none"> • Plans, organises and implements routine and non-routine tasks, aiming to achieve them efficiently • Systematically gathers and analyses all relevant information and evaluates options to make decisions about repair requirements that adhere to organisational and legislative requirements • Uses digital technologies and systems to locate information, enter or update data and present information

Assessment Requirements for FNSIGN403 Estimate jobs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- accurately estimate time required for service and repair jobs by collating information relevant to specifications, industry standard service and repair timeframes, and staff estimates
- determine availability and source of parts and materials
- estimate total job costs incorporating costs relating to subcontractors, materials and parts
- document relevant repair requirements, scope of works, procedures and costs in a logical order.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe relevant compliance requirements
- describe contract law relating to insurance repairs
- explain estimating principles
- explain sale-contracting principles
- describe processes to access subcontractors, materials and parts
- outline effective negotiation techniques
- describe key areas of technical knowledge of vehicles and/or buildings used in estimating jobs.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSIGN406 Inspect property for saleable items and determine their value

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to inspect property subject to a claim, and identify serviceable and saleable property and items to determine whether they can be sold and what their value would be.

It applies to individuals who may use specialist techniques to carry out inspections within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance general

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Carry out inspection of property to identify serviceable and saleable items and components	1.1 Complete inspection safely without causing damage to any property, component or system 1.2 Access and interpret correct information 1.3 Inspect property, components and items to identify serviceable and saleable components 1.4 Include planned action and expected result of sale in final loss

ELEMENT	PERFORMANCE CRITERIA
	calculation 1.5 Carry out inspection activities according to industry regulations and guidelines
2. Determine property, component and item retail or salvage price	2.1 Undertake valuation of identified property serviceable and saleable items and components to calculate final value 2.2 Estimate retail price and salvage cost 2.3 Recommend action and record according to organisational policy, legislation and regulations

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 1.5, 2.2, 2.3	<ul style="list-style-type: none"> Accesses, analyses and evaluates textual information from a variety of sources to identify details and determine requirements
Writing	1.3, 1.4, 2.1, 2.2, 2.3	<ul style="list-style-type: none"> Documents inspection outcomes and recommendations using industry specific language
Numeracy	1.2, 1.4, 2.1, 2.2	<ul style="list-style-type: none"> Accesses and interprets numerical information and performs calculations using formal mathematical language and symbols to estimate and record results
Navigate the world of work	1.1, 1.5, 2.3	<ul style="list-style-type: none"> Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements
Get the work done	1.1, 1.2, 1.3, 1.4, 1.5, 2.1, 2.3	<ul style="list-style-type: none"> Plans, organises and implements routine and non-routine tasks, aiming to achieve them efficiently and in accordance with organisational and legislative requirements Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations Uses digital technologies and systems to locate information, enter or update data and present information

Assessment Requirements for FNSIGN406 Inspect property for saleable items and determine their value

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- carry out inspections of property to identify serviceable and saleable items and components in compliance with industry codes of practice, legislation and regulations
- determine retail or salvage price of property component or item
- undertake loss calculations to determine recommended action.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the key requirements of legislation, regulations and industry codes of practice relating to safety and standard of goods for sale
- describe the technical knowledge needed to estimate the value of items and components, and determine whether salvage or sale is a viable option
- describe the characteristics and operation of the market for salvaged items
- outline the factors to be considered when determining if items or components can be salvaged.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the general insurance field of work and include access to:

- organisational records, policy and procedures
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILA505 Provide ancillary services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to provide ancillary services and guidance relating to a loss situation, and options to minimise the extent of future loss, damage or injury.

It applies to individuals in the loss adjusting sector who use specialised knowledge, analytical skills and strong communication skills to convey requirements and options. It may be applied within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Provide guidance on prevention of future losses	1.1 Identify opportunities to provide guidance on loss prevention while current loss situations are being assessed 1.2 Interview clients and relevant third parties to identify potential risk and hazard indicators 1.3 Identify and assess all relevant risk information to determine integrity of its source, and whether it is comprehensive, valid,

ELEMENT	PERFORMANCE CRITERIA
	<p>reliable and pertinent to nature of risk and meets client needs</p> <p>1.4 Assess risk types against known exposure factors and for compliance with relevant legislation and client or organisational policy guidelines</p>
<p>2. Provide guidance on application of risk management techniques where appropriate</p>	<p>2.1 Determine client product, service types and environment so that nature of risk can be identified and appropriate techniques can be applied</p> <p>2.2 Present range of viable risk management strategies and techniques, and benefits and disadvantages of various options, to clients</p> <p>2.3 Carry out cost–benefit analysis on various options identified</p> <p>2.4 Provide guidance based on objective assessment of client needs and risk exposure factors</p> <p>2.5 Document guidance on risk management strategies and techniques provided to clients, and record promptly and accurately</p> <p>2.6 Discuss appropriateness and adequacy of current insurance cover with clients</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.3, 1.4, 2.1	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	2.2, 2.4, 2.5	<ul style="list-style-type: none"> Presents carefully structured information using clear and accurate language to convey options and recommendations specific to the audience and purpose
Oral Communication	1.2, 2.2, 2.4, 2.6	<ul style="list-style-type: none"> Participates in verbal exchanges, clearly presenting information and options using language, tone and pace appropriate to the audience and environment Uses listening and questioning techniques to elicit the views and opinions of other and to confirm understanding
Numeracy	2.3	<ul style="list-style-type: none"> Performs calculations and uses mathematical problem-solving techniques to analyse numerical and

		financial data
Navigate the world of work	1.4	<ul style="list-style-type: none"> • Takes full responsibility for following policies, procedures and legislative requirements, and identifies the organisational implications of new legislation or regulation • Identifies and resolves key business issues, processes and practices that may have legal implications
Interact with others	1.2, 2.2, 2.4, 2.6	<ul style="list-style-type: none"> • Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships • Recognises the diversity in people and manages this diversity to improve relations and practices
Get the work done	1.1, 1.3, 2.1, 2.2, 2.3, 2.5	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness • Applies systematic and analytical decision-making processes for complex and non-routine situations • Uses the main features and functions of digital tools to complete work tasks and access information

Assessment Requirements for FNSILA505 Provide ancillary services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the following must be provided:

- apply risk management techniques to provide advice on loss reduction and loss prevention
- use fraud detection, control and prevention principles to advise clients on preventative strategies for loss reduction
- use arbitration and dispute resolution principles and processes, applying thorough knowledge of types and categories of insurance policies and products, industry codes of practice and relevant legislation
- undertake cost-benefit analysis of a loss situation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

Evidence of the ability to:

- explain the key features of:
 - claims management processes and procedures
 - relevant policy coverage and requirements
 - recovery processes
 - salvage and disposal methods
 - subrogation
 - type and categories of insurance policies
- identify and describe the key features of:
 - insurance and contract law principles
 - relevant legislation and industry codes of practice
 - loss adjusting principles and practice
 - risk management and minimisation principles and techniques.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance loss adjusting field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILA506 Provide specialist theft, money and fidelity loss adjusting advice and services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to select techniques and provide appropriate advice and services when loss adjusting theft, money and fidelity claims. It includes determining liability and extent of loss, and loss mitigation and recovery options for insurance loss or damage.

The unit applies to individuals working in the loss adjusting sector who use specialised knowledge, analytical skills and techniques to complete their work within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish facts and options for loss mitigation	1.1 Collect evidence required to confirm circumstances of loss or damage for theft, money or fidelity claim 1.2 Identify information deficiencies and obtain additional information from required sources 1.3 Review insurance policy conditions and determine if loss falls within policy coverage 1.4 Identify and evaluate options for loss mitigation relating to claim

ELEMENT	PERFORMANCE CRITERIA
2. Analyse facts and determine liability and extent of loss	2.1 Assess collected evidence and information 2.2 Identify fraud indicators 2.3 Assess validity of loss situation and claim against reported circumstances, available evidence and policy specifications 2.4 Determine extent of liability and loss according to legislative requirements and organisational policies and guidelines
3. Determine options for recovery	3.1 Identify required contributory insurances 3.2 Identify and assess cases for potential subrogation action 3.3 Identify and evaluate methods of salvage and disposal, and inform clients of appropriate steps to preserve salvageable materials
4. Communicate with required parties	4.1 Identify need for specialist assistance 4.2 Convey facts and outcomes to client and other required parties 4.3 Communicate with authorities as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> • Uses a range of mathematical problem-solving techniques to analyse and estimate numerical and financial data
Oral communication	<ul style="list-style-type: none"> • Uses active listening and questioning to convey and clarify information and to confirm understanding • Presents information using clear and convincing language, tone and pace appropriate for the audience and purposes
Planning and organising	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and considers capabilities, efficiencies and effectiveness • Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships
Problem solving	<ul style="list-style-type: none"> • Applies systematic and analytical decision-making processes for complex and non-routine situations • Makes critical decisions quickly in complex situations, considering a range of variables including the outcomes of previous decisions
Self-management	<ul style="list-style-type: none"> • Takes responsibility for following policies, guidelines and legislative requirements
Technologies	<ul style="list-style-type: none"> • Uses digital technologies to access, enter and store information

SKILL	DESCRIPTION

Assessment Requirements for FNSILA506 Provide specialist theft, money and fidelity loss adjusting advice and services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- provide specialist advice and services for at least two of the following types of loss adjusting claims:
 - theft
 - money
 - fidelity.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory guidelines and industry sector compliance requirements relevant to job role
- organisational policies and guidelines relating to the provision of specialist theft, money and fidelity loss adjusting advice and services
- types and features of theft, money and fidelity insurance policies, including scope of cover and key terms and conditions
- fraud indicators
- indicators and characteristics of subrogation actions relating to theft, money and fidelity claims
- loss mitigation measures for theft, money and fidelity claims
- possible impacts of theft, money and fidelity loss on involved stakeholders
- role of loss adjuster in managing theft, money and fidelity claims
- specialist services required for loss adjusting theft, money and fidelity claims
- techniques for estimating the extent of loss in theft, money and fidelity claims
- techniques for investigating and verifying theft, money and fidelity claims
- techniques to analyse and estimate numerical and financial data.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policies and guidelines.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

- loss mitigation measures for liability claims
- impacts of liability loss on involved stakeholders
- principles used to determine legal liability, including:
 - law of torts
 - contract law
 - statute law
 - equity
- role of loss adjuster in managing liability claims
- indicators and characteristics of subrogation actions relating to liability claims
- specialist services required for loss adjusting liability claims
- techniques required for estimating the extent of loss in liability claims

- techniques required for investigating and verifying liability claims
- techniques to analyse and estimate numerical and financial data.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policies and guidelines.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSILA509 Provide specialist building loss adjusting advice and services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to select techniques and provide appropriate advice and services when loss adjusting building claims. It includes determining liability and extent of loss, and loss mitigation and recovery options for insurance claims for building losses.

The unit applies to individuals working in the loss adjusting sector who use specialised knowledge, analytical skills and techniques to complete their work within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish facts and options for loss mitigation	1.1 Collect evidence and information required to confirm circumstances of loss or damage for building claim 1.2 Identify information deficiencies and obtain additional information from required sources 1.3 Review insurance policy conditions and determine if loss falls within policy coverage 1.4 Identify and evaluate options for loss mitigation relating to claim

ELEMENT	PERFORMANCE CRITERIA
2. Analyse established facts	2.1 Assess collected evidence and information 2.2 Assess validity of loss situation and claim against reported circumstances, available evidence and policy specifications
3. Determine extent of loss or damage and establish options for recovery	3.1 Determine extent of liability and loss according to legislative requirements and organisational policies and guidelines 3.2 Identify contributory insurances 3.3 Identify and assess cases for potential subrogation action
4. Communicate with required parties	4.1 Identify the need for specialist assistance 4.2 Convey facts and outcomes to client and other required parties 4.3 Communicate with authorities as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> Uses a range of mathematical problem-solving techniques to analyse and estimate numerical and financial data
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning to convey and clarify information and to confirm understanding Presents information using clear and convincing language, tone and pace appropriate for the audience and purpose
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and considers capabilities, efficiencies and effectiveness Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships
Problem solving	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes for complex and non-routine situations
Reading	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources, against defined criteria and requirements, and checks for accuracy and completeness
Self-management	<ul style="list-style-type: none"> Takes responsibility for following policies, guidelines and legislative requirements and identifies organisational implications of new legislation or regulation
Technologies	<ul style="list-style-type: none"> Uses digital technologies to access, enter and store information required to complete work tasks

Skill	Description
Writing	<ul style="list-style-type: none">Records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology

Unit Mapping Information

No equivalent unit. New unit.

FNSILA511 Plan and implement loss investigations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to perform activities, including interacting with clients, authorities and specialists, to plan and implement loss investigations.

The unit applies to individuals who, within their level of responsibility, use specialised knowledge and organisational skills to coordinate a range of activities required to conduct loss investigations and to ensure thorough and accurate completion of these activities. These individuals use high level analytical, liaison and planning skills to interact with others.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse, negotiate and confirm assignment	1.1 Access and analyse terms of engagement and instructions for assignment, and determine whether provided information is sufficient 1.2 Determine conflicts of interest and confirm assignment is within scope of own knowledge and expertise 1.3 Negotiate, confirm and document terms of engagement and instructions according to client and organisational policies, regulatory and legislative requirements, codes of practice and level of authority 1.4 Advise required parties of decisions to accept or reject terms of

ELEMENT	PERFORMANCE CRITERIA
	engagement, instructions and reasons for decisions as required
2. Plan loss investigation	2.1 Assess validity of loss situation and claim against reported circumstances, available evidence and information 2.2 Determine insurance cover for loss, damage or injury as required and review policy conditions to confirm loss falls within policy coverage 2.3 Establish contractual and other obligations of each party according to circumstances under enquiry 2.4 Document required facts and information according to organisational policies and guidelines 2.5 Determine viable course of action and choose investigative activities 2.6 Assess proposed investigative activities for compliance with codes of practice, regulatory and legislative requirements, and organisational policies and guidelines
3. Implement loss investigation	3.1 Collect facts and information required to confirm circumstances of loss, damage or injury 3.2 Identify information deficiencies and obtain additional information as required 3.3 Identify fraud indicators 3.4 Establish confidential channels of communication with clients and other parties as required 3.5 Establish and maintain professional and cordial relationships with required parties during investigation 3.6 Establish and maintain comprehensive records of investigative activities, methodology and allocated time during investigation
4. Provide interim guidance to involved parties	4.1 Identify and determine requirements for urgent action to protect client interests 4.2 Inform involved parties of loss mitigation actions and preservation of evidence as required 4.3 Inform client of their potential exposure and initial estimate of reserve
5. Verify and clarify information	5.1 Review facts and information gathered and assess for thoroughness and consistency 5.2 Clarify conflicting evidence or information
6. Organise and preserve evidence	6.1 Collate and organise evidence gathered, and record according to organisational policies and guidelines 6.2 Preserve required evidence according to codes of practice, regulatory and legislative requirements, and organisational policies and guidelines 6.3 Maintain confidentiality and security of information according

ELEMENT	PERFORMANCE CRITERIA
	to legislative, industry and organisational requirements
7. Communicate with authorities	7.1 Liaise with authorities as required 7.2 Receive clearance or authorisation for investigative activities from authorities as required and document outcomes
8. Appoint specialists	8.1 Determine need to appoint specialist and convey request to client and other parties as required 8.2 Engage and brief appointed specialists as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets numerical and financial information relevant to assessing insurance loss
Oral communication	<ul style="list-style-type: none"> Conveys information using language, tone and pace appropriate to the audience and environment Uses listening and questioning techniques to elicit the views and opinions of others and to confirm understanding
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness Monitors progress schedules and reviews and changes them to meet new demands and priorities Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships
Problem solving	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes for complex and non-routine situations
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Self-management	<ul style="list-style-type: none"> Takes responsibility for following policies, guidelines and legislative requirements
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter and store information required to complete work tasks
Writing	<ul style="list-style-type: none"> Records information and writes detailed notes using required format, spelling and grammar, terminology and conventions specific to requirements

FNSILA512 Evaluate collected information and report findings in loss adjusting

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to apply diagnostic and mathematical skills to determine liability and extent of loss, damage or injury, and report on loss investigation findings. It encompasses providing guidance and information to involved parties on issues such as recovery rights and success relating to a loss situation.

The unit applies to individuals who use specialised knowledge, analytical skills and, systematic approaches and techniques to problem solve. It also includes skills required to prepare data, present information and communicate effectively with clients.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance loss adjusting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse established facts	1.1 Assess evidence and information gathered during investigative activities 1.2 Identify fraud indicators 1.3 Assess validity of claim against reported circumstances, available evidence and information 1.4 Assess validity of claim against policy coverage and policy specifications

ELEMENT	PERFORMANCE CRITERIA
	1.5 Document data analysis techniques and procedures used
2. Assess liability and recovery options	2.1 Determine extent of liability and amount of loss according to insurance policy, legislative and regulatory requirements and organisational policies and guidelines 2.2 Carry out cost–benefit analysis on available recovery options as required
3. Determine recovery rights	3.1 Identify contributory insurances 3.2 Identify and assess cases for potential subrogation action and evaluate likelihood of recovery success 3.3 Identify and evaluate methods of salvage and disposal and potential returns 3.4 Inform involved parties of required steps to preserve salvageable materials 3.5 Notify other parties of the intent to seek recovery where required
4. Report findings	4.1 Prepare reports according to client or organisational policies and guidelines, legislative requirements and codes of practice 4.2 Provide reports to required parties 4.3 Prepare and update reports to reflect current status of assignment

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets numerical and financial information against a range of criteria to calculate and estimate loss Applies data analysis techniques and procedures, and business mathematics and statistics relevant to assessing insurance loss
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness
Problem solving	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes for complex and non-routine situations
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Self-management	<ul style="list-style-type: none"> Takes responsibility for following policies, guidelines and legislative requirements

SKILL	DESCRIPTION
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, enter, check and store information required to complete work tasks
Writing	<ul style="list-style-type: none">• Records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology• Reports specific information logically and revises and updates documentation based on outcomes of action

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to:

- FNSILA502 Evaluate collected information
- FNSILA503 Report findings and provide guidance to involved parties.

FNSILD501 Prepare a distribution plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to determine and prepare a distribution plan. It encompasses determining business objectives, defining markets and their needs, determining products and services, identifying and selecting distribution channels, establishing performance measures and documenting the plan.

It applies to experienced individuals who use specialised knowledge and skills to evaluate complex information and make recommendations relevant to strategic organisational activity.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance life distribution

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine business objectives	1.1 Identify distribution aspects of corporate strategic and business plans 1.2 Analyse current situation to determine opportunities in accordance with corporate plans 1.3 Identify and document desired financial resource and market parameters

ELEMENT	PERFORMANCE CRITERIA
	1.4 Develop objectives through consultation with stakeholders
2. Define markets and needs	2.1 Identify and assess potential markets within corporate strategy and philosophy, and clearly delineate market groups 2.2 Ensure cost-benefit analysis results are within plan projections
3. Determine products and services	3.1 Assess likely future trends in selected markets 3.2 Select a range of products or services to meet market needs and profit objectives
4. Identify and select distribution channels	4.1 Identify current distribution channels and assess their advantages and disadvantages 4.2 Choose channels according to objective criteria
5. Determine and establish enterprise structure	5.1 Evaluate suitability of current structure for proposed distribution channels against business objectives, potential markets and services to be provided 5.2 Assess alternatives against business objectives, potential markets and services to be provided
6. Establish performance measures	6.1 Identify and document financial measures 6.2 Establish timeframes, and determine and document processes to monitor performance outcomes
7. Document plan	7.1 Integrate plan components into agreed format 7.2 Document in logical, concise and conclusive manner and obtain sign-offs from authorised personnel

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1, 4.1, 5.1, 6.1	<ul style="list-style-type: none"> Analyses and selects key information from a variety of sources and evaluates against specific criteria
Writing	1.3, 1.4, 6.1, 6.2, 7.1, 7.2	<ul style="list-style-type: none"> Consolidates and logically structures relevant information to produce clear and concise documentation relevant to the purpose and audience

Assessment Requirements for FNSILD501 Prepare a distribution plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct analysis of critical information required to develop a distribution plan including:
 - business objectives, products and services
 - markets and needs
 - distribution channels
 - performance measures
- document distribution plan according to organisational requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- analyse and describe key client profiles
- discuss key features of distribution and marketing approaches
- identify expense ratios
- identify financial metrics relevant to monitoring performance of the distribution network
- identify and explain human resource trends in the context of the life insurance industry
- identify and describe key markets to be served
- outline organisational planning processes to service the life insurance business
- analyse and describe key:
 - sales trends
 - sales relating to market mix
 - sales relating to products
- outline opportunities and strategies for maintaining and updating knowledge of available products and services.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance life distribution field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILD502 Resource a distribution plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify and allocate adequate resources for distribution plans. It encompasses satisfying human resource requirements, providing technology requirements and providing infrastructure requirements.

It applies to individuals who use specialised knowledge and organisational skills to plan and implement strategic organisational activity.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance life distribution

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Satisfy human resource requirements	1.1 Determine human resource needs and requirements according to plan requirements 1.2 Develop role specifications according to enterprise format and procedures 1.3 Consider internal and external options with staff selected according to enterprise policy, role descriptions, procedures and legislative requirements

ELEMENT	PERFORMANCE CRITERIA
	1.4 Appoint staff following enterprise procedures 1.5 Implement performance management systems
2. Provide technology requirements	2.1 Determine technology specifications within enterprise policy and budgets 2.2 Install or contract technology within budget and timelines, and meet all legal requirements 2.3 Regularly review technology performance against specifications and establish contingency plans
3. Provide infrastructure needs	3.1 Specify infrastructure needs and source within budget and timeframes, and according to enterprise's purchasing policies 3.2 Revise needs to continuously support distribution plan

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	2.3, 3.1, 3.2	<ul style="list-style-type: none"> Analyses and reviews key information from a variety of sources against specific criteria to determine needs and impacts
Writing	1.2, 2.3, 3.1	<ul style="list-style-type: none"> Uses clear language, logically structures information and produces documentation using correct organisational formats and procedures
Oral Communication	1.2, 1.4, 2.3	<ul style="list-style-type: none"> Leads and participates in verbal exchanges using active listening and questioning skills when dealing with a range of personnel in varied situations
Numeracy	2.2, 3.1	<ul style="list-style-type: none"> Performs calculations to interpret and analyse financial and numerical information relating to budgets
Navigate the world of work	1.1-1.5, 2.1, 2.2, 3.1	<ul style="list-style-type: none"> Develops and implements strategies to ensure organisational policy, procedures and regulatory requirements are met Ensures knowledge of products, services, legislation and regulations relevant to role is accurate, comprehensive and current
Interact with	1.4, 1.5	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to gain and provide information relevant to resource

others		requirements <ul style="list-style-type: none"> Collaborates with others to achieve joint outcomes, playing an active role in negotiating effective outcomes
Get the work done	1.1-1.5, 2.1-2.3, 3.1, 3.2	<ul style="list-style-type: none"> Plans, organises, implements and reviews systems and processes to manage resource requirements Applies systematic and analytical decision-making processes for complex and non-routine situations to determine appropriate actions Actively identifies systems, devices and applications with potential to meet current and/or future needs

Assessment Requirements for FNSILD502 Resource a distribution plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- organise and document human resource requirements for the distribution plan
- determine and organise suitable technology and infrastructure requirements for the organisation relating to the distribution plan
- determine and organise other infrastructure requirements for the distribution plan.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe key features of facilities and infrastructure required for servicing a distribution plan
- identify and explain human resource procedures and requirements, considering the relevant legislation
- identify key features and requirements of IT to service the distribution plan
- explain the role of logistics, and discuss procurement techniques and tools relating to distribution plans
- outline technology resources relating to distribution plans.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance life distribution field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records

- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF408 Process life insurance contract maturity and surrender payment requests

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to process and settle payment requests relating to non-risk based life insurance policies.

It applies to individuals working within the life insurance sector and whose responsibility involves assisting clients with their settlement requests.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Receive and validate notification	1.1 Receive request for surrender or notification of maturity of relevant life insurance contract 1.2 Check that documentation is correct and complete 1.3 Check request is valid 1.4 Determine organisational authority level required to process request and refer it to appropriately authorised individual or department as necessary

ELEMENT	PERFORMANCE CRITERIA
2. Provide advice to claimant	2.1 Advise claimant of consequences of proceeding with settlement 2.2 Inform client of alternatives to surrender where appropriate 2.3 Obtain discharge as appropriate
3. Calculate payment	3.1 Verify entitlements on basis of supplied evidence, and terms and conditions of life insurance policy 3.2 Calculate and check entitlements in accordance with procedures and regulatory requirements
4. Finalise settlement	4.1 Confirm method of payment with client 4.2 Enter and confirm payment information on appropriate systems to make payment 4.3 Communicate settlement details to relevant stakeholders, as required, in accordance with procedures and regulatory requirements 4.4 Update records and file documentation in accordance with procedures and regulatory requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 3.1, 3.2	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex textual information from a range of sources and identifies relevant information
Writing	1.1, 1.4, 2.1-2.3, 4.1-4.4	<ul style="list-style-type: none"> Produces texts in logical sequence using appropriate technical and industry-specific language to convey and record information accurately and effectively
Oral Communication	1.4, 2.1-2.3, 4.1-4.3	<ul style="list-style-type: none"> Uses active listening and questioning techniques to confirm understanding of requirements and other information provided Uses clear, specific and technically correct language to convey information
Numeracy	3.2	<ul style="list-style-type: none"> Interprets numerical information, uses mathematic equations and performs calculations

Assessment Requirements for FNSILF409 Work effectively and sustainably in the life insurance industry

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Newly created to provide entry-level workers with an understanding of the role of the life insurance industry and factors impacting its sustainability.</p>

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- complete at least three different life insurance processes in own role within the organisation; each time demonstrating practices that contribute to the sustainability of the organisation and life insurance industry.

In the course of the above, the candidate must identify and follow life insurance:

- protocols
- regulatory requirements
- code of ethics
- code of professional practice.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures relating to the life insurance industry
- organisational and life insurance industry sustainability goals
- factors influencing the sustainability of the organisation and life insurance industry
- legislative and regulatory requirements relating to the life insurance industry
- life insurance industry requirements, protocols and guidelines

- contribution of own role and work practices to value chain of the organisation and to sustainability of the organisation and life insurance industry
- processes and stages in the life insurance product life cycle
- key features and components of life insurance code of ethics, code of professional practice, and terminology applicable to activities described in performance evidence
- information management systems, sources of information and databases required for work activities and for maintaining industry knowledge.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- information management systems and databases required for work activities described in performance evidence
- office equipment, technology and software
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is equivalent to FNSILF401 Contribute to the life risk underwriting process.</p> <p>Minor changes to title, application, elements and foundation skills descriptions. Significant rewording of performance criteria. Performance evidence and knowledge evidence updated to clarify intent.</p>

Application

This unit describes the skills and knowledge required to undertake risk assessments of applications for life insurance, including gathering and reviewing risk information and assessing it against risk-assessment criteria, in order to complete the underwriting process.

The unit applies to individuals in underwriting roles, who use specialised knowledge and systematic approaches to analyse and evaluate information and make judgements within limits of delegated authority.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify risk factors	1.1 Identify application product type and benefit levels and

ELEMENT	PERFORMANCE CRITERIA
and evaluate life insurance application	<p>determine nature of risk factors to be assessed according to organisational policies and procedures</p> <p>1.2 Assess and evaluate application against risk-assessment criteria according to organisational policies and procedures</p> <p>1.3 Identify and document risk factors</p>
2. Obtain further information	<p>2.1 Identify need for additional information as required</p> <p>2.2 Obtain further information within required timeframes to satisfy outstanding risk-assessment criteria</p> <p>2.3 Manage privacy of parties according to legislative and regulatory requirements and codes of ethics and professional practice</p>
3. Determine and advise terms and conditions of risk acceptability	<p>3.1 Assess acceptability of risk against all available information according to legislative and regulatory requirements</p> <p>3.2 Document assessment rationale according to organisational policies and procedures</p> <p>3.3 Establish terms and conditions that minimise risk liability, within delegated authority</p> <p>3.4 Advise required parties of acceptance or rejection of application and communicate next steps, according to legislative and regulatory requirements</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> • Uses mathematical problem-solving techniques to check data and financial information against criteria, planned timelines and work sequence
Oral communication	<ul style="list-style-type: none"> • Selects and uses communication conventions and protocols to liaise with others • Uses active listening and questioning techniques to confirm understanding of requirements • Provides information using language and tone required for audience and purpose
Reading	<ul style="list-style-type: none"> • Gathers, analyses and interprets simple to complex information from a range of sources, and identifies relevant information to complete required tasks

Skill	Description
Writing	<ul style="list-style-type: none">• Produces texts of varying complexity using appropriate language, grammar and logical sequencing to convey information
Self-management	<ul style="list-style-type: none">• Follows legislative requirements; and protocols, policies and procedures
Technology	<ul style="list-style-type: none">• Uses key features and functions of information management systems and databases required for own role and work activities

Assessment Requirements for FNSILF411 Undertake the life risk underwriting process

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is equivalent to FNSILF401 Contribute to the life risk underwriting process.</p> <p>Minor changes to title, application, elements and foundation skills descriptions. Significant rewording of performance criteria. Performance evidence and knowledge evidence updated to clarify intent.</p>

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- undertake the life risk underwriting process for at least two different applications.

In the course of the above, the candidate must:

- provide timely advice to required parties regarding application status.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures relating to life risk underwriting
- legislative and regulatory requirements relating to life insurance risk underwriting, and key regulatory bodies, including:
 - Australian Securities and Investments Commission (ASIC)
 - Australian Prudential Regulation Authority (APRA)
 - Life Insurance Act
 - Life Insurance Regulations
- basic life insurance underwriting principles
- key aspects of life insurance industry

- key medical terminology required for life insurance underwriting
- total industry sum insured and industry maximums
- key methods and rationales used in assessing acceptability of identified risks
- sources of further information used to enable comprehensive evaluation of an application
- key requirements of code of ethics and code of professional practice relating to assessment of life insurance claims
- types of:
 - risks that arise in life insurance products and probability of their occurrence
 - risk-assessment criteria
 - risk-mitigation methods
- key aspects of risk pooling.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSILF413 Develop and maintain in-depth knowledge of life insurance products and services

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is equivalent to FNSILF403 Develop and maintain in-depth knowledge of products and services used by the life insurance sector.</p> <p>Minor changes to title and application. Significant rewording of elements and performance criteria. Performance evidence and knowledge evidence updated to clarify intent.</p>

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and apply in-depth knowledge of at least two life insurance products and at least two life insurance services in order to document accurate information for a client.

In the course of the above, the candidate must:

- research competitor organisation offerings and identify differences between offerings.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative, regulatory and compliance requirements relating to life insurance industry
- compliance implications of legislation and regulation in life insurance
- types of promotional material for life insurance products and services
- key characteristics of products and services, including:
 - strengths
 - weaknesses
 - terms and conditions
- key features, purpose, application and benefits of the following life insurance products:

- basic term life insurance (death cover)
- total and permanent disability cover
- disability income protection
- trauma cover
- life insurance annuities
- life insurance investments
- endowment policies
- whole of life policies
- methods for developing knowledge of current life insurance products and services
- life insurance competitor organisations and their key products and services
- key considerations when accessing sources of current life insurance product information, including:
 - company websites
 - industry seminars
 - professional membership bodies
 - professional development and learning management systems
 - consumer reports
 - financial reviews
 - conferences
 - promotional events.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSILF415 Evaluate life insurance claims

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF405 Evaluate life insurance claims.</p> <p>Major changes to elements. Significant rewording of performance criteria. Update to foundation skills to incorporate the use of technology. Performance evidence and knowledge evidence updated to clarify intent.</p>

Application

This unit describes the skills and knowledge required to handle the receipt, initial assessment and processing of claims made under risk-based life insurance policies.

The unit applies to claims assessors who work in claims management in life insurance contexts.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Process claim information	1.1 Receive and file claim information 1.2 Summarise information in assessment notes according to organisational policies and procedures

ELEMENT	PERFORMANCE CRITERIA
	1.3 Check that documentation is correct and complete according to legislative and regulatory requirements
2. Evaluate claim information	2.1 Determine the authority level required to evaluate the claim 2.2 Analyse information and evidence against policy terms and conditions according to organisational policies and procedures 2.3 Determine if policy terms and conditions are met 2.4 Identify whether policy exclusions apply 2.5 Analyse information on file, identify gaps and request additional information as required and according to code of professional practice and code of ethics 2.6 Refer assessment of application and file to appropriate authority for approval if required, according to organisational policies and procedures
3. Establish liability for payment	3.1 Determine authority level required to establish liability, and refer decision and rationale with claim file to appropriate authority if necessary, according to organisational policies and procedures 3.2 Determine whether claim can be admitted and whether payment is required according to organisational policies and procedures and within authority limits 3.3 Calculate and process payment according to organisational policies and procedures, as required 3.4 Communicate outcomes to required parties according to organisational policies and procedures 3.5 Update policy, claim records and file documentation according to organisational policies and procedures
4. Close claim	4.1 Confirm required documentation for the claim is stored in claim file according to organisational policies and procedures 4.2 Confirm required medical, financial and closure fields are completed in claims system according to organisational policies and procedures 4.3 Confirm all policy records are updated in policy administration system according to organisational policies and procedures 4.4 Update claim information in required systems according to organisational policies and procedures 4.5 Advise policy owner or authorised parties of status of claim according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> Interprets numerical information and performs calculations according to organisational policies and procedures
Oral communication	<ul style="list-style-type: none"> Provides information using technically correct language that is specific to audience and purpose Selects and uses communication conventions and protocols to liaise with others
Reading	<ul style="list-style-type: none"> Gathers, analyses and interprets simple to complex information from a range of sources and identifies relevant information and actions
Writing	<ul style="list-style-type: none"> Produces texts of varying complexity using appropriate language, grammar and logical sequencing to convey and record information
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness
Problem solving	<ul style="list-style-type: none"> Makes decisions regarding claim validity based on implementation of standard procedures and/or evaluation against set criteria
Self-management	<ul style="list-style-type: none"> Follows legislative requirements; and protocols, policies and procedures
Technology	<ul style="list-style-type: none"> Uses key features and functions of digital tools to complete work tasks

Assessment Requirements for FNSILF417 Settle life insurance claims

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Superseded by and not equivalent to FNSILF407 Settle life insurance claims.</p> <p>Significant rewording of performance criteria. Updates to foundation skills as initiative and enterprise not required.</p> <p>Performance evidence and knowledge evidence updated to clarify intent. Updates to assessment conditions as interaction with others not required.</p>

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- settle at least three different life insurance claims.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures, and legislative and regulatory requirements relating to processing and settlement of life insurance claims
- key documentation requirements for settling life insurance claims
- factors to consider when calculating extent of liability
- organisational systems for data entry and filing and storage
- levels of authority within life insurance organisations
- key aspects of:
 - life insurance policy terms and conditions
 - payable benefits
 - settlement procedures, including payment criteria and payments
 - consequences relating to life insurance claims processes

- stakeholders in life insurance claims processes.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSILF507 Manage group life insurance policy administration

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to effectively administer group life insurance policies.

It applies to those responsible for the management and administration of group life insurance policies.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Recognise and apply relevant policy guidelines	1.1 Identify relevant group policy ownership structure and associated rules of administration 1.2 Verify party's authority to act in relation to group life insurance policy 1.3 Use inter-organisational relationships to collect information and authorisations
2. Review group life insurance policy	2.1 Verify that group meets automatic acceptance eligibility criteria

ELEMENT	PERFORMANCE CRITERIA
	<p>2.2 Review member schedule and verify members' eligibility for group</p> <p>2.3 Review member changes that have occurred in period under review and make necessary adjustments to premiums and/or sums insured</p> <p>2.4 Reconcile details of policy to calculate premiums</p> <p>2.5 Calculate and remit stamp duty payable on benefits as required in each state and territory</p> <p>2.6 Calculate and apply group life profit share as per terms of policy, as necessary</p>
3. Manage ongoing policy administration	<p>3.1 Identify requests that exceed automatic acceptance limits and refer for individual underwriting</p> <p>3.2 Manage medical information collection as necessary</p> <p>3.3 Make payments to maintain distribution and administration agreements, and reinsurance treaties</p> <p>3.4 Collect premiums in accordance with policy terms</p> <p>3.5 Manage cancellation of cover where necessary</p> <p>3.6 Update and issue documentation and records in accordance with procedures and regulatory requirements</p> <p>3.7 Work with relevant parties to maintain organisational compliance</p>
4. Manage complaints and disputes	<p>4.1 Advise clients of dispute resolution procedures</p> <p>4.2 Use inter-organisational relationships to seek resolution of complaints and disputes</p> <p>4.3 Refer clients to relevant external dispute resolution body as appropriate</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3, 2.1-2.4, 3.1,	<ul style="list-style-type: none"> Gathers, analyses and validates numeric and textual data from a range of sources and consolidates relevant

	3.6	information to achieve desired outcomes
Writing	1.3, 2.3, 3.5, 3.6, 4.1-4.2	<ul style="list-style-type: none"> • Produces texts in a logical sequence using appropriate language and correct spelling, grammar, terminology and format • Accurately records and completes organisational documents
Oral Communication	1.2, 1.3, 2.1, 2.2, 2.3, 3.4, 3.7, 4.1-4.3	<ul style="list-style-type: none"> • Uses appropriate language and correct terminology to convey and share information to diverse audience • Uses active listening, questioning and summarising techniques to gather, confirm and validate information
Numeracy	2.3, 2.4, 2.5, 2.6, 3.3, 3.4	<ul style="list-style-type: none"> • Uses mathematical equations to perform calculations
Navigate the world of work	2.5, 3.6, 3.7	<ul style="list-style-type: none"> • Takes full responsibility for adherence to legislative requirements, explicit and implicit protocols, policies and procedures, and meets expectations associated with own role
Interact with others	1.3, 2.2, 3.1, 3.7, 4.1-4.3	<ul style="list-style-type: none"> • Establishes and uses appropriate conventions and protocols when conferring with various stakeholders to gather or share information, or resolve disputes • Adjusts personal communication style in response to the values, beliefs and cultural expectations of others
Get the work done	1.1-1.3, 2.1-2.4, 3.1-3.7	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness • Makes decisions regarding claims based on systematic analysis of all information, taking into account organisational requirements and the regulatory environment • Uses the main features and functions of digital tools to complete work tasks

Assessment Requirements for FNSILF507 Manage group life insurance policy administration

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- effectively administer group life insurance policies by:
 - interpreting requirements, collecting relevant information and reviewing group life policies
 - calculating premium calculations and adjustments, and managing cancellations
 - updating relevant documentation
 - handling complaints and disputes in accordance with relevant procedures and in line with regulatory requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the group life insurance industry and types of products available
- outline key features of group life insurance policy terms and conditions
- identify the relevant organisational procedures associated with life insurance policy administration
- explain the internal and external dispute resolution processes
- outline the group life insurance policy payment criteria
- explain the organisational guidelines relating to automatic acceptance under group life insurance policies
- explain the procedural fairness requirements in management of group life policies
- describe relevant regulatory requirements
- explain the group life profit sharing systems and the provisions for collection of stamp duty

- list the stakeholders in the management of a group life policy.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the life insurance field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSILF512 Underwrite complex risks

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF502 Underwrite complex medical risks.</p> <p>Minor changes to title, application and elements. Significant rewording of performance criteria. Performance evidence and knowledge evidence updated to clarify intent. Updates to assessment conditions as interaction with others not required.</p>

Application

This unit describes the skills and knowledge required to apply complex risk assessments to the underwriting of a life insurance application.

The unit applies to individuals who use specialised knowledge to assess risk and make decisions, within the level of delegated authority in the life insurance industry.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify complex risks in a life insurance application	1.1 Review applications and associated documentation and identify required information 1.2 Interpret information and identify complex risk factors 1.3 Review need for additional information and collect

ELEMENT	PERFORMANCE CRITERIA
	supporting documents
2. Assess level of risk	2.1 Identify potential life insurance risk implications of supplied information 2.2 Determine medical risk factor implications of comorbidities 2.3 Determine financial risk factor implications 2.4 Determine occupational, avocational and other risk factors presented 2.5 Select and apply required risk-assessment criteria and risk-handling techniques 2.6 Confirm application of risk-assessment criteria with persons of authority
3. Determine and advise terms and conditions of risk acceptability	3.1 Assess acceptability of risk against all available information according to underwriting guidelines 3.2 Document assessment rationale according to organisational policies and procedures 3.3 Establish terms and conditions that minimise risk liability, within delegated authority and in line with codes of ethics and professional practice 3.4 Advise required parties of application outcome and communicate next steps, according to legislative and regulatory requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> Interprets numerical data and relevant statistics relating to financial information being assessed
Oral communication	<ul style="list-style-type: none"> Uses appropriate language and style and communication protocols to liaise with others to collect often complex technical information Uses techniques including active listening, open-ended questioning and paraphrasing to confirm understanding
Reading	<ul style="list-style-type: none"> Gathers, analyses and interprets information from a range of sources to identify and consolidate information relevant to requirements
Writing	<ul style="list-style-type: none"> Records and completes routine organisational texts using structure, grammar and vocabulary appropriate to task and

Skill	Description
	context <ul style="list-style-type: none"> • Edits and proofreads documents to ensure clarity of meaning, accuracy and consistency of information
Planning and organising	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness • Applies systematic and analytical processes in routine and non-routine situations
Self-management	<ul style="list-style-type: none"> • Follows legislative requirements; and protocols, policies and procedures • Maintains knowledge of regulations necessary to perform own role
Technology	<ul style="list-style-type: none"> • Uses key features and functions of digital tools to complete work tasks

Unit Mapping Information

Supersedes and is not equivalent to FNSILF502 Underwrite complex medical risks.

Assessment Requirements for FNSILF512 Underwrite complex risks

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF502 Underwrite complex medical risks.</p> <p>Minor changes to title, application and elements. Significant rewording of performance criteria. Performance evidence and knowledge evidence updated to clarify intent. Updates to assessment conditions as interaction with others not required.</p>

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- underwrite three different life insurance applications, each with different complex risks.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- types of complex risk factors and their implications for life insurance, including:
 - multiple medical risk factors, including comorbidities
 - financial accounts with multiple entities
 - multiple occupational risk factors
- organisational policies and procedures relating to underwriting complex risks, including risk-assessment criteria
- legislative requirements, underwriting guidelines and code of professional practice relating to underwriting complex risks
- life insurance:
 - policy terms and conditions
 - risk-management practices

- types of:
 - medical procedures, diseases, injuries and terminology relating to life insurance underwriting
 - medical risks relating to life insurance underwriting
 - financial risks relating to life insurance underwriting
 - occupational risks relating to life insurance underwriting
 - actuarial data and medical information required to underwrite complex medical risks
- key implications of underwriting risks for a life insurance organisation
- risk-acceptance criteria for different types and contexts of complex risks
- risk-handling techniques used to mitigate risk used in life insurance underwriting
- ethical risk factors and related implications for underwriting complex risks
- sources of financial and lifestyle information relating to underwriting complex risks
- terms and conditions that minimise risk liability
- key methods and rationales used in assessing acceptability of risk.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSILF514 Manage complex life insurance claims

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF504 Manage complex life insurance claims.</p> <p>Minor changes to application, elements and foundation skills. Significant rewording of performance criteria. Performance evidence and knowledge evidence updated to clarify intent.</p>

Application

This unit describes the skills and knowledge required to manage people, information systems and other resources needed to manage life insurance claims of a complex nature.

The unit applies to individuals who use specialised knowledge and skills to manage complex claims in the life insurance industry.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify complexity of life insurance claim	<p>1.1 Review details of life insurance policy and determine complexity of claim according to organisational policies and procedures</p> <p>1.2 Document complexity of claim according to organisational</p>

ELEMENT	PERFORMANCE CRITERIA
	policies and procedures
2. Conduct complex claim assessment	2.1 Identify, review and apply policy terms, conditions and exclusions to claim according to organisational policies and procedures 2.2 Analyse and document required information and evidence relevant to claim according to organisational policies and procedures 2.3 Determine eligibility of claim according to policy terms and conditions 2.4 Identify and analyse complex components of claim and document rationale for complexity 2.5 Document additional factors and rationale for complexity of claim where required 2.6 Document the need for further information and collect within required timeframes
3. Consult specialists regarding complex claims as required	3.1 Identify need to appoint specialists to undertake claims assessment 3.2 Engage and instruct appointed specialists as required 3.3 Monitor specialist activities as required 3.4 Document advice and information obtained from specialists and record subsequent actions required for completion of claims assessment 3.5 Instruct specialists to address complexities according to codes of ethics and professional practice, and legislative and regulatory requirements
4. Assess and report on liability	4.1 Review and analyse specialist information as required and determine if complexities have been addressed 4.2 Determine liability according to information obtained from specialist as required 4.3 Prepare recommendation and seek additional specialist advice where required 4.4 Document rationale and communicate decision to required stakeholders 4.5 Provide additional information as required and explain dispute process where a claim is not admitted
5. Finalise claim payments	5.1 Determine authority level required to evaluate claim and review the decision as required 5.2 Calculate and process payment according to organisational authority levels for approval, policies and procedures, code of ethics, and legislative and regulatory requirements, as required

ELEMENT	PERFORMANCE CRITERIA
	5.3 Communicate outcomes to required stakeholders 5.4 Update policy and claim records and file documentation as required 5.5 Communicate settlement details to required stakeholders according to organisational policies and procedures, and legislative and regulatory requirements 5.6 Initiate reinsurance recovery as required
6. Finalise and close claim	6.1 File required documentation on claim according to organisational policies and procedures 6.2 Complete required medical, financial and closure fields in claims system according to organisational policies and procedures 6.3 Update policy records in required systems according to organisational policies and procedures 6.4 Close claim in required system and communicate closure to policy owner or authorised parties

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> • Uses mathematical equations to perform calculations
Oral communication	<ul style="list-style-type: none"> • Uses active listening and questioning techniques to convey and clarify information • Explains and shares information with various stakeholders using language, tone, conventions and protocols required for audience and purpose
Reading	<ul style="list-style-type: none"> • Gathers, analyses and interprets simple to complex information from a range of sources to identify and consolidate information relevant to requirements
Writing	<ul style="list-style-type: none"> • Produces routine texts using structure, grammar and vocabulary appropriate to task and context • Edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information
Planning and organising	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness • Makes decisions regarding claim validity based on systematic

Skill	Description
	analysis of all information, taking into account organisational requirements and regulatory environment
Self-management	<ul style="list-style-type: none">Follows legislative requirements; codes of ethics and professional practice; and protocols, policies and procedures
Technology	<ul style="list-style-type: none">Uses key features and functions of digital tools to complete work tasks

Unit Mapping Information

Supersedes and is not equivalent to FNSILF504 Manage complex life insurance claims.

Assessment Requirements for FNSILF514 Manage complex life insurance claims

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF504 Manage complex life insurance claims.</p> <p>Minor changes to application, elements and foundation skills. Significant rewording of performance criteria. Performance evidence and knowledge evidence updated to clarify intent.</p>

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage at least three different complex life insurance claims, including at least one claim that is not admitted.

In the course of the above, the candidate must:

- analyse claims to identify exclusions, misrepresentation, potential fraud and other matters that would result in denial of claim
- assess and report liability, including interpreting specialist reports and calculating benefits.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures for assessing risk and processing complex life insurance claims, including those relating to dispute resolution
- legislative and regulatory requirements, and requirements of codes of ethics and professional practice relating to complex life insurance claims
- key methods, guidelines and rationale for documenting information relevant to complex life insurance claims
- types of complicating factors affecting claims

- checks and balances required to ensure due process and procedures are followed in complex life insurance claims
- current industry practice to manage complex life insurance claims
- key stakeholders and specialists in the management of complex life insurance claims
- life insurance policy terms, conditions, and payment criteria
- key aspects of specialist activities to be monitored during complex claims consultation, including adherence to required timelines
- authority levels for claims processing.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSILF515 Manage ongoing disability claims

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF505 Manage ongoing disability claims.</p> <p>Significant rewording of elements and performance criteria. Minor changes to foundation skills descriptions. Performance evidence and knowledge evidence updated to clarify intent.</p>

Application

This unit describes the skills and knowledge required to manage the assessment of ongoing life insurance disability claims.

The unit applies to individuals in the life insurance industry involved in disability claims management that is prolonged and requires ongoing supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Manage disability claim review procedures	1.1 Identify required claim information and timeframes for update 1.2 Review continuing liability of insurer against ongoing disability claim 1.3 Identify required periodical claimant submissions and review ongoing disability claims 1.4 Maintain contact with claimant and required stakeholders

ELEMENT	PERFORMANCE CRITERIA
	1.5 Review claim file, apply policy terms, conditions and definitions and establish ongoing assessment criteria
2. Review claim and source additional information	2.1 Evaluate whether information satisfies ongoing assessment criteria 2.2 Determine expected timeframe for client recovery from disability according to required disability guidelines 2.3 Discuss expected timeframe with medical expert, and confirm timeframes with client and treating doctor 2.4 Identify and document potential delays to client recovery with client and treating doctor 2.5 Review information and identify need for additional evidence 2.6 Collect additional information according to organisational policies and procedures, code of ethics, and legislative and regulatory requirements
3. Consult and monitor specialists regarding complex claims as required	3.1 Identify need to appoint specialists to assist in ongoing review of claim 3.2 Engage and instruct appointed specialists as required 3.3 Monitor specialist activities as required 3.4 Interpret and review specialist reports and information
4. Assess ongoing claim	4.1 Analyse and review claimant submissions, information and specialist reports against ongoing assessment criteria 4.2 Determine if claim has been fulfilled according to ongoing assessment criteria 4.3 Communicate results of assessments to required stakeholders
5. Adjust benefits as required	5.1 Calculate benefit entitlements according to policy terms and conditions, and organisational policies and procedures 5.2 Apply offsets and indexation to benefits according to policy terms and conditions, and organisational policies and procedures 5.3 Interpret and apply criteria for ceasing income-stream benefit payments according to policy terms and conditions, code of ethics, organisational policies and procedures, and legislative and regulatory requirements
6. Identify requirements for ongoing assessment	6.1 Identify periodical claimant submissions required to support the review of the ongoing disability claim 6.2 Determine date of last benefit according to organisational policies and procedures 6.3 Communicate result with required stakeholders

ELEMENT	PERFORMANCE CRITERIA
7. Finalise and close claim	<p>7.1 File required documentation on claim according to organisational policies and procedures</p> <p>7.2 Complete medical, financial and closure fields according to organisational policies and procedures</p> <p>7.3 Update policy records in required systems according to organisational policies and procedures</p> <p>7.4 Close claim in required systems and communicate closure to policy owner or authorised parties</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> • Uses mathematical functions of varying complexity when performing calculations
Oral communication	<ul style="list-style-type: none"> • Uses required conventions and protocols and appropriate language and correct terminology to convey and share information to diverse audiences • Uses active listening, questioning and summarising techniques to gather, confirm and validate information
Reading	<ul style="list-style-type: none"> • Gathers, collates, analyses and interprets simple to complex information from a range of sources to identify and consolidate information relevant to requirements
Writing	<ul style="list-style-type: none"> • Records and completes routine organisational texts using structure, grammar and vocabulary appropriate to task and context • Edits and proofreads documents to ensure clarity of meaning, accuracy and consistency of information
Planning and organising	<ul style="list-style-type: none"> • Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effectiveness • Makes decisions based on systematic analysis of all information, taking into account organisational requirements and regulatory environment
Self-management	<ul style="list-style-type: none"> • Follows legislative requirements; code of ethics; and protocols, policies and procedures
Technology	<ul style="list-style-type: none"> • Uses key features and functions of digital tools to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSILF505 Manage ongoing disability claims.

Links

Companion Volume Implementation Guide is found on VETNet - -

Assessment Requirements for FNSILF515 Manage ongoing disability claims

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF505 Manage ongoing disability claims.</p> <p>Significant rewording of elements and performance criteria. Minor changes to foundation skills descriptions. Performance evidence and knowledge evidence updated to clarify intent.</p>

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage at least two different ongoing disability claims, including at least one claim that includes changes in claimant's situation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures, and legislative, regulatory and code of ethics requirements relating to managing ongoing disability claims
- disability guidelines relating to ongoing disability life insurance claims
- key features of life insurance policy terms, conditions, and payment criteria
- key medical and disability terminology to interpret specialist reports and information
- key method and criteria for determining continuity of income-stream benefits
- insurance claims investigation procedures and practices
- key features of:
 - risks associated with ongoing disability insurance claims
 - benefit structures based on the nature of disability claims
 - claimant submissions

- role of key medical specialists and other stakeholders consulted in relation to ongoing disability claims
- organisational systems used to manage, file and close ongoing disability claims.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSILF516 Manage group life insurance claims

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF506 Manage group life insurance claims.</p> <p>Minor change to elements. Significant rewording of performance criteria. Minor changes to foundation skills descriptions. Performance evidence and knowledge evidence updated to clarify intent.</p>

Application

This unit describes the skills and knowledge required to effectively manage claims made against group life insurance policies.

The unit applies to individuals who manage cases and claims associated with group life insurance policies.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Life insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Receive and evaluate claim against group life insurance policy	1.1 Confirm channels of lodgement have been followed according to organisational policies and procedures 1.2 Identify relevant policy and type of cover 1.3 Evaluate evidence of identity for member

ELEMENT	PERFORMANCE CRITERIA
	1.4 Communicate details of claim with claimant and group policy owner according to organisational policies and procedures, and legislative and regulatory requirements, as required
2. Review group history and eligibility for cover of claimant	2.1 Identify nature of fund membership and retained cover for claimant 2.2 Determine whether cover is limited to automatic acceptance and if additional cover was made available 2.3 Establish whether claimant was at work on commencement date of present insurance and determine impact on nature and extent of coverage 2.4 Verify currency and accuracy of premium contributions
3. Manage claim and information collection	3.1 Identify communication channels required for each claim and suited to stakeholder 3.2 Identify required contact points and intermediaries, and engage in line with their role and responsibilities, as required and according to organisational policies and procedures 3.3 Manage information collection and communication strategy in line with agreements and obligations and according to organisational policies and procedures, and legislative and regulatory requirements 3.4 Refer claim to authorised team member where problems or disputes arise, as required, according to organisational policies and procedures
4. Assess claim	4.1 Review claim submission and establish circumstances of claimed condition of member 4.2 Identify and interpret policy wordings and request additional information required to progress claims assessment information according to the code of ethics, as required 4.3 Communicate reasoning to the claimant and Group Policy owner where required 4.4 Evaluate evidence to determine whether assessment criteria are satisfied 4.5 Assess claimant compliance to additional disclosure requirements where cover was provided by means other than automatic acceptance 4.6 Determine benefit payable, and communicate decision to required stakeholders and personnel 4.7 Inform member and Group Policy owner of end date of benefit payments, and any changes to the terms of the cover

ELEMENT	PERFORMANCE CRITERIA
5. Pay group life insurance benefits	5.1 Determine entitlements according to required policy conditions and within authority levels, and obtain sign-off as required 5.2 Identify parties authorised to receive benefits paid by insurer 5.3 Communicate decisions to required parties, according to organisational policies and procedures, and legislative and regulatory requirements 5.4 Evaluate dependent relationships and beneficiary nominations for death benefits, as required 5.5 Set in place ongoing assessment processes for salary continuance claims and confirm benefit is taxed prior to payment 5.6 Request additional evidence for salary continuance claims as required

Assessment Requirements for FNSILF516 Manage group life insurance claims

Modification History

Release	Comments
Release 1	<p>This version first released with FNS Financial Services Training Package Version 7.0.</p> <p>Supersedes and is not equivalent to FNSILF506 Manage group life insurance claims.</p> <p>Minor change to elements. Significant rewording of performance criteria. Minor changes to foundation skills descriptions.</p> <p>Performance evidence and knowledge evidence updated to clarify intent.</p>

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage at least two different group life insurance claims, one of which must include a disability claim.

In the course of the above, the candidate must:

- evaluate opportunity for rehabilitation when managing disability claim.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements relating to group life insurance claims
- types and key features of group life insurance products, and policy terms and conditions
- administrative requirements and organisational policies and procedures relating to group life insurance claims, including those relating to:
 - dispute resolution
 - insurance claims investigations
- organisational guidelines relating to automatic acceptance under group life insurance policies
- implications of claimant non-compliance with group life insurance disclosures

- practices associated with disability claims in group life insurance
- key processes and guidelines for determining benefit payable
- code of professional practice and code of ethics applicable to group life insurance management
- principles of procedural fairness
- key stakeholders and information sources relating to managing group life insurance claims.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSINC511 Conduct financial product research to support product recommendations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- conduct research into a different financial product to support recommendations in at least three of the following practice areas:
 - aged care
 - direct investments
 - estate planning
 - life insurance
 - managed investments
 - retirement planning
 - social securities
 - superannuation
 - taxation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements and codes of practice relating to financial product research, including:
 - protocols relating to product research
 - confidentiality requirements
- organisational policies, procedures, guidelines and requirements relating to products and research, including for:
 - sourcing required product information
 - conducting research activities
 - preparing and documenting research findings

- obtaining release authorisations
- distributing research and receipt confirmation
- completing records of compliance
- sources of information for research on financial products
- current economic climate and forecasted outlook for researched financial products
- financial forecasting techniques and tools to be used to assess the market for financial products
- local and international financial markets and investment outlook for financial products
- techniques and tools for evaluating and interpreting research data.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- sources of financial services product information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSINC512 Assess vulnerability of financial products and services to money laundering and terrorism financing

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to assess financial products and services provided by an organisation, or those an organisation uses, and determine their vulnerability to money laundering and terrorism financing. It includes undertaking Money Laundering and Terrorism Financing (ML/TF) risk assessments, assessing existing Anti-Money Laundering and Counter-Terrorism Financing (AML/CTF) controls and reviewing and responding to industry changes affecting financial products' and services' risk to ML/TL.

The unit applies to those who work in various financial services industry job roles and with a wide range of financial products or services.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Industry capability

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess financial products and services	1.1 Identify products and services used by an organisation and determine their purpose 1.2 Analyse characteristics of products and services 1.3 Document functions of each product and service and the client needs it satisfies
2. Undertake ML/TF risk	2.1 Identify characteristics of products and services that are at risk of

ELEMENT	PERFORMANCE CRITERIA
assessments of products and services	money laundering and terrorism financing 2.2 Conduct ML/TF risk assessment of products and services as required by organisational policies and procedures
3. Recommend enhancements to AML/CTF systems	3.1 Collect and assess information on existing AML/CTF controls 3.2 Determine enhancements to system controls for managing ML/TF risks for products and services identified through risk assessment 3.3 Manage vulnerabilities of products and services 3.4 Prepare and communicate recommendations for enhancing AML/CTF systems according to organisational policies and procedures
4. Maintain product knowledge	4.1 Review required products and services and initiate any changes to terms and conditions 4.2 Establish and use systems to inform and maintain knowledge regarding products and services 4.3 Review emerging trends affecting the financial services industry and action any required changes to products and services

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Identifies, plans and implements strategies to manage gaps in personal knowledge
Reading	<ul style="list-style-type: none"> Evaluates information and products from a variety of sources to ensure appropriateness to client needs
Writing	<ul style="list-style-type: none"> Prepares documentation using clear language, and correct spelling and terminology
Oral communication	<ul style="list-style-type: none"> Employs language appropriate for audience and uses active listening techniques to confirm own understanding
Initiative and enterprise	<ul style="list-style-type: none"> Maintains accurate, comprehensive and current knowledge of products, legislation, regulations and standards relevant to role
Self-management	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Contributes to continuous improvement of current work practices by applying basic principles of analytical and lateral thinking
Technology	<ul style="list-style-type: none"> Uses digital tools to access information

Unit Mapping Information

Supersedes and is equivalent to FNSINC502 Assess financial products and services vulnerability to money laundering and terrorism financing.

Assessment Requirements for FNSINC512 Assess vulnerability of financial products and services to money laundering and terrorism financing

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- assess vulnerability of financial products and services to money laundering and terrorism financing on at least three occasions.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key organisational policies and procedures, and legislative and regulatory requirements relating to assessing vulnerability of financial products and services to money laundering and terrorism financing
- characteristics of products and services, including their:
 - purpose
 - strengths
 - weaknesses
 - terms and conditions
 - vulnerability to Money Laundering and Terrorism Financing (ML/TF)
- risk assessment methods
- Anti-Money Laundering and Counter-Terrorism Financing (AML/CTF) controls
- compliance requirements for products and services used by the organisation and the sector
- general client characteristics and needs for the organisation or sector
- information systems available to inform updates affecting products and services in the industry.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational policies and procedures, legislation and regulations as they relate to financial products and services vulnerability to money laundering and terrorism financing
- financial services product information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSINC612 Interpret and use financial statistics and tools

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to access, interpret, analyse and record statistical data in the financial services industry. It encompasses producing new statistical information and reports from existing data using a range of tools and processes.

It applies to individuals with an understanding of the sources of financial data, and statistical methods and techniques for analysis. It is a base unit on which other skills required for work in the financial services industry can be built. It applies across all sectors of the industry.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Industry capability

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Apply statistical methods to work	1.1 Determine required work outcome and required data 1.2 Evaluate and select statistical tools and techniques applicable to financial services work to suit required work outcome
2. Source and interpret statistical data	2.1 Access internal and external data and information sources to gather required data 2.2 Validate data according to industry statistical standards 2.3 Verify currency and utility using data summaries and trends 2.4 Interpret and use sampling techniques and diagrammatic, graphical and tabular information to achieve required work

ELEMENT	PERFORMANCE CRITERIA
	outcome
3. Analyse data using statistical techniques and tools	3.1 Analyse statistical data according to organisational requirements and priorities 3.2 Analyse and apply tools and techniques to correct data errors 3.3 Produce reports of analysis in format suited to meet required work outcome
4. Record statistical data analysis results and records	4.1 Confirm accuracy and consistency of analysis with industry and organisational standards 4.2 File and store records to meet security requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> Analyses complex statistical documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Records information and prepares reports and documentation, using clear language and organisational formats and protocols
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse statistical information and research to consolidate and inform others
Initiative and enterprise	<ul style="list-style-type: none"> Works autonomously, making high level decisions to achieve and improve organisational goals Develops and implements strategies that confirm organisational policies, procedures and regulatory requirements are being met Monitors and reviews organisational policies, procedures and adherence to legislative requirements to implement and manage change
Self-management	<ul style="list-style-type: none"> Plans strategic priorities and outcomes within a flexible context in a diverse environment exposed to competing demands Gathers and analyses data and seeks feedback to improve organisational outcomes Explores and incubates new and innovative ideas through unconstrained analysis and critical thinking to develop and improve organisational goals Uses features and functions of digital tools to complete work tasks and access information according to security requirements

Unit Mapping Information

Supersedes and is equivalent to FNSINC602 Interpret and use financial statistics and tools.

Assessment Requirements for FNSINC811 Lead compliance with financial services regulations and industry codes of practice

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- lead compliance with finance industry regulations and industry codes of practice on at least one occasion.

In the course of the above, the candidate must:

- research and evaluate industry codes of practice and regulations
- establish systems to maintain statutory records and requirements
- establish mechanisms to changes and implications of regulations and industry requirements to clients and colleagues
- comply with organisational requirements and industry codes of practice.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational financial products and services
- regulatory compliance requirements for the organisation
- statutory records the organisation needs to maintain
- internal organisational monitoring and audit program processes
- organisational systems that maintain records and documents
- financial services industry conventions, standards regulation and codes of practice.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- legislation, regulations, standards and codes of practice required to produce the performance evidence
- organisational policies and procedures required to produce the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV408 Manage handling and settlement of routine insurance claims for retail clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to handle routine retail insurance claims. It includes organising and analysing information to establish probable cause and policy coverage, determining the quantum of claims, and assessing settlement options.

The unit applies to those who use well-developed interpersonal, analytical and communication skills in organisations of various sizes and across a range of retail insurance customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

General Insurance

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse insurance claim to determine validity	1.1 Source and analyse information, and check its accuracy and completeness 1.2 Determine and evaluate probable cause, parties to the claim, insurable interest, additional information requirements, and if loss assessor is required 1.3 Evaluate application of relevant statutory and common law principles relevant to claim 1.4 Confirm insured's entitlement to cover based on terms and

ELEMENT	PERFORMANCE CRITERIA
	conditions of insurance policy 1.5 Seek confirmation and/or approvals by required stakeholders 1.6 Evaluate option to fast track claim in cases of financial hardship 1.7 Identify suspicious, fraudulent and non-standard elements of claim 1.8 Document decision, including evidence and information collected
2. Monitor progress of insurance claim	2.1 Monitor provision of service provider reports according to relevant codes of practice 2.2 Provide progress reports to the insured according to relevant codes of practice 2.3 Liaise with internal and external stakeholders relevant to claim
3. Determine scope of insurance claim and settlement options	3.1 Review information to identify scope of claim and deficiencies 3.2 Determine extent of loss according to organisational policies and procedures 3.3 Confirm insured and non-insured items 3.4 Determine basis of settlement and settlement options according to terms and conditions of insurance contract 3.5 Review recovery options and their impact on settlement of claim 3.6 Obtain approval for basis of settlement, as required
4. Provide claims response to the insured	4.1 Prepare or review statement of claim for offers of cash settlement in part or full, according to regulatory requirements and organisational policies and procedures 4.2 Negotiate claim settlement with the insured 4.3 Inform the insured of the internal complaints process and external dispute resolution process and of insured's right to information 4.4 Settle claim in line with the insured's preferred settlement method
5. Finalise and document settlement decisions	5.1 Confirm final payments were made to insured within required timeframes 5.2 Document decisions and all evidence and information considered in determining claim according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
-------	-------------

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to process settlement payments
Oral communication	<ul style="list-style-type: none"> Presents complex information using vocabulary, tone and pace suitable to audience and purpose Uses questioning and active listening techniques to clarify and confirm understanding
Reading	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources against defined criteria and requirements Analyses and interprets reports
Writing	<ul style="list-style-type: none"> Records and completes organisational documentation and correspondence using clear language and correct spelling, grammar and terminology
Planning and organising	<ul style="list-style-type: none"> Plans tasks and workload considering required timeframes and involved stakeholders Makes low-impact decisions within familiar situations based on a range of predefined or routine practices
Self-management	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes to determine and implement investment solutions that meet client needs and financial requirements
Teamwork	<ul style="list-style-type: none"> Complies with work instructions and contributes to work group discussions using accepted conventions Negotiates with a range of people, identifies common cultural and other differences in the work context, and makes adjustments to address the differences
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter and store information

Unit Mapping Information

No equivalent unit. Newly created unit.

Assessment Requirements for FNSISV408 Manage handling and settlement of routine insurance claims for retail clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- handle and settle routine insurance claims for at least two different retail clients.

In the course of the above, the candidate must:

- assess and interpret a variety of insurance product wording and associated endorsements to validate the claims.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and common law requirements and codes of practice relevant to the claim, including those relating to the application of the Insurance Contracts Act
- principles of Anti-Money Laundering and Counter-Terrorism Financing (AML/CTF) Act, General Insurance Code of Practice, and collection of monies relating to routine insurance claims
- organisational policies and procedures relating to handling and settlement of retail clients' routine insurance claims
- effective analytical and communication skills
- principles of utmost good faith
- key features of internal complaints process and external dispute resolution process
- interpretation of proximate cause, relevance of causation and impact on indemnity of a claim
- principles of indemnity relating to settlement of a claim
- principles of subrogation relating to settlement of a claim
- insurance product and policy types and their terms and conditions

- roles and responsibilities of insurance claim stakeholders, including colleagues, loss assessors, specialists and/or other authorities.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies, procedures, legislation and regulations as they relate to contracts of insurance
- common technology and software required to manage claims.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV412 Underwrite insurance business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to underwrite a new or renewing business, including determining the terms and conditions, risk acceptance, evaluating the response of the client, negotiating and finalising the cover.

The unit applies to those working in underwriting roles across range of insurance sectors, in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine terms and conditions of risk acceptability	1.1 Collect risk acceptance information and determine terms and conditions of acceptance 1.2 Determine risk acceptability within authority limitations and capacities 1.3 Determine terms and conditions of risk acceptance according to risk acceptance criteria and client history as required 1.4 Determine referrals, as required 1.5 Place facultative reinsurance, as required
2. Communicate result of risk assessment	2.1 Prepare and communicate quotation, as required 2.2 Advise client of terms and conditions of risk acceptance

ELEMENT	PERFORMANCE CRITERIA
	<p>according to organisational timeframes</p> <p>2.3 Advise rejection of risk as required according to organisational timeframes and guidelines</p>
3. Negotiate agreement	<p>3.1 Determine whether action to modify terms and conditions is required by assessing client response</p> <p>3.2 Modify offer as required and prepare advice to client according to organisational policies and procedures</p> <p>3.3 Confirm offer complies with underwriting acceptance authorities and criteria and seek referral approval, as required</p> <p>3.4 Negotiate revised offer and establish reinsurance as required</p> <p>3.5 Advise client of acceptance or rejection of risk according to organisational policies and procedures</p>
4. Finalise agreement	<p>4.1 Specify disclosure requirements</p> <p>4.2 Issue documentation to client according to organisational policies and procedures</p> <p>4.3 Confirm reinsurance cover, as required</p> <p>4.4 Record documents according to organisational policies and procedures</p> <p>4.5 Monitor expiry of interim cover according to organisational policies and procedures as required</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial data and statistics to accurately process insurance cover
Oral communication	<ul style="list-style-type: none"> Interacts effectively in verbal exchanges, using active listening and questioning to convey and clarify information Clearly explains detailed information using language, tone and pace appropriate to audience
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Accurately records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology

SKILL	DESCRIPTION
	<ul style="list-style-type: none"> Writes, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes
Self-management	<ul style="list-style-type: none"> Accepts responsibility and ownership for the task and makes decisions on completion parameters and the need to coordinate with others Takes personal responsibility for following policies, procedures and legislative requirements
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with clients and co-workers in a range of work contexts Recognises and accommodates basic differences and priorities of others Recognises behaviours and triggers that contribute to conflict and implements strategies to reduce issues during negotiations

Assessment Requirements for FNSISV412 Underwrite insurance business

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- underwrite insurance business, including either:
 - underwriting at least one new and at least one renewing general insurance business, or
 - underwriting at least two new Private Health Insurance business.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements and industry sector codes of practice relating to underwriting new and renewal business
- organisational policies and procedures, level of authorities and underwriting guidelines, including:
 - best underwriting guides (BUGs)
 - loss control guides
- compliance requirements for insurance policies, including disclosure requirements
- key features and processes for negotiating insurance offers
- insurance product and policy types and their terms and conditions
- reinsurance procedures related to underwriting new and renewal business
- underwriting principles for insurance products and organisational underwriting guidelines, including terms and conditions of risk acceptance and organisational acceptance criteria
- techniques to analyse financial data and statistics.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies and procedures, legislation and regulations relating to new and renewal business
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV413 Survey potential risk exposure

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to survey risk exposure, including examining risk, analysing data, reporting and recommending and reviewing loss control measures.

The unit applies to those in underwriting roles in a range of insurance sectors, in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine hazards and exposures	1.1 Examine risk and identify hazard indicators 1.2 Interview client and required stakeholders to identify potential risk components
2. Analyse level of hazards and exposures	2.1 Assess risk type against known exposure factors 2.2 Assess risk types for compliance with relevant legislation and organisational policy 2.3 Determine acceptability of risk according to organisational policies and procedures 2.4 Estimate maximum probable loss as required

ELEMENT	PERFORMANCE CRITERIA
3. Report and recommend on condition of risk exposure	3.1 Document condition and improvements according to organisational policies and procedures 3.2 Recommend and apply loss control measures as condition of risk acceptance and determination of renewal
4. Monitor and review loss control measures	4.1 Analyse effectiveness of loss control measures and record findings according to organisational policies and procedures 4.2 Monitor risk improvement against loss control measures 4.3 Conduct follow up risk surveys as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial data and statistics, and to accurately calculate the value of risk
Oral communication	<ul style="list-style-type: none"> Interacts effectively in verbal exchanges, using active listening and questioning to convey and clarify information Clearly explains detailed information using language, tone and pace appropriate to audience
Reading	<ul style="list-style-type: none"> Critically analyses documentation from a variety of sources, and records and consolidates information to determine requirements
Writing	<ul style="list-style-type: none"> Records information and prepares correspondence and documentation using clear language and organisational formats and protocols
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations
Self-management	<ul style="list-style-type: none"> Takes personal responsibility for following policies, procedures and legislative requirements Identifies and acts on issues that contravene relevant policies, procedures and legal requirements Uses a range of strategies to establish a sense of connection and build rapport with clients
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with clients and co-workers in a range of work

SKILL	DESCRIPTION
	contexts
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, enter and store information required to complete work tasks

Unit Mapping Information

Assessment Requirements for FNSISV416 Use specialist terminology in insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- accurately interpret at least two different instructions containing commonly used specialist terminology and abbreviations – at least one instruction being written and at least one oral
- use appropriate specialist terminology in at least three different insurance claims
- explain specialist terminology and process to at least one external stakeholder in simple, non-specialist language, ensuring that non-disclosable information remains confidential.

In the course of the above, the candidate must:

- access an appropriate person or source of information to clarify instructions or to locate missing information at least once
- conduct work according to legislative requirements, organisational policies and procedures, and ethical codes of conduct.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements and industry sector codes of conduct relating to insurance claims, including confidentiality, privacy and compliance
- policy coverage and/or requirements and procedures relating to communication and the release of information, security and confidentiality
- organisational policies and procedures relating to interpreting instructions relating to insurance claims and completing claims-related tasks required of own role
- underwriting and claims guidelines and levels of authority
- legal, financial and ethical consequences of misusing terminology used in specialist insurance products

- importance of wording of insurance policies in keeping with own organisation or industry sector
- types and categories of specialist insurance policies
- meaning of specialist terminology and abbreviations, including:
 - abbreviations for commonly used specialist terms and associated processes relevant to own work role
 - commonly used legal terminology in insurance:
 - insurance law
 - appropriate use of legal terminology in own area of responsibility in an insurance context
 - legal process as it relates to insurance and/or legal claims proceedings
 - commonly used medical insurance terminology relating to medical conditions
- features and format of insurance claim documentation required in own work role.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational insurance claims and records
- organisational policies and procedures, legislation and regulations relating to insurance claims
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSISV417 Use medical terminology in an insurance context

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- use medical terminology in an insurance context on at least two different occasions.

In the course of the above, the candidate must:

- accurately interpret and respond to instructions containing commonly used medical terminology and abbreviations
- communicate appropriately by spelling and pronouncing medical terminology
- use simple language to communicate medical matters to clients.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies, procedures and guidelines relating to using medical insurance terminology in insurance-based communications with stakeholders
- commonly used medical terminology and abbreviations
- organisational products that relate to medical insurance and contain medical terminology
- codes or compliance requirements that relate to the medical insurance sector
- procedures and practices in communicating medical terms in insurance to a range of stakeholders
- ethical issues and good practice in communicating to clients about medical matters in insurance
- techniques for maintaining an up-to-date personal knowledge of medical terminology used in insurance contexts.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational insurance records
- organisational policies, procedures, and guidelines relating to insurance context in performance evidence
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV501 Issue contracts of insurance covering non-routine and complex situations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to undertake processes related to a contract of insurance in a non-routine, complex situation. It encompasses identifying the necessary information and issuing a new policy or contract of insurance in response to requests for quotes, new policies or interim cover (cover note) in non-routine, complex situations.

It applies to individuals working in job roles with specialist knowledge and functions such as insurance brokers or agents in a range of insurance sectors within organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify non-routine, complex aspects and clarify client's situation	1.1 Identify non-routine and complex aspects of client requirements 1.2 Elicit all necessary information from client

ELEMENT	PERFORMANCE CRITERIA
	1.3 Consult specialists where necessary 1.4 Apply relevant parameters for non-routine, complex situations 1.5 Verify risk information advised by client 1.6 Implement survey requirements, if applicable
2. Determine appropriate approach	2.1 Assess and interpret relevant parameters to determine organisation's approach 2.2 Consult specialists within and outside organisation as necessary 2.3 Determine terms and conditions of contract and premiums within relevant parameters 2.4 Refer request to higher authority if outside policy and organisational guidelines
3. Issue insurance contact	3.1 Identify any special aspects of policy and notify client 3.2 Decline unacceptable request where applicable under law, inform client and give reasons why 3.3 Complete relevant calculations and contract documentation, and review to ensure it meets organisational procedures and legislative requirements 3.4 Check documentation for accuracy and omissions according to operating procedures for non-routine, complex contracts 3.5 Issue cover note, quote or new insurance policy following organisational operating procedures, and despatch to client

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 2.3, 3.1, 3.2, 3.4	<ul style="list-style-type: none"> Analyses documentation from a variety of sources, and records and consolidates information to determine requirements Evaluates information and products from a variety of sources to ensure appropriateness to client needs

Assessment Requirements for FNSISV501 Issue contracts of insurance covering non-routine and complex situations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- accurately identify non-routine aspects and clarify the client's request
- identify and verify risk information received from clients
- determine correct premium and issue insurance contract.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain industry sector compliance, legislation and regulatory requirements
- describe the process of interpreting application information and how to apply specific risk ratings
- explain the importance of wording of insurance policies in keeping with the organisation or industry sector
- outline key features of organisational policy, procedures, insurance guidelines and levels of authority for non-routine and complex situations
- outline organisational systems required for issuing cover notes, quotes or new insurance policies.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records

- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

Assessment Requirements for FNSISV503 Undertake post-loss risk management

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- accurately identify and assess data and trends relating to losses
- effectively analyse the data and trends to identify post loss
- use the analysis as a basis for developing effective strategies to minimise loss.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain consumers' rights issues and requirements
- describe industry trends as they relate to insurance losses
- explain the principles for loss surveying
- outline organisational policy, procedures, underwriting guidelines and authorities:
 - best underwriting guides (BUG)
 - loss control guides
- identify and apply relevant legislation, regulatory guidelines and industry sector compliance requirements as they apply to:
 - insurance contracts
 - consumer protection
 - financial services
 - corporations
- select and apply research and analysis techniques
- outline risk management techniques and tools
- outline impacts of losses on reinsurance.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV508 Review and advise on claims costs, policies and procedures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to review claims history, predict future claims costs and review policies and procedures, including analysing data, preparing reports on claims and monitoring trends in claims settlement to advise on changes to minimise losses.

It applies to individuals working in claims and underwriting job roles involving specialist knowledge and functions in a range of insurance sectors and may be applied within organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collect and analyse data on claims trends	1.1 Design and implement data gathering processes 1.2 Identify new data requirements and sources, and establish process for collecting data 1.3 Analyse data collected to identify trends in claims and related documents

ELEMENT	PERFORMANCE CRITERIA
2. Monitor claims trends	<p>2.1 Prepare accurate and timely claims reports to document trends and identify issues, where appropriate</p> <p>2.2 Communicate to management promptly relevant information which impacts on clients according to organisational procedures</p>
3. Identify opportunities to improve client outcomes	<p>3.1 Assist clients to identify changes to policies and procedures that will improve health and safety and return to work practices, and minimise claims costs in similar circumstances</p> <p>3.2 Communicate advice to clients effectively and promote positive action</p> <p>3.3 Provide sources of advice to clients where required</p>

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.2, 1.3	<ul style="list-style-type: none"> Analyses documentation from a variety of sources and records and consolidates information to determine requirements
Writing	1.1, 1.2, 2.1, 2.2, 3.1, 3.2, 3.3	<ul style="list-style-type: none"> Writes, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information Documents outcomes and changes to policies and procedures using industry relevant terminology Accurately records information and prepares correspondence and documentation using clear language and organisational formats and protocols
Oral Communication	2.2, 3.1, 3.2, 3.3	<ul style="list-style-type: none"> Conveys and clarifies information effectively to a range of personnel using active listening and questioning to confirm understanding
Numeracy	1.3, 3.1	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial information, costs and values

Assessment Requirements for FNSISV508 Review and advise on claims costs, policies and procedures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- collect and interpret data from a wide range of sources
- effectively monitor and analyse:
 - claims trends and their causes
 - effects on claims history
 - settlement policy and procedures
- review policies and procedures and make recommendations for change
- accurately prepare advice and recommendations for management and clients to undertake suitable actions.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline organisational policy, procedures, claims guidelines and levels of authority
- explain and employ analysis techniques in evaluating data
- outline broad industry trends in claims handling
- explain the different type of claims events and possible remediation strategies
- outline the types of data and documents to be analysed to monitor claim trends.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

FNSISV513 Provide decisions on legal liability and indemnity of a claim

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to convey decisions to ensure stakeholders receive accurate, timely advice regarding the legal liability and indemnity of a claim.

It applies to individuals working in roles that require high level communication, analysis and decision-making skills to provide advice on the legal liability and indemnity of a claim to key stakeholders.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Monitor claims to support decision-making process	<p>1.1 Establish monitoring procedures to ensure that validity of claim is assessed against organisational and policy acceptance criteria for relevant type and category of policy</p> <p>1.2 Monitor claims practices to ensure that information used to determine claim validity is accurate, comprehensive and authentic</p>

ELEMENT	PERFORMANCE CRITERIA
2. Decide on legal liability and indemnity of claim	2.1 Review relevant information and data to determine legal liability and indemnity of claim 2.2 Make decisions that comply with relevant legislation, organisational procedures and underwriting guidelines 2.3 Review decisions to ensure accuracy and that compliance requirements are fully met
3. Provide stakeholders with accurate, timely advice regarding legal liability and indemnity of claim	3.1 Provide stakeholders with consistent, accurate and timely advice regarding claim 3.2 Provide technical and non-technical claims advice to claims specialists, including review of outgoing correspondence and negotiation and settlement strategies, as appropriate 3.3 Provide stakeholders with accurate and timely advice regarding legal liability and indemnity of claim 3.4 Convey decisions within timeframes to ensure performance targets are achieved
4. Review decisions and identify any required policy or procedural changes	4.1 Evaluate and review decisions against requirements and outcomes on regular basis 4.2 Ensure review process identifies extent to which decisions support process of accepting and managing claim 4.3 Ensure review process identifies extent to which decisions support setting of accurate claim portfolio reserves 4.4 Document circumstances of claims and decisions concerning legal liability and indemnity of claim for consideration in portfolio review 4.5 Instigate changes to policy and procedures to minimise further loss in similar circumstances, if appropriate
5. Update records	5.1 Document actions, procedures and outcomes, and record promptly and accurately 5.2 Maintain finalised documentation according to organisational policy and legislative requirements and codes of practice, as applicable

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description

Assessment Requirements for FNSISV513 Provide decisions on legal liability and indemnity of a claim

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- effectively establish and implement monitoring processes
- make decisions on legal liability and indemnity within given parameters
- advise clients of decisions in a timely manner
- initiate changes to policies and procedures to better support organisational goals
- document all aspects of the process
- apply organisational policy and procedures, and comply with legislation, regulations and industry codes of practice in the determination and provision of legal and indemnity advice associated with a claim.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the claims management process
- outline data analysis techniques and procedures
- identify and outline key features of relevant legislation, regulatory guidelines and industry sector codes of practice as they apply to legal liability and indemnity in insurance claims
- outline information technology and communications systems
- explain the principles and practice of loss adjustment
- outline key features of organisational policy, procedures, insurance guidelines and levels of authority
- outline and explain the importance of wording of insurance policies in keeping with the organisation or industry sector
- explain risk prevention and loss minimisation methods and application
- identify types and categories of insurance policies.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV514 Review and update claim reserves in portfolio

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to review and update insurance claims reserves in a portfolio to minimise losses. It encompasses identifying and analysing claims, reserves trends data, legislation and regulations, reports and related documents, monitoring funds, interpreting the results and reporting on the findings to minimise losses.

It applies to individuals working in claims management job roles involving specialist knowledge and functions in a range of insurance sectors and may be applied within organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Review claims reserves and monitor funds	1.1 Review claims reserves regularly to ensure they accurately reflect expectations 1.2 Monitor funds to ensure adequate reserves exist to pay claims as they fall due for payment 1.3 Provide accurate data to assist underwriters to identify and

ELEMENT	PERFORMANCE CRITERIA
	charge appropriate policy premiums
2. Support claims staff in claims reserve activities	2.1 Ensure claims coordination staff are supported, as required, to identify accurate initial claims reserves 2.2 Ensure claims coordination staff are supported, as required, in allocation of claims to appropriate claims specialists
3. Authorise payments, settlements and changes to reserves	3.1 Authorise payments, settlements and reserves changes that are requested or required by claims specialists but outside their delegated authority
4. Identify required changes to portfolio, claims reserves policy or procedures	4.1 Communicate identified information promptly to decision-makers in the management structure according to organisational procedures 4.2 Instigate changes to policy and procedures to minimise claims losses in similar circumstances

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 4.2	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources, against defined criteria and requirements, and checks for accuracy and completeness

Assessment Requirements for FNSISV514 Review and update claim reserves in portfolio

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- undertake high level data collection, financial analysis and monitoring of funds for managing claims reserves
- apply effective communication and management skills related to the review, update and reporting in an insurance claims portfolio
- accurately interpret and comply with relevant legislation, and claims and reserves trends.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain data analysis techniques relating to claims reserves
- outline industry trends in claims reserving policy and procedures
- outline relevant information technology and communications systems required for determining claims reserves
- outline key features of insurance guidelines, levels of authority and organisational policy, procedures and obligations in reserving
- identify and describe key features of relevant legislation, regulatory guidelines and industry sector codes of practice
- explain the importance of wording of insurance policies in keeping with the organisation or industry sector
- explain the reinsurance processes and implications on claims reserves
- explain risk prevention and loss minimisation methods and application to claims reserves
- explain types and categories of insurance policies
- outline processes for authorising payments, settlements and reserves changes.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSISV519 Analyse financial, medical and psychological claims assessments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to arrange financial, medical or psychological assessments to support the claims assessment processes and to analyse and report on the results.

The unit applies to those working in job roles involving specialist knowledge and functions in a range of insurance sectors. It may apply to areas of claims assessment involving personal injury, long-term settlement and/or complex claims.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish need to appoint specialist to undertake assessment	1.1 Review facts, evidence and information relevant to circumstances of loss, damage and injury 1.2 Identify and advise client and other required stakeholders of need to appoint specialist assistance to undertake financial, medical or psychological assessment
2. Organise financial, medical or psychological	2.1 Engage appointed specialists and brief them on requirements of assessment 2.2 Monitor assessment activity progress and report to required

ELEMENT	PERFORMANCE CRITERIA
assessments	stakeholders within required timelines
3. Analyse data for claims assessments	<p>3.1 Analyse and assess financial, medical or psychological assessment data</p> <p>3.2 Calculate loss damages by using analysis tools to assess financial, medical or psychological assessments</p> <p>3.3 Assess impartiality and validity of loss situation and claims against assessment data, and analyse against reported circumstances, available evidence, facts and information</p> <p>3.4 Review insurance cover and policy conditions to confirm loss falls within policy coverage</p>
4. Report results	<p>4.1 Document assessment actions, procedures and outcomes according to organisations policies and procedures</p> <p>4.2 Provide stakeholders with advice regarding financial, medical or psychological assessment for claim proceedings</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to check, interpret and confirm numerical information
Oral communication	<ul style="list-style-type: none"> Interacts effectively in verbal exchanges, using active listening and questioning to convey and clarify information that contains specialist terms
Reading	<ul style="list-style-type: none"> Analyses and consolidates information from a variety of different sources to identify inconsistencies and potential fraud Collates and interprets complex documentation and reviews specific data
Writing	<ul style="list-style-type: none"> Records and completes organisational documents and correspondence using clear language and correct spelling, grammar and terminology
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness
Problem solving	<ul style="list-style-type: none"> Makes critical decisions quickly in complex situations, taking into consideration a range of variables including the outcomes of previous decisions

SKILL	DESCRIPTION
Teamwork	<ul style="list-style-type: none">• Selects and uses appropriate conventions and protocols when communicating with clients and co-workers in a range of work contexts
Technology	<ul style="list-style-type: none">• Uses digital technologies and main features and functions of digital tools to access, enter and store information

Unit Mapping Information

Supersedes and is equivalent to FNSISV509 Analyse financial, medical and psychological claims assessments.

Assessment Requirements for FNSISV519 Analyse financial, medical and psychological claims assessments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- analyse at least three different claims assessments with at least one financial, one medical and one psychological claims assessments.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key methods, tools, practices and guidelines for performing data analysis applicable to financial, medical and psychological assessments
- fraud indicators related to claims
- key methods of calculating loss damages applicable to financial, medical and psychological assessments
- key aspects of claims management processes involving specialist circumstances
- key aspects of reports documenting assessment actions, procedures and outcomes, including:
 - recommendations on validity of claim
 - recovery amounts in relation to assessment
 - data relevant to assessment
- key features of insurance policies, including coverage and requirements
- key features of legislation, regulatory guidelines and industry sector codes of practice applicable to financial, medical and psychological claims
- principles of cost estimating in claims assessments
- roles and responsibilities of financial, medical and psychological specialists in claims assessments
- types and categories of insurance policies associated with financial, medical and psychological claims.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies and procedures, legislation and regulations relating to insurance
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV520 Manage non-routine and complex insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to manage non-routine and complex insurance claims. It includes non-standard issues, determining the business impact, and managing all aspects of the claims-resolution process.

The unit applies to those who apply specialist knowledge and functions when managing non-routine and complex insurance claims, such as major losses, bodily injury losses, long-term settlement, and claims involving legal procedures across international boundaries.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse claim to determine validity	1.1 Validate claim information, check its accuracy and completeness, and assess it against organisational policies and procedures, policy acceptance criteria, and claims guidelines 1.2 Manage sensitivities and protocols relating to privacy and confidentiality of information when handling investigations 1.3 Identify suspicious, fraudulent and non-standard elements of claim 1.4 Seek supporting advice from specialists, as required 1.5 Notify reinsurer of any claim within required timeframes

ELEMENT	PERFORMANCE CRITERIA
2. Evaluate impact of claim	<p>2.1 Analyse data relating to extent of loss, damage or injury, and seek and review claim estimates</p> <p>2.2 Determine strategies to minimise negative impact of any non-routine or complex claim within policy obligations</p> <p>2.3 Determine necessity for urgent action to protect organisational interests</p>
3. Determine settlement options	<p>3.1 Identify settlement options within policy obligations and according to organisational, legislative and regulatory requirements</p> <p>3.2 Seek advice on settlement options from appropriate stakeholders, as required</p> <p>3.3 Prepare statement of claims settlement as required</p>
4. Manage support arrangements to resolve claim	<p>4.1 Liaise with required internal and external stakeholders to identify and meet support requirements</p> <p>4.2 Manage legal processes associated with claim as required</p> <p>4.3 Negotiate to resolve any issues or disputes associated with significant claim</p>
5. Finalise claim process	<p>5.1 Recommend continuous improvements to policies and procedures to enhance outcome for insured and organisation</p> <p>5.2 Provide stakeholders with advice on claim proceedings</p> <p>5.3 Document claim characteristics, actions, procedures and outcomes according to legislative and organisational requirements</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial information, costs and values to process claims
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning techniques to convey and clarify information and confirm understanding Presents complex information in formal situations using clear and convincing language, tone and pace suitable to audience and purpose
Reading	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources, against defined criteria and requirements
Writing	<ul style="list-style-type: none"> Records and completes organisational documentation and correspondence using clear language and correct spelling, grammar

Assessment Requirements for FNSISV520 Manage non-routine and complex insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage at least one non-routine and complex insurance claim.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements, guidelines and industry sector codes of practice as they apply to:
 - insurance contracts
 - Privacy Act
 - insurance claims
 - Collection of Monies
 - Anti-Money Laundering and Counter-Terrorism Financing (AML/CTF) Act
 - Australian consumer law
- organisational policies and procedures, and claims guidelines relating to managing non-routine and complex insurance claims, including protocols for partnering with external stakeholders
- implication of organisational policies and procedures on business objectives, including continuous improvement recommendations to policies and procedures
- key aspects of settlement options and statement of claims
- key aspects of legal processes in a national and international legal environment
- key negotiation methods to resolve issues and disputes
- insurance fundamentals and methods to interpret, comprehend and apply policy wording
- types and categories of insurance policies and insurance trends in non-routine and complex insurance claims.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies and procedures, legislation and regulations as they relate to contracts of insurance
- common technology and software required to manage insurance claims.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV521 Settle non-routine and complex insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to settle non-routine and complex insurance claims. It includes identifying non-standard issues, accessing required information to allow a decision to be made, and negotiating and finalising the claims.

The unit applies to those who apply specialist knowledge and functions in a range of insurance sectors in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine terms and conditions of settlement	1.1 Determine and evaluate non-routine aspects of claim and parties involved according to organisational policies and procedures 1.2 Determine settlement terms according to policy wording, legislation, organisational policies and procedures, codes of practice, and any relevant transfer of monies procedures 1.3 Identify type and level of variation to standard claims settlement and determine type of required negotiation and mediation 1.4 Perform reconciliations as required
2. Negotiate and communicate	2.1 Communicate terms and conditions of settlement offer to client and associated parties according to claims procedures and within

ELEMENT	PERFORMANCE CRITERIA
settlement terms	<p>required timeframes</p> <p>2.2 Assess need for adjustment based on response by client and associated parties on terms of settlement offer</p> <p>2.3 Negotiate settlement terms, where required, and reach mutual agreement</p> <p>2.4 Meet obligations and determine settlement for minimal loss to organisation</p> <p>2.5 Document negotiated settlement and agreements</p> <p>2.6 Update terms of settlement offer as required and advise client and associated parties within required timeframes</p>
3. Document and communicate liability decisions	<p>3.1 Review liability decision and confirm compliance with legislative and regulatory requirements and codes of practice</p> <p>3.2 Provide statement of claims and disclaimer as required</p> <p>3.3 Document liability decisions, evidence, and information considered</p> <p>3.4 Communicate decision to required stakeholders</p> <p>3.5 Determine if payment falls within individual authority limits, and if not refer claim to required stakeholders</p>
4. Finalise settlement	<p>4.1 Verify and recommend final payment and breakdown of costs to be paid to relevant stakeholders within required timeframes once settlement is reached</p> <p>4.2 Obtain settlement release from client and third party, as required</p> <p>4.3 Obtain discharge and determine potential for further liability</p>
5. Finalise claim documentation and identify required changes to policies or procedures	<p>5.1 Document claim circumstances for consideration in portfolio review and make recommendation to underwriter</p> <p>5.2 Review policies and procedures to minimise further loss in similar circumstances, as required</p> <p>5.3 Recommend changes to policies and procedures and monitor effectiveness of the review process</p> <p>5.4 Record actions, procedures and outcomes according to organisational policies and procedures</p> <p>5.5 Communicate advice regarding claims settlement to required stakeholders according to organisational policies and procedures</p> <p>5.6 Maintain finalised claims files according to required organisational policy, legislative requirements, and codes of practice</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets charts, graphs and statistical information to calculate settlement offers
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning techniques to convey and clarify information Presents complex information in formal situations using convincing language, tone and pace suitable to audience and purpose
Reading	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources against defined criteria and requirements
Writing	<ul style="list-style-type: none"> Records information and prepares correspondence and documentation using required language and organisational formats and protocols
Initiative and enterprise	<ul style="list-style-type: none"> Investigates new and innovative ideas as a means to continuously improve policies and processes through consultation and formal and analytical thinking
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness
Problem solving	<ul style="list-style-type: none"> Responds to problems requiring immediate resolution, drawing on past experiences to focus on the cause rather than the symptom
Self-management	<ul style="list-style-type: none"> Manages conflict with clients and associated parties by identifying contributing factors and implementing strategies to resolve disputes
Team work	<ul style="list-style-type: none"> Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter, check and store information

Assessment Requirements for FNSISV521 Settle non-routine and complex insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- settle at least one non-routine and complex insurance claim.

In the course of the above, the candidate must:

- document revised terms of claim based on review of non-routine claims and communicate to required parties
- recommend modifications or report on potential changes to organisational policies and procedures to protect the organisation from future losses.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements, regulatory guidelines and industry sector compliance requirements and codes of practice as they apply to:
 - insurance contracts
 - insurance claims
 - consumer protection
 - Anti-Money Laundering and Counter-Terrorism Financing (AML/CTF) Act and Austrac
- organisational policies, procedures, codes of practice, insurance guidelines, levels of authority and accountabilities required to settle non-routine and complex insurance claims
- dispute resolution bodies relevant to claim, and procedures for interacting with them
- key features of financial transactions and settlement documentation
- level and conditions at which claims should be escalated
- procedures for applying legal precedents to determine and negotiate terms and conditions of settlement

- organisational business objectives relating to settling non-routine and complex insurance claims
- roles, responsibilities and jurisdiction of specialists and other authorities relevant to settling non-routine and complex insurance claims
- insurance fundamentals and methods to interpret, comprehend and apply policy wording, including rights of subrogation
- types and categories of insurance policies and insurance trends in non-routine and complex insurance claims.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies, procedures, legislation and regulations as they relate to contracts of insurance
- common technology and software required to settle insurance claims.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV522 Work with legal teams to resolve non-routine and complex insurance claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to support legal proceedings to resolve non-routine and complex insurance claims. It involves establishing terms of reference for working with a legal team, providing timely and accurate information to support the legal proceedings for the claim, and participating in the settlement of a non-routine, complex claim that involves legal resolution.

The unit applies to those who work with legal teams to resolve non-routine, complex insurance claims, such as major losses, bodily injury losses and long-term settlement.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish requirements of legal proceedings for non-routine and complex insurance claim	1.1 Establish comprehensive terms of reference and instructions applicable to legal proceedings for claim 1.2 Identify terms of reference and confirm they are within organisational and legislative guidelines, codes of practice and personal authorities, and are documented accordingly 1.3 Negotiate, confirm and document roles and responsibilities of parties involved in legal proceedings for claim

ELEMENT	PERFORMANCE CRITERIA
	1.4 Identify requirements and procedures of legal system involved in claim proceedings
2. Obtain and assess required claims information, and provide to legal team	2.1 Identify legal team representatives and obtain information requirements 2.2 Engage with legal team to identify legal data and information sources and discuss applicable options for obtaining requested legal data and information 2.3 Obtain facts, evidence and information applicable to claims proceedings 2.4 Research and analyse additional historical and legal data, as required 2.5 Identify information deficiencies and seek additional information 2.6 Provide legal data and information to legal team in compliance with organisational policies and procedures, and compliance, ethical and legal requirements
3. Support legal process to manage claim	3.1 Obtain instructions and receipt of legal advice pertaining to claim 3.2 Communicate with legal teams and other applicable parties as required and expedite insurance claim resolution 3.3 Negotiate timelines for provision of required documents to legal team within agreed timeframes 3.4 Clarify conflicting evidence and information according to organisational and legislative requirements, codes of practice, and other relevant guidelines and ensure settlement payments comply with relevant policies 3.5 Document all actions, procedures and outcomes in supporting legal team within required timeframes
4. Support legal team with settlement arrangements	4.1 Participate in mediation and negotiation activities, as required 4.2 Initiate meeting with instructing legal practitioner to discuss settlement meeting and review settlement documents 4.3 Check and exchange documentation with required parties 4.4 Draft letter of confirmation of settlement, and forward to instructing legal practitioner for review and despatch to required parties
5. Report claim outcomes and update records	5.1 Inform stakeholders of claim outcome according to organisational policies and procedures 5.2 Document and record actions, procedures and outcomes according to organisational policies and procedures, legislative requirements, and codes of practice 5.3 Provide stakeholders with advice regarding claim settlement

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse costs
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning techniques to convey and clarify information and confirm understanding Presents complex information in formal situations using clear and convincing language, tone and pace suitable to audience and purpose
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources
Writing	<ul style="list-style-type: none"> Records outcomes of discussions and changes to policy documentation using industry-required terminology Writes, edits and proofreads documents to ensure clarity of meaning and consistency of information
Initiative and enterprise	<ul style="list-style-type: none"> Investigates new and innovative ideas to improve work practices and processes through consultation, formal and analytical thinking
Planning and organising	<ul style="list-style-type: none"> Monitors progress of plans and schedules, and reviews and changes them to meet new demands and priorities
Problem solving	<ul style="list-style-type: none"> Responds to problems requiring immediate resolution, drawing on past experiences to focus on the cause rather than the symptom
Self-management	<ul style="list-style-type: none"> Identifies organisational implications of new legislation and regulations Identifies and resolves key business issues, processes and practices that may have legal implications Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness
Teamwork	<ul style="list-style-type: none"> Collaborates with others, sharing information to build strong organisational outcomes Manages conflict in the workplace by identifying contributing factors and implementing strategies to resolve conflict
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter, check and store information

FNSISV524 Negotiate treaty reinsurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to analyse and prepare reinsurance submission, select reinsurance supplier and complete negotiation according to organisational guidelines and procedures.

The unit applies to those working in job roles involving specialist knowledge and functions in a range of insurance sectors, in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare reinsurance submission	1.1 Review previous submission arrangements and documents where required 1.2 Prepare information relating to treaty reinsurance submission and check for completeness 1.3 Confirm coverage of claim 1.4 Prepare submission conditions according to organisational policies and procedures, and treaty and facultative obligations 1.5 Prepare and confirm criteria for supplier selection 1.6 Pass on submission information to stakeholders as required

ELEMENT	PERFORMANCE CRITERIA
2. Select reinsurance supplier	2.1 Notify reinsurers of submission conditions and details under reinsurance submission arrangements 2.2 Request submission response from reinsurer according to organisational policies and procedures within required timeframes 2.3 Review reinsurance supplier quotations and evaluate against set selection criteria
3. Complete negotiation	3.1 Calculate recovery of whole claim and prepare reinstatements for policy terms and conditions to the required treaty 3.2 Manage transactions 3.3 Negotiate policy terms and conditions with selected reinsurers 3.4 Pass on reinsurer information to required stakeholders as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial data and statistics to effectively value insurance contracts
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges to convey complex information using vocabulary appropriate to audience
Reading	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources, against defined criteria and requirements, and checks for accuracy and completeness
Writing	<ul style="list-style-type: none"> Records information and prepares correspondence and documentation using clear language and organisational formats and protocols
Planning and organising	<ul style="list-style-type: none"> Plans and sequences complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness
Problem solving	<ul style="list-style-type: none"> Responds to problems requiring immediate resolution, drawing on past experiences to focus on the cause of a problem rather than the symptom
Self-management	<ul style="list-style-type: none"> Follows policies, procedures and legislative requirements, and identifies organisational implications of new legislation or regulation Makes critical decisions quickly in complex situations, taking into consideration a range of variables including the outcomes of previous decisions

SKILL	DESCRIPTION
Teamwork	<ul style="list-style-type: none">• Implements communication strategies to build rapport, foster strong relationships and negotiate positive outcomes with a diverse range of colleagues and clients
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, enter and store information required to complete work tasks

Assessment Requirements for FNSISV524 Negotiate treaty reinsurance

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- negotiate the reinsurance of at least two different treaties.

In the course of the above, the candidate must:

- document and record required submission information at each stage of the process
- compile a submission document, including collection of data and selection of methods of protection.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of legislative and regulatory requirements and industry sector codes of practice applicable to negotiating treaty reinsurance
- organisational policies, procedures, underwriting guidelines and authorities and treaty and facultative obligations, including those relating to:
 - best underwriting guides (BUG)
 - loss control guides
 - organisational information technology systems used in assessing reinsurance submission responses
 - preparation of submission conditions
 - insurance contracts
 - consumer protection
 - financial services
 - corporations
- key principles and methods of documenting submission information

- types of submissions
- key considerations of wording of insurance policies in keeping with organisational or industry sector approaches
- reinsurance terminology and concepts, including:
 - limits
 - excess
 - premium terms
 - net retained lines
 - reinstatements
- terms and conditions of reinsurance arrangements
- techniques to analyse financial data and statistics to value insurance contracts.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies and procedures, legislation and regulations relating treaty reinsurance
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV525 Evaluate and report on status of insurance claims portfolios

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to review, analyse and evaluate an insurance claims portfolio or line of business, including preparing reports on portfolio profitability status and recommending changes to minimise losses. It involves analysing claims data and risk, reviewing claims reserves, making assumptions and recommendations about the risks, preparing reports, and monitoring trends in claims activity. It requires the use of information systems, mathematics, financial theories and statistics, risk management methodologies, and financial modelling specific to the line of business.

The unit applies to those who work in claims management and underwriting job roles involving specialist knowledge and functions in a range of insurance sectors in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Evaluate data on an insurance claims portfolio or a line of business claim	1.1 Source portfolio or line of business claims data using organisational collection processes in preparation for analysis 1.2 Identify any additional claims data sources, external influences and improvement to policies and procedures 1.3 Identify organisation's expectations for claims portfolio

ELEMENT	PERFORMANCE CRITERIA
	<p>performance</p> <p>1.4 Analyse data and undertake risk analysis to determine profitability, loss ratio, claims reserves and future trends according to organisational policies and procedures</p> <p>1.5 Research industry to determine benchmarks for claims portfolio</p>
2. Interpret findings to report on assumptions and recommendations	<p>2.1 Identify findings and formulate assumptions and recommendations to identify trends, future profitability, claims reserves and loss ratio for the line of business</p> <p>2.2 Review and suggest amendments to policies and procedures to improve line of business financial outcomes</p> <p>2.3 Prepare a report documenting findings, identified issues and assumptions</p>
3. Communicate and review report	<p>3.1 Communicate findings and recommendations to required stakeholders within required timeframe and according to organisational policies and procedures</p> <p>3.2 Collate feedback and identified issues, and amend report accordingly</p>
4. Finalise report findings and confirm approval	<p>4.1 Submit final report for approval according to organisational lines of approval and delegation of authority</p> <p>4.2 Document final report and communicate to relevant stakeholders for implementation according to organisational procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interpret charts, graphs and statistical information and financial modelling
Oral communication	<ul style="list-style-type: none"> Interacts effectively in verbal exchanges, using active listening and questioning techniques to convey and clarify information
Reading	<ul style="list-style-type: none"> Critically analyses documentation from a variety of sources and identify trends and anomalies Proofreads document to identify errors and inconsistencies
Writing	<ul style="list-style-type: none"> Records information and prepares correspondence and documentation using clear language and organisational formats and protocols Develops and edits documents to ensure accuracy, consistency and clarity of meaning

SKILL	DESCRIPTION
Problem solving	<ul style="list-style-type: none"> Identifies and resolves key business issues, processes and practices that may have legal implications Applies systematic and analytical decision-making processes for complex and non-routine situations
Self-management	<ul style="list-style-type: none"> Plans and sequences complex tasks and workload, negotiating key aspects with others and according to capabilities, efficiencies and effectiveness
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter, check and store information

Assessment Requirements for FNSISV525 Evaluate and report on status of insurance claims portfolios

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- evaluate and report on status of at least one insurance claims portfolio or line of business.

In the course of the above, the candidate must:

- research industry trends in portfolio management to reduce losses
- make assumptions and recommendations based on findings
- engage with required colleagues, communicate findings, and apply feedback.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements, regulatory guidelines and industry sector codes of practice relating to claims management and reporting
- organisational policies and procedures, underwriting guidelines and levels of authority relating to evaluating and reporting on insurance claims portfolios
- data and risk analysis techniques relevant to insurance claims portfolios
- key aspects of financial theories and statistics relevant to insurance claims portfolios, including financial modelling and related mathematics
- evaluation methodologies relevant to insurance claims portfolios
- industry trends in insurance portfolio management
- insurance fundamentals and methods to interpret, comprehend and apply policy wording
- risk prevention and loss minimisation methods and their application in the development of claims portfolios
- reporting techniques to communicate assumptions used and recommendations developed
- types and categories of insurance policies.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records, data and financial models
- organisational policies, procedures, legislation and regulations as they relate to contracts of insurance
- common technology and software required to evaluate and report on insurance claims portfolios.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV526 Allocate authorities and guidelines for distribution

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to determine and allocate distribution authorities and guidelines. It involves applying criteria for selecting distribution authorities, reaching agreement, monitoring performance and evaluating the effectiveness of the agreement.

The unit applies to those working in job roles involving specialist knowledge and functions in a range of insurance sectors, in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Provide feedback on and confirm authorities and guidelines	1.1 Read and interpret draft authorities and guidelines 1.2 Identify practical application of authorities and guidelines through market testing to determine need for variance 1.3 Negotiate final form of authorities and guidelines with required stakeholders and confirm they accommodate variations in workplace requirements and comply with organisational policies and procedures 1.4 Obtain authorised authorities and guidelines, and obtain written

ELEMENT	PERFORMANCE CRITERIA
	confirmation
2. Determine allocation of authorities and guidelines	2.1 Determine criteria to be used as basis for allocation 2.2 Confirm allocation is consistent with existing or updated distribution agreements 2.3 Determine allocations according to industry codes of practice and legislative requirements 2.4 Confirm allocation enables achievement of desired result in accordance with business plan
3. Negotiate variations to allocated authorities and guidelines	3.1 Identify opportunities to maximise or adjust business returns 3.2 Negotiate variations where required 3.3 Confirm outcome of negotiation is accepted by required stakeholders
4. Determine and implement authorities and guidelines	4.1 Provide advice on allocations 4.2 Provide training as required and assess its effectiveness 4.3 Record allocation of authorities and guidelines and confirm records are current 4.4 Verify understanding of authorities and guidelines with required stakeholders and record as required 4.5 Update variations to authorities and guidelines and confirm currency of organisational policies 4.6 Undertake implementation procedures in compliance with required industry codes of practice and legislative requirements
5. Monitor and review authorities and guidelines compliance	5.1 Check submissions received for compliance with authorities and guidelines 5.2 Monitor business trends and compliance variations to determine effectiveness of authorities and guidelines 5.3 Rectify non-compliance with authorities and guidelines to maintain business plan objectives
6. Evaluate effectiveness of authorities and guidelines	6.1 Identify market trends and confirm evaluation is based on reliable information 6.2 Assess trends to quantify impact on expected business 6.3 Revise allocations according to changes to codes of practice, legislative and organisational policy requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Oral Communication	<ul style="list-style-type: none"> • Clearly explains detailed information using language, tone and pace appropriate to audience • Clarifies information effectively using active listening and questioning
Reading	<ul style="list-style-type: none"> • Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> • Records information and prepares correspondence and documentation using clear language and organisational formats and protocols • Composes, edits and proofreads documents to ensure clarity, accuracy and consistency of meaning
Initiative and enterprise	<ul style="list-style-type: none"> • Investigates new and innovative ideas as a means to continuously improve work practices and processes through consultation, and formal and analytical thinking
Planning and organising	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness
Problem solving	<ul style="list-style-type: none"> • Responds to problems requiring immediate resolution, drawing on past experiences to focus on the cause of a problem
Self-management	<ul style="list-style-type: none"> • Works independently or with others in making decisions to achieve organisational outcomes • Takes responsibility for following policies, procedures and legislative requirements and identifies organisational implications of new legislation or regulation • Modifies or develops organisational policies and procedures to comply with legislative requirements and organisational goals • Applies systematic and analytical decision-making processes for complex and non-routine situations
Teamwork	<ul style="list-style-type: none"> • Elicits feedback and provides feedback to others to improve self or workgroup behaviours • Selects, implements and seeks to improve protocols governing communications to clients and co-workers in a range of work contexts • Recognises the diversity in people and manages this diversity to improve workplace relations and practices
Technology	<ul style="list-style-type: none"> • Uses digital technologies to access, enter, check and store information required to complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSISV516 Allocate authorities and guidelines for distribution.

Assessment Requirements for FNSISV526 Allocate authorities and guidelines for distribution

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- allocate authorities and guidelines for distribution at least once.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements and industry codes of practice applicable to the allocation of authorities and guidelines
- organisational policies, procedures, authorities and guidelines applicable to the allocation of authorities and guidelines
- key aspects of organisational business plan, its requirements and objectives
- key aspects of negotiation techniques and procedures
- methodologies to test application of authorities and guidelines
- procedures and criteria used to determine allocation of authorities and guidelines
- procedures and requirements to provide training applicable to allocation of authorities and guidelines for distribution and methods to assess its effectiveness.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies and procedures, legislation and regulations relating to allocating authorities and guidelines
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV527 Implement insurance claim recovery procedures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to recover money relating to an insurance claim. It encompasses the complete process, from initiating the recovery to finalisation of the claim.

The unit applies to those who work in job roles such as underwriting. It involves specialist knowledge and functions in a range of insurance sectors, and may be applied in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish viability of recovery	1.1 Identify sources and rights of recovery 1.2 Calculate achievable recovery amount 1.3 Evaluate extent of recovery success
2. Evaluate recovery methods	2.1 Determine recovery method based on assessing benefit to organisation and according to organisational operating procedures 2.2 Confirm that selected recovery method is appropriate to circumstances of loss and compliant with legislative and organisational requirements
3. Implement and monitor	3.1 Issue demand to responsible party and appoint agents to undertake

ELEMENT	PERFORMANCE CRITERIA
recovery progress and negotiate recovery	<p>loss recovery, as required</p> <p>3.2 Confirm knock for knock, as required</p> <p>3.3 Make referral to solicitor and other relevant service provider, as required</p> <p>3.4 Implement and follow up recovery within required timeframes and according to organisational procedures</p> <p>3.5 Negotiate recovery settlement within required timeframes and according to organisational procedures</p>
4. Process monies and record outcomes	<p>4.1 Confirm receipt of recovery amounts</p> <p>4.2 Prepare payment information and facilitation of claim payment, as required</p> <p>4.3 Make recommendation to relevant team on payment of client's share of recovery money, as required</p> <p>4.4 Finalise claims according to legislation, regulations, organisational operating procedures and codes of practice, as required</p> <p>4.5 Update required records and advise underwriter of any special circumstances, as required</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial information, costs and values, and to process claims
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges, using active listening and questioning techniques to convey and clarify information and confirm understanding
Reading	<ul style="list-style-type: none"> Interprets, consolidates and checks completeness and accuracy of information and data
Writing	<ul style="list-style-type: none"> Records communications and data, and completes organisational documentation and correspondence using clear language and correct spelling, grammar and terminology
Planning and organising	<ul style="list-style-type: none"> Plans and sequences complex tasks and workload, negotiating key aspects with others and according to capabilities, efficiencies and effectiveness Makes critical decisions in complex situations, considering a range of variables including outcomes of previous decisions

SKILL	DESCRIPTION
Self-management	<ul style="list-style-type: none">• Takes responsibility for following policies, procedures and legislative requirements
Teamwork	<ul style="list-style-type: none">• Selects and uses appropriate conventions and protocols when communicating with clients and colleagues in a range of contexts
Technologies	<ul style="list-style-type: none">• Uses digital technologies to access, enter and store information

Unit Mapping Information

Assessment Requirements for FNSISV527 Implement insurance claim recovery procedures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement claim recovery procedures for at least three different insurance claims.

In the course of the above, the candidate must:

- collate information and determine viability of the recovery
- review options and determine a suitable claim recovery method
- engage in negotiations to secure settlement conditions
- calculate achievable recovery amounts
- oversee financial transactions of payments
- maintain accurate records.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements, regulatory guidelines and industry sector compliance requirements as they apply to:
 - insurance contracts
 - consumer protection
 - privacy
 - collection of monies
 - Corporations Act
 - General Insurance Code of Practice
- organisational policies, procedures, insurance guidelines and key stakeholders in claim recovery processes

- legal aspects of insurance agents and brokers that apply when implementing claim recovery procedures
- key aspects of claim recovery methods and their application
- techniques for negotiating recovery settlements
- insurance fundamentals and methods to interpret and apply policy wording, including rights of subrogation
- key aspects of procedures of claims recovery from reinsurance
- legal precedents and previous organisational results for insurance claims recovery.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies, procedures, legislation and regulations as they relate to contracts of insurance
- common technology and software required to implement insurance claim recovery.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV531 Issue insurance contracts covering non-routine and complex situations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to undertake processes related to issuing an insurance contract in non-routine and complex situations. It includes identifying the necessary information and issuing a new policy or contract of insurance in response to requests for quotes, new policies or interim cover (cover note) in non-routine and complex situations.

The unit applies to those working in job roles with specialist knowledge and functions, such as insurance brokers or agents, in a range of insurance sectors in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify non-routine and complex aspects, and clarify client situation	1.1 Identify non-routine and complex aspects of client requirements 1.2 Elicit required information from client according to organisational procedures 1.3 Consult specialists on non-routine and complex aspects of the client's situation where required 1.4 Apply requirements to non-routine and complex situations that

ELEMENT	PERFORMANCE CRITERIA
	make risk acceptable 1.5 Verify risk information advised by client 1.6 Implement survey requirements as required
2. Determine approach	2.1 Assess and interpret required parameters to determine organisation's approach 2.2 Consult specialists within and outside organisation as required 2.3 Determine terms and conditions of contract and premiums according to organisational policies and procedures 2.4 Refer request to escalation point as required according to organisational policies and procedures
3. Finalise insurance contract	3.1 Identify any special aspects of policy and notify client 3.2 Decline unacceptable request where applicable under law, inform client and provide reasons 3.3 Complete required calculations and contract documentation, and confirm compliance with organisational procedures and legislative requirements 3.4 Check documentation for accuracy and omissions according to organisational procedures for non-routine, complex contracts 3.5 Issue cover note, quote or new insurance policy according to organisational procedures, and despatch to client

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse and check financial data and to accurately process contract documentation
Oral communication	<ul style="list-style-type: none"> Employs appropriate listening and questioning skills to check understanding and convey complex information in a manner appropriate for the audience
Reading	<ul style="list-style-type: none"> Analyses documentation from a variety of sources, and records and consolidates information to determine requirements Evaluates information and products from a variety of sources to match client needs
Writing	<ul style="list-style-type: none"> Records information and prepares correspondence and documentation using clear language and organisational formats and protocols

SKILL	DESCRIPTION
Planning and organising	<ul style="list-style-type: none"> • Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness • Selects, implements and seeks to improve protocols governing communications to clients and co-workers in a range of work contexts • Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships
Problem solving	<ul style="list-style-type: none"> • Makes critical decisions quickly in complex situations, taking into consideration a range of variables including the outcomes of previous decisions
Self-management	<ul style="list-style-type: none"> • Takes responsibility for following policies, procedures and legislative requirements, and identifies organisational implications of new legislation or regulation • Identifies and resolves key business issues, processes and practices that may have legal implications
Technology	<ul style="list-style-type: none"> • Uses digital technologies to access, enter and store information required to complete work tasks

Assessment Requirements for FNSISV531 Issue insurance contracts covering non-routine and complex situations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- issue at least two insurance contracts covering non-routine and complex situations.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements and industry sector codes of practice and levels of authority for non-routine and complex situations
- organisational policies and procedures relating to issuing insurance contracts covering non-routine and complex situations, including those relating to conducting surveys
- aspects of procedures for non-routine and complex situations, including required parameters
- key aspects of insurance policies
- documentation and organisational systems required for issuing cover notes, quotes and new insurance policies
- specialists to consult regarding client's non-routine and complex situations, including underwriting staff, product development staff and external lawyers
- process of interpreting application information and application of specific risk ratings
- risk parameters and its verification process
- techniques to analyse and check financial data and process contract documentation.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies and procedures, legislation and regulations relating to contracts of insurance
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV532 Review operational performance of insurance portfolios

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to review the operational performance of insurance portfolios, including analysing portfolio performance, identifying problems and determining remedial action.

The unit applies to those working in job roles involving specialist knowledge and functions in a range of insurance sectors, in organisations of various sizes and across a range of client bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse performance data	1.1 Collate and check identified key performance data 1.2 Review data against planned outcomes and prior record 1.3 Conduct analysis to confirm if planned outcomes have been achieved 1.4 Determine need for remedial action by assessing variations in portfolio performance 1.5 Investigate and report unusual or unwanted trends 1.6 Benchmark portfolio performance

ELEMENT	PERFORMANCE CRITERIA
2. Identify performance problems and remedial action	2.1 Use available information to undertake a performance assessment and identify performance problems 2.2 Refer unusual circumstances for strategic analysis as required 2.3 Undertake further analysis to identify improvement measures
3. Determine and implement remedial action	3.1 Review existing authorities and acceptance criteria to assess if amendments are needed 3.2 Prepare action plans to match performance with portfolio profile according to organisational guidelines and procedures 3.3 Implement action plans 3.4 Protect consumers' rights according to compliance requirements and codes of practice 3.5 Communicate information which impacts on portfolio or line of business to underwriter
4. Monitor effectiveness of remedial action	4.1 Develop and implement procedures to monitor remedial action and its effectiveness 4.2 Analyse results according to required timeframes to confirm portfolio performance has stabilised and is moving towards planned outcomes

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse financial information, costs and values to accurately determine performance
Oral communication	<ul style="list-style-type: none"> Articulates requirements in a succinct and appropriate manner to determine specific information
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation and data from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Records information and prepares correspondence and documentation using clear language and organisational formats and protocols Writes, edits and proofreads documents to ensure clarity of meaning, and accuracy and consistency of information
Planning and organising	<ul style="list-style-type: none"> Monitors progress of plans and schedules, and reviews and changes them to meet new demands and priorities

SKILL	DESCRIPTION
	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload
Self-management	<ul style="list-style-type: none"> Takes responsibility for following policies, procedures and legislative requirements, and identifies organisational implications of new legislation or regulation Modifies or develops organisational policies and procedures to comply with legislative requirements and organisational goals Makes critical decisions quickly in complex situations, taking into consideration a range of variables including the outcomes of previous decisions Investigates new and innovative ideas as a means to continuously improve processes
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, enter, check and store information required to complete work tasks

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- investigate at least three different insurance claims.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key requirements of industry sector legal obligations and organisational policies and procedures in relation to investigating claims
- key features of briefs provided by insurers to investigators, including:
 - facts of claim
 - insurer's instructions
 - outcomes required
- scoping required for investigating insurance claims, including in scope and out of scope areas
- fraud indicators related to claims
- key types of information required to make a logical case from an investigation
- appropriate investigation methods, including:
 - interviews
 - surveillance
 - research
 - document authentication
 - observation
- key features of legislative and regulatory requirements and industry sector codes of practice relating to:
 - insurance contracts
 - consumer protection

- privacy
- insurance investigation
- key aspects of report writing conventions in insurance investigations
- techniques to calculate and compare financial data and information.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies and procedures, legislation and regulations relating to insurance
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSISV537 Review claims settlement policies and procedures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to review the effectiveness of claims settlement policy and procedures, including monitoring trends in claims settlement and formulating changes to minimise losses.

The unit applies to those involved in developing and monitoring policies and procedures associated with organisational claims risk within the insurance sector.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Insurance services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collect data on claims trends	1.1 Design and implement data gathering processes 1.2 Research and obtain data on industry claims settlement trends for benchmarking purposes 1.3 Compare organisational data to industry benchmark data, and against industry codes of practice and regulatory requirements 1.4 Document findings according to organisational and regulatory requirements
2. Analyse and report on recommendations	2.1 Analyse data and identify claims settlement areas requiring review of policies and procedures 2.2 Conduct further analyses as required

ELEMENT	PERFORMANCE CRITERIA
	2.3 Formulate recommendations report for improvements to claims settlement policies and procedures according to organisational policies and procedures
3. Finalise review	3.1 Obtain feedback on draft recommendations report from required stakeholders 3.2 Update recommendations report as required 3.3 Submit finalised recommendations report to required stakeholders 3.4 Instigate changes to policies and procedures as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse information, costs and values to accurately determine trends
Oral communication	<ul style="list-style-type: none"> Clearly explains detailed information using language, tone and pace appropriate to the audience
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Records information and prepares correspondence and documentation using clear language and organisational formats and protocols Composes, edits and proofreads reports to ensure clarity of meaning, and accuracy and consistency of information
Planning and organising	<ul style="list-style-type: none"> Plans and sequences complex tasks and workload, negotiating key aspects with others and taking into account capabilities, efficiencies and effectiveness
Problem solving	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes for complex and non-routine situations
Self-management	<ul style="list-style-type: none"> Seeks to improve policies and procedures to better meet organisational goals Follows policies, procedures and legislative requirements and identifies organisational implications of new legislation or regulation Investigates new and innovative ideas as a means to continuously improve work practices and processes through consultation, formal and analytical thinking

SKILL	DESCRIPTION
Teamwork	<ul style="list-style-type: none">• Selects, implements and seeks to improve protocols governing communications to clients and co-workers in a range of work contexts
Technology	<ul style="list-style-type: none">• Uses digital technologies to access, enter, check and store information required to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSISV517 Review claims settlement policies and procedures.

Assessment Requirements for FNSISV537 Review claims settlement policies and procedures

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- review claims settlement policies and procedures for at least two organisational claims risk areas.

In the course of the above, the candidate must:

- confirm suggested changes to policies and procedures meet required national and international standards, codes and regulations.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- national and international standards, codes and regulations relevant to claims settlement policies and procedures, including those stipulated by:
 - Australian Prudential Regulation Authority (APRA)
 - Australian Securities and Investments Commission (ASIC)
 - Australian Transaction Reports and Analysis Centre (AUSTRAC)
 - International Organization for Standardization (ISO)
- key features and types of organisational claims settlement policies, procedures and guidelines
- documentation requirements of claims settlement policies, procedures and guidelines
- key aspects of working with data relevant to analysing claims settlement trends, including:
 - approaches to data collection design and gathering
 - sources used to obtain data on industry claims settlement trends
 - methods for comparing organisational data against industry benchmark data
- key methods for improving claims settlement policies and procedures

- key aspects of recommendations reports and report writing
- key impacts of ineffective claims settlement policies and procedures
- techniques to analyse information, costs and values and determine trends.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational records
- organisational policies, procedures, legislation, codes, standards and regulations relating to contracts of insurance
- a range of common technology and software.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSMCA311 Collect debts

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to analyse information about the status of a debtor and negotiate debt repayments on original or agreed terms.

The unit applies to individuals who perform debt collection functions within organisations of any size or location.

Note

The term 'debtor' in this unit relates to any customer who may have a debt to an organisation.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Mercantile agents

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan and prepare initial contact with debtor	1.1 Interpret and confirm client's written instructions and policies and procedures related to debt collection 1.2 Review comments on debtor's file according to organisational policies and procedures, and regulatory and legislative requirements
2. Assess debtor status prior to contact with debtor	2.1 Review credit history and establish credit worthiness of debtor based on information available 2.2 Cross-reference information on debtor for verification according

ELEMENT	PERFORMANCE CRITERIA
	<p>to organisational policies and procedures</p> <p>2.3 Determine cost-effective recovery action options based on debtor's credit worthiness and according to organisational policies and procedures</p>
<p>3. Negotiate debt payment or settlement with debtor within defined parameters</p>	<p>3.1 Establish contact with debtor and build rapport</p> <p>3.2 Develop debt payment or settlement proposal for client and debtor according to organisational policies and procedures, and industry codes of conduct</p> <p>3.3 Discuss debt payment or settlement proposal with required personnel and document reasons for proceeding, not proceeding or taking further action</p> <p>3.4 Confirm and record debtor and client agreement, and procedures for debt payment or settlement</p> <p>3.5 Refer debt for legal action according to organisational policies and procedures where required</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> • Accurately analyses, records and stores data according to organisational requirements • Calculates debt status and settlement payments
Oral communication	<ul style="list-style-type: none"> • Uses language and concepts appropriate to the audience and purpose to convey and clarify information • Uses questioning and active listening to determine and confirm debt and debt settlement requirements
Reading	<ul style="list-style-type: none"> • Interprets documentation and information from a variety of sources relevant to credit application
Planning and organising	<ul style="list-style-type: none"> • Adopts efficient and effective organisational and time management skills to sequence tasks, meet timelines and arrange meetings
Problem solving	<ul style="list-style-type: none"> • Makes decisions and recommendations that lead to best possible outcomes for all stakeholders, including referral to other authorities as necessary • Identifies factors that have the potential to impact on the resolution of an issue and develops options to resolve these when they arise • Clearly and thoroughly analyses tasks, then plans strategies and

SKILL	DESCRIPTION
	actions to achieve optimal outcomes within given parameters
Self-management	<ul style="list-style-type: none"> • Takes responsibility for adhering to organisational policies and guidelines relevant to own work context • Recognises and follows explicit and implicit protocols • Develops and maintains strategies to manage own resilience
Teamwork	<ul style="list-style-type: none"> • Selects the appropriate form, channel and mode of communication to build rapport, liaise with others and share information • Implements strategies to moderate conflict and resolve disputes • Negotiates with others to achieve agreeable outcomes in potentially contentious situations
Technology	<ul style="list-style-type: none"> • Uses a range of digitally based technologies and software packages to complete work tasks

FNSMCA312 Repossess property

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to liaise with creditors (clients), debtors and third parties, and apply legal requirements and ethical principles in repossessing property.

The unit applies to individuals who are required to repossess property as part of their role as a mercantile agent within financial services organisations of any size or location.

Note

The term 'debtor' in this unit relates to any customer who may have a debt to an organisation.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Mercantile agents

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan and prepare repossession process	1.1 Interpret and confirm client's written instructions according to organisational policies and procedures, and legislative and regulatory requirements 1.2 Determine legal basis for repossession 1.3 Confirm legal documents have been obtained 1.4 Establish location of property to be repossessed according to legislative requirements
2. Negotiate repossession	2.1 Establish contact and build rapport with debtor

ELEMENT	PERFORMANCE CRITERIA
	2.2 Communicate reason for repossession and confirm debtor's understanding of financial concepts required for repossession of property 2.3 Propose terms of debt settlement and negotiate resolution for client and debtor 2.4 Explain legal basis of repossession and provide debtor with details of next steps 2.5 Determine residual funds for which the debtor is entitled 2.6 Issue required notices to the debtor according to organisational policies and procedures
3. Repossess property	3.1 Arrange and facilitate repossession on behalf of client according to relevant organisational policies and procedures, and legislative and regulatory requirements 3.2 Identify and communicate with third parties required in repossessing and securing property 3.3 Follow procedures for safety of self and others involved in repossession
4. Finalise repossession activities	4.1 Facilitate valuations and notices on behalf of the client to the debtor 4.2 Arrange delivery, storage, disposal or liquidation of repossessed property according to client instructions 4.3 Maintain records on condition of property, repossession activity, disposal result and payment arrangements according to organisational policies and procedures 4.4 Update client and facilitate handover of property or disposal funds 4.5 Document outcomes according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> • Analyses, records and stores data according to organisational requirements • Calculates debt status, repossession values and residual funds
Oral communication	<ul style="list-style-type: none"> • Uses language and concepts appropriate to the audience and purpose to convey and clarify information

Assessment Requirements for FNSMCA411 Evaluate debt collection actions and develop recommendations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- evaluate debt collection actions and develop recommendations for at least three different debtor cases.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures, legislative and regulatory requirements, and ethical codes of conduct for evaluating debt collection actions and developing recommendations, including those relating to:
 - privacy and confidentiality
 - gathering and reviewing debt collection case information
 - analysis of debt levels
- recommendation report formats
- alternative actions and their rationales, including:
 - not pursuing debt further
 - extending credit terms
 - consolidating loans
 - reduced repayments
 - extended terms
 - repayment pauses
- characteristics and evaluation techniques of debt collection activities
- negotiation techniques.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational policies and procedures related to mercantile agents
- organisational equipment, technology and software.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSORG515 Prepare financial reports to meet statutory requirements

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to identify statutory reporting requirements, and plan, develop and submit financial reports for authorisation before distribution.

It applies to individuals who use a range of organisational techniques to manage their work and that of others.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the relevant regulator for specific guidance on requirements.

Unit Sector

Organisational skills

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify statutory requirements of reports	1.1 Review current and relevant information on statutory reporting requirements 1.2 Identify updates or changes to statutory requirements for financial reporting and assess their impact on developing reports
2. Plan for delivery of reports	2.1 Establish timelines to meet report deadlines and data requirements, and communicate them to contributors for input 2.2 Establish lead times that ensure adequate time is available for contingencies 2.3 Finalise timelines with applicable organisational personnel

ELEMENT	PERFORMANCE CRITERIA
3. Develop reports	3.1 Collate financial information and prepare required documents according to established timelines 3.2 Review and cross-reference documents against detailed statutory requirements and applicable internal accounting records 3.3 Support report results in required formats where necessary 3.4 Review all reports for compliance and auditor requirements 3.5 Document audit trail of work performed and justifications for comprehensive financial monitoring
4. Submit reports for authorisation	4.1 Communicate outcome of review to required personnel 4.2 Obtain all required sign-offs, approvals and authorisations from responsible parties
5. Distribute reports	5.1 Provide authorised reports to appropriate parties according to established timelines 5.2 Obtain confirmation of receipt of reports and complete organisational record of compliance

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> • Accesses texts of relative complexity from a range of sources to determine content applicable to organisational requirements • Reviews and checks data for compliance, completeness and accuracy
Writing	<ul style="list-style-type: none"> • Uses specialised vocabulary and logical organisational structures to produce detailed and compliant financial reports • Prepares clear and concise texts to convey operational information and instructions to others
Oral Communication	<ul style="list-style-type: none"> • Obtains information and elicits the opinion of others using listening and questioning techniques • Uses clear and direct language to convey requirements and confirm actions
Numeracy	<ul style="list-style-type: none"> • Analyses and interprets numerical data to prepare financial documents • Performs calculations necessary to check documents for accuracy and prepare achievable timelines

Initiative and enterprise	<ul style="list-style-type: none"> Identifies knowledge required to carry out work role
Self-management	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols to gain and provide information pertaining to statutory reporting requirements Takes full responsibility for complying with policies, procedures and statutory reporting requirements
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload Applies systematic and analytical decision-making processes to make recommendations in complex and non-routine situations
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks, store data and access information Adopts new and emerging technologies to complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSORG505 Prepare financial reports to meet statutory requirements.

Assessment Requirements for FNSORG515 Prepare financial reports to meet statutory requirements

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare at least two financial reports to meet statutory requirements.

In the course of the above, the candidate must identify, interpret and comply with statutory requirements and information.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- common financial report formats and typical quality indicators
- financial services industry codes of practice
- key requirements of organisational policy and procedures applicable to financial reporting
- key requirements of legislation and regulations applicable to financial reporting
- auditor requirements for financial reporting
- time management techniques and timeline preparation
- types of required signoffs, approvals and authorisations required to produce the performance evidence
- organisational requirements for distribution channels
- documentation required for confirmation of receipt post distribution
- existing guidelines and formats for financial reports
- key organisational personnel for authorisation and approval.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- common office equipment, technology, software and consumables
- an integrated financial software system and data
- statutory documentation.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSORG613 Establish and implement operational guidelines in financial services organisations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to establish strategies for delivery of services, and define, implement and monitor compliance with operational guidelines and procedures.

The unit applies to those who work in various financial services industry job roles and may use a range of analytical and managerial techniques to establish operational information in their workplace.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Organisational skills

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish scope of organisation	1.1 Determine and document scope of organisation 1.2 Identify and document key external relationships and intended client groups in operational guidelines
2. Identify and incorporate industry requirements	2.1 Identify legislation, regulations and codes of practice impacting scope of organisation and incorporate compliance issues and procedures into operational guidelines 2.2 Establish and incorporate ethical procedures and standards for organisation into operational guidelines

ELEMENT	PERFORMANCE CRITERIA
3. Establish strategies for delivery of services	3.1 Establish key positions, personnel, job descriptions and authorities for organisation and document in operational guidelines 3.2 Establish and document administrative procedures in operational guidelines 3.3 Identify and incorporate internal and external resources available to assist in delivery of services to clients into operational guidelines
4. Distribute information on operational guidelines	4.1 Establish mechanisms for distributing updates and amendments, and opportunities for feedback and interpretation requests 4.2 Distribute operational guidelines to required staff 4.3 Communicate required sections of guidelines to clients and display information as required
5. Implement and monitor operational guidelines	5.1 Establish client service to meet requirements in operational guidelines 5.2 Establish reporting and monitoring procedures for operations and services 5.3 Identify breaches in operational guidelines and respond as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Reading	<ul style="list-style-type: none"> • Comprehends complex texts to select and apply relevant legislative, regulatory and compliance information to requirements • Examines a range of operational documents and communications for consistency with guidelines and identifies infringements
Writing	<ul style="list-style-type: none"> • Documents relevant information from a diverse range of internal and external sources, integrating and organising it in a manner to suit comprehensive operational guidelines and procedures • Addresses context, purpose and audience when generating texts for internal and external stakeholders • Edits and updates documentation as required
Oral communication	<ul style="list-style-type: none"> • Leads detailed oral exchanges using language appropriate to the purpose and audience • Uses active listening and questioning techniques to clarify and confirm understanding

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Comprehends embedded numerical information in legislative and regulatory documents, and applies developed numerical skills to specify operational guidelines for data processing, reporting and security
Initiative and enterprise	<ul style="list-style-type: none"> Takes a lead role in the development and implementation of guidelines, policies and procedures to meet organisational goals and regulatory requirements
Teamwork	<ul style="list-style-type: none"> Identifies and uses appropriate conventions and protocols when communicating with colleagues and external stakeholders
Self-management	<ul style="list-style-type: none"> Develops plans to manage complex routine and non-routine tasks with an awareness of how they contribute to broader strategy and goals Monitors and reviews organisational policies and procedures for adherence to legislative requirements Makes high impact decisions in a complex environment using input from a range of sources Uses analytical and lateral thinking to review current practices and develop new or improved processes, models and services
Technology	<ul style="list-style-type: none"> Uses digital technologies to access, extract and share relevant information to achieve required outcomes

Unit Mapping Information

Supersedes and is equivalent to FNSORG603 Establish and prepare operational guidelines in a financial services organisation.

Assessment Requirements for FNSORG613 Establish and implement operational guidelines in financial services organisations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- establish and implement operational guidelines for at least three financial services organisations.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of industry requirements, including legislation, regulations and codes of practice impacting organisation
- compliance requirements of:
 - administrative processes and systems
 - marketing and advertising techniques and tools
 - human resources procedures
- scope of organisation, including service specialisations and restrictions to operational guidelines, including:
 - administrative procedures, including information flow requirements
 - key features of information and documentation systems and processes
 - organisational financial services industry products
 - requirements of office IT systems and software in financial services
 - induction procedures, including briefings for new staff
- required sections of guidelines for clients, including:
 - client rights
 - performance standards
 - complaint procedures

- operations and services of organisations requiring reporting and monitoring, including:
 - research
 - client service
 - transactions
 - collection and processing of payments and receipts
 - legislative and regulatory reporting requirements
 - ongoing services
 - professional and ethical practices
- procedures for identifying breaches in operational guidelines and actions required to address breaches.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- financial services product information
- organisational policies and procedures, legislation and regulations as they relate to preparing operational guidelines in a financial services organisation
- financial information systems and data.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSORG614 Establish and manage outsourced services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- establish and manage outsourced services on at least three occasions.

In the course of the above, the candidate must:

- define the scope of expertise required and performance standards required for outsourced services
- request further information from supplier during the tender assessment process as required
- establish and document monitoring and reporting procedures for outsourced services
- establish and monitor procedures for integrating outsourced services with practices
- brief outsourced supplier on required services, fund standards and procedures.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key organisational policies and procedures, and legislative and regulatory requirements for establishing and managing outsourced services
- methods to establish the reputation and expertise of service providers in the industry
- tender processes and supporting documents required
- methods for assessing tender applications
- briefing processes for outsourced suppliers, including outlining required services, fund standards and required procedures to be followed
- performance management procedures for outsourced services
- risk management strategies for outsourced services
- key features of compliance and reporting requirements of outsourced and specialist services in the industry, including timeframe requirements
- methods for establishing and documenting performance standards of outsourced services.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- financial services information
- organisational policies and procedures documentation.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSPIM314 Assess and determine initial entitlements for personal injury claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- assess and determine initial entitlements for at least two different personal injury claims.

In the course of the above, the candidate must:

- collect and document information during the claim registration process, including:
 - return to work (RTW) status of the claim
 - return to health status of the claim
 - nature of the injury.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- regulatory and legislative requirements relevant to assessing and determining initial entitlements for personal injury claims
- key features of organisational policies and procedures as they relate to capturing, processing and managing personal injury claims
- contingency and corrective action plans for clients
- compensation and/or medical liability calculations
- key roles of stakeholders in managing personal injury claims
- operations of organisational claims management information technology systems
- process for identifying areas of risk within claims, including using information collected during claims registration process
- range of potential risk and fraud indicators relevant to personal injury claims
- referral and delegation procedures
- record and documentation requirements.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- clients
- office equipment, technology and software, including claims management system.
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSPIM403 Educate clients on personal injury management issues

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and comply with industry and organisational obligations and objectives, including relevant legislative requirements
- deal with questions relating to all aspects of the business and issues that arise for clients
- apply sound advocacy skills to convince clients of the benefits of the personal injury management system using a thorough grounding in return to work and health strategies and methods
- identify and present on issues of relevance to clients.

Note: if a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the critical features of common law, legal systems and procedures, and relevant legislation
- outline the key organisational policy, procedures, underwriting guidelines and authorities
- identify the features and uses of information and communications technology relevant to the education of clients
- compare and contrast return to work strategies and methods
- describe the key features of risk prevention methods and application
- analyse and interpret:
 - industry sector and organisational policy wording
 - industry sector compliance requirements.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the personal injury management field of work and include access to:

- office equipment, technology, software and consumables
- organisational records, policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSPIM411 Plan and implement rehabilitation and return to life strategies

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to plan and implement rehabilitation and return to life strategies for recipients of personal injury benefits (clients), including strategies for return to work (RTW), return to health, return to community and recovery. It includes applying specific knowledge of rehabilitation processes, injury management models and legislation, along with strong case management, analytical and client service skills.

The unit applies to those who work in the personal injury management sector, within their level of authority, and coordinate multiple tasks and make judgements regarding recommended actions and client case management across a broad spectrum of claims.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Personal injury management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Obtain information and establish rehabilitation and return to life needs	1.1 Determine nature and status of claim according to organisational policies and procedures 1.2 Contact client to discuss their rehabilitation and return to life needs and goals 1.3 Co-design goals with client based on information gathered in consultation with client and required stakeholders

ELEMENT	PERFORMANCE CRITERIA
	1.4 Document conversations and outcomes according to organisational policies and procedures
2. Develop rehabilitation and return to life plan	2.1 Confirm goals meet client needs and recovery considerations 2.2 Draft and confirm rehabilitation and return to life plan in consultation with client and required stakeholders 2.3 Document, store and share plan according to organisational policies and procedures
3. Implement rehabilitation and return to life plan	3.1 Organise rehabilitation and recovery services according to rehabilitation and return to life plan 3.2 Liaise and discuss with service providers and required stakeholders to confirm rehabilitation and return to life plan is implemented as planned 3.3 Arrange payments for services according to costs and schedule of fees as required
4. Monitor client progress and effectiveness of rehabilitation and return to life plan	4.1 Monitor rehabilitation services and client progress by consulting with client and required stakeholders 4.2 Update rehabilitation and return to life plan to reflect changing needs and goals of client as required 4.3 Discuss and develop transition plan with required stakeholders once client goals have been met and move client from supported recovery to self-management

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical equations to calculate payments and costs related to rehabilitation and recovery services
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges and explains, clarifies and confirms detailed information using language, tone and pace appropriate to the audience Uses collaborative techniques, including questioning and active listening to liaise with others and elicit and share information
Reading	<ul style="list-style-type: none"> Analyses and interprets documentation from a variety of sources and records and consolidates related information
Writing	<ul style="list-style-type: none"> Records key enquiry information and prepares documentation using clear language, including correct terminology, spelling and grammar

SKILL	DESCRIPTION
	<ul style="list-style-type: none"> • Uses language and concepts appropriate for the audience to convey and clarify explicit information and requirements
Planning and organising	<ul style="list-style-type: none"> • Identifies and responds to legislative and regulatory requirements, explicit and implicit protocols, policies and procedures and meets expectations associated with own role
Problem solving	<ul style="list-style-type: none"> • Uses systematic, analytical processes in complex, routine and non-routine situations, gathering information and identifying and evaluating options against agreed criteria
Self-management	<ul style="list-style-type: none"> • Develops plans to manage complex routine and non-routine tasks with an awareness of how they might contribute to broader strategy and goals • Sequences and schedules activities, monitors implementation and manages necessary communication
Teamwork	<ul style="list-style-type: none"> • Provides information to others as required • Participates in joint ownership of process and outcomes and seeks to identify common understanding and agreement between those involved
Technology	<ul style="list-style-type: none"> • Uses the main features and functions of digital tools and systems to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSPIM401 Plan and implement rehabilitation, return to work and health strategies.

Assessment Requirements for FNSPIM411 Plan and implement rehabilitation and return to life strategies

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- plan and implement rehabilitation and return to life strategies for at least three clients.

In the course of the above, the candidate must:

- assess risk factors and associated impacts for cases
- communicate rehabilitation and recovery options to client and stakeholders
- seek input from the client to identify and agree on specific roles and responsibilities related to recovery
- promote cooperative participation during consultations between client and required stakeholders in developing rehabilitation programs and return to life plan
- maintain relationships with required stakeholders throughout the client's recovery
- seek feedback from the client and required stakeholders throughout the recovery process and adapt the return to life plan to reflect feedback.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of organisational policies and procedures, and legislative and regulatory requirements related to planning and implementing rehabilitation and return to life strategies for personal injury clients, including:
 - client rehabilitation needs and objectives
 - methods of identifying and escalating high-risk claims
 - development and maintenance of rehabilitation and return to life plans
 - role and responsibilities of key stakeholders and third parties involved in the recovery process
 - client privacy and confidentiality

- review process for medical and rehabilitation providers
- estimation of costs
- injury management models, including:
 - biopsychosocial
 - traditional medical management
- types of return to life strategies and their processes, including:
 - return to work (RTW)
 - return to community
 - return to health
 - recovery
- purpose and role of rehabilitation and return to life plans
- benefits of early intervention for rehabilitation and parameters of personal injury management system
- difference between rehabilitation and return to life needs
- key risk prevention methods and their applications
- barriers to return to life goals and objectives
- principles relating to recovery-orientated approach, including:
 - client's self-determination and self-management relating to health and wellbeing
 - tailored, personalised and strengths-based care specific to client's unique strengths, circumstances, needs and preferences
- contributing factors to a holistic approach to recovery and wellbeing, including:
 - social
 - emotional
 - physical
 - cognitive
 - cultural and spiritual
- methods of identifying client strengths as they relate to recovery
- types of rehabilitation and recovery services available and their durations
- uses of required information and communications technology systems, including plan management systems.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- clients
- office equipment, technology and software
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- facilitate recovery and return to life for at least three personal injury clients.

In the course of the above, the candidate must:

- follow organisational policies, protocols and procedures within limits of own role.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of organisational policies and procedures, industry codes of practice and legislative and regulatory requirements relating to personal injury and return to life case management
- key physiology, psychosocial and biological conditions of personal injury and related treatment services to support return to life
- types of return to life strategies and their processes, including:
 - return to work
 - return to community
 - return to health
 - recovery
- key principles, processes and practices of developing and facilitating return to life plans, strategies and case management
- organisational systems and applications required for the facilitation of return to life and recording and distribution of information.
- stakeholders involved in case conferencing and their role, including in development and monitoring of return to life strategies

- contributing factors to a holistic approach to recovery, wellbeing and service development and delivery, including:
 - social
 - socioeconomic
 - demographic
 - emotional
 - physical
 - cognitive
 - cultural and spiritual
- roles and functions of service providers and third parties in the return to life process, including:
 - personal injury case managers
 - organisational personnel
 - medical and health professionals
- strategies for conducting effective case conferences.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- clients
- office equipment, technology and software
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPIM434 Manage personal injury claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to manage personal injury claims. It involves conducting initial assessments, developing case plans, reviewing case progress and conducting completion procedures on case closure.

The unit applies to those who have developed skills and a broad knowledge base of the personal injury management sector and who work independently or across multidisciplinary teams. They make judgements within their level of responsibility to achieve organisational objectives and standards.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Personal injury management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Conduct initial assessment	<p>1.1 Contact stakeholders to gather information on personal injury case according to organisational policies and procedures, and legislative and regulatory requirements</p> <p>1.2 Conduct initial client interview and assessment according to organisational policies and procedures, and legislative and regulatory requirements</p> <p>1.3 Determine need for further assessment and referral services according to legislative and regulatory requirements and provide referrals for these according to organisational policies and</p>

ELEMENT	PERFORMANCE CRITERIA
	<p>procedures</p> <p>1.4 Collate and provide information to required stakeholders to support the referral process according to organisational policies and procedures, and legislative and regulatory requirements</p>
2. Develop and obtain approval of personal injury case plan	<p>2.1 Negotiate and agree on goals and develop case plan in consultation with client, treating medical practitioner, employer and other key stakeholders</p> <p>2.2 Obtain approvals from treating medical practitioner and stakeholders prior to commencement of a return to life and health program according to organisational policies and procedures</p>
3. Monitor and review case progress	<p>3.1 Conduct case review meetings with multidisciplinary team and key stakeholders according to organisational policies and procedures</p> <p>3.2 Monitor progress and effectiveness of client's case against goals using organisational policies and procedures and modify case plan as required</p> <p>3.3 Conduct follow up review meetings with client according to case plan and organisational policies and procedures</p> <p>3.4 Conduct closure interviews on completion of case management plan according to organisational policies and procedures, and legislative and regulatory requirements</p> <p>3.5 Complete and distribute case management reports according to organisational policies and procedures, and legislative and regulatory requirements</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs calculations, and records, sequences and schedules information to achieve required outcomes
Oral communication	<ul style="list-style-type: none"> Uses active listening and questioning techniques to clarify information Uses appropriate language, concepts, pace and tone to convey information appropriate to audience and purpose
Reading	<ul style="list-style-type: none"> Analyses and interprets complex information, including legislative and regulatory requirements and policies, from a range of sources synthesising specific aspects of information to meet requirements

SKILL	DESCRIPTION
Writing	<ul style="list-style-type: none"> Records information and completes documentation following organisational procedures and protocols Uses language and terminology appropriate to audience to convey and clarify explicit information and requirements
Planning and organising	<ul style="list-style-type: none"> Identifies and responds to legislative requirements, policies and procedures and meets expectations associated with own role Builds on protocols to establish more effective workplace systems Develops skills and knowledge through reading and practice
Problem solving	<ul style="list-style-type: none"> Implements strategies aimed at fostering cooperation and positive relationships with a diverse range of clients
Self-management	<ul style="list-style-type: none"> Plans, sequences and implements tasks and appropriate resources to meet requirements
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when collaborating, negotiating or consulting with clients and other stakeholders in a range of work contexts
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks

Unit Mapping Information

Supersedes and is equivalent to FNSPIM414 Manage personal injury claims.

Assessment Requirements for FNSPIM434 Manage personal injury claims

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage at least three different personal injury claims.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of organisational policies and procedures, industry codes of practice and legislative and regulatory requirements relating to personal injury case management, including:
 - processes used to assess, plan, monitor, review and close a case
 - documentation requirements for personal injury case plan
 - internal and external case referral processes
 - decision-making processes
 - information required to support referral processes
 - rehabilitation evaluation methods
 - sources of information required for the rehabilitation planning process
 - reporting requirements
- different goals and related case management methods related to:
 - recovery and rehabilitation
 - returning to work
 - returning to health
 - returning to community
- negotiation techniques for goal setting
- key stakeholders and sources of information to assist with managing and developing a case

- strategies for dealing with issues and problems relating to case management
- indicators and triggers for modification to the case plan
- long-term client relationship management techniques.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- clients
- office equipment, technology and software
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPIM516 Promote health benefits of returning to work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to research and communicate current information on health benefits of return to work (RTW) and personal injury management strategies to influence change for individuals and organisations.

The unit applies to those who work in the personal injury management sector and have well developed analytical and communication skills, and a broad knowledge base of the sector and services to provide strategic guidance in organisational activities.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Personal injury management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Research current information on health benefits of work and RTW strategies	1.1 Research impacts of worklessness on individuals and communities 1.2 Analyse health benefits of work for individuals and other stakeholder groups 1.3 Determine role of health outcomes and forms of health outcome measurement in best practice RTW programs 1.4 Analyse organisational RTW data and identify issues or data collection improvement opportunities 1.5 Optimise RTW and health outcomes using required approaches

ELEMENT	PERFORMANCE CRITERIA
2. Develop communication strategies to promote health benefits of work	2.1 Design programs or projects that aim to improve understanding of health benefits of work 2.2 Communicate information on health benefits of work to stakeholders
3. Influence RTW for individuals and organisations	3.1 Review and update organisational policies and procedures to embed the health benefits of RTW and support for early intervention and proactive collaboration 3.2 Develop solutions to address complex barriers to RTW and issues relating to worker and employer motivation 3.3 Design projects and activities that initiate changes to perceptions and behaviours of individuals and the community 3.4 Establish collaborative relationships and negotiate with organisational staff, specialists and treating practitioners to advocate and achieve RTW strategies 3.5 Assist organisations with strategies to support RTW clients in the workplace

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Researches and develops own knowledge required to improving work outcomes
Numeracy	<ul style="list-style-type: none"> Interprets statistical reports and information related to RTW outcomes
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning and uses collaborative negotiation and advocacy techniques to convey and clarify information
Reading	<ul style="list-style-type: none"> Researches, interprets and analyses texts from a variety of sources and records and consolidates related information
Writing	<ul style="list-style-type: none"> Organises, collates and documents information required to RTW and personal injury management
Initiative and enterprise	<ul style="list-style-type: none"> Advocates improved outcomes and influences change using different strategies
Planning and organising	<ul style="list-style-type: none"> Works within organisational and regulatory requirements in managing information

SKILL	DESCRIPTION
Problem solving	<ul style="list-style-type: none">• Employs problem solving processes to resolve issues
Self-management	<ul style="list-style-type: none">• Organises, plans and sequences work activities to research, prepare and present information
Teamwork	<ul style="list-style-type: none">• Collaborates and networks with a variety of stakeholders in order to achieve outcomes
Technology	<ul style="list-style-type: none">• Accesses, extracts, stores and shares information using different digitally based technologies

Unit Mapping Information

Supersedes and is equivalent to FNSPIM506 Promote the health benefits of returning to work.

Assessment Requirements for FNSPIM516 Promote health benefits of returning to work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- promote the health benefits of returning to work on at least two occasions, including with at least one individual and at least one organisation.

In the course of the above, the candidate must:

- collect and prepare a report on the analysis of quantitative data and qualitative information relating to return to work (RTW) programs within an organisation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- benefits and challenges of integrating a health outcomes approach in personal injury schemes
- biopsychosocial approaches related to optimisation of RTW and health
- techniques related to evaluating role of multiple strategies or solutions for RTW programs
- definition and examples of term biopsychosocial in a personal injury scheme context
- factors that influence health outcomes in compensation and personal injury schemes, including:
 - scheme design
 - psychosocial factors
 - socioeconomic factors
- health outcome measurements, their relation to personal injury case management and types of tools used
- impact of worklessness on individuals and communities
- key barriers to RTW and links to employer and worker motivation
- key features of organisational policies and procedures relating to RTW strategies

- methods of interpreting qualitative and quantitative organisational data
- key points of current literature and research relating to health benefits of work
- role of perception and attitudes towards injury or illness and its impacts on an individual's RTW program
- procedures for collecting organisational data.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- clients
- office equipment, technology, software and consumables
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPIM517 Manage complex return to work cases

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to analyse barriers to and approaches for managing complex return to work (RTW) cases within an organisation.

The unit applies to those who work in the personal injury management sector and have developed communication and organisational skills and a broad knowledge base of the sector. They make judgements regarding recommended actions and the management of injured persons returning to work in the organisation.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Personal injury management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Analyse factors, barriers and strategies for managing complex RTW cases	1.1 Identify factors and barriers that contribute to a complex RTW case 1.2 Identify and analyse the impact and interplay of injuries, pre-existing conditions and secondary conditions on the case 1.3 Identify mechanisms to support injured persons available within the organisation 1.4 Determine situations where early intervention or changes to RTW management are required 1.5 Determine a support strategy for particular issues and

ELEMENT	PERFORMANCE CRITERIA
	complexities
2. Develop individually tailored injury management plan	2.1 Identify needs of the injured person and indicators of complex issues and risks 2.2 Seek advice from external specialists where required to assist in development of a sustainable RTW plan for injured person 2.3 Identify suitable duties, reasonable adjustments and area of work for injured person based on identified needs and advice from specialists as required 2.4 Determine a suitable RTW program for the injured person by liaising with the required authorities 2.5 Document an RTW plan identifying key duties, requirements, timeframes and expected outcomes 2.6 Communicate RTW plan to stakeholders according to health privacy principles
3. Monitor progress of RTW plan and review management of risk factors	3.1 Manage RTW plan according to organisational policies and procedures 3.2 Liaise with team leader and injured person to monitor progress towards outcomes 3.3 Identify and manage barriers, emerging conflicts and issues relating to the RTW plan 3.4 Communicate with injured person to minimise confusion and concerns 3.5 Review early intervention strategy and make changes as required 3.6 Develop solutions and options for future action to attain outcomes with the injured person, required authorities and stakeholders 3.7 Escalate issues that cannot be resolved within own work role to required personnel

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Collects and analyses data relating to time and costs in planning and managing cases
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges and clearly explains, clarifies and confirms detailed information using language, tone and pace appropriate to the audience

SKILL	DESCRIPTION
	<ul style="list-style-type: none"> • Liaises with others, elicits and shares information using collaborative techniques that include questioning and active listening
Reading	<ul style="list-style-type: none"> • Analyses and interprets a range of texts from a variety of sources and records and consolidates related information
Writing	<ul style="list-style-type: none"> • Conveys and clarifies explicit information and requirements using language and concepts applicable for audience
Planning and organising	<ul style="list-style-type: none"> • Identifies and responds to legislative and regulatory requirements, explicit and implicit protocols, policies and procedures and meets expectations associated with own role • Organises, plans and sequences work activities to achieve outcomes
Problem solving	<ul style="list-style-type: none"> • Applies problem solving processes to tailor solutions for individuals
Teamwork	<ul style="list-style-type: none"> • Provides information to others as required • Participates in joint ownership of process and outcomes and seeks to identify common understanding and agreement
Technology	<ul style="list-style-type: none"> • Accesses and shares applicable information using digital tools

Assessment Requirements for FNSPIM517 Manage complex return to work cases

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage at least three complex return to work (RTW) cases.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- a range of conflict management and dispute resolution approaches appropriate for RTW management
- factors that can make an RTW case complex or difficult, including:
 - psychosocial risk factors, including low morale, poor job satisfaction, sense of unfair treatment or organisational injustice, power imbalances and client seniority
 - mental health issues, including depression
 - chronic physical illness
 - serious injury
 - stress and trauma
 - negative workplace relationships, including discrimination and low motivation
- formats for designing RTW plans
- health privacy principles to be complied with when dealing and communicating with stakeholders
- mainstream and specialist support provided for a range of complex issues, including mental health and serious injury
- key features of organisational policies and procedures for accessing specialist support for injured persons
- roles of specialists and required authorities in developing RTW strategies
- impact of workplace culture and co-worker attitudes and perceptions on RTW programs for injured persons

- situations where early interventions or changes to RTW management are required
- support strategies for particular issues and complexities, including mental health and serious injury
- types of duties, reasonable adjustments and areas of work for injured person
- types of early intervention strategies
- types of mechanisms within organisations to support injured persons.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- complex RTW cases
- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPIM518 Evaluate and improve return to work programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to apply research to analyse, evaluate and implement continuous improvement measures in return to work (RTW) programs within organisations.

The unit applies to those who work in the personal injury management sector and have developed analytical and communication skills and a broad knowledge base of the sector and services to provide strategic guidance in organisational activities.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Personal injury management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Research best practice RTW models for organisations	1.1 Research RTW models for different types of organisations, considering legislative and regulatory requirements 1.2 Analyse forms of health outcomes measurement used in RTW models in different types of organisations 1.3 Determine best practice RTW models 1.4 Identify the benefits and challenges of implementing RTW best practice models in an organisation 1.5 Analyse the relationship between an organisation's RTW strategy and its practice

ELEMENT	PERFORMANCE CRITERIA
	1.6 Review approaches used for continuous improvement in a range of organisations
2. Review organisation's RTW programs	2.1 Identify and review the organisation's RTW policies and procedures 2.2 Identify personnel with responsibility for RTW in their work roles 2.3 Determine the forms of health outcome measurement used by the organisation 2.4 Analyse quantitative organisational data relating to RTW programs 2.5 Analyse organisational practices and qualitative data available 2.6 Document and summarise the key points of the analysis of the review of the organisation's RTW program
3. Prepare and present a continuous improvement plan for organisation	3.1 Meet with representatives of the organisation and provide an overview of the review of the RTW program 3.2 Explain the relevance and types of data, both quantitative and qualitative, that could be collected to measure the RTW program's outcomes 3.3 Explain the role of personnel and teams at all organisational levels in improving RTW program outcomes 3.4 Suggest approaches suitable for size and type of organisation for supporting workers and promoting RTW programs 3.5 Discuss issues relating to changing or improving the culture of the organisation and advocate the benefits of features of best practice RTW models
4. Develop plan to improve organisation's RTW program	4.1 Refine ideas for improving organisation's RTW program after discussions with key representatives from the organisation 4.2 Develop RTW program measures suitable for size and structure of organisation 4.3 Design a project tailored to organisation needs with measurable outcomes 4.4 Develop and document an action plan to implement the project

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
-------	-------------

Assessment Requirements for FNSPIM518 Evaluate and improve return to work programs

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- evaluate and improve return to work (RTW) programs for at least two different organisations.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features and objectives of federal, state and/or territory legislative and regulatory requirements relating to RTW programs
- benefits and challenges of implementing RTW programs in an organisation
- benefits of RTW programs for individuals and employers
- different types and features of best practice RTW models
- process for measuring health outcomes
- key features of organisational policies and procedures relating to RTW programs
- key features of project or action plans, including:
 - purpose and objectives
 - activities to be undertaken
 - timelines
 - personnel and responsibilities
 - costs
- key points of current literature and research relating to industry standard RTW models in organisations
- key RTW barriers for individuals and employers
- monitoring mechanisms for RTW programs
- strategies to gain stakeholder feedback and evaluate RTW programs for continuous improvement

- role of perception and attitudes towards injury or illness and how it impacts on an individual's RTW program
- types of data collected by health outcome measurement tools
- quantitative and qualitative data and ways to interpret.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPIM521 Develop return to work or injury management strategies

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to develop a return to work (RTW) or injury management strategy for recipients of personal injury benefits (clients). It includes consulting with stakeholders, identifying areas of employment suited to an injured worker, and developing, reviewing and monitoring RTW to work or injury management programs.

The unit applies to those who have developed skills and a broad knowledge base of the personal injury management sector and work independently or across multidisciplinary teams. They have responsibilities for case management and the development of customised strategies.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Personal injury management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Consult with stakeholders	1.1 Establish stakeholder working relationships in rehabilitation and RTW and health processes according to organisational policies and procedures and claim requirements 1.2 Provide information to stakeholders on status of injured person according to legislative requirements
2. Identify client needs	2.1 Determine needs of injured person according to physiological and

ELEMENT	PERFORMANCE CRITERIA
and employment options	<p>psychosocial impact of injury</p> <p>2.2 Arrange and conduct assessments, taking into consideration person's capacity and disability, according to organisational policies and procedures</p> <p>2.3 Assist in choice of employment options available to client by identifying client's work interests and transferable skills</p>
3. Develop RTW or injury management strategies	<p>3.1 Identify availability of duties and return to community options for injured person in consultation with stakeholders</p> <p>3.2 Undertake referrals with stakeholders as required to determine functional capacity evaluation and to match work requirements</p> <p>3.3 Develop objectives, goals and parameters for RTW or injury management programs in consultation with required stakeholders</p> <p>3.4 Communicate parameters and requirements of RTW or injury management of client to stakeholders according to organisational policies and procedures, and legislative and regulatory requirements</p>
4. Review and monitor RTW or injury management strategies	<p>4.1 Monitor and review RTW and health program according to organisational guidelines and legislative requirements</p> <p>4.2 Consult with injured client and stakeholders to obtain feedback on progress and achievement of RTW or injury management program</p> <p>4.3 Arrange modifications to RTW or injury management programs and additional services to address issues and deficiencies identified through consultation process</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Oral communication	<ul style="list-style-type: none"> • Participates in verbal exchanges using language, tone and pace appropriate to the audience and purpose • Uses active listening and questioning skills and collaborative techniques to elicit and convey information and to facilitate resolutions
Reading	<ul style="list-style-type: none"> • Analyses complex textual information from a range of sources and records and consolidates related information
Writing	<ul style="list-style-type: none"> • Uses appropriate language, concepts and terminology to prepare and present materials for a range of audiences and purposes • Develops material to a specific audience using clear language to

SKILL	DESCRIPTION
	convey accurate and customised information
Initiative and enterprise	<ul style="list-style-type: none"> • Ensures currency of knowledge relating to legislative and regulatory requirements and policies applicable to the implementation of RTW and health plans • Selects, implements and seeks to improve protocols governing communications with stakeholders in a range of work contexts • Identifies opportunities to develop and apply new ideas
Planning and organising	<ul style="list-style-type: none"> • Identifies and responds to legislative and regulatory requirements, policies and procedures and meets expectations associated with own role
Problem solving	<ul style="list-style-type: none"> • Establishes and nurtures relationships to achieve mutually agreeable outcomes
Self-management	<ul style="list-style-type: none"> • Plans, sequences and implements tasks and appropriate resources to meet requirements • Identifies ideas in use and considers how they might be adapted for own context
Technology	<ul style="list-style-type: none"> • Uses digitally based technologies and systems to assist in achieving required outcomes

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop return to work (RTW) or injury management strategies for at least three different clients.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features and objectives of organisational policies and procedures, industry codes of practice and legislative and regulatory requirements relating to developing, reviewing and monitoring rehabilitation and RTW and health programs, including:
 - liability requirements of employers
 - client functional capacity evaluations and methods of skills matching to work requirements
 - internal and external referrals process
 - evaluation and monitoring procedures for rehabilitation, RTW and health strategies
- key physiology and psychosocial barriers impacting on RTW or injury management programs
- roles and functions of stakeholder groups available to support the development of RTW and health programs
- common issues and deficiencies in RTW or injury management programs and management methods
- types of work duties and return to community options for injured persons.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- clients
- office equipment, technology and software
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPIM522 Facilitate workplace assessment with stakeholders for personal injury cases

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to facilitate workplace assessments with stakeholders for personal injury cases. It encompasses conducting a job analysis and recommending workplace modifications and job redesign with stakeholders

The unit applies to those who work in the personal injury management sector and provide specialised knowledge, work in multi-disciplinary teams and apply organisational and analytical skills to plan and customise activities.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Personal injury management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess workplace and client status	1.1 Identify and explain workplace assessment objectives according to organisational policies and procedures, industry principles and feedback from stakeholders 1.2 Identify workplace duties and requirements in consultation with stakeholders 1.3 Review rehabilitation and injured client's status reports to determine injured person's capacity to perform tasks 1.4 Refer recommendations identified in workplace assessment to

ELEMENT	PERFORMANCE CRITERIA
	specialist stakeholders for further clarification and advice
2. Participate and assist in job analysis	2.1 Secure technical and clinical expertise to undertake job analysis with employer and injured client’s workplace 2.2 Apply knowledge of safe work practices to job analysis 2.3 Provide feedback to employer and organisation on appropriateness of work site
3. Recommend workplace modifications	3.1 Identify and secure resources required to make modifications to workplace environments 3.2 Develop short and long-term strategies in consultation with required stakeholders and identify tasks which will assist injured person to return to work (RTW) 3.3 Determine costing and funding sources for workplace modification requirements using organisational policies and procedures and industry-standard tools and techniques 3.4 Facilitate training and educational services on use of adaptive equipment and workplace modifications 3.5 Incorporate recommendation resulting from workplace assessment into workplace assessment reports
4. Facilitate job redesign	4.1 Determine circumstances in which job redesign may be used 4.2 Consult with stakeholders and employers to determine willingness and ability to accommodate injured person’s limitations and abilities according to organisational policies and procedures 4.3 Obtain stakeholder feedback on the injured person’s abilities and ability to perform required job 4.4 Obtain stakeholder feedback on job tasks and elements which are outside injured person’s capabilities 4.5 Redesign job according to safe work practices and recommend job redesign according to organisational policies and procedures, and legislative and regulatory requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs calculations of financial data and sequences and schedules information to achieve required outcomes

SKILL	DESCRIPTION
Oral communication	<ul style="list-style-type: none"> • Participates in verbal exchanges using language, tone and pace appropriate to the audience and purpose • Uses active listening and questioning skills and collaborative techniques to elicit and convey information and to facilitate resolutions • Selects and uses appropriate conventions and protocols when communicating with internal and external stakeholders
Reading	<ul style="list-style-type: none"> • Researches and analyses complex textual information from a range of sources and records and consolidates related information
Writing	<ul style="list-style-type: none"> • Prepares and presents materials for different audiences and purposes using applicable language, concepts and terminology • Develops material to a specific audience using clear language to convey accurate and customised information
Self-management	<ul style="list-style-type: none"> • Takes responsibility for following policies, procedures and legislative and regulatory requirements of own role
Planning and organising	<ul style="list-style-type: none"> • Accepts responsibility for planning, organising and sequencing complex tasks and workload • Ensures currency of knowledge related to safe work practices, and legislative and regulatory requirements and policies applicable to workplace assessment, workplace modification and job redesign
Problem solving	<ul style="list-style-type: none"> • Applies systematic and analytical decision-making processes to select appropriate options in complex and non-routine situations • Identifies and anticipates a range of problems, actively looking for early warning signs and implementing contingency plans when appropriate
Teamwork	<ul style="list-style-type: none"> • Facilitates resolution and achieves best possible outcomes using collaborative techniques
Technology	<ul style="list-style-type: none"> • Locates required information using digital technologies

Unit Mapping Information

Supersedes and is equivalent to FNSPIM502 Facilitate workplace assessment with stakeholder for personal injury cases.

Assessment Requirements for FNSPIM522 Facilitate workplace assessment with stakeholders for personal injury cases

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- facilitate workplace assessment with stakeholders for personal injury cases for at least three different clients.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features of legislative requirements as they relate to developing and implementing recommendations and monitoring workplace assessment results
- key industry principles relating to facilitating workplace assessment
- job analysis and redesign as it applies to workplace assessment for personal injury cases
- key features of organisational policies and procedures as they relate to the development, implementation and monitoring of workplace assessments and recommendations
- rehabilitation status reports
- resources used to modify workplace environments as a result of personal injury cases
- roles and functions of stakeholder groups available to support the evaluation process required to conduct injured persons' workplace assessments
- work health and safety (WHS) practices
- short and long-term workplace tasks and return to work (RTW) strategies for personal injury cases
- training and educational services relating to the adaptation of injured persons to workplace and equipment modifications.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- clients
- office equipment, technology, software and consumables
- organisational records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPIM531 Facilitate the setting and achievement of goals in personal injury management

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to facilitate the setting and achievement of client goals. It encompasses working closely with clients to identify their current and future support requirements in order to make progress with their goals and aspirations and enable a good life.

The unit applies to those who work in the personal injury management sector and use specialised knowledge and apply developed communication skills and strategies to complex and sensitive situations. They work independently and collaboratively in teams and make considered decisions using organisational policies, procedures and tools.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Personal injury management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for client meeting	1.1 Obtain and analyse client information to inform the initial goal setting and planning meeting with the client 1.2 Use organisational policies and procedures as a guide to the assessment of the client information and their needs 1.3 Evaluate client support requirements and determine appropriate setting for the planning meeting

ELEMENT	PERFORMANCE CRITERIA
	1.4 Prepare client for meeting and arrange meeting according to organisational procedures
2. Conduct goal setting and planning conversation	2.1 Explain the purpose and desired outcomes of goal setting and planning meeting using approaches for working with clients 2.2 Assist client to identify their goals, aspirations, current life circumstances and desired supports 2.3 Provide information and assistance as required during meeting 2.4 Document agreed outcome-focused goals and supports in a tailored format for the client
3. Prepare and finalise client plan	3.1 Review available information to identify level and type of supports required by client 3.2 Determine if a specialist needs assessment is required and make request according to organisational policies and procedures 3.3 Explore options for implementing and managing the plan according to client choice and control principles 3.4 Assess actual and potential risks and safeguards relating to the plan in consultation with the client 3.5 Determine and obtain client agreement on a plan that outlines support, funds and management arrangements 3.6 Document rationale for plan and confirm sufficient evidence is provided according to organisational policies and procedures 3.7 Communicate final approved plan and rationale for decisions to client using appropriate language, terms and modes of communication
4. Follow review and appeal procedures	4.1 Examine requests for a review of decisions according to clients' rights 4.2 Assist clients with information about review and appeal processes as required 4.3 Make changes to the original decision as required according to delegated authority and organisational procedures
5. Monitor and review client plan	5.1 Monitor plan implementation according to organisational policies and procedures 5.2 Review plan in conjunction with client by specified review date or as requested by client 5.3 Revise or create a new plan if required in conjunction with client according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets and uses data, including financial information related to work activities
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using appropriate language and communication aids if required Conveys information and confirms understanding using active listening and questioning skills applicable to the audience
Reading	<ul style="list-style-type: none"> Identifies and comprehends complex information to develop comprehensive knowledge and determine requirements
Writing	<ul style="list-style-type: none"> Completes documentation accurately following organisational procedures
Planning and organising	<ul style="list-style-type: none"> Identifies and follows legislative and regulatory requirements, and organisational policies and procedures and meets expectations associated with own role
Self-management	<ul style="list-style-type: none"> Organises work according to defined requirements sequencing tasks to achieve efficient outcomes Takes responsibility for decisions made using organisational frameworks and criteria
Teamwork	<ul style="list-style-type: none"> Builds effective communication and rapport using person centred and strength-based communication strategies
Technology	<ul style="list-style-type: none"> Completes work tasks using the main features and functions of digital tools

Unit Mapping Information

Supersedes and is equivalent to FNSPIM511 Facilitate the setting and achievement of goals.

Assessment Requirements for FNSPIM531 Facilitate the setting and achievement of goals in personal injury management

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- facilitate the setting and achievement of goals in personal injury management for at least three different clients.

In the course of the above, the candidate must:

- access, source and maintain current information relating to legislative and regulatory requirements and organisational procedures
- apply the underpinning principles of legislative and regulatory requirements, and organisational policies and procedures in working with clients and other stakeholders.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key principles that underpin legislative and regulatory requirements, and organisational policies and procedures in relation to client goal planning, assessment and review processes
- allocated funding for plan implementation
- approaches used in setting goals and measuring outcomes
- guidelines and principles relating to privacy, confidentiality and consent
- principles of client choice and control and their application to setting and achieving goals
- strategies for tailoring relationship-based approaches when working with clients
- strategies for communicating with clients
- application of a strength-based approach when determining goals and aspirations
- circumstances and procedures relating to review and appeal, including internal and external processes

- role of delegate or representative and client in developing statements of goals and aspirations
- types and levels of safeguards and strategies that can be implemented to reduce or manage a client's potential exposure to harm
- types of supports that could be provided by:
 - support network
 - family
 - community
 - mainstream
 - internal services
 - specialists
- ways in which risks, safeguards and rationale can be discussed with clients.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- clients
- office equipment, technology, software and consumables
- organisational tools, records, policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSPRM604 Prepare, supervise and monitor application of practice guidelines

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- implement organisational guidelines in a practice or business unit, providing professional services by establishing and documenting:
 - scope of service delivery and compliance requirements
 - administrative procedures, including information flow requirements to support delivery of client service
 - key positions, personnel, job descriptions and authorities within an organisation
- communicate key operational information to staff and clients
- implement and monitor operational guidelines and procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the financial practice administrative processes and systems
- identify and describe factors which may affect practice and client service performance
- discuss the integrity of information sourced from a wide range of available information sources
- outline strategies to attain information not readily available within a practice
- outline and evaluate the key features of:
 - financial practice documentation systems, including registry and library processes
 - financial products, and their characteristics and risk profile
 - human resource procedures
 - business development, marketing and advertising processes for the purposes of monitoring outcomes of the practice

- compare and contrast project management processes and techniques
- describe the compliance issues and standards that the practice needs to adhere to, including:
 - relevant legislation and regulations
 - codes of practice and ethical requirements
- outline the key features of office information technology systems and software relevant to the practice
- describe client rights, performance standards and complaint procedures required to be made known to the client and adhered to by the practice.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the practice management field of work and include access to:

- office equipment, technology, software and consumables
- relevant legislation, regulations and codes of practice.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSPRM611 Monitor and review organisational system compliance with legislation and regulations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to monitor and review systems to ensure that an organisation or business unit complies with legislative and regulatory requirements, and meets standards defined in professional codes of practice.

The unit applies to those who use specialised knowledge, systematic approaches and analytical skills to ensure that financial compliance and quality standards are met.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Practice management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish and document procedures for compliance	1.1 Identify legislation, regulations and codes of practice to be complied with in provision of services by the organisation 1.2 Identify compliance procedures to be established 1.3 Identify and consult key stakeholders regarding issues and proposed procedures and guidelines 1.4 Incorporate compliance issues and procedures into organisational guidelines and document appropriately 1.5 Identify and document sources of information and advice on legislative and regulatory requirements

ELEMENT	PERFORMANCE CRITERIA
	<p>1.6 Establish procedures for confirming currency of information within organisation</p> <p>1.7 Establish and incorporate into workplace guidelines, ethical procedures and standards for interpreting legislation, regulations and codes of practice</p> <p>1.8 Establish procedures for monitoring compliance with legislation, regulations and codes of practice within organisation and for outsourced third-party providers</p> <p>1.9 Document established procedures according to organisational policies and procedures</p>
<p>2. Identify risk management procedures for compliance</p>	<p>2.1 Establish and document structured and systematic risk management process which takes into account organisational obligations under relevant legislation and regulations</p> <p>2.2 Identify and document risks of non-compliance</p> <p>2.3 Establish, document and communicate measures to support compliance and steps to be taken in the event of breaches of obligations</p> <p>2.4 Ensure compliance measures are consistent with state and federal regulations for licensees and authorised representatives</p>
<p>3. Identify and establish appropriate resources for ensuring the practice can meet its compliance requirements</p>	<p>3.1 Identify appropriate levels of financial, technological and human resources to meet organisation's legislative and regulatory requirements</p> <p>3.2 Implement training and assessment procedures to ensure employees have skills needed to comply with legislative and regulatory requirements</p> <p>3.3 Establish clear decision-making procedures on legislative and regulatory issues</p> <p>3.4 Establish and maintain information technology systems and other technological resources of the organisation necessary to enable compliance with legislative and regulatory requirements</p> <p>3.5 Ensure budgets, requisition procedures and other internal financial systems clearly identify support for legislative and regulatory functions</p> <p>3.6 Document and maintain required information according to organisational policies and procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets, compares and consolidates numerical and financial information to determine requirements
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges, using active listening and questioning techniques to elicit information and confirm understanding Provides instructions and presents information structuring tone, pace and content in line with audience and purpose
Reading	<ul style="list-style-type: none"> Researches and analyses key features of detailed and complex textual information from a range of sources to identify specific criteria and determine required actions
Writing	<ul style="list-style-type: none"> Uses clear and concise language, correct spelling and grammar and appropriate terminology to convey information appropriate to audience and purpose
Initiative and enterprise	<ul style="list-style-type: none"> Develops and implements strategies that ensure organisational policies, procedures and regulatory requirements are being met
Planning and organising	<ul style="list-style-type: none"> Gathers and analyses data and seeks feedback to improve plans and processes
Problem solving	<ul style="list-style-type: none"> Plans strategic priorities and outcomes within a flexible, efficient and effective context in a diverse environment exposed to competing demands
Self-management	<ul style="list-style-type: none"> Takes a lead role in the development of organisational goals, roles and responsibilities Monitors and reviews organisational policies, procedures and adherence to legislative requirements to implement and manage change
Teamwork	<ul style="list-style-type: none"> Uses a variety of relevant communication tools and strategies in building and maintaining effective working relationships Influences and fosters a collaborative culture, facilitating a sense of commitment and workplace cohesion
Technology	<ul style="list-style-type: none"> Uses digital technologies to manage business operations and actively investigates new technologies for strategic and operational purposes

Assessment Requirements for FNSPRM611 Monitor and review organisational system compliance with legislation and regulations

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- monitor the compliance of at least one practice system with legislation and regulations in at least three of the following practice areas:
 - aged care
 - direct investments
 - estate planning
 - life insurance
 - managed investments
 - retirement planning
 - social securities
 - superannuation
 - taxation.

In the course of the above, the candidate must:

- develop strategies to obtain a wide range of applicable information and assess its accuracy and relevance
- assess risks and benefits associated with using legislation and regulation databases and systems against practice requirements to make recommendations
- develop and document compliance and risk management procedures
- apply cost-benefit analyses to confirm development of systems and procedures
- develop procedures and processes for monitoring ethical operations of the practice and of outsourced third-party providers.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements and codes of practice, including available information sources and legal resources applicable to compliance
- organisational policies and procedures relating to system compliance
- decision-making procedures relating to:
 - identifying employees with licences
 - authorised representatives
 - directors
 - other staff with legislative and regulatory responsibilities
- key features of different documentation systems, including registry and library processes
- key features of:
 - financial practice administrative processes and systems
 - human resources procedures and training options
 - organisational information technology systems and software
 - budgets
 - requisition procedures
- key processes and products of financial professional services
- key features of cost-benefit analysis
- professional development options for financial personnel
- risk management techniques and tools.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- relevant legislation, regulations and codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPRM612 Improve business of financial practices

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to analyse, develop and implement plans to improve the business of a financial practice. It requires the application of diagnosis and benchmarking skills to provide strategies for general business improvement.

The unit applies to individuals who use specialised knowledge, systematic approaches and analytical skills to provide guidance in strategic organisational activity and continuous improvement.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Practice management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Diagnose business	1.1 Determine and source data required for diagnosis 1.2 Undertake SWOT analysis and determine competitive advantage 1.3 Identify business priorities, objectives, needs and requirements
2. Benchmark business	2.1 Identify and source required benchmarking data 2.2 Select key indicators for benchmarking in consultation with required stakeholders 2.3 Compare similar indicators of own practice with benchmark indicators and identify areas for improvement

ELEMENT	PERFORMANCE CRITERIA
3. Develop plans to improve business performance	3.1 Develop and agree on criteria for improvement with relevant stakeholders 3.2 Develop list of required improvements and determine cost–benefit ratios 3.3 Determine workflow changes resulting from proposed improvements and rank according to agreed criteria 3.4 Develop and agree on action plan to implement top ranked improvements 3.5 Check organisational structures against criteria
4. Develop implementation plan and monitor implementation	4.1 Develop implementation plan in consultation with relevant stakeholders and agree on indicators of success of plan 4.2 Monitor implementation against agreed indicators and adjust as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets, compares and consolidates numerical and financial information, including the manipulation of data for modelling and benchmarking activities
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to elicit information and confirm understanding Provides instructions and presents information structuring tone, pace and content in line with the audience and purpose
Reading	<ul style="list-style-type: none"> Researches and analyses detailed and complex textual information and numerical data from a range of sources to identify specific criteria and determine actions required

Assessment Requirements for FNSPRM612 Improve business of financial practices

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- improve the business of at least three different financial practices.

In the course of the above, the candidate must:

- develop and document plans to improve practice performance that:
 - use a wide range of available information sources
 - determine areas of improvement for practice based on analysis of data
- negotiate required improvements to confirm implementation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- analysis techniques for improving business, including the Strengths, Weaknesses, Opportunities and Weaknesses (SWOT) technique
- different methods and sources relating to acquisition of required business and benchmarking data
- methods to analyse business and financial data, including techniques to manipulate data for modelling and benchmarking activities
- features of current financial practice systems and structures
- key indicators of business performance for practice
- process for selecting key benchmarking indicators
- techniques for interpreting benchmarking and business strategy information
- documentation requirements for implementation and business plans.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables.
- required legislation, regulations and codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSPRM613 Grow financial practices

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to promote and grow a financial practice. It requires the application of marketing skills and the use of market intelligence to develop and implement practice promotion and growth plans.

The unit applies to experienced individuals who use specialised knowledge and systematic approaches and, within their level of authority, provide guidance in strategic organisational activity.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Practice management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Develop financial practice marketing plan	1.1 Identify business objectives and needs 1.2 Develop, review and finalise draft vision statement 1.3 Conduct research and identify target markets 1.4 Obtain market research data and develop competitor analysis 1.5 Develop and review practice market position based on research findings and analysis
2. Develop practice promotion plans	2.1 Develop practice brand and benefits of practice 2.2 Identify practice products and services

ELEMENT	PERFORMANCE CRITERIA
	2.3 Develop and select promotion tools
3. Develop practice growth plans	3.1 Develop plans to add new clients and increase yield per existing client 3.2 Segment client base and tailor promotion plan for each segment 3.3 Rank proposed plans according to vision statement, needs and objectives 3.4 Develop action plan for implementation 3.5 Review practice work activities and confirm they support business growth plans
4. Develop implementation plan and supervise implementation	4.1 Develop implementation plan in consultation with relevant stakeholders 4.2 Determine indicators of success of plan 4.3 Monitor implementation against agreed indicators and adjust implementation as required

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets, compares and consolidates numerical and financial information to determine requirements, including the manipulation of data for modelling, ranking and benchmarking
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to elicit information and confirm understanding Presents information structuring tone, pace and content in line with the audience and purpose
Reading	<ul style="list-style-type: none"> Critically analyses documentation from a variety of sources, and records and consolidates information to determine requirements
Writing	<ul style="list-style-type: none"> Prepares reports and plans using appropriate formats, and organises information and data logically and sequentially Uses clear and concise language, correct spelling and grammar and appropriate terminology to convey information appropriate to the audience and purpose
Initiative and enterprise	<ul style="list-style-type: none"> Takes a lead role in the development of organisational goals, roles and responsibilities Works autonomously, making high level decisions to achieve

SKILL	DESCRIPTION
	<p>and improve organisational goals</p> <ul style="list-style-type: none"> • Monitors and reviews organisational policies, procedures and goals to implement and manage change • Develops and implements strategies that ensure organisational policies and procedures, and regulatory requirements are met • Explores and incubates new and innovative ideas through unconstrained analysis and critical thinking to develop and improve organisational goals
Planning and organising	<ul style="list-style-type: none"> • Plans strategic priorities and outcomes within a flexible, efficient and effective context in a diverse environment
Problem solving	<ul style="list-style-type: none"> • Addresses complex problems involving multiple variables, using formal analytical and lateral thinking techniques, experience and knowledge to generate solutions
Teamwork	<ul style="list-style-type: none"> • Develops and implements communications strategies with internal and external persons to build rapport and negotiate agreeable outcomes • Influences and fosters a collaborative culture, facilitating a sense of commitment and workplace cohesion
Technology	<ul style="list-style-type: none"> • Uses digital technologies to access, enter and store information

Assessment Requirements for FNSPRM613 Grow financial practices

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop at least two promotional plans and two growth plans to grow financial practices.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- organisational policies and procedures relevant to growing a financial practice
- business research techniques, including competitor analysis
- features and purposes of business development, marketing and promotional, and growth plans
- key features of financial industry products and marketing mix
- key features of required marketing principles for professional practices
- key metrics to measure successful growth of the business
- methods to source and analyse required financial organisational data
- promotional tools that can be used to build clients and business.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- common office equipment, technology, software and consumables
- organisational policies and procedures documentation.
- legislative and regulatory requirements and codes of practice relating to growing financial practices.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSPRT301 Establish entitlements to an intestate estate

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- conduct a search for a will complying with legislative, industry and organisational requirements
- document external specialists and resources contacted or used to establish entitlements to an intestate estate
- determine beneficiaries and their entitlements in accordance with legislative, industry and organisational requirements
- develop an application for letters of administration.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- summarise key requirements of relevant state and territory legislation and regulations relating to:
 - administration and probate
 - intestate succession
 - other related legislation
- outline the roles, responsibilities and powers of the personal trust officer including:
 - organisational expectations
 - limitation of personal authority
- discuss the professional code of conduct in the personal trustee sector including:
 - ethics
 - integrity
 - professionalism

- confidentiality
- summarise techniques for liaising with key organisational personnel with expertise in specialised areas relating to the personal trustee sector
- outline relevant organisational policy and procedures in regards to establishing entitlements to an intestate estate.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the personal trustee field of work and include access to:

- common office equipment, technology, software and consumables
- the internet for searches.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSPRT503 Assess, allocate and supervise work within the personal trustee sector

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to manage and supervise a team responsible for preparing and administering wills, estates, trusts, attorneyships, financial administration orders and other work relevant to the personal trustee sector.

It applies to individuals working as senior personal trust officers who are proficient administrators and who have highly-developed interpersonal, managerial and communication skills.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Personal trustee

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess file and work required	1.1 Assess client file to determine client requirements, to allocate to appropriate team member and external adviser(s) where required 1.2 Recognise and manage risk management and insurance planning issues, and taxation and retirement planning requirements when required

ELEMENT	PERFORMANCE CRITERIA
	1.3 Identify and analyse more complex issues within client file 1.4 Identify and explain appropriate process for handling each complex issue to client, or refer to appropriate external adviser as required
2. Allocate files	2.1 Allocate and coordinate file with appropriate team member, and external adviser(s) where required, based on organisational criteria and standards 2.2 Allocate files equitably and with due regard for level of competency and experience of team member and external adviser(s) 2.3 Authorise actions to be undertaken by team member and external adviser(s)
3. Monitor work progress	3.1 Review and check progress of work according to legislative requirements for legal implications and complications 3.2 Ensure team members adhere to terms stipulated in client file, and evaluate quality of prepared legal documents and rulings made about doubtful clauses
4. Supervise progress	4.1 Regularly review file management progress with team member and external adviser to ensure responsibilities are undertaken in timely and professional manner consistent with organisational policy and procedures 4.2 Provide prompt advice, information and support to team member and external adviser(s) when required 4.3 Closely monitor problem files and manage any disputes and complications in timely and professional manner, and according to ethical guidelines

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 3.1, 3.2, 4.1, 4.4, 5.1	<ul style="list-style-type: none"> Analyses and consolidates information and data from a range of sources, against defined criteria and requirements, and checks for accuracy and completeness

Writing	1.4, 3.1, 4.2, 4.3	<ul style="list-style-type: none"> Accurately records information and prepares correspondence and documentation using clear language and organisational formats and protocols
Oral Communication	4.1-4.4, 5.2	<ul style="list-style-type: none"> Uses active listening and questioning, and reading of paralinguistic signals, to clarify information and to confirm understanding Clearly explains detailed information using language, tone and pace appropriate to individual team members
Numeracy	1.1, 5.3	<ul style="list-style-type: none"> Uses highly-developed numerical skills to interpret complex financial information, including tax and insurance requirements
Navigate the world of work	2.1, 3.1, 3.2, 4.4, 5.3	<ul style="list-style-type: none"> Works independently or with others in making decisions to achieve organisational outcomes Contributes to roles and responsibilities of self and others Takes full responsibility for following policies, procedures and legislative requirements, and identifies organisational implications of new legislation or regulation
Interact with others	1.3, 1.4, 2.1, 2.2, 4.2-4.4, 5.2	<ul style="list-style-type: none"> Selects, implements and seeks to improve protocols governing communications with clients and co-workers in a range of work contexts Collaborates with others, sharing information to build strong work groups and avoid behaviours that are not conducive to a productive environment Elicits feedback and provides feedback to others to improve self or workgroup behaviours Manages conflict in the workplace through the recognition of contributing factors and by implementing strategies to resolve conflict
Get the work done	1.1-1.3, 2.1-2.3, 3.1, 3.2, 4.1, 4.4, 5.2, 5.3	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload Organises and schedules work activities of others, taking into account capabilities, efficiencies and effectiveness Monitors progress of plans and schedules, and reviews and changes them to meet new demands and priorities Applies systematic and analytical decision-making processes for complex and non-routine situations Investigates new and innovative ideas as a means to continuously improve work practices and processes through consultation and formal analytical thinking Uses digital systems and technologies to enter, store or access information

FNSRSK411 Apply risk management strategies to own work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to apply an organisation's risk management strategies to own work and use risk mitigation and elimination techniques and tools to manage risk. It includes reporting risk management or compliance breaches or concerns.

It applies to individuals who use specialised knowledge, follow organisational policy and strategies and use discretion within limits of own job role to manage risk.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Risk management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and confirm risk management strategies	1.1 Research organisational, legislative and regulatory requirements and standards for risk management as indicated by regulators applicable to own job role 1.2 Access and interpret organisational strategy, policy and procedures for risk management 1.3 Clarify and confirm own risk management accountabilities and responsibility with key stakeholders as required
2. Apply risk management strategies	2.1 Determine appropriate organisational strategies and tools for controlling risks in own job role 2.2 Determine appropriate tools and strategies for controlling risk

ELEMENT	PERFORMANCE CRITERIA
	<p>where own job role intersects with work of others</p> <p>2.3 Choose and apply tools and strategies to own area of operation and responsibility</p>
3. Report risk management breaches or concerns	<p>3.1 Identify and record evidence of a breach or concern</p> <p>3.2 Determine organisational procedure to follow in event of breach or concern</p> <p>3.3 Report breach or concern as indicated by organisational procedure</p> <p>3.4 Record notification of breach or concern according to organisational procedure</p>
4. Review and propose improvements to risk management strategies	<p>4.1 Establish regular processes to monitor, audit and review application of risk management strategies to own work practice</p> <p>4.2 Identify opportunities for improvements in risk management strategies and recommend to appropriate stakeholders according to organisational procedure</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Oral communication	<ul style="list-style-type: none"> Articulates clearly using vocabulary suitable to audience to convey or request information Uses listening and questioning techniques to confirm understanding
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Prepares documentation and correspondence using clear language, correct spelling and terminology
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when communicating with diverse stakeholders in a range of work contexts
Initiative and enterprise	<ul style="list-style-type: none"> Contributes to continuous improvement of current work practices by applying principles of analytical and lateral thinking
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcomes
Problem solving	<ul style="list-style-type: none"> Uses analytical thinking techniques to identify issues and generate

	possible solutions, seeking input from others when necessary
Self-management	<ul style="list-style-type: none">• Develops, maintains and applies knowledge of policies, procedures, legislation and regulations relevant to current role• Takes personal responsibility for following explicit and implicit policies, procedures and legislative requirements

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSRSK401 Implement risk management strategies.

Assessment Requirements for FNSRSK411 Apply risk management strategies to own work

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- implement at least three controls relevant to own area of operation and responsibilities to comply with organisational risk management strategies
- report at least two risk management breaches or concerns of differing severity according to organisational policy and procedures.

In the course of the above, the candidate must:

- establish processes to monitor, audit and review application of risk management strategies.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key principles of risk management
- the key features and purpose of key standards for risk management as indicated by regulators
- methods for accessing and interpreting organisational strategy, policy and procedures
- methods for identifying and treating organisational risks, and risks within the candidate's own area of operation and responsibility
- key risk management strategies, controls, treatments and practices relevant to own area of operation and responsibility
- methods for identifying and applying controls for cross-organisation risk
- methods for identifying, recording evidence and reporting risk management or compliance breaches or concerns
- industry whistle-blower protections for challenging and reporting risk management or compliance breaches or concerns

- techniques for auditing and reviewing risk strategy implementation
- organisational tools, strategies, policy, and procedures relating to risk management and compliance
- key financial services legislation and regulation required to produce the performance evidence.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- legislation, regulations and codes of practice required to produce the performance evidence
- standards for risk management as indicated by regulators.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

In the course of the above, the candidate must identify and assess controls.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- internal and external stakeholders relevant to risk
- the key features and purpose of standards for risk management as indicated by regulators
- methods of identifying and assessing risks
- functions of risk clusters
- key principles and practices of risk management
- types and key principles of risk controls
- risk mitigation strategies
- methods for prioritising risks
- internal and external stakeholder environment and boundaries.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- legislation, regulations and codes of practice applicable to risk management

- standards for risk management as indicated by regulators.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSRSK512 Assess risks

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to assess the exposure to identified risks in the organisation by evaluating the likelihood of risks occurring and their consequences.

It applies to individuals who use specialised knowledge to develop systematic approaches to problem solve and make recommendations within the organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Risk management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify risks and develop risk evaluation criteria	1.1 Identify risks in organisational processes and procedures following standards for risk management as indicated by regulators 1.2 Identify implications of risk factors to organisation and create evaluation criteria
2. Assess current risk exposure	2.1 Apply applicable risk assessment tools, establish probability and assess potential consequence of risk in an organisation 2.2 Conduct spot checks and determine quality of data 2.3 Identify mitigating effect of existing controls and use evaluation criteria to assess exposure to risk 2.4 Compare risk exposure levels against risk appetites of organisation, and identify and report unacceptable residual risks

ELEMENT	PERFORMANCE CRITERIA
	2.5 Review and critically analyse risk appetite monitoring process and document findings
3. Prepare probability assessment	3.1 Analyse issues related to risk using measurement criteria 3.2 Identify issues arising from measurement assessment and determine the risk probability 3.3 Rank and summarise threats and risk issues as a risk map 3.4 Provide risk map to appropriate stakeholders
4. Review and report breached issues and incidents	4.1 Report issues and incidents on risk profile to business according to organisational policies and procedures 4.2 Determine reporting requirements of issues and incidents to regulators

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to analyse data and statistics, and to interpret trends
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to convey information and elicit the views and opinions of internal and external personnel Clearly explains detailed information using concepts, language, tone and pace specific to the audience
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Uses a range of formats and structures to report and present information logically Develops material for a specific audience using clear and detailed language to convey information and recommendations
Teamwork	<ul style="list-style-type: none"> Implements strategies for a diverse range of colleagues and clients to build rapport and foster strong relationships
Initiative and enterprise	<ul style="list-style-type: none"> Applies systematic and analytical decision-making processes for complex and non-routine situations Investigates new and innovative ideas as a means to continuously improve work practices, identify issues and generate possible solutions through consultation, and analytical thinking Prepares for and facilitates discussion and information to ensure

	productive and diligent risk awareness
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others
Self-management	<ul style="list-style-type: none"> Identifies and resolves key business issues, processes and practices that may have legal or organisational implications Modifies and develops organisational policy and procedures to comply with legislative requirements and organisational goals
Technology	<ul style="list-style-type: none"> Uses digital systems and technologies to enter, store or access information Adopts new and emerging technologies to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSRSK502 Assess risks.

Assessment Requirements for FNSRSK512 Assess risks

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- conduct a risk assessment of at least two risks for an organisation.

In the course of the above the candidate must communicate and consult with appropriate external and internal stakeholders.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features and purpose of standards for risk management as indicated by regulators
- systematic issues, trends and emerging risks
- risk management principles, practices and terminology
- organisational policy, procedures and operational guidelines relating to risk assessment
- key features of evaluation criteria including risk exposure and tolerance levels
- methods for developing measurement criteria
- residual risk levels for the industry
- risk appetite levels for the industry
- incident assessment and analysis including:
 - root cause analysis
 - remediation plans
- methods for prioritising risks, including preparing risk maps and conducting risk analysis
- risk consequences for the organisation
- methods for mapping threat summaries and ranking risk issues
- roles of internal and external stakeholders in risk management.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- legislation, regulations and codes of practice required to produce the performance evidence
- standards for risk management as indicated by regulators.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSRSK611 Develop and implement risk mitigation plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to develop and implement a plan or strategy for treatment of risks in an organisation. It involves applying knowledge of different risk treatment methods.

It applies to individuals with specialised knowledge who use analytical skills and systematic approaches to manage and implement organisational strategies that mitigate risk within their area of responsibility.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the relevant regulator for specific guidance on requirements.

Unit Sector

Risk management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Research and select risk treatments	1.1 Identify and assess residual risks according to risk appetite 1.2 Determine material risks outside of appetite and assess acceptance according to organisation's risk acceptance processes 1.3 Identify risk mitigation and treatment options for each risk according to standards for risk management as indicated by regulators 1.4 Quantify implementation time, costs and benefits for each treatment option 1.5 Select risk treatments according to organisational priorities, policy and procedures

ELEMENT	PERFORMANCE CRITERIA
2. Develop risk mitigation plan	2.1 Review treatment priorities and adequacy of existing controls, and establish need for additional or alternative controls 2.2 Identify, document and allocate actions 2.3 Establish budget, timeframes and reporting schedules
3. Implement risk mitigation plan	3.1 Organise personnel and resources to carry out actions 3.2 Determine indicators of progress and success 3.3 Establish monitoring system to determine effectiveness of treatments
4. Review risk mitigation plan	4.1 Maintain records produced by monitoring system 4.2 Review records according to established timeframes 4.3 Liaise with appropriate stakeholders regarding mitigation plan effectiveness 4.4 Determine effectiveness of risk mitigation plan

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> • Uses numerical data in the development of plans, budgets and reports
Oral communication	<ul style="list-style-type: none"> • Participates in verbal exchanges using active listening and questioning techniques to convey information and elicit the views and opinions of internal and external personnel • Clearly explains detailed information using concepts, language, tone and pace specific to the audience
Reading	<ul style="list-style-type: none"> • Critically analyses documentation from a variety of sources and records and consolidates information to determine requirements
Writing	<ul style="list-style-type: none"> • Uses a range of formats and structures to report and present information logically • Develops material for a specific audience using clear, detailed and persuasive language to convey information and recommendations
Teamwork	<ul style="list-style-type: none"> • Uses a variety of communication tools and strategies in demonstrating the validity and importance of risk mitigation • Shares knowledge, information and experience openly as an integral part of the working relationship
Initiative and	<ul style="list-style-type: none"> • Explores and incubates new and innovative ideas through analysis and critical thinking

Skill	Description
enterprise	
Planning and organising	<ul style="list-style-type: none"> Plans strategic priorities and outcomes within a flexible and efficient context in a diverse environment exposed to competing demands
Problem solving	<ul style="list-style-type: none"> Uses formal analytical thinking techniques to identify or predict issues and generate possible solutions Explores and incubates new and innovative ideas through analysis and critical thinking
Self-management	<ul style="list-style-type: none"> Gathers, monitors and analyses data and seeks feedback to improve processes
Technology	<ul style="list-style-type: none"> Uses digital systems and technologies to enter, store or access information Adopts new and emerging technologies to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSRSK601 Develop and implement risk mitigation plan.

Assessment Requirements for FNSRSK611 Develop and implement risk mitigation plan

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop and implement one risk mitigation plan for an organisation.

In the course of the above, the candidate must communicate and consult with appropriate external and internal stakeholders at all stages of risk treatment.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- risk management principles, practices and management tools including policy and procedures
- key features and purpose of standards for risk management as indicated by regulators
- key requirements of legislation and regulation required to produce the performance evidence
- a range of possible treatment options and controls for different types of risk
- areas of applicability of treatment options in an organisation
- methods of comparing suitability of risk treatment options for particular applications
- key indicators for monitoring the success of selected risk mitigation strategies
- techniques for management of personnel and stakeholders, including key communication methods.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- legislation, regulations and codes of practice required to produce the performance evidence
- standards for risk management as indicated by regulators.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSRSK612 Determine and manage risk exposure strategies

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to analyse risk factors for financial products, determine appropriate risk exposure management strategies, communicate these strategies to relevant staff and intermediaries, and manage the risk assessment strategies. It is aimed at setting the strategy for portfolio managers, including the types of business to target.

It applies to individuals who use specialised knowledge, systematic approaches and analytical skills to provide leadership in managing strategic organisational activity in financial services organisations.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the relevant regulator for specific guidance on requirements.

Unit Sector

Risk management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine risk assessment strategies	1.1 Identify and evaluate criteria for acceptance or rejection of risks using standards for risk management as indicated by regulators 1.2 Determine organisational performance targets and capacity to assess and accept risk 1.3 Identify business risk and control risk elements of an organisation
2. Review risk and compliance factors	2.1 Identify and collate information on business and control risk elements 2.2 Investigate and review the data and information

ELEMENT	PERFORMANCE CRITERIA
	<p>2.3 Evaluate risk elements against known exposure factors and compliance where relevant with legislation, regulatory guidelines, industry sector compliance requirements and organisational policy</p> <p>2.4 Evaluate risk acceptability factors within context of organisation's mitigating capabilities and organisational requirements</p> <p>2.5 Critically analyse risk considerations in the business strategic planning process in line with appetite</p>
3. Develop risk acceptance criteria	<p>3.1 Establish terms and conditions of risk acceptance criteria to satisfactorily cover organisational needs and risks</p> <p>3.2 Document risk acceptance strategies, criteria and guidelines that meet requirements within delegated authorities</p> <p>3.3 Obtain and review feedback on risk acceptance strategies, criteria and guidelines</p> <p>3.4 Finalise risk acceptance criteria, and associated authority limitations, conditions and guidelines</p>
4. Assess operational capital management risk	<p>4.1 Develop fit for purpose capital models that meet regulatory requirements and organisational policies and procedures</p> <p>4.2 Review risk profile and calculate potential operational risk exposure</p> <p>4.3 Monitor internal and external losses and re-assess inherent risk and capital requirements</p> <p>4.4 Undertake internal and external reporting to market and regulatory bodies</p>
5. Assess impact and implement risk acceptance strategies	<p>5.1 Identify and develop procedures and guidelines that staff should follow to adhere to risk acceptance strategy</p> <p>5.2 Communicate risk assessment strategies, criteria, procedures and guidelines to relevant staff and intermediaries</p> <p>5.3 Monitor risk acceptance strategy implementation</p>
6. Review risk assessment strategies	<p>6.1 Determine effectiveness of risk acceptance strategies in meeting risk management objectives</p> <p>6.2 Document and communicate results to relevant staff</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	<ul style="list-style-type: none"> Collates, interprets and analyses financial and statistical information to determine requirements
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning techniques to convey information, obtain feedback and elicit the views and opinions of others Articulates clearly, using concepts and language specific to the audience, and adapts tone and pace to engage and present information to others
Reading	<ul style="list-style-type: none"> Critically analyses complex documentation from a variety of sources and consolidates information relating to specific criteria to determine requirements
Writing	<ul style="list-style-type: none"> Uses clear and concise language, spelling and grammar, and terminology to convey information and provide detailed instructions Prepares logically organised documents using specific formats for the audience and purpose
Teamwork	<ul style="list-style-type: none"> Uses a variety of communication tools and strategies in building and maintaining working relationships
Initiative and enterprise	<ul style="list-style-type: none"> Uses formal analytical thinking techniques to identify or predict issues and generate possible solutions Explores and incubates new and innovative ideas through unconstrained analysis and critical thinking
Planning and organising	<ul style="list-style-type: none"> Plans strategic priorities and outcomes within a diverse environment exposed to competing demands Gathers and analyses data and seeks feedback to improve plans and processes Makes high impact decisions in a complex and diverse environment, using input from a range of sources
Self-management	<ul style="list-style-type: none"> Works autonomously, making high level decisions to achieve and improve organisational goals Takes a lead role in the development of organisational goals, roles and responsibilities Monitors and reviews organisational policy, procedures and adherence to legislative requirements
Technology	<ul style="list-style-type: none"> Uses digital systems and technologies to enter, store or access information Adopts new and emerging technologies to complete work tasks

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSRSK602 Determine and manage risk exposure strategies.

Assessment Requirements for FNSRSK612 Determine and manage risk exposure strategies

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- determine and manage risk exposure strategies for at least two different types of financial products.

In the course of the above, the candidate must:

- establish processes to communicate and manage implementation
- establish processes to monitor, review and assess the effectiveness of the risk exposure strategy
- consult and communicate with appropriate stakeholders.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key features and purpose of standards for risk management as indicated by regulators
- the key features of actuarial and financial principles and processes related to risk exposure strategies
- industry hazards and risk exposures
- methods of risk assessment, prevention, and application
- key features of establishing risk acceptance criteria for low and high hazard risk areas, including meeting market conditions, and accepted levels of exposure within organisations
- key organisational products and services, and associated risks and liability loss exposures
- different forms that strategy process implementation may take in an organisation
- internal and external operational risks
- operational capital management
- types of inherent risks

- key features of industry sector legislation, organisational and regulatory guidelines, and compliance requirements required to produce the performance evidence
- organisational policy, procedures, guidelines and authorities related to risk management.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- legislation, regulations and codes of practice required to produce the performance evidence
- standards for risk management as indicated by regulators.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSRTS311 Provide customer service in a retail agency

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to apply customer service skills and process financial services transactions in non-financial services organisations that act as an agency.

It applies to individuals who, within their level of responsibility, use clear communication skills to provide up-to-date and accurate information and follow procedures to process transactions.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial retail services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Represent financial services institution	1.1 Confirm role and purpose of agency in providing services on behalf of financial services institution 1.2 Obtain required documentation about products and services of financial services institution 1.3 Develop and maintain knowledge of required products and services
2. Identify and address customers' needs	2.1 Identify whether customer is dissatisfied and follow the procedures set by the organisation to address dissatisfaction if required 2.2 Respond to customer requests within limits of agency

ELEMENT	PERFORMANCE CRITERIA
	<p>authorisation</p> <p>2.3 Refer requests that require information, advice, products and services that fall outside agency level of authorisation and knowledge to applicable financial services institution</p> <p>2.4 Assist customers to complete documents and transaction forms</p>
3. Process customer transactions	<p>3.1 Verify customer identity using established security checking procedures</p> <p>3.2 Check information provided by customers for accuracy and completeness</p> <p>3.3 Refer customer queries or complaints that are outside agency's level of authorisation or knowledge to financial services institution for resolution</p> <p>3.4 Complete transactions following protocols and processes of financial services institution</p> <p>3.5 Routinely conduct reconciliation of monies received with transaction records</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Accesses information from a range of sources and interprets documents to confirm and determine requirements
Writing	<ul style="list-style-type: none"> Completes forms and transaction records, using correct spelling and grammar
Oral Communication	<ul style="list-style-type: none"> Participates in verbal exchanges using active listening and questioning to determine requirements Interacts in courteous manner when communicating with customers Clearly explains and clarifies information using language, tone and pace intended to the audience and purpose
Numeracy	<ul style="list-style-type: none"> Uses mathematical equations to undertake basic financial transaction calculations
Self-management	<ul style="list-style-type: none"> Understands the purpose of own role and associated responsibilities, and follows organisational procedures and protocols for customer service provision Makes routine decisions and implements standard procedures for routine tasks and predictable problems, recognising when

Skill	Description
	referral to higher authority is necessary <ul style="list-style-type: none">• Demonstrates resilience during and after challenging conversations and interactions with customers• Plans and sequences routine tasks and workload, seeking clarification from others as required
Technology	<ul style="list-style-type: none">• Uses familiar digital technologies and systems to access information, search and enter data, and communicate with others

Unit Mapping Information

Supersedes and is equivalent to FNSRTS301 Provide customer service in a retail agency.

Links

Companion Volume Implementation Guide is found on VETNet -

Assessment Requirements for FNSRTS311 Provide customer service in a retail agency

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- provide customer service in a retail agency context on at least four different occasions and relating to at least two different kinds of products or services.

In the course of the above, the candidate must:

- identify customer needs
- apply the required level of conflict resolution skills.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- services and products provided by the agency on behalf of the financial services institution
- the agencies role acting on behalf of the financial service institution
- customer service principles and practice
- organisational policy, procedures and protocols required to produce the performance criteria and performance evidence
- key requirements of legislation and regulation that impact the scope of advice that can be provided on financial products and services
- key steps and reasons for verifying customer identity and security checking procedures
- the agencies limits of authorisation
- individual level of authority limits
- organisations established security checking procedures.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment, technology, software and consumables
- agency transaction systems and data
- legislation and regulation required to produce the performance evidence and knowledge evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSRTS312 Execute foreign currency transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to provide customer service and execute foreign currency transactions for customers, which include buying and selling foreign currency within a retail banking environment.

It applies to individuals who, within their level of responsibility, use clear communication skills to provide current and accurate information to customers in retail banking environments regarding foreign currency transactions.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Financial retail services

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Clarify customer needs	1.1 Confirm details of customer need for foreign currency according to organisational policy and procedures 1.2 Provide information on available options for foreign currency transactions to customer
2. Provide information for proposed transaction	2.1 Access organisational systems or databases to source information required for transaction 2.2 Communicate transaction information to customer and respond to queries within scope of own authority 2.3 Follow organisational procedures and protocols if customer query extends beyond scope of own authority

ELEMENT	PERFORMANCE CRITERIA
3. Complete foreign currency transaction	3.1 Obtain required information for verifying customer identity according to organisational and regulatory policy and procedures 3.2 Obtain and confirm customer acceptance of transaction conditions 3.3 Execute transaction 3.4 Record required information in organisational systems or databases

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Accesses information from a range of sources and interprets financial documents to confirm and determine requirements
Writing	<ul style="list-style-type: none"> Records information, checking for accuracy of information and data received
Oral Communication	<ul style="list-style-type: none"> Participates in verbal exchanges, using active listening and questioning to determine requirements and respond to queries Clearly explains and clarifies information using language, tone and pace intended to the audience and purpose Interacts in courteous manner when communicating with customers
Numeracy	<ul style="list-style-type: none"> Uses mathematical equations and organisational tools to undertake basic financial transaction calculations
Self-management	<ul style="list-style-type: none"> Understands boundaries and responsibilities of role and complies with explicit policies and procedures for effective customer service in immediate work context. Takes responsibility for the sequence and priority of tasks within own workload to achieve required outcomes Makes routine decisions and implements standard procedures for routine tasks and predictable problems
Technology	<ul style="list-style-type: none"> Uses familiar digital technologies and systems to access information and enter data

Unit Mapping Information

Supersedes and is equivalent to FNSRTS302 Handle foreign currency transactions.

Links

Companion Volume Implementation Guide is found on VETNet -

Assessment Requirements for FNSRTS312 Execute foreign currency transactions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 4.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- complete at least three different foreign currency transactions, including one situation which requires escalation.

In the course of the above, the candidate must:

- conduct identification checks in line with organisational and regulatory requirements
- communicate and confirm customer acceptance of fees and conversion rates.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- industry codes of practice and legislation required to produce the performance evidence, including anti-money laundering and counter-terrorism financing
- organisational systems and data bases for storing information on foreign currency transactions
- key features of and methods to access foreign currency rates, fees and charges
- foreign currency products and types of foreign transactions
- types of fees and charges for foreign currency transactions specific to the organisation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the financial retail services field of work and include access to:

- office equipment, technology, software and consumables
- foreign exchange rates systems and/or standards.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSSAM301 Identify opportunities for cross-selling products and services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify cross-selling opportunities and sell the identified products or services to customers while providing other services.

It applies to individuals who, within their level of authority, apply specialised knowledge to make judgements and recommendations based on specific information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Sales and marketing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify opportunities for cross-selling of products and services	<p>1.1 Use range of communication and interpersonal skills to respond to enquiry, identify customer needs and establish relationship with customer</p> <p>1.2 Identify further opportunities for providing customer with additional products or services based on understanding of customer needs, and access further information about identified products and services if required</p>
2. Promote sales of	2.1 Explain benefits and features of additional products or services

ELEMENT	PERFORMANCE CRITERIA
products and services	to customer clearly and accurately 2.2 Match organisation's products or services to assessed customer needs and offer number of options 2.3 Check compliance with relevant legislation, regulations and industry codes of practice for all options developed
3. Refer sales or service to appropriate area	3.1 Prepare documentation for processing when decision has been reached on sale of product or service to be provided 3.2 Inform customer of reasons why referral to other personnel is required if this needs to occur

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 1.2, 2.1, 2.2, 2.3	<ul style="list-style-type: none"> Analyses a range of textual information from a variety of sources to identify key details, make judgements and determine requirements
Writing	1.1, 1.2, 2.1, 3.1, 3.2	<ul style="list-style-type: none"> Develops material to a specific audience using clear and detailed language to convey accurate information Records outcomes of communications using specific language, grammar and punctuation to correctly and effectively convey recommendations

Assessment Requirements for FNSSAM301 Identify opportunities for cross-selling products and services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interact with customers and identify cross-selling opportunities
- clearly explain additional products and services that may be beneficial to customers and provide options based on customer needs in line with relevant legislation, regulations and industry codes of practice
- refer customers to other appropriate sections of the organisation, as required
- complete relevant documentation following organisational procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe customer relations building techniques
- outline the key features of financial products and services offered by or through an organisation
- explain the key features of finance industry and organisational policy and procedures
- explain the organisational process and procedures for cross-selling services and products
- describe the key features of a range of products including:
 - interest rates
 - terms
 - special packages
- explain the key requirements of relevant legislation and the potential and/or actual impact on information requested or provided
- compare and contrast selling techniques.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the sales and marketing field of work and include access to:

- financial services product information
- a relevant software system and data
- organisational policy and procedures
- common office equipment, technology, software and consumables.

Assessors must satisfy NVR/AQTF assessor requirements.

FNSSAM411 Sell financial products and services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to present a sales solution and close a sale in response to a client enquiry for financial products and services.

The unit applies to those who are working within a level of authority, who apply specialised knowledge and make judgements and recommendations based on a detailed analysis of information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Sales and marketing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine financial product and service options	1.1 Identify client needs, requirements and expectations 1.2 Obtain required personal information 1.3 Identify suitable product or service according to client needs 1.4 Identify potential and actual risks and develop risk assessment criteria according to client requirements 1.5 Confirm product or service meets client requirements 1.6 Prepare quotation for presenting product or service according to legislation, regulations and codes of practice and organisational policies and procedures
2. Present options to client	2.1 Present quotation and communicate product or service information to client

ELEMENT	PERFORMANCE CRITERIA
	2.2 Confirm suitability of product or service with client and negotiate agreement to proceed with sale 2.3 Identify opportunities for cross selling products and services and promote according to organisational policies and procedures 2.4 Advise client of their rights and obligations during purchase of products and services
3. Confirm sale and process documentation	3.1 Identify and resolve client queries and concerns 3.2 Communicate follow-up arrangements 3.3 Process payment details 3.4 Issue documentation according to organisational policies and procedures 3.5 Update record systems and client details according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Oral communication	<ul style="list-style-type: none"> • Participates confidently in verbal exchanges and explains detailed information using language, tone and pace applicable to the audience and situation • Uses active listening and questioning techniques to elicit the views and opinions of others and to confirm understanding • Uses persuasive speech and negotiation skills
Reading	<ul style="list-style-type: none"> • Analyses a range of textual information from a variety of sources to identify key details and risks, and to make judgements and recommendations
Writing	<ul style="list-style-type: none"> • Develops material in required format for a specific audience using clear and detailed language to convey customised information • Records outcomes of communications using specific language, grammar and punctuation to convey recommendations
Initiative and enterprise	<ul style="list-style-type: none"> • Identifies and follows the explicit and implicit organisational protocols to meet expectations applicable to own role • Selects and applies applicable communication practices and protocols, adjusting personal communication style in response to the values, beliefs and cultural expectations of others
Problem solving	<ul style="list-style-type: none"> • Systematically gathers and analyses required information and evaluates options to address issues or make product or service

SKILL	DESCRIPTION
	recommendations
Self-management	<ul style="list-style-type: none">• Identifies the main tasks, responsibilities and boundaries of own role and where necessary refers matters to required personnel• Identifies and adheres to legal and regulatory rights and responsibilities in undertaking tasks• Applies ethical and professional practice requirements of the organisation and codes of practice
Technology	<ul style="list-style-type: none">• Identifies functions, features and uses of digital systems and uses these to input, access, filter, extract data and present information in a suitable format

FNSSMS411 Process self-managed superannuation contributions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to receive and process superannuation contributions and rollovers into a self-managed superannuation fund (SMSF), ensuring that correct amounts are allocated to accounts and rectifying identified errors.

The unit applies to those who, within their level of authority, apply specialised organisational knowledge and follow defined procedures to administer and process financial information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Self-managed superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Receive contributions and rollovers, and process	1.1 Establish new accounts as required and according to organisational policies and procedures, and check for eligibility 1.2 Obtain and review contributions and rollovers according to organisational policies and procedures 1.3 Identify contribution and rollover sources and types 1.4 Identify potential errors in processing contributions and rollovers 1.5 Process contributions and rollovers where there are no errors, according to fund guidelines
2. Manage errors and non-completions	2.1 Review and return documentation according to organisational policies and procedures, and seek required information where errors in contributions and documentation have been identified

ELEMENT	PERFORMANCE CRITERIA
	2.2 Action incomplete and incorrect contributions and rollovers according to fund guidelines 2.3 Obtain required information, reconcile and process incomplete and incorrect contributions and rollovers
3. Allocate contributions and rollovers according to type	3.1 Prepare reconciled contributions and rollovers for allocation into accounts according to organisational policies and procedures 3.2 Allocate contributions and rollovers according to member requirements and organisational policies and procedures 3.3 Complete documentation and processing according to fund requirements and organisational policies and procedures
4. Issue receipt or confirmation for contributions and rollovers according to fund guidelines	4.1 Generate receipt and confirmation for contributions and rollovers according to fund guidelines 4.2 Check receipt and confirmation against member records according to fund guidelines 4.3 Send receipt and confirmation to member according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Extracts, interprets and comprehends mathematical information embedded in texts and performs basic calculations electronically
Oral communication	<ul style="list-style-type: none"> Understands oral information that is technical and provides key information relevant to an exchange
Reading	<ul style="list-style-type: none"> Interprets documentation from a variety of sources in familiar texts of some complexity
Writing	<ul style="list-style-type: none"> Records and consolidates information that is technical and limited in scope and style
Planning and organising	<ul style="list-style-type: none"> Plans, organises and implements tasks efficiently and effectively Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations
Self-management	<ul style="list-style-type: none"> Takes personal responsibility for following organisational procedures and fund requirements
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks and to find information

Unit Mapping Information

Supersedes and is equivalent to FNSSMS401 Process self-managed superannuation contribution.

Assessment Requirements for FNSSMS411 Process self-managed superannuation contributions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- process superannuation contributions into self-managed superannuation funds for at least three clients
- process rollovers into self-managed superannuation funds for at least three clients.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements relating to processing self-managed superannuation contributions and rollovers, including:
 - privacy legislation and data protection laws, and their application
 - preservation rules before and after July 1999
- fund policy, investment objectives and guidelines
- organisational policies and procedures relating to:
 - establishing new accounts
 - obtaining contributions and rollovers, including via post, person, telephone and electronic format
 - reviewing, completing and processing member documentation
 - calculating and processing benefits
 - communicating processing information to members
- types and sources of superannuation contributions and rollovers
- documentation requirements of superannuation contributions and rollovers
- consequences of incorrect allocation of member contributions
- key components of fund requirements relevant to processing contributions
- contributions caps, in the context of checking that contributions are within legal limits
- methods for identifying potential errors in processing contributions and rollovers

- components of a superannuation rollover
- factors that may require further investigation in regard to superannuation contributions.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational policies and procedures
- documentation relating to members' superannuation contributions and rollovers
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSSMS511 Invest self-managed superannuation fund assets

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to support an authorised representative in assisting a trustee to devise investment objectives and strategies, invest self-managed superannuation fund assets, select investment services, and ensure compliance and monitoring. Importantly, this unit does not involve financial dealing or providing specific financial product advice.

The unit applies to those who use specialised knowledge and systematic approaches to prepare and analyse detailed information that supports investment and compliance activities.

No licensing, regulatory requirements, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Self-managed superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assist authorised representative to establish objectives and strategy	1.1 Identify trustee's investment objectives according to available information provided by authorised representative 1.2 Develop portfolio benchmarks from investment objectives 1.3 Determine asset allocation and mix so that portfolio benchmarks and investment objectives can be met 1.4 Compare asset allocation to relevant strategic variables 1.5 Develop and document investment strategy according to legislative, organisational and trust deed investment requirements
2. Assist authorised	2.1 Establish performance criteria for service providers according to

ELEMENT	PERFORMANCE CRITERIA
representative in selecting investment service providers	<p>organisational policies and procedures</p> <p>2.2 Determine shortlist of preferred service providers for clients according to investment objectives</p> <p>2.3 Review and appoint service providers according to established performance criteria</p> <p>2.4 Communicate and explain investment objectives and strategy to investment service providers so they may invest assets into products according to legislative and trust deed requirements</p>
3. Assist in monitoring investment service provider activities	<p>3.1 Gather and interpret reports provided by relevant service providers according to legislative, organisational and trust deed requirements</p> <p>3.2 Compare results against documented investment objectives and strategy</p> <p>3.3 Ensure reallocation of assets according to results achieved and investment strategy</p> <p>3.4 Provide member communication and disclosure requirements to client</p> <p>3.5 Manage fund liquidity requirements considering current and future liabilities</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Seeks information using active listening and questioning techniques to confirm understanding Interprets and analyses mathematical information from complex reports, and documents and performs basic calculations relating to self-managed superannuation funds
Oral communication	<ul style="list-style-type: none"> Provides advice to required personnel using language and register appropriate to audience and purpose
Reading	<ul style="list-style-type: none"> Selects, synthesises and critically evaluates evidence from a variety of sources containing complex and embedded information
Writing	<ul style="list-style-type: none"> Records and consolidates related information precisely and concisely
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for following policies, procedures and legislative requirements, ensuring that compliance obligations are fulfilled, and that own knowledge is up-to-date

SKILL	DESCRIPTION
Technology	<ul style="list-style-type: none">• Uses technology to communicate with required persons

Assessment Requirements for FNSSMS512 Manage changes to memberships in self-managed superannuation funds

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage membership changes for at least three different self-managed superannuation funds, including where:
 - a member exits the fund from death
 - a person commences new membership in a fund
 - a member converts from an accumulation to a retirement income account.

In the course of the above, the candidate must:

- confirm trustee instructions using knowledge of trust deed requirements
- identify and process outstanding transactions
- apply basic accounting principles in managing funds
- manage the distribution of fund assets
- comply with legislative and organisational reporting requirements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and organisational requirements for managing changes to a self-managed superannuation fund structure, including for:
 - distributing fund assets
 - fund reporting
- organisational policies and procedures relating to:
 - identifying and reviewing trustee instructions
 - communicating information to trustees and members
 - communicating with external parties regarding outstanding transactions

- collecting assets from investment service providers
- providing member reports
- completing membership change documentation
- basic accounting principles relating to managing and winding up self-managed superannuation funds
- types and sources of specialist advice relating to managing changes to memberships in a self-managed superannuation fund, and organisational procedures for accessing that advice
- conventions and protocols for liaising with or sharing information with trustees
- key components of business sales agreements
- trust deed requirements for managing trust funds, including those relating to identifying outstanding transactions.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational policies and procedures required to manage changes to membership in self-managed superannuation funds
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSSMS513 Manage administration activities of self-managed superannuation funds

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage administration activities of a superannuation fund for at least one member, including:
 - preparing an annual report that complies with legislative and organisational reporting requirements
 - processing payments into and out of the fund following legislative and organisational guidelines and basic accounting practices
 - identifying and liaising with other service providers as required to manage administration activities and settle disputes
 - producing a member statement.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative record-keeping and reporting requirements relating to managing the administration activities of self-managed superannuation funds, including those relating to:
 - trustee reporting
 - member reporting
 - insurance reporting
 - Australian Taxation Office (ATO) annual reporting requirements
 - trust deeds
- key components of fund policies, investment objectives and guidelines
- organisational policies and procedures relating to managing administration activities of self-managed superannuation funds, including for:
 - communicating with external parties

- communicating with trustees and members
- dispute resolution
- external complaint handling
- annual review process
- factors that may require further investigation
- issuing and storing copies of documentation
- content typically included in reporting documentation for self-managed superannuation funds including superannuation rollover and transfers
- key components of member documentation, including pensions, lump sums, investment strategies, borrowing, insurance strategies and setting up reserves in a fund
- consequences of incorrect allocation of member contributions
- differences in preservation rules before and after July 1999
- superannuation contributions and contributions caps relating to managing administration of self-managed superannuation funds
- procedures for reconciling and processing contributions.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational policies and procedures relating to managing administration activities of self-managed superannuation funds
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSSMS514 Meet self-managed superannuation fund compliance requirements

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- prepare documentation for at least three different funds to enable them to meet self-managed superannuation fund compliance requirements, and develop an annual tax return that meets regulatory requirements for at least one of the funds.

In the course of above, the candidate must:

- prepare information according to self-managed superannuation fund compliance requirements
- integrate new compliance requirements into work practices
- provide supporting documentation that confirms compliance requirements are met.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative compliance and reporting requirements for a self-managed superannuation fund under superannuation, taxation and corporations laws, including:
 - key features, compliance and reporting requirements of the Superannuation Industry (Supervision) [SIS] Act
 - critical aspects of taxation return requirements
- relationship between actuary, auditor and trustee under the SIS Act and taxation legislation
- regulatory guidelines relating to self-managed superannuation fund compliance reporting, including those of the Australian Taxation Office and Australian Securities and Investment Commission
- organisational procedures and guidelines for:
 - providing information for annual review and compliance reports

- preparing statutory reports and taxation returns
- communicating with external auditors, fund members and other required external parties
- obtaining information on financial transactions, contributions and benefits
- filing documents and records
- timeframe requirements for compliance reports and lodgement of statutory reports
- consequences of non-compliance with reporting requirements
- industry information to identify existing and recent changes to compliance requirements
- role and legal implications of trust deeds and contracts in the context of self-managed superannuation funds
- role, rights and responsibilities of trustees in compliance
- relationship between trustees' duties, rights, powers, liabilities and remedies.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- self-managed superannuation fund financial records
- organisational policies and procedures
- organisational tools, equipment, materials and industry software packages.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to support authorised representatives in assisting self-managed superannuation fund trustees to establish the scope and required performance criteria for an outsourced service. It involves selecting and engaging outsourced suppliers and monitoring the performance of the outsourced services provided. It does not require expertise in the functions of the outsourced service providers.

The unit applies to those who use research and organisational skills to plan and monitor outsourced or specialist services.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Self-managed superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assist in establishing scope for outsourced services	1.1 Determine extent to which selected activities are currently being conducted by trustees or by outsourced services 1.2 Identify activities within fund that can or must be outsourced, and determine scope of prospective outsourced services 1.3 Identify legislative requirements relating to prospective outsourced services 1.4 Make recommendations on scope of outsourced services according to fund requirements

ELEMENT	PERFORMANCE CRITERIA
	1.5 Discuss recommendations and prepare engagement criteria for authorised representative
2. Assist in establishing performance criteria for outsourced services	2.1 Define and document scope of expertise required from outsourced services 2.2 Establish and document performance standards for provision of monitoring service standards and performance outcomes of outsourced services 2.3 Establish and document monitoring and measuring processes for performance outcomes of outsourced services 2.4 Establish and document reporting processes of outsourced services 2.5 Prepare briefing documents and supply to outsourced services
3. Assist in selecting and engaging outsourced suppliers	3.1 Support authorised representative in assisting trustee to select suppliers of outsourced services against established criteria 3.2 Engage outsourced suppliers according to operational guidelines 3.3 Brief outsourced suppliers on required service performance standards and ensure clarity of requirements 3.4 Obtain trustee confirmation of outsourced services in place and working implications from authorised representative
4. Assist in monitoring performance of outsourced services	4.1 Review and evaluate performance outcomes of outsourced services against performance standards 4.2 Establish further review periods to re-evaluate as necessary 4.3 Negotiate and document required changes in services with authorised representative 4.4 Document and assist authorised representative to communicate supplier performance to trustee according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Interprets and analyses mathematical information from complex reports and documents, and performs basic calculations related to self-managed superannuation fund data
Oral communication	<ul style="list-style-type: none"> Shares information using language and register appropriate to audience and purpose

SKILL	DESCRIPTION
	<ul style="list-style-type: none"> Seeks information using active listening and questioning techniques to confirm understanding
Reading	<ul style="list-style-type: none"> Interprets complex and detailed documentation from a variety of sources
Writing	<ul style="list-style-type: none"> Records and consolidates related information and constructs precise, concise reports for authorised representatives
Planning and organising	<ul style="list-style-type: none"> Accepts responsibility for planning and sequencing complex tasks and workload, negotiating key aspects with others Monitors progress of plans and schedules, and reviews and changes them to meet new demands and priorities
Problem solving	<ul style="list-style-type: none"> Applies systematic and analytical processes for complex and non-routine situations to decide on changes to outsourcing requirements
Self-management	<ul style="list-style-type: none"> Modifies or develops organisational policies, procedures and standards to comply with legislative requirements and organisational goals
Teamwork	<ul style="list-style-type: none"> Selects and uses appropriate conventions and protocols when liaising with authorised representatives, suppliers and colleagues Uses a range of strategies to negotiate agreed outcomes with others
Technology	<ul style="list-style-type: none"> Uses the main features and functions of digital tools to complete work tasks and to access information

Unit Mapping Information

Supersedes and is equivalent to FNSSMS505 Support trustee in the selection and performance monitoring of outsourced services.

Assessment Requirements for FNSSMS515 Support trustees in selecting and monitoring performance of outsourced services

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- assist authorised representative(s) to support at least three different trustees in selecting an outsourced service and in monitoring its performance.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements and industry codes of practice relating to engaging with specialist outsourced services, including compliance and reporting requirements for a self-managed superannuation fund under superannuation, taxation and corporations' laws including:
 - Superannuation Industry (Supervision) (SIS) Act
- organisational policies and procedures relating to selecting and monitoring outsourced services, including communication, documentation and procedure requirements
- scope, role and responsibilities of outsourced service providers
- performance management procedures relating to outsourced service providers
- relationship between actuary, auditor and trustee.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational policies and procedures
- industry software packages.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSSUP311 Process superannuation fund payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to process superannuation fund payments in accordance with organisational policies and procedures.

The unit applies to those who, within their level of responsibility, apply specialised organisational knowledge and follow defined procedures to administer and process financial information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Review documentation relating to superannuation fund payment request	1.1 Identify payment request and trustee instructions 1.2 Obtain and review evidence from required stakeholders relating to request according to organisational procedures
2. Assess validity of superannuation fund payment request and evaluate provided evidence	2.1 Determine validity of request for payment according to evidence provided from relevant parties 2.2 Review request and determine its eligibility against fund conditions of entitlement, terms of the trust, payment criteria, and legislative and organisational requirements 2.3 Obtain additional opinion on validity of request from required stakeholders where required

ELEMENT	PERFORMANCE CRITERIA
	<p>2.4 Refer unusual requests or those not complying with relevant guidelines or authorities according to organisational procedures</p> <p>2.5 Complete required documentation and distribute according to legislative and organisational requirements, and trustee instructions</p>
3. Process superannuation fund payments	<p>3.1 Determine level of entitlement based on accurate and up-to-date information and own authority levels, and according to organisational policies and procedures</p> <p>3.2 Advise relevant parties of entitlement decision according to trustee instructions, legislative requirements and organisational policies and procedures</p>
4. Finalise superannuation fund payment transaction	<p>4.1 Identify and distribute required documentation to member, beneficiary or employer, as applicable and according to organisational policies and procedures</p> <p>4.2 Check payment details for compliance with legislative and organisational guidelines according to level of own delegated authority</p> <p>4.3 Make payment and complete supporting documentation according to legislative requirements and organisational policies and procedures</p> <p>4.4 Update systems and file support documentation according to organisational policies and procedures</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs basic mathematical calculations to analyse financial data and make payments
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges, using active listening and questioning techniques to convey and clarify information with a range of people Uses a range of strategies and reads verbal and non-verbal signals to establish a sense of connection and build rapport with internal and external stakeholders
Reading	<ul style="list-style-type: none"> Interprets, consolidates and matches information against established criteria and requirements
Writing	<ul style="list-style-type: none"> Records and completes organisational documentation using clear language and correct concepts and terminology

SKILL	DESCRIPTION
Problem solving	<ul style="list-style-type: none"> Accepts responsibility for addressing predictable problems and initiates standard procedures in response, applying problem-solving processes in determining a solution
Self-management	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficient and effective outcomes Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations
Teamwork	<ul style="list-style-type: none"> Cooperates with others and contributes to work practices where joint outcomes are expected and deadlines are to be met
Technology	<ul style="list-style-type: none"> Uses digitally based technologies to access and update information to achieve required outcomes

Unit Mapping Information

Supersedes and is equivalent to FNSSUP301 Process superannuation fund payments.

Assessment Requirements for FNSSUP311 Process superannuation fund payments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- process superannuation fund payments for at least three different clients.

In the course of the above, the candidate must:

- follow delegation of authority and assess validity of requests and sufficiency and suitability of evidence provided in support of payment
- comply with legislative requirements, organisational policies and procedures, trustee instructions, and fund conditions of entitlement in processing and recording payments and advising of entitlement decisions.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements relating to the processing of superannuation fund payments
- organisational policies and procedures relating to processing superannuation fund payments, including:
 - obtaining and reviewing evidence
 - determining eligibility of superannuation payment requests
 - referring unusual or non-compliant payment requests to authorities
 - identifying levels of entitlement to apply to requests
 - communicating with trustees and members
 - communicating with external stakeholders
 - making superannuation fund payments
 - completing and filing documentation
 - updating organisational systems

- key components of trustee instructions and terms of the associated trusts
- key features and functions of computerised superannuation systems and procedures
- terms and conditions relating to key products involved in processing superannuation fund payments
- fund conditions of entitlement, including conditions under which investment and insurance payments can be made.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- documentation and information required to process superannuation fund payments, including organisational policies and procedures
- organisational equipment, technology, software and consumables.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSSUP312 Establish, maintain and process superannuation records

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to establish member and employer superannuation records in an information management system, as well as to ensure records are maintained and changes are processed as required.

The unit applies to those who, within their level of authority, apply specialised organisational knowledge and follow defined procedures to process and update information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Set up new member and employer records	1.1 Collect information required to set up new member or employer records according to organisational policies and procedures 1.2 Check information, confirm it is complete, identify errors and make changes within limits of own responsibility 1.3 Enter data into organisational information system according to organisational procedures 1.4 Activate new member or employer record according to regulatory requirements and organisational policies and procedures 1.5 Send confirmation of new record to required stakeholders, according to regulatory requirements and organisational policies

ELEMENT	PERFORMANCE CRITERIA
	and procedures
2. Maintain up-to-date records	2.1 Confirm all transactions are reflected in records 2.2 Identify and rectify inconsistencies within limits of own responsibility and according to organisational policies and procedures 2.3 Update records as new information is received 2.4 Add enquiries and communications to records 2.5 Send confirmation of updated records to required stakeholders, according to organisational procedures
3. Identify charges and insurance premiums and produce statements as required	3.1 Identify process of determining interest entitlements 3.2 Identify administrative charges and insurance premiums on records 3.3 Identify elements of member benefit statements and calculation processes 3.4 Produce statements as required and according to organisational procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs basic mathematical calculations to analyse financial statements and numerical data
Reading	<ul style="list-style-type: none"> Interprets, consolidates and checks accuracy of information and data
Writing	<ul style="list-style-type: none"> Records data and prepares correspondence using clear language, and correct spelling and terminology
Planning and organising	<ul style="list-style-type: none"> Organises, plans and sequences tasks and monitors own progress Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations
Problem solving	<ul style="list-style-type: none"> Addresses a variety of predictable problems and initiates standard procedures in response
Self-management	<ul style="list-style-type: none"> Accepts responsibility and ownership for the task, its completion, and for following organisational policies and procedures
Technology	<ul style="list-style-type: none"> Uses digitally based technologies to enter, access and update information to achieve required outcomes

Unit Mapping Information

No equivalent unit. Supersedes and is not equivalent to FNSSUP302 Establish, maintain and process superannuation records.

FNSSUP314 Process superannuation rollover benefits

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to receive and process superannuation rollover benefits. This involves identification of the types of rollover benefits and the identification and management of errors relating to applications and processing of payments, and compliance with quality assurance procedures.

The unit applies to those who, within their level of authority, apply specialised organisational knowledge and follow defined procedures to process financial information and maintain quality standards.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to process applications for superannuation rollover benefit payments	1.1 Receive application for benefit payment according to legislative and regulatory requirements and organisational policies and procedures 1.2 Check that application and accompanying documents are complete and correct 1.3 Take action on incomplete or incorrect applications according to organisational policies and procedures and within limits of own responsibility 1.4 Source additional information from members and employers as

ELEMENT	PERFORMANCE CRITERIA
	required
2. Process applications for superannuation rollover benefit payments	2.1 Prepare application for processing when required information is obtained 2.2 Calculate benefit to include additional fees, charges and other factors according to organisational policies and procedures 2.3 Check results of calculation and accuracy of data 2.4 Forward processed application to required personnel for checking 2.5 Correct identified irregularities and communicate to required personnel
3. Finalise process for superannuation rollover benefit payments	3.1 Action remaining application processes according to conditions identified in organisational policies and procedures and quality assurance requirements 3.2 Prepare benefit payment documentation and funds for submission to members, Australian Taxation Office (ATO) and rollover funds, as required 3.3 Store documentation relating to processed benefit and maintain member documentation according to organisational policies and procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to verify financial data
Reading	<ul style="list-style-type: none"> Interprets, consolidates and checks information and data against established criteria and requirements
Writing	<ul style="list-style-type: none"> Records and completes organisational documentation and correspondence using clear language, and correct spelling, grammar and terminology
Planning and organising	<ul style="list-style-type: none"> Plans and implements routine tasks and workload, making limited decisions on sequencing, timing and collaboration, and seeks assistance in setting priorities
Problem solving	<ul style="list-style-type: none"> Makes low-impact decisions in familiar situations based on a range of predefined or routine solutions, and evaluates effectiveness of the outcome Responds to predictable routine problems by implementing standard logical solutions

SKILL	DESCRIPTION
Self-management	<ul style="list-style-type: none">• Understands rights and responsibilities, and complies with legal and regulatory requirements

Assessment Requirements for FNSSUP315 Implement superannuation fund member investment instructions

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- record, confirm and implement member investment instructions for at least three different superannuation fund members.

In the course of the above, the candidate must:

- prepare a report and other required documentation relating to the instructions implemented for each of the above members.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative requirements relating to implementing superannuation fund member investment instructions
- organisational policies, procedures, guidelines and authorities relating to implementing superannuation fund member investment instructions, including for:
 - recording instructions
 - preparing required reports
- terms of the trust deed relating to member investment instructions
- methods to receive member investment instructions, including via authorised forms and verbal authority
- procedures for sourcing information about superannuation product terms and conditions
- key components of superannuation fund structures
- investment and finance terminology relating to superannuation funds
- computerised superannuation systems and procedures.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- financial services product information
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSSUP316 Terminate superannuation plans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to terminate a superannuation plan. It involves confirming trustee instructions, processing superannuation termination transactions, and documenting those transactions.

The unit applies to those who, within their level of authority, apply specialised organisational and industry knowledge and follow defined procedures to process financial information.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Confirm trustee instructions	1.1 Document trustee instructions according to organisational procedures 1.2 Clarify instructions with trustees where required and confirm compliance requirements are met 1.3 Obtain and record termination conditions according to organisational procedures 1.4 Confirm termination with member according to organisational policies and procedures 1.5 Obtain member authority to transfer member assets
2. Process outstanding transactions	2.1 Process benefit payments due before termination date according to organisational procedures

ELEMENT	PERFORMANCE CRITERIA
	2.2 Process final contributions and outstanding charges and credits to the fund and confirm that all financial obligations are met
3. Forward information and payments to required parties	3.1 Obtain actuarial calculations where required and determine member benefits 3.2 Communicate member information to new fund administrator within negotiated timeframes and according to organisational procedures 3.3 Provide termination payments to trustee or member when due, and according to arrangement with member and termination provisions 3.4 Obtain valid discharge of all future liability according to organisational procedures
4. Complete and action fund documentation	4.1 Document all transactions in member records according to organisational policies and procedures 4.2 Prepare statements and issue to member according to organisational procedures 4.3 Balance fund accounts according to financial requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Performs mathematical calculations to verify numerical and financial data, and reconcile accounts
Oral communication	<ul style="list-style-type: none"> Participates in verbal exchanges, using active listening and questioning techniques to convey, clarify and share information with a range of people
Reading	<ul style="list-style-type: none"> Analyses and consolidates a range of information and data against defined criteria and requirements
Writing	<ul style="list-style-type: none"> Records and completes organisational documentation and correspondence using clear language and correct concepts and terminology
Planning and organising	<ul style="list-style-type: none"> Plans and implements routine tasks and workload, making limited decisions on sequencing, timing and collaboration, and seeks assistance in setting priorities
Problem solving	<ul style="list-style-type: none"> Responds to predictable routine problems and implements standard logical solutions Makes low-impact decisions in familiar situations based on a range of

SKILL	DESCRIPTION
	predefined or routine solutions
Self-management	<ul style="list-style-type: none">• Complies with explicit policies and procedures and implements expectations of policies and procedures• Understands rights and responsibilities, and complies with legal and regulatory requirements
Technology	<ul style="list-style-type: none">• Uses digitally based technologies to enter, access or update information to achieve required outcomes

Unit Mapping Information

Supersedes and is equivalent to FNSSUP306 Terminate superannuation plans.

Assessment Requirements for FNSSUP316 Terminate superannuation plans

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- terminate superannuation plans in response to the instructions of at least three different trustees.

In the course of the above, the candidate must:

- forward required information to payment parties involved
- complete fund documentation.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- industry and legislative requirements relating to terminating superannuation plans, including:
 - trust requirements
 - fund policy and procedures
- organisational policies and procedures relating to terminating superannuation plans, including:
 - procedures for sourcing information about product terms and conditions
 - methods for balancing fund accounts
- basic understanding of actuarial calculations
- processes and requirements to determine member benefits
- taxation requirements and procedures relating to terminating superannuation plans, and required document formats.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- financial services product information
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSSUP419 Provide retirement income stream information to superannuation clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- provide specialist retirement income stream information to at least three different clients.

In the course of the above, the candidate must:

- confirm client's understanding when providing above information
- provide general advice that complies with legislative requirements, organisational policies and procedures, and industry regulations.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements relating to retirement income stream, including:
 - those relating to the provision of factual superannuation information or general advice
 - product-specific requirements
 - privacy and confidentiality requirements
- organisational policies and procedures relating to the provision of general advice on retirement income streams and the communication of that advice
- retirement income stream products available in the organisation and more generally in the industry
- process and documentation requirements for issuance of income stream products
- marketing and product disclosure documents in providing advice to clients
- types of information typically sought from client groups
- calculating process of pension payments, including:
 - impact of social security
 - Centrelink

- Department of Veterans' Affairs (DVA) benefits
- basic investment concepts, including:
 - risk and return
 - time horizons
 - asset classes
- difference between general advice and personal advice, and significance of this difference in relation to providing advice to clients about post-retirement income stream products
- differences between reversionary pensions payable from account based and non-account based income streams
- key components of defined benefit non-account based income stream with and without a reversionary pension
- key components of an income stream with a guarantee period.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- financial services product information
- organisational policies and procedures, including for handling confidential client information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessment Requirements for FNSSUP420 Establish and administer retirement income streams

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- establish and administer retirement income streams for at least three different clients.

In the course of the above, the candidate must:

- access member contract guidelines and prepare income benefit documentation
- calculate tax payable on an income stream paid to a client, taking into account client's age
- process documentation and commutations, including taxation payable
- comply with legislative and regulatory requirements and organisational policies and procedures when determining compliance of retirement income streams.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- legislative and regulatory requirements relating to:
 - establishing retirement income streams
 - key features of Australian privacy principles
 - data protection
- organisational policies, procedures and guidelines relating to establishing and administering retirement income streams, including the steps in:
 - setting up an income stream and the documents required, including the verification process
 - maintaining an income stream and the documents required, including proof of life for non-account based income streams
- types of income streams earned by clients, including:
 - those included in pay as you go (PAYG) documentation

- reversionary pensions
- retirement income stream products of the organisation
- ethical considerations in handling confidential and private client information
- ways and processes by which a person can purchase a retirement pension or annuity
- retirement pension or annuity options available to clients, including hybrid fund options
- position and implications for beneficiaries in establishing a retirement income stream, including:
 - relevance to reversionary pensions
 - account-based income streams
 - death benefit nominations
 - estate planning
- key features and benefits of retirement income stream products
- documentation required to establish retirement income streams, including certified copies of appropriate identification
- requirements for accessing an income stream
- methods used to perform calculations relating to retirement income streams
- consequences of incorrect processing of income stream payments, incorrect maintenance of the income stream, and of other breaches
- key features of policy documents for investment clients, including:
 - confirmations
 - investor certificates
 - details regarding cooling off periods.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- financial services product information
- client documentation required to establish and administer retirement income streams, including PAYG summary documentation with income stream details
- publicly available information required to establish and administer retirement income streams, including the latest consumer price index (CPI) information available
- organisational policies and procedures relevant to establishing and administering retirement income streams.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSSUP421 Process superannuation benefits and insurance claims under special conditions of release

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to receive and ensure correct allocation of funds regarding superannuation benefit payment and insurance claims. Conditions would include claims for death, total and permanent disability (TPD), income protection, terminal illness payment, situations of severe financial hardship, or situations warranting early release on compassionate grounds.

The unit applies to those who use specialised industry knowledge and analytical skills to evaluate and process complex information and data following defined procedures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>

ELEMENT	PERFORMANCE CRITERIA
1. Receive applications for benefit payment and insurance claims	1.1 Identify benefit types to determine relevant steps for processing benefit 1.2 Acknowledge receipt of application for superannuation benefit payment and insurance claim 1.3 Document receipt according to organisational policies and procedures 1.4 Check application, claim and organisational documentation and confirm information is complete and correct 1.5 Check application for eligibility 1.6 Verify signature on application with original documents
2. Identify and manage application and claim errors	2.1 Identify errors and incomplete application and/or claim 2.2 Action incomplete or incorrect application and/or claim according to organisational requirements 2.3 Prepare application and/or claim for processing when required information is obtained
3. Assess and process applications for benefits and insurance claims	3.1 Check application against conditions identified in trust deed and organisational policies and procedures 3.2 Source additional information as required from relevant personnel 3.3 Check trust deed for defined beneficiaries and communicate with relevant stakeholders as required 3.4 Calculate benefit to include additional fees, charges and other factors, using relevant digital systems 3.5 Check information, including taxation and calculation results, for integrity 3.6 Prepare rollover documentation for provision to members, Australian Taxation Office (ATO) and rollover funds 3.7 Process application according to conditions identified in trust deed, relevant legislation and organisational policies and procedures 3.8 Pay benefit according to organisational policies and procedures
4. Provide member communications	4.1 Provide statements and claim correspondence to member according to organisational guidelines and compliance requirements 4.2 Document processes and outcomes of application and/or claim in member file 4.3 Provide procedure for complaints to member as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none">Performs mathematical calculations to analyse complex financial data and requirements, and to process payments and calculate taxation
Oral communication	<ul style="list-style-type: none">Participates in verbal exchanges, using active listening and questioning techniques to share, convey and clarify information with a range of people
Reading	<ul style="list-style-type: none">Analyses and consolidates complex information and data from a range of sources against defined criteria and eligibility requirements
Writing	<ul style="list-style-type: none">Records information and data using correct spelling and terminologyPrepares organisational documentation and correspondence using language and concepts appropriate to audience and purpose
Planning and organising	<ul style="list-style-type: none">Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situationsTakes responsibility for planning, sequencing and prioritising tasks and own workload for efficiency and effective outcome
Self-management	<ul style="list-style-type: none">Accepts responsibility for addressing less predictable problems and initiates standard procedures in response, applying problem-solving processes in determining a solution
Teamwork	<ul style="list-style-type: none">Cooperates with others and contributes to work practices where joint outcomes are expected and deadlines are to be metUses a range of strategies and reads verbal and non-verbal signals to establish a sense of connection and build rapport with internal and external stakeholders
Technology	<ul style="list-style-type: none">Uses digitally based technologies to enter, access or update information to achieve required outcomes

Unit Mapping Information

Supersedes and is equivalent to FNSSUP401 Process complex superannuation benefit or insurance claim.

Assessment Requirements for FNSSUP421 Process superannuation benefits and insurance claims under special conditions of release

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- process at least two superannuation benefit claims and/or insurance claims made under special conditions of release.

In the course of the above, the candidate must:

- follow conditions contained in the trust deed and organisational requirements
- manage applications and claim errors
- calculate payments, including taxation requirements as required.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- taxation requirements for:
 - death
 - deductions for payments
 - financial hardship payment
 - income protection
 - terminal illness benefit
 - total and permanent disablement benefits
- organisational policies, procedures and objectives relating to processing complex superannuation benefit and insurance claims
- differences between payment types
- documentation requirements for processing death and disability payments

- procedures and information requirements to assess, calculate and process benefits for lump sum payments, death claims and disablement claims
- conditions applying to trust deeds and legal implications
- steps and procedures for:
 - assessing claims and calculating and processing payments
 - monitoring pension and annuity payments.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- organisational equipment, technology, software and consumables
- organisational policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

FNSSUP422 Assist organisation to meet regulatory superannuation compliance requirements

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to assist an organisation to meet compliance requirements relevant to superannuation. It involves identifying and assisting the organisation to comply with the legislative requirements of the Australian Financial Complaints Authority (AFCA), Australian Prudential Regulation Authority (APRA), Australian Securities and Investments Commission (ASIC), Australian Taxation Office (ATO), and Australian Transaction Reports and Analysis Centre (AUSTRAC).

The unit applies to those who use specialised knowledge to evaluate complex information and compliance requirements to implement quality assurance practices.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements, including those of APRA, ASIC, ATO and AUSTRAC. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

Unit Sector

Superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify compliance requirements	1.1 Identify roles of compliance regulatory bodies 1.2 Identify legislation and regulations determining compliance 1.3 Identify reporting requirements of relevant legislation
2. Facilitate compliance audits	2.1 Provide information for annual review and compliance reports within required timeframes to compliance auditors

ELEMENT	PERFORMANCE CRITERIA
	2.2 Provide relevant stakeholders with required information 2.3 Collate and prepare statutory reports required by regulatory bodies 2.4 Store documents and records according to regulatory requirements and organisational policies and procedures
3. Assist in confirming compliance requirements are met	3.1 Review documentation and confirm superannuation compliance requirements are met 3.2 Review and confirm that organisational procedures and guidelines regarding superannuation compliance requirements are followed 3.3 Review and record member communications and confirm that compliance requirements are met 3.4 Communicate implications of compliance and non-compliance to member 3.5 Maintain member documentation according to organisational procedures 3.6 Report irregularities within required timeframes to required stakeholders according to legislative and organisational requirements 3.7 Integrate new compliance requirements into work practices as required
4. Prepare information for statutory reports	4.1 Identify organisational guidelines for preparing information for statutory reports 4.2 Identify requirements for taxation returns and statutory reports 4.3 Identify compliance requirements for required regulatory bodies 4.4 Prepare information according to regulatory guidelines and organisational procedures 4.5 Forward information to relevant internal and external parties
5. Implement quality assurance practices	5.1 Identify organisational quality assurance practices and make recommendations for improvement where required 5.2 Implement system and process checks, and identify irregularities and potential fraudulent activity 5.3 Identify best practice standards and integrate new compliance requirements into work practices as required 5.4 Undertake training and professional development to maintain currency and develop own skills and knowledge

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	<ul style="list-style-type: none"> Implements formal approaches to maintain currency of professional skills and knowledge
Numeracy	<ul style="list-style-type: none"> Performs calculations to analyse and evaluate financial information required for reports
Oral communication	<ul style="list-style-type: none"> Uses appropriate conventions and protocols, including active listening and questioning techniques, to explain and convey complex information to required parties in a range of contexts Shares information with others using language and concepts appropriate to audience and purpose
Reading	<ul style="list-style-type: none"> Researches, analyses and consolidates complex information from a range of sources to identify key requirements
Writing	<ul style="list-style-type: none"> Prepares documentation using language, concepts and terminology appropriate to audience and purpose to convey and clarify explicit information and requirements
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning, sequencing and prioritising tasks and own workload for efficient and effective outcomes Makes routine decisions and implements standard procedures for routine tasks, using formal decision-making processes for more complex and non-routine situations
Problem solving	<ul style="list-style-type: none"> Accepts responsibility for addressing less predictable problems and initiates standard procedures in response, applying problem-solving processes in determining a solution
Self-management	<ul style="list-style-type: none"> Accepts responsibility and ownership for tasks, and makes decisions on completion parameters and the need for coordination with others Identifies and acts on issues that contravene relevant policies, procedures and legal requirements
Technology	<ul style="list-style-type: none"> Uses digitally based technologies to enter, access or update information to achieve required outcomes

Unit Mapping Information

Supersedes and is equivalent to FNSSUP402 Assist in meeting superannuation compliance requirements.

FNSSUP423 Provide knowledge of retirement planning issues when dealing with superannuation clients

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to provide general advice to clients relating to a range of retirement planning issues.

The unit applies to those who need to keep up-to-date with current issues and requirements relating to retirement, including general financial issues and risk, income streams and annuities, the social security system, aged care facilities, and estate planning.

While this unit entails providing information to clients it does not cover the provision of personal advice and is intended as a general overview of post-retirement planning issues.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Superannuation

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify and analyse key financial issues relating to retirement	1.1 Research current demographic and financial trends impacting the ageing population 1.2 Analyse implications of adverse financial circumstances that can impact an individual approaching retirement 1.3 Review a range of post-retirement product types and their

ELEMENT	PERFORMANCE CRITERIA
	relationship to managing financial risk 1.4 Identify and analyse regulatory requirements relating to the provision of financial product advice 1.5 Identify sources of general information and guidance relating to financial issues and risks in retirement to provide to client
2. Outline the role and key features of the social security system impacting retirees	2.1 Gather information on aged benefits, payments and services and advise client to contact Centrelink to determine eligibility 2.2 Explain to client how account-based and non-account based income streams and annuities operate within superannuation and other private income streams 2.3 Describe to client the relationships and links between government aged pension and superannuation and other private income streams 2.4 Communicate to client the impacts government benefits can have on an individual's income in retirement
3. Provide general information on aged care options and significance of estate planning to clients, within regulatory limits	3.1 Obtain and provide aged care options to client and explain how sources of further information can be accessed according to regulatory requirements 3.2 Explain the nature and purpose of an estate plan to client 3.3 Outline general information on taxation issues and consequences for dependants of retirement income stream products 3.4 Outline legal requirements and issues relating to wills, powers of attorney, trusts and other estate planning matters to client 3.5 Explain general estate planning and death benefit options
