grilles hand and power tools**

**Release: 1**

# Assessment Requirements for MSFBA2012 Use blinds, awnings, security screens and grilles hand and power tools

## Modification History

Release 1. Changes to code, application, elements, performance criteria. Foundation skills added. Range of conditions removed. Assessment requirements changed.

## Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit and demonstrated the ability to:

- choose appropriate hand tools for the manufacture or fitting of blinds, awnings, security screens or grilles and safely use them to workplace quality standards on at least 2 separate occasions, including at least 6 of the following tools:
  - caulking gun
  - clamp
  - eyelet punch
  - file
  - hammer
  - hand grinder
  - hex key
  - laser level or levelling device
  - metal press
  - pipe bender
  - pop rivet gun
  - rollers
  - combination saw or hacksaw,
  - scissors
  - screwdriver
  - spanner or socket set
  - square, measuring device or markers
  - stud finder
  - tap and die sets
  - tape measure
  - tensioning device
  - knives, shears or tin snips
- choose appropriate power tools for the manufacture or fitting of blinds, awnings, security screens or grilles and safely use them to workplace quality standards on at least 2 separate occasions, including at least 2 of the following tools:
  - grinder

- drill
- circular, jig, drop, or docking saw
- press-stud machine
- hot knife
- staple gun or hollow wall anchor gun
- planer
- complete operator maintenance on hand and power tools, including sharpening one blade or drill bit or changing the blade on a power saw or planer
- 

## Knowledge Evidence

There must be evidence the candidate has knowledge of:

- workplace health and safety procedures
- general use, maintenance and safety requirements, including personal protective equipment (PPE) for hand and power tools used to manufacture and install blinds, awnings, security screens and grilles
- workplace procedures for reporting and recording faulty hand and power tools
- appropriate tools and safety considerations for working with materials commonly encountered in this sector, including at least 2 of the following:
  - textiles (canvas, acrylic, PVC, clear PVC, mesh and binding)
  - metals (aluminium and steel in extruded or sheet form)
  - timber
  - synthetic, aluminium or steel screen material.

## Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
  - hand and power tools required for performance evidence
  - PPE
  - materials on which tools are used
  - ancillary holding equipment
  - power sources
  - workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
