**Assessment Requirements for MEM07001
Perform operational maintenance of
machines/equipment**

Release: 1

Assessment Requirements for MEM07001 Perform operational maintenance of machines/equipment

Modification History

Release 1. Supersedes and is equivalent to MEM07001B Perform operational maintenance of machines/equipment

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria on at least two (2) occasions and include:

- following work instructions, standard operating procedures (SOPs) and safe work practices
- identifying necessary maintenance requirements on a range of machines and equipment used in a manufacturing environment
- carrying out programmed maintenance to meet specifications according to SOPs
- reporting/recording on necessary routine maintenance carried out according to SOPs.

Knowledge Evidence

Evidence required to demonstrate the required knowledge for this unit must be relevant to and satisfy the requirements of the elements and performance criteria and include knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- programmed operational maintenance and safety check procedures for the specified machine/equipment
- recording and reporting requirements for programmed operational maintenance.

Assessment Conditions

- Assessors must:
 - have vocational competency in performing operational maintenance of machines and equipment at least to the level being assessed with relevant industry knowledge and experience
 - satisfy the assessor requirements in the *Standards for Registered Training Organisations 2015* or its replacement and comply with the *National Vocational Education and Training Regulator Act 2011*, its replacement or equivalent legislation covering VET regulation in a non-referring state/territory as the case requires

- Where possible assessment must occur in operational workplace situations. Where this is not possible or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment that reflects realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
